BEFORE THE PUBLIC SERVICE COMMISION
OF THE STATE OF MISSOURI

In the Matter of Spire Missouri Inc.'s d/b/a Spire Request for Authority to Implement a General Rate Increase for Natural Gas Service Provided in the Company's Missouri Service Areas	)))))	**Case No. GR-2027-0075** Tracking No. JG-2027-0058

BOARDWALK CONTINUUM MARKETING, LLC'S MOTION TO INTERVENE

COMES NOW Boardwalk Continuum Marketing, LLC ("Boardwalk Continuum"), by and through undersigned counsel, and pursuant to 20 CSR 4240-2.075, respectfully files this Motion to Intervene.

In support of its Motion, and in order to facilitate affordability and flexibility for certain commercial and industrial customers, Boardwalk Continuum hereby requests to intervene in Case No. GR-2027-0075 to propose the following targeted changes to Spire's tariff:

1. Boardwalk Continuum, formerly known as Spire Marketing, is a provider of competitive natural gas commodity to commercial and industrial consumers behind Spire's citygates, inter alia.

2. Boardwalk Continuum does not take a position in the request for a general rate increase for natural gas service at this time.

3. Spire Rate Schedule Transportation Service A.3.: In respect of Missouri East, reduce the threshold for customers qualifying for rate schedule Transportation Service ("TS") from 300,000 Ccf per annum to 100,000 Ccf per annum and eliminate the minimum daily threshold. In respect of Missouri East and Missouri West, eliminate restrictions on customer service location aggregation in order to satisfy the respective thresholds to qualify for TS.

4. Spire Rate Schedule Transportation Service A.5.: if the threshold to qualify for rate schedule TS is reduced, Boardwalk Continuum proposes to increase the maximum number of customers that can join rate schedule TS in a year from 150 customers to 300 customers.

5. Spire to provide EDI communication for nomination submission and data extraction. This will improve efficiency and transparency for both the Retail Gas Marketer and customer.

6. Modify the Retail Gas Marketer Pool Cashout to use Platts Gas Daily during an operational flow order ("OFO")/Missouri West ("SPW"). Using Gas Daily pricing during an OFO/SPW period will allow customers to ensure appropriate volumes are delivered during critical periods without having a punitive time lag with the cashout pricing; and aligning the cashout pricing on critical days with imbalances will help to minimize under delivery at the Spire city gate.

7. The foregoing proposed changes support and promote (i) enhancements to improve current deficiencies in the TS rate class; (ii) fair opportunities across the East and West service territories for rate payers to participate in the competitive wholesale natural gas market for lower commodity pricing; (iii) cash-out pricing to properly reflect then market conditions rather than punitive pricing with no basis in market conditions.

WHEREFORE, Boardwalk Continuum respectfully requests to intervene in Case No. GR-2027-0075 for the foregoing reasons.

Respectfully submitted,

/s/ *Greg Staton*
