In the Matter of the Application of Laclede)
Gas Company to Change its Infrastructure) Case No. GO-2016-0333
System Replacement Surcharge in its)
Laclede Gas Service Territory)

JAN 5 2017

Missouri Public
Service Commission

**VERIFIED APPLICATION AND PETITION OF LACLEDE GAS COMPANY
TO CHANGE ITS INFRASTRUCTURE SYSTEM REPLACEMENT
SURCHARGE IN ITS LACLEDE GAS SERVICE TERRITORY**

COMES NOW Laclede Gas Company ("Laclede" or "Company"), pursuant to Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri (2009), and 4 CSR 240-2.060, 2.080, 3.265 and 4.020(2)(B) of the Rules of the Missouri Public Service Commission ("Commission"), and for its Verified Application and Petition to Change its Infrastructure System Replacement Surcharge in its Laclede Gas Service Territory (its "Application"), respectfully states as follows:

I. THE APPLICATION

1. Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri authorize eligible gas corporations to recover certain infrastructure replacement costs by establishing and updating an infrastructure system replacement surcharge ("ISRS"). Laclede's current ISRS was established effective April 12, 2014 by Commission Order in Case No. GO-2014-0212, covering ISRS costs incurred through February 28, 2014. At the time Laclede's ISRS was established, the Commission approved Laclede's initial notice, annual notice and the surcharge description on Laclede bills, all as required by 4 CSR 240-3.265(8) and (9). No change to these items is requested by Laclede or required by Commission rule as a result of this Application to change the ISRS.

Laclede Exhibit No. 4

Date 1-03-17 Reporter KF

File No. GO-2016-0332

GO-2016-0333

2. Since Laclede's ISRS was established, it has been changed four times.

The most recent change became effective on May 31, 2016, covering ISRS costs incurred

through February 29, 2016. Since February 29, the Company has continued to make

ISRS-eligible investments. Laclede submits this Application to change its ISRS to reflect

these additional investments covering the period from March 1, 2016 through August 31,

2016, with pro-forma ISRS costs updated through October 31, 2016.

A. THE APPLICANT

3. Laclede is a public utility and gas corporation incorporated under the laws of the State of Missouri, with its principal office located at 700 Market Street, St. Louis, Missouri 63101. A Certificate of Good Standing evidencing Laclede's standing to do business in Missouri was submitted in Case No. GF-2013-0085 and is incorporated by reference herein for all purposes. The information in such Certificate is current and correct.

4. In its Laclede Gas service territory, Laclede is engaged in the business of distributing and transporting natural gas to customers in the City of St. Louis and the Counties of St. Louis, St. Charles, Crawford, Jefferson, Franklin, Iron, St. Genevieve, St. Francois, Madison, and Butler in Eastern Missouri, as a gas corporation subject to the jurisdiction of the Commission.

5. Communications in regard to this Application should be sent to Laclede Gas Company at the addresses listed below.

Rick Zucker
Associate General Counsel
700 Market Street, 6th Floor
St. Louis, MO 63101
(314) 342-0533

Glenn.buck@spireenergy.com

6. Other than cases that have been docketed at the Commission, Laclede has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates within three years of the date of this application.

7. Laclede is current on its annual report and assessment fee obligations to the Commission; no such report or assessment fee is overdue.

B. THE ISRS REQUEST

8. With this Application, Laclede requests an adjustment to its ISRS rate schedule to reflect investments made in connection with ISRS-eligible infrastructure system replacements during the period March 1, 2016 through August 31, 2016. Consistent with the methodology used in several of Laclede's previous ISRS cases, and specifically approved by the Commission in both its November 12, 2015 Report and Order in Case No. 2015-0341, and its May 19, 2016 Report and Order in Case No. 2016-0196, this Application also includes pro forma ISRS costs updated through October 31, 2016.

9. In addition, as part of a compromise entered into several years ago regarding an ISRS issue, this Application reflects a reduction in Laclede's ISRS request in exchange for the parties' commitment to implement the Company's ISRS applications "as soon as reasonably possible..." The Application also reflects Laclede's request for

the full amount of its ISRS in the event that one or more parties fail to meet this commitment.

10. In accordance with the provisions of Sections 393.1009-1015 and 4 CSR 240-3.265, the revised ISRS rate schedule reflects the appropriate pre-tax ISRS revenues necessary to produce net operating income equal to Laclede's weighted cost of capital multiplied by the net original cost of the requested infrastructure replacements during this period that are eligible for inclusion in the ISRS, including recognition of accumulated deferred income taxes and accumulated depreciation associated with eligible infrastructure system replacements that are included in Laclede's currently effective ISRS. Laclede also seeks to recover all state, federal and local income or excise taxes applicable to such ISRS income, and to recover all other ISRS costs such as depreciation expense and property taxes due within 12 months of this filing.

C. ELIGIBILITY OF COSTS

11. The infrastructure system replacements for which Laclede seeks ISRS recognition are set forth on Appendix A, which is attached hereto and made a part hereof for all purposes. The infrastructure system replacements listed on Appendix A are eligible gas utility plant projects in that they are either: a) mains, valves, service lines, regulator stations, vaults, and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition; or b) main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life, or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements; or c) unreimbursed infrastructure facility relocations

resulting from the construction or improvement of a highway, road, street, public way or other public work required by or on behalf of the United States, the State of Missouri, a political subdivision of the State of Missouri, or another entity having the power of eminent domain.

12. In addition to meeting the foregoing criteria, the infrastructure system replacements listed on Appendix A are also eligible for ISRS treatment because they: (a) did not increase revenues by directly connecting to new customers; (b) are currently in service and used and useful; (c) were not included in Laclede's rate base in its most recently completed general rate case, or in rates in a previous ISRS case; and (d) replaced and/or extended the useful life of existing infrastructure.

D. RATE SCHEDULES AND SUPPORTING INFORMATION

13. Attached hereto as Appendix B is the rate schedule, with supporting documents, proposed by Laclede in order to revise the ISRS to reflect the additional ISRS eligible investments made by Laclede that were not included in its previous ISRS filings. This proposed rate schedule, on an annualized basis, will produce additional ISRS revenues that do not exceed ten percent of Laclede's base revenue level as approved by the Commission in its most recently completed general rate proceeding.

14. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes current local, state and federal income tax rates through a combined income tax rate conversion factor of 1.626737.

15. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes the capital structure approved by the Commission in its February 21,

2014 Order Approving Late-Filed Exhibit (the “February 21 Order”) in Case No. GR-2013-0171 (the “Rate Case”), and reflects an overall rate of return of 7.1855%.

16. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a weighted average cost of debt of 2.0445%, consistent with the February 21 Order.

17. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a cost of common equity of 9.7%, consistent with the February 21 Order.

18. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes depreciation rates currently applicable to the eligible infrastructure system replacements, as approved by the Commission for Laclede in the Rate Case.

19. In determining the appropriate monthly ISRS charge, the proposed rate schedule is based on a reasonable estimate of billing units in the period in which the charge will be in effect, derived by dividing the appropriate pre-tax revenues, as calculated above, by the average number of customers in the most recent year ended December 31, 2015, and then further dividing this quotient by twelve. (See Appendix B, p. 14). Consistent with the methodology used in previous ISRS filings, the monthly ISRS charge is apportioned between customer classes in proportion to the customer charges applicable to those classes.

E. ADDITIONAL INFORMATION

20. In connection with 4.CSR 240-3.265(22), attached hereto and incorporated herein as Appendix C is a description of the Company’s call center instructions

pertaining to the ISRS, along with a description of the ISRS information posted on the Company's website.

21. In its November 12, 2015 Report and Order in Case No. GO-2015-0341, the Commission approved, over OPC's objection, the Staff and Laclede's longstanding practice pursuant to which Laclede filed pro-forma estimates of ISRS investments for July and August 2015, and updated those estimates with actual costs during the case. The Office of Public Counsel appealed the Order to the Western District Court of Appeals in case number WD79349. Because the matter was being appealed, Laclede provided the actual cost information for July and August 2015 again in its February 1, 2016 application in GO-2016-0196, as a "provisional," in the event a reviewing court determines otherwise. On September 27, 2016, the Court issued an opinion affirming the Commission's Order.

22. Likewise, in its May 19, 2016 Report and Order in Case No. GO-2016-0196, the Commission again approved, over OPC's objection, Laclede's update of pro-forma estimates of ISRS investments for January and February 2016. The Office of Public Counsel has again appealed the Commission's Order to the Western District Court of Appeals in case number WD79830. Because this matter is also on appeal, Laclede refers the Commission to the actual cost information for January and February 2016, which information was entered into evidence in Case No. GO-2016-0196, and is incorporated herein by this reference for all purposes. Laclede is again including this information as a "provisional," in the event a reviewing court determines otherwise. Laclede wants to again be clear that the pending appeal is the sole reason it is including information on ISRS costs that were already approved by the Commission. But for the

existence of an appeal, no such information would be added, or will be added in future ISRS cases. Finally, because \$1,472,634 from the January and February 2016 ISRS investments are already included in Laclede's current ISRS rates, there is no additional revenue requirement associated with this information.

WHEREFORE, pursuant to 393.1015.2(3) RSMo and Commission Rule 3.265(12), Laclede Gas Company respectfully requests that the Commission issue an order approving the ISRS rate schedule as described herein, and grant such other relief as may be necessary and appropriate to accomplish the purposes of Sections 393.1009 through 393.1015.

Respectfully submitted,

/s/ Rick E. Zucker

Legend for State or Federal Safety Requirements

		Regulatory Section Description	Description of Capital Expenditure Rehabilitation or Replacement
A	393.130 RSMo	Safe and Adequate Service	Replace, repair or remove unsafe pipeline segments
B	4 CSR 240-40.030(13)(B)	General Requirements for Maintenance	Replace, repair or remove unsafe pipeline segments
C	4 CSR 240-40.030(15)	Replacement Programs	Replacement program requirements for certain pipelines
D	4 CSR 240-40.030(14)	Gas Leaks	Repair of system leaks through pipeline rehabilitation and replacements
E	4 CSR 240-40.030(9)(T) and (U)	Corrosion Control	Remedial action in response to graphitization and corrosion through pipeline rehabilitation and replacements
F	4 CSR 240-40.030(13)(Z)	Protecting or Replacing Disturbed Cast Iron Pipelines	Replacement of cast iron pipelines where support has been disturbed
G	4 CSR 240-40.030(7)	Construction requirements	Construction expense associated with relocating and replacing pipelines
H	4 CSR 240-40.030(10)	Testing Requirements	Testing expense associated with relocating and replacing pipelines
I	4 CSR 240-40.030(13)(Y)	Maintenance - Caulked Bell and Spigot Joints	Install clamps and other sealing on exposed cast iron joints
J	4 CSR 240-40.030(16)	Gas Transmission Pipeline Integrity Management	Replace, repair or remove unsafe transmission pipeline segments
K	4 CSR 240-40.030(17)	Gas Distribution Pipeline Integrity Management	Replace, repair or remove unsafe distribution pipeline segments
L	4 CSR 240-40.030(13)(S)(1)	Telemetering Requirement	Replace Worn or Deteriorated Telemetry/SCADA Equipment

SCHEDULE OF RATES

INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE ("ISRS")

Description: The ISRS is designed to recover the costs associated with the Company's eligible infrastructure replacements in accordance with the provisions of Sections 393.1009 to 393.1015, RSMo.

Applicability: In addition to the other charges provided for in the Company's tariff, a monthly ISRS shall be added to each customer's bill for service rendered on and after the effective date of the ISRS.

Schedule of Surcharges: The amount of the ISRS by rate schedule is as follows:

Residential General Service (RG)	\$ 3.63
Residential Seasonal Air Conditioning Service (RA)	\$ 3.63
Commercial & Industrial General Service-Class I (C1)	\$ 4.74
Commercial & Industrial General Service-Class II (C2)	\$ 8.23
Commercial & Industrial General Service-Class III (C3)	\$ 16.47
Commercial & Industrial Seasonal Service-Class I	\$ 4.74
Commercial & Industrial Seasonal Service-Class II	\$ 8.23
Commercial & Industrial Seasonal Service-Class III	\$ 16.47
Large Volume Service (LV)	\$ 162.62
Interruptible Service (IN)	\$ 144.32
General L.P. Gas Service (LP)	\$ 3.16
Unmetered Gas Light Service (SL)	\$ 1.06
Vehicular Fuel Rate (VF)	\$ 4.11
Large Volume Transportation and Sales Service (LVTSS)	\$ 384.80

CALL CENTER INSTRUCTIONS ON ISRS
Revised January 2016

TO: All Customer Relations Employees
RE: Infrastructure System Replacement Surcharge ("ISRS")

WHAT IS AN ISRS?

The ISRS is a charge that covers a portion of the expenses that the Company must incur to maintain and upgrade its system to comply with safety requirements and to relocate facilities in connection with local, state, and federal public improvement projects.

The ISRS covers the costs for:

- Replacing worn or deteriorated pipes or other parts of our pipeline system to comply with federal or state safety requirements.
 - Examples: (i) Installing plastic mains as replacements for cast iron mains in connection with our cast iron main replacement program; (ii) Replacing a main or service line that has become unsafe due to leaks or corrosion.
- Projects that extend the useful life or enhance the integrity of pipeline components.
 - Example: Installing clamps to seal cast iron joints.
- Relocating facilities required by governmental entities in connection with public improvement projects such as a street or highway widening.
 - An example would be the Page Avenue extension that connected I-270 with Highway 94 in St. Charles.

The ISRS does NOT apply to:

- Costs for privately funded projects where Laclede receives reimbursement for its expenses. An example is Busch Stadium III, where Laclede was reimbursed by the Cardinals for work done.
- Costs incurred to build infrastructure that directly connects to new customers who will be billed for service.

HOW HAS THE ISRS BEEN CHARGED?

The ISRS has been charged as a flat fee per month. ISRS rates always start at -0- when Laclede finishes a rate case. So upon resolution of the Company's rate case in July 2013, the monthly ISRS was reset to \$-0- and costs for the facilities that were part of the previous ISRS were incorporated into the Company's overall rates. This included costs for plant in service as of January 31, 2013.

Between July 2013 and April 2014, there were no ISRS charges on customer bills. In April 2014, Laclede Gas re-established an ISRS with the approval of the Missouri Public Service Commission (MoPSC). After an ISRS is re-established, the Company may change the ISRS, again with MoPSC approval, up to two times per year.

As of December 1, 2015, the ISRS charge for Residential customers is \$2.37 per month. Commercial customers pay more per month than Residential Customers.

HOW IS THE ISRS BILLED?

When a new ISRS is established, the first ISRS bill for each customer will contain a bill message on the front of the bill known as the Initial Notice. Such a bill message does not appear when the ISRS amount merely changes. However, please note that an abbreviated version of this message is also permanently on the back of the bill under Definitions. Once each year, bills will also contain an Annual ISRS Notice. (Please see Attachment 1 for the Initial Notice and the Annual Notice).

Customers who call with ISRS questions during the first month that ISRS bills are rendered may be directed to the bill message on the front of the bill. After the first month, the ISRS is still defined on the back of the bill.

SUMMARY

If customers seek to discuss the ISRS charge in greater detail, please emphasize the following:

- The ISRS covers a portion of the expenses that the Company must incur to maintain and upgrade its system to comply with safety requirements, and to relocate facilities in connection with local, state, and federal public improvement projects.
- ISRS is authorized by Missouri law, which allows gas utilities like Laclede to adjust their rates up to two times per year to recover these mandated costs.
- None of the mandated costs and projects covered by ISRS produce any new revenue for the Company. Any projects for which Laclede is separately reimbursed are not included in the ISRS.
- The financial impact of the ISRS is very modest. It is less for residential customers than for larger commercial and industrial customers. Since Laclede first established an ISRS in 2004, the residential ISRS has always been less than \$3 per month.

ATTACHMENT I**INITIAL NOTICE****ISRS**

Each year, Laclede spends tens of millions of dollars on its more than 16,000 miles of pipeline facilities used to deliver gas to its customers. The infrastructure system replacement surcharge (ISRS) covers only a part of the expenses that the Company must incur to maintain and upgrade its system and to relocate facilities in connection with local, state and federal public improvement projects and safety requirements. In general, the ISRS charge to cover these costs is smaller for residential customers, while larger users in other customer classes are charged a greater amount. The amount of the charge may be adjusted periodically, and is being implemented in accordance with Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri.

ANNUAL NOTICE**ISRS**

Each year, Laclede spends tens of millions of dollars on its more than 16,000 miles of pipeline facilities used to deliver gas to its customers. The infrastructure system replacement surcharge (ISRS) covers only a part of the expenses that the Company must incur to maintain and upgrade its system and to relocate facilities in connection with local, state and federal public improvement projects and safety requirements. In general, the ISRS charge to cover these costs is smaller for residential customers, while larger users in other customer classes are charged a greater amount. The amount of the charge, which is reflected on the front of your bill, may be adjusted periodically, and has been implemented in accordance with Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri.

GAS SUPPLY RFP POSTINGS

ISRS

Each year Laclede spends tens of millions of dollars on its more than 16,000 miles of pipeline facilities used to deliver gas to its customers. The infrastructure system replacement surcharge (ISRS) covers only a part of the expenses that the Company must incur to maintain and upgrade its system and to relocate facilities in connection with local, state and federal public improvement projects and safety requirements. In general, the ISRS charge to cover these costs is smaller for residential customers, while larger users in other customer classes are charged a greater amount. The amount of the charge may be adjusted periodically, and is being implemented in accordance with a new law contained in Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri.
