Subject: Sprint Nextel Merger Case # IO-2006-0086

Attention: Cully Dale, Secretary

I am writing due to my concern of the unknown with the proposed Sprint-Nextel company. I would like to see a hearing take place so we can get facts regarding this merger. Most of Sprint's exchanges are very rural. There are close to 80 small towns that this will affect. They are proposing to spin off the local side as a new company with \$7 billion in debt without any information as to how the new local company can survive.

What kind of prices will customers of the new company see? We can't seem to get any solid information to this.

Please take into consideration the the current Sprint local telecommunication customers and their employees futures. We would just like some answers before this is a done deal.

Case File # IO-2006-0086

Thank you for your time.
