7               Q.     Please state your name and business address.

8               A.     Kimberly K. Bolin, P.O. Box 360, Suite 440, Jefferson City, MO 65102.

9               Q.     By whom are you employed and in what capacity?

10              A.     I am a Utility Regulatory Auditor for the Missouri Public Service Commission  
11 (“Commission”).

12              Q.     Please describe your educational background and work experience.

13              A.     I graduated from Central Missouri State University in Warrensburg,  
14 Missouri, with a Bachelor of Science in Business Administration, major emphasis in  
15 Accounting, in May 1993. Before coming to work at the Commission, I was employed by the  
16 Missouri Office of the Public Counsel (“OPC”) as a Public Utility Accountant  
17 from September 1994 to April 2005. I commenced employment with the Commission in  
18 April 2005.

19              Q.     What was the nature of your job duties when you were employed by OPC?

20              A.     I was responsible for performing audits and examinations of the books and  
21 records of public utilities operating within the state of Missouri.

1 Direct Testimony of  
2 Kimberly K. Bolin

3  
4  
5 Q. Have you previously filed testimony before this Commission?

6 A. Yes, numerous times. Please refer to Schedule KKB-d1, attached to this  
7 Direct Testimony, for a list of the major audits in which I have assisted and filed testimony  
8 with OPC and with the Commission.

9 Q. What knowledge, skill, experience, training and education do you have in the  
10 areas of which you are testifying as an expert witness?

11 A. I have received continuous training at in-house and outside seminars on  
12 technical ratemaking matters both when employed by OPC and since I began my  
13 employment at the Commission. I have been employed by this Commission or by OPC as a  
14 Regulatory Auditor for over 20 years and have submitted testimony on ratemaking matters  
15 numerous times before the Commission. I have also been responsible for the supervision of  
16 other Commission employees in rate cases and other regulatory proceedings.

17 Q. Did you participate in the Commission Staff's ("Staff") review of the  
18 applications filed by Spire Missouri ("Company" or "Spire") in Case Nos. GO-2016-0332 and  
19 GO-2016-0332?

20 A. Yes, I did, with the assistance of other members of Staff.

21 Q. Did you participate in Staff's review and author Staff's report and  
22 recommendation regarding the remand of the Commission's Report and Order, filed on  
June 29, 2018, and as updated on July 9, 2018, in the above cases?

A. Yes, I did, with the assistance of other members of Staff.

**EXECUTIVE SUMMARY**

Q. Please summarize your testimony in this proceeding.

1 Direct Testimony of  
2 Kimberly K. Bolin

3       A. In this testimony, I will discuss Staff's investigation of the amount of potential  
4 customer refund associated with the remand order and how Staff determined the appropriate  
5 value of the replacement cost of the plastic pipe considered in the related cases.

6       **STAFF'S INVESTIGATION AND CALCULATION**

7       Q. When Staff reviewed the records in Case Nos. GO-2016-0332 and  
8 GO-2016-0333, did Staff determine there was enough information within the record  
9 to calculate an appropriate value for the replacement cost of the plastic pipe in those cases?

10      A. No. The record reflected in those cases only contained information obtained  
11 from the work order authorizations regarding fourteen (14) out of 269 relevant work orders  
12 in Case No. GO-2016-0332 and nine (9) out of 294 relevant work orders in Case No.  
13 GO-2016-0333. In Case Nos. GO-2017-0201 and GO-2017-0202, there is no evidence in  
14 the record because the parties entered into a Stipulation and Agreement before any evidence  
15 was submitted into the case concerning the appropriate value of the replacement cost of the  
16 plastic mains and service lines.

17      Q. Did Spire Missouri provide Staff with additional work order authorizations for  
18 all the above cases?

19      A. Yes. After the Missouri Court of Appeals Western District remanded the cases  
20 back to the Commission for further proceedings, Spire Missouri provided all work order  
21 authorizations for projects totaling over \$25,000, except for open "blanket" work orders.

22      Q. What is a "blanket" work order?

23      A. A blanket work order is a work order that related to ongoing projects that will  
24 not close in a certain time period.

1 Direct Testimony of  
2 Kimberly K. Bolin

1           Q. Did Staff review all of the work order authorizations provided by Spire for all  
2 four cases?

3           A. Yes, Staff reviewed all of the work order authorizations provided to determine  
4 the feet of main and service lines replaced and retired by the type of pipe (plastic, cast iron,  
5 steel, etc.). Attached as Schedule KKB-d2 is an example of a work order authorization.

6           Q. For the work orders provided, was Staff able to determine the actual  
7 percentage of plastic footage replaced for mains and service lines compared to the total  
8 footage replace for both mains and service lines?

9           A. Yes, Staff then applied the actual individual plastic main and services line  
10 percentages to the work order cost to determine the cost of the replacement of plastic pipe.  
11 Staff did not remove any amounts for work orders that were associated with relocations  
12 required by a governmental authority, encapsulation work orders, and meter and regulator  
13 replacement work orders.

14          Q. What did Staff do for work orders authorizations that were not provided; i.e.,  
15 for those work order authorizations totaling less than \$25,000 and blanket work orders?

16          A. Staff calculated an average of plastic mains and service lines replaced for the  
17 work order authorizations provided and applied that percentage to work order authorizations  
18 that were not provided. This methodology assumes that the work orders that were not  
19 provided were comparable to the group of work orders that were made available to Staff.  
20 Attached to my direct testimony are the following Schedules which show the work order and  
21 the feet of main and service lines replace by type:

- 22           • Schedule KKB-d3 – Case No. GO-2016-0332  
23           • Schedule KKB-d4 – Case No. GO-2016-0333  
24           • Schedule KKB-d5 – Case No. GO-2017-0201  
25           • Schedule KKB-d6 – Case No. GO-2017-0202

1 Direct Testimony of  
2 Kimberly K. Bolin

1      These Schedules also show the calculation of the average of plastic mains and services lines  
2 replaced that were applied to the work order authorizations that were not provided.

3            Q.        What percentage of Infrastructure System Replacement (ISRS) additions do  
4 the work orders less than \$25,000 and the blanket work orders total?

5            A.        Attached as Schedule KKB-d7 is a table that outlines the percentage of ISRS  
6 additions stemming from work orders less than \$25,000 and blanket work order.

7            Q.        What were the results of Staff's investigation and calculation?

8            A.        Utilizing the methodology outlined above, Staff determined that  
9 Spire Missouri collected ineligible replacement costs through its ISRS totaling \$4,161,025  
10 (\$1,359,165 for Spire West and \$2,801,860 for Spire East). These amounts constitute an  
11 over collection of ISRS revenues, and should be returned to ratepayers. Attached as  
12 Schedule KKB-d8 to my direct testimony is Staff's calculation of the amounts to be refunded,  
13 using Staff's recommended methodology and Staff's alternative methodology as discussed  
14 below.

15            Q.        Does Staff propose an alternative calculation to quantify the plastic mains and  
16 service lines replacement for the work order authorizations that were not provided?

17            A.        Yes. In the event the Commission rejects the quantification method outlined  
18 above, Staff alternatively proposes removing all costs for all work orders that were not  
19 provided. Under this methodology it would be assumed that all costs for the unprovided work  
20 orders were associated with plastic pipe replacement. Without evidence to the contrary, it is  
21 impossible for Staff to disprove this assumption.

22            Q.        Does this conclude your direct testimony in this proceeding?

23            A.        Yes, it does.

## Work Order Authorization Information

**Header Detail**

**Work Order:** 900621      **Company:** Spire Missouri Inc.  
**Work Order Title:** Repl w/ 4991F 2-4PMapplewoodPh3 CITY      **Business Segment:** Missouri East  
**Wo Type Description:** WO-Replacement Mains & Services      **Functional Class:** Distribution Plant  
**Work Order Group:**      **Department Code:** 10638  
**Current Revision:** 1      **Department Description:** Construction - Region 1B - Union  
**Funding Project:** 3303L      **Budget Description:** Replacement of Dist Sys - Laclede  
**Funding Project Desc:** Replacement of Dist Sys - Laclede      **Est. Annual Revenue:**  
**Eligible for AFUDC yes**      **Eligible for CPI: yes**      **Reimbursement Type:** None  
**Reason Code:** Strategic      **Retirement Type:**  
**WO Description:** Install 3,134 Ft of 2 in. PL IP main and 1,857 Ft of 4 in. PL IP main on Skinker Blvd, Wise Ave, W Park Ave, Forest Ave and Nashville Ave. Abandon 5365 ft of various main at above locations.

**Major Location:** Mass Property-Laclede

**Status:** posted to CPR

**Asset Location:** Laclede-St. Louis City

**Estimated Start Date:** Aug 31, 2015

**Estimated Completion Date:** Nov 27, 2015

**Estimated In-Service Date:** Nov 27, 2015

**Notes:** Existing main to be replaced as part of the FY15 Cast Iron Replacement Program. NOTE: this is St Louis City - need to correct on As Built

**Reason for Work (Justification)**
