Dear Ms. Heisinger,

Per your recent Sunshine request, the City of Lebanon has submitted the enclosed documentation which is provided in electronic form. Because we have created these discs off of individual computers, there may be some duplication. Also, some of the documents have been scanned and placed on a disc. Those files will need to be opened in Adobe Reader. You will also need Microsoft Outlook to open the emails we have provided and various other Microsoft applications such as Power Point, Excel, etc.

Please know that any announcement or publication of the town hall meeting announced at the November 27, 2006, Council meeting was not initiated by the City of Lebanon but by SMNG; therefore, we haven't anything to provide you. Notification for the public hearing held on January 16, 2007, by the City was provided to the media via fax and posted on the bulletin board at City Hall 48 hours prior to the meeting.

I apologize that you weren't able to access our 2005 minutes from our website; apparently we have a problem which I am working on getting fixed. Thank you for drawing this problem to my attention. I have provided the 2005 minutes plus any additional minutes which reference natural gas.

We feel we have been thorough in providing you with the information requested. Should you have any questions regarding our submitted documentation, please contact me at 417-532-2156 and I will be glad to assist you. Thank you.

Respectfully submitted,

Laina Starnes
City Clerk/Finance Director
