**It won't cost you anything to call before you dig.
It could cost you everything if you don't.**

Beneath your property, natural gas lines bring affordable energy to your home. Hit one while working in the yard, and you could have an explosive situation on your hands. Before you pick up that shovel, pick up the phone and call Missouri One Call at 1-800-344-7483, and in Illinois call JULE at 1-800-892-0123 to determine where it's safe to dig on your property — and where it's not. Of course, natural gas safety matters indoors, too. If you detect the distinct rotten-egg odor of natural gas, leave the building immediately and call Ameren in Missouri at 1-800-552-7583, or in Illinois call 1-800-481-1154 from another location. Find out more at ameren.com. 365. And then some.

© 2008 Ameren Corp.

**If you smell rotten eggs,
chances are you aren't smelling rotten eggs.**

Fact is, that distinctive odor isn't all it's cracked up to be. Because we add a rotten-egg scent to natural gas to alert you in the event of a gas leak, if you notice that telltale smell, leave the building immediately. Then call Ameren at 1-800-552-7583 in Missouri, or in Illinois, call 1-800-481-1154. And if you're making improvements to your yard, be safe and be sure before you dig. Call Missouri One Call at 1-800-344-7483, or in Illinois, call 1-800-892-0123. We'll help you locate the gas lines on your property to avoid the risk of fire or explosion. Find out more at ameren.com. 365. And then some.

LIKE I SAY ON TV, PLAY IT SAFE AROUND ELECTRICITY.

Hi, kids! I'm Louie the Lightning Bug. And I'm an expert on safety and electricity.

And you can be an expert, too, if you follow these rules:

Never fly kites or climb trees near power lines.

Around home, never use radios or hair dryers near baths or showers.

And don't put your fingers or other objects in electrical outlets.

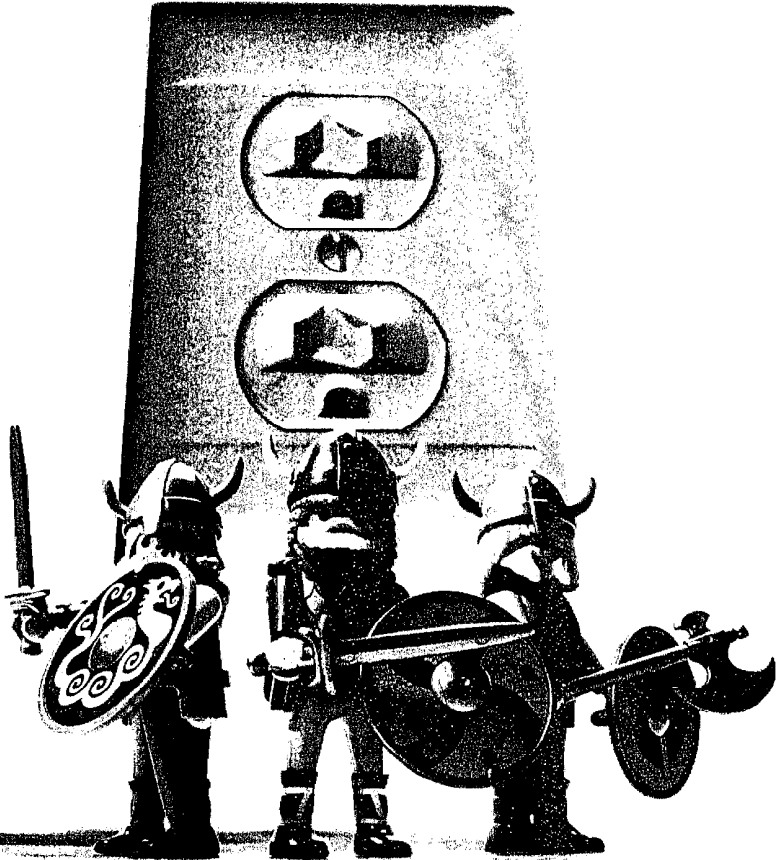

So please remember, gang. Play it safe around electricity.

Diversity at Ameren — Driven by a Vision

Ameren is honored to receive the St. Louis American Foundation Salute to Excellence in Business Corporate Diversity Award. We realize we are not alone in supporting diversity. That is why it is such a privilege to be among the distinguished companies that have received this award.

Ameren, like many companies, has a corporate mission, vision and values. We also have both a diversity mission statement and a vision that guide us in our diversity efforts. That statement — "Celebrating diversity. Our differences strengthen us" — succinctly captures how diversity shapes the strengths and synergies gained from valuing a variety of perspectives, thoughts and work styles. For example, Ameren encourages its employees to capitalize on their diverse backgrounds and experiences to make it a stronger company.

Because we work and live in diverse communities that have much to offer, Ameren also supports efforts to make those communities rich and multiracial environments, where all cultures, viewpoints and lifestyles are respected and valued.

In addition to its mission, Ameren's diversity vision serves as a road map to achieving company objectives. That vision states:

1. Ameren is a place where every employee feels valued and respected.
2. 100 percent of employees use 100 percent of their potential.
3. Diversity of thought creates a synergy that produces a competitive business advantage.
4. Ameren is a positive corporate citizen and business leader in the community.
5. Ameren is the employer of choice of all members of the community.

Several initiatives are in place to support this vision. To succeed at making every Ameren employee feel valued and respected, as well as provide the tools that allow each of us to work to our full potential, Ameren provides a training program with courses that specifically address diversity issues for new employees, supervisors and management.

Each year, Ameren also designates a special day to celebrate diversity. On Diversity Day, Ameren celebrates with a corporate-sponsored video, posters, banners, international flags, multicultural food and music, speakers, and many other activities that emphasize what is special and unique in each of us.

In addition, the Ameren Corporate Diversity Council is charged with designing corporate initiatives that capture the energy and creativity found in a diverse organization and that foster an environment of respect and engagement. Through the Diversity Council, Ameren works to drive the vision of diversity and the message of inclusion to all levels of our company.

We take seriously our role as a business leader and corporate citizen in the communities we serve. We know that the decisions we make can affect our communities and supplement the positive efforts underway. Through our community relations and minority supplier programs, we are investing in the development of even greater diversity throughout this region.

For example, each year, Ameren's minority supplier program purchases millions of dollars of goods and services provided by women- and minority-owned businesses. Ameren has doubled the amount the company spends with these suppliers in each of the past three years. Our goal for 2005 is to more than triple our spending with women- and minority-owned businesses in Missouri and Illinois.

Through community outreach, we support organizations that make a positive impact in our communities. For example, Ameren has supported the St. Louis Black Repertory Company, the Urban League, the Matthews-Dickey Boys and Girls Club, and the Komen Race for the Cure.

Finally, Ameren strives to be the employer of choice for all members of our community. Ameren believes that people are the foundation of our success and the key to achieving our vision. And we know that the more perspectives, opinions and viewpoints we can bring to the table, the more effective our decisions. Therefore, ensuring that we are able to attract, promote and retain the best people representing all members of our communities is important to our success.

This mission and vision will continue to guide us as we work to integrate diversity of thought, backgrounds and people throughout Ameren.

We are humbled to be associated with the outstanding work of the many organizations that have been dedicated to increasing diversity and serving diverse populations throughout this region. We are also proud to be associated with the fine work of the St. Louis American.

We will diligently continue our work in this area — motivated to even stronger performance by the honor of this prestigious 2005 Corporate Diversity Award.

Sincerely,

Gary L. Rainwater
Ameren Chairman, President and Chief Executive Officer

Reliable, affordable electricity. All in a day's work.

We work hard every day to ensure our customers have the most reliable energy service at the lowest possible cost. Since 1998, we've invested nearly \$2.6 billion in infrastructure improvements and system maintenance to enhance reliability in Missouri and Illinois.

At Ameren we look forward to serving you today, and for all those days to come.
