RE: *Satlink 3000, Inc.*
Case No. TA-2000-39

Dear Mr. Roberts:

Enclosed are the original and fourteen (14) copies of the Amended Application of Satlink 3000 for filing in the above-referenced matter. This Amended Application corrects an error in paragraph 1 where the original Application had incorrectly stated that Satlink 3000 was incorporated in Georgia instead of Nevada. In addition, the Amended Application has deleted a reference to the fictitious name of "Independent Network Services" in the footer of the original Application. Satlink 3000 is not presently using a fictitious name in Missouri, although it has registered this fictitious name in some other jurisdictions.

We apologize for any inconvenience that our errors may have caused the Commission.

Thank you for your attention to this matter.

Sincerely,

James M. Fischer

2. Satlink, with this application, proposes to provide inbound and outbound telecommunications services to residential and business customers, utilizing switched and dedicated access. Switched access service is available on a presubscription basis from equal access originating end offices. Satlink will also offer travel cards and operator assisted calling services. All services are available twenty-four (24) hours per day, seven (7) days a week. Service is offered as an add-on to Satlink' interstate service.

Satlink operates as a switchless reseller. Calls originate over LEC facilities to the Company's underlying carrier (currently WorldCom). The Company's underlying carrier performs all interexchange switching, routing and call termination functions. Call detail information is provided to the Company by the underlying carrier for purposes of rating and billing calls.

Message Toll Service allows customers to use the Company's network by making "1 + interexchange number" calls.

Inbound Toll Free Service allows customers to pay for calls received via a toll free (i.e. 800/888 number) rather than the call originator.

Travel Card service allows customers to use the Company's network in a casual calling format by dialing the Company's toll free number, entering a Personal Account Code and a destination number.

Debit Card Service allows Customers to place direct dialed calls between locations within the state of Missouri. Customers access the Satlink network by dialing an 800 number or other access dialing sequence and entering a Personal Account Code.

Satlink will follow all appropriate Missouri Public Service Commission rules for any telecommunication service that the Company offers which requires Satlink to receive authorization to change the Customer's primary carrier.

3. Satlink's registered agent in the state of Missouri is:
National Registered Agents, Inc.
300-B East High Street
Jefferson City, MO 65101
4. Satlink intends to provide resold long distance telecommunications service on a twenty-four (24) hour a day basis, originating and terminating throughout the state of Missouri.
5. Satlink possesses managerial and technical expertise to provide resale interexchange telecommunications services.
6. Satlink has ample financial resources to operate as a telecommunications reseller.
7. Satlink's tariff containing the rules and regulations applicable to its customers, a description of the services offered, and a list of rates associated with such services is being filed simultaneously with this application showing a forty-five (45) day effective date.
8. Applicant will not unjustly discriminate among its customers, which discrimination is prohibited pursuant to Section 392.200.
9. Satlink requests classification as a competitive telecommunications company operating within the state of Missouri. Satlink further requests classification of services described in its tariff as competitive services.
10. Applicant, pursuant to Section 386.570, will comply with all applicable Commission rules except those which are specifically waived by the Commission pursuant to a request filed by the Applicant.
11. Satlink will offer operator services to customers within Missouri. The primary customers of Applicant's operator services are presubscribed business and residential customers. Some of these companies may, in their normal course of business, be responsible for providing

access and directing telephone calls for end users. Satlink proposes to conduct its operator services within the guidelines determined in rulemaking docket TX-91-129, or according to subsequent rules or policies established for the state of Missouri. Specifically:

- All calls are branded before call charges are incurred.
- Rates, billing method and complaint resolution procedures are disclosed upon request. This service is available at no charge, 24 hours per day.
- Traffic aggregators are obligated by contract and tariff to display and notice information that complies with FCC rules and applicable state requirements.
- Traffic aggregators are obligated by contract and tariff to provide access to alternative operator service providers.
- Where the local exchange carrier has the capability of identifying multiple carriers, Satlink is identified on the end user bill.
- No location surcharges are collected by Applicant for intrastate Missouri calls.
- Satlink does not intercept or route 911 calls. These calls complete directly through the serving local exchange carrier. Applicant routes emergency 0- and 00- calls efficiently to the appropriate emergency agency in locations where it handles such calls.

Satlink' carrier uses reliable answer detection techniques and Satlink will not knowingly bill for incomplete calls. If for any reason a caller believes he or she has been charged for an uncompleted call, Applicant will issue credit for the charges under all reasonable circumstances

12. Correspondence or communications pertaining to this application should be addressed to:

13. Satlink also respectfully requests, pursuant to Section 392.420, that the Commission suspend, waive or modify the application of the following rules and statutory provisions as they relate to the regulation of the applicant:

4 CSR 240-10.020	--	Depreciation fund income
4 CSR 240-30.010(2)(C)	--	Posting of exchange rates at central operating offices

4 CSR 240-32.050(3) through (6)	--	Information concerning local service tariffs, maps, directories, and telephone numbers
4 CSR 240-32.070(4)	--	Coin telephones
4 CSR 240-33.030	--	Minimum charge rules

The above referenced rules and statutory provisions have been waived with regard to other interexchange carriers in prior cases. These rules or statutory provisions are principally designed to apply to noncompetitive telecommunications carriers. It would be inconsistent with the goal and purpose of Section 392.530 to apply them to a competitive telecommunications carrier such as the Applicant.

WHEREFORE, Satlink 3000, Inc. respectfully requests the Commission to grant it a certificate of service authority to offer competitive intrastate interexchange telecommunications service within the state of Missouri; an order classifying it as a competitive telecommunications company providing competitive service; an order suspending, waiving or modifying the above referenced rules and statutory provision as they relate to the regulation of the Applicant in the state of Missouri, and for such further orders as the Commission deems appropriate.

Respectfully submitted,
