

Mr. Steven Reed, Executive Secretary Missouri Public Service Commission 200 Madison Street Suite 500 Jefferson City, MO 65102-0360

RE:

Compliance Filing for Global Crossing Local Services, Inc. Access Tariff No. 2

Case No. TT-2012-0317

#### Dear Mr. Reed:

Enclosed for filing please find the original of the above referenced tariff filing submitted on behalf of Global Crossing Local Services, Inc. This filing makes revisions to incorporate the requirements of the Federal Communications Commission Report and Order in WC Docket No. 10-90, etc., FCC No. 11-161 (released Nov 18, 2011) ("FCC Order") which requires the Company to reduce its terminating switched access rates. This filing also makes text changes to the VoIP-PSTN language to reflect changes to originating Toll VoIP-PSTN access charge language pursuant to the Second Order on Reconsideration in the same Docket (FCC No. 12-47 Releases April 26, 2012). The Company respectfully requests an effective date for this filing of July 1, 2012.

The supporting document is also being submitted with this filing.

The following tariff pages are included with this filing:

1<sup>st</sup> Revised Page 26.1 Revised the VoIP-PSTN text
1<sup>st</sup> Revised Page 26.2 Revised the VoIP-PSTN text
2<sup>nd</sup> Revised Page 48 Reduces Switched Access rates.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3002 or via email to cwightman@tminc.com.

Thank you for your assistance in this matter.

Sincerely,

/s/ Connie Wightman Consultant

#### **SECTION 2 - RULES AND REGULATIONS (CONT'D)**

#### 2.3 Obligations of the Customer (Cont'd)

#### 2.3.4 Identification and Rating of VoIP-PSTN Traffic

This section governs the rating and identification of VoIP-PSTN Traffic. In accordance with the Federal Communications Commission's Report and Order released November 18, 2011 (FCC 11-161) and Second Order on Reconsideration released April 25, 2012 (FCC 12-47), both in WC Docket No. 10-90, et al. (together, the "FCC Orders"): (1) intrastate VoIP-PSTN Traffic that originates on the Company's network and is bound for the Customer's end users is subject to the intrastate switched access rates set forth in this tariff until June 30, 2014, after which time it will be subject to interstate rates contained in the Company's Tariff F.C.C. No. 4 and in Section 15 herein; and (2) intrastate VoIP-PSTN traffic that is sent by the Customer for termination to Company end users is subject to interstate switched access rates set forth in the Company's Tariff F.C.C. No. 4 and in Section 15 herein.

The remainder of this section establishes the method of separating VoIP-PSTN Traffic from the Customer's traditional intrastate access traffic, so that VoIP-PSTN Traffic can be billed in accordance with the FCC Orders.

# A. Calculation and Application of Percent-VoIP - Usage Factors

- 1. The Company will determine the number of VoIP-PSTN Traffic minutes of use (MOU) to which interstate rates will be assessed by applying a terminating PVU factor to the total intrastate access MOU terminated by a Customer to the Company's end user. Beginning on July 1, 2014, the Company will also apply an originating PVU factor to the total intrastate access MOU originated by a Company end user and delivered to the Customer.
- 2. The Customer will calculate and furnish to the Company a terminating PVU factor representing the whole number percentage of the Customer's total terminating intrastate access MOU that the Customer exchanges with the Company in the LATA that is sent to Company and which originated in IP format and that would be billed by the Company as intrastate access MOU. Beginning July 1, 2014, the Customer will also calculate and furnish to the Company an originating PVU factor representing the whole number percentage of the Customer's total originating intrastate access MOU that the Customer exchanges with the Company in the LATA that is received from the Company and that is terminated in IP format and that would be billed by the Company as intrastate access MOU.

# SECTION 2 - RULES AND REGULATIONS (CONT'D)

#### 2.3 Obligations of the Customer (Cont'd)

#### 2.3.4 Identification and Rating of VoIP-PSTN Traffic, (Cont.d)

- A. Calculation and Application of PercentVoIP- Usage Factors, (Cont'd.)
  - 3. The Customer shall not modify their reported PIU factor to account for VoIP-PSTN Traffic. (T)
  - 4. Both the Customer provided originating PVU and the terminating PVU shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g. as reported on F.C.C. Form 477), traffic studies, actual call detail or other relevant and verifiable information which will be provided to the Company upon request.
  - 5. The Customer shall retain the call detail, work papers, and information used to develop the PVU factors for a minimum of one year.
  - 6. The Company shall use default factors until such time as the Customer supplies such factors. For this purpose, the Company will utilize a PVU equal to the percentage of VoIP subscribers in the state based on the Local Competition Report, as released periodically and/or such other reports as the Company deems appropriate and reasonable. Under the Local Competition report methodology, the PVU will be the total number of incumbent LEC and non-incumbent LEC voIP subscriptions in a state divided by the sum of those reported VoIP subscriptions plus incumbent LEC and non-incumbent LEC switched access lines.

# **SECTION 5 - SWITCHED ACCESS RATES (CONT'D)**

# 5.4 Rates and Charges

#### 5.4.1 Blended Carrier Switched Access

The Blended Carrier Switched Access rate includes Carrier Common Line, Switching and Transport.

# (A) Per Minute Access Rates

# (1) Local Switching

	Per Minute	
Originating	\$0.02098600	
Terminating		
UNE-P Direct Transport	\$0.0167569	(R)
UNE-P Combined Direct/Tandem	\$0.0167984	
Via Company Switch	\$0.0167984	(R)

# (2) Transport Interconnection Charge

	Per Minute
Originating	See Note 1
Terminating	See Note 1

# (3) Information Surcharge

	Per Minute
Originating	See Note 1
Terminating	See Note 1

Note 1: All access minutes are billed at a single per minute access rate found in Section 5.4.1(A)(1) Local Switching. This composite rate includes the elements traditionally billed as Transport Interconnection Charge and Information Surcharge.

Issued: May 1, 2012 Effective: July 1, 2012
