St. Louis Area Coverage Map

Coverage shown on the coverage maps is a general prediction of outdoor coverage, and does not guarantee that coverage will be available in all geographic areas at all times. Wireless coverage is impacted by, among other things, terrain, weather, antenna location, system foliage and man-made structures (such as buildings), and therefore cannot be predicted precisely at all times.

Digital Cellular and local walkie-talkie coverage (approximate)

T-Mobile digital coverage area

Includes T-Mobile USA network and the networks of our roaming partners and affiliates. This map does not depict where rates apply. Roaming charges and long distance charges may apply where applicable.

T-Mobile's Get More® network is comprised of the T-Mobile digital coverage area and the roaming coverage area. Data coverage is available in all areas that offer voice coverage, with the exception of select roaming areas. In order to use a T-Mobile product, you must be within a T-Mobile coverage area.

Print map information

Get More A

MAP INFORMATION: This map predicts and approximates our wireless coverage area outdoors, which may vary from market to market and may change without notice. It may include locations with limited or no coverage. Our maps do not guarantee service availability. Even within a coverage area, there are several factors, including but not limited to: network changes, traffic volume, service outages, technical limitations, signal strength, your equipment, terrain, structures, weather and other conditions that may interfere with actual service, quality and availability, including the ability to make, receive and maintain calls. Portions of the mapped areas include networks that are operated by our partners and affiliates. If you travel outside of these coverage areas, your phone will not work. However, people can still leave you voicemail and send text messages that you will receive when you get back into coverage. Roaming refers to calls made or received while on a roaming partners network or while outside of your plan coverage area. To see if our coverage meets your needs, take advantage of our return policy (available with most plans). Please see your T-Mobile Terms and Conditions or visit t-mobile.com for details. T-Mobile is a registered trademark of Deutsche Telekom AG. © 2003-2004.

* We continually try to improve the T-Mobile digital network. For the most current coverage information, dial 611 from your T-Mobile device or 1-800-937-8997 from any phone. Our Customer Care center is open 24 hours a day, 7 days a week, or visit the nearest T-Mobile Location.

VoiceMail, caller ID, conference calling, call forwarding, call waiting, call hold, built-in paging, access to 411 And More, detailed billing, and emergency calls.

Note: FamilyTime plans include two lines of service. Up to three additional lines can be added to the

FamilyTime plans for \$9.99 per line, per month. A one-time activation fee of \$35 per line applies.

BlackBerry Enterprise Server plans

For all BlackBerry wireless e-mail solutions, in order to access corporate e-mail through the BlackBerry Enterprise Server(BES), your company must install BlackBerry Enterprise Server Software on your corporate server. BlackBerry Enterprise Server Software is an additional charge and must be purchased separately. The BlackBerry Enterprise Server provides advanced security features and reconciles your e-mail, calendar and contacts with your desktop e-mail application. To find out if your company has a BlackBerry Enterprise Server, ask your IT department

Plan name		Price (per month)	Voice calling (per month)	Wireless data (per month)	Text/ instant messages* (per month)

Additional Calling Plan Information

Monthly Home Airtime Allowance Minutes, National IN Calling, Night & Weekend Minutes and Home Airtime Per-Minute Rate are for use from within the America's Choice Home Airtime Rate and Coverage Area.

International Roaming

(see verizonwireless.com for service availability) 69¢/minute plus pass-through of serving carrier's tolls, surcharges and taxes

411 Connect®

\$1.49 per call plus airtime.

Required Equipment

CDMA tri-mode or All-Digital phone with Verizon Wireless software.

Required Minimum Term, Activation Fees and Early Termination Fee

One-year Customer Agreement — \$35 activation fee per line.

Two-year Customer Agreement — \$20 activation fee per line.

Early Termination Fee — \$175 per line.

Taxes, Surcharges and Fees

- Tolls, taxes, surcharges and other fees, such as E911 and gross receipt charges, vary by market and as of July 1, 2005, add between [6% and 33%] to your monthly bill and are in addition to your monthly access fees and airtime charges.
- Monthly Federal Universal Service Charge (varies quarterly based on FCC rate) is 2.18% per line as of July 1, 2005.
- Monthly Regulatory Charge (subject to change) is 5¢ per line as of July 1, 2005.

- The Federal Universal Service and Regulatory Charges are Verizon Wireless charges, not taxes. For more details on these charges, call 1-888-684-1888.

Important Information:

For more information, refer to the Customer Agreement.

Service is subject to the Customer Agreement, which you should read before activating service. Credit approval required. Billing, shipping and end-user address must be within the Verizon Wireless licensed and service areas where the wireless phone number is issued.

In some rare instances, dialing *228 may alter your Calling Plan's Home Airtime Rate and Coverage Area. The accuracy of the roaming indicator on your phone cannot be guaranteed. Charges for calls will be based on the cell sites used and time of day at the telephone switching office that carries your call, which may be different than the time of day shown on your phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to next full minute. Unused allowance minutes lost. Charges start when you first press **SEND** or the call connects to a network on outgoing calls, and when the call connects to a network (which may be before it rings) on incoming calls. Time may end several seconds after you press **END** or the call otherwise disconnects. For calls made on our network, we only bill for calls that connect (which includes calls answered by machines). Calls to 'toll-free' numbers are toll-free; you will be billed airtime. Billing for airtime and related charges may sometimes be delayed. [Delayed airtime may be applied in the month it appears on your bill against airtime included in your Calling Plan for that month, rather than against the included airtime for the month when you actually made or received the call. This may result in charges higher than you'd expect in the later month.]

Family SharePlan

Minimum of two lines required. Maximum of five lines. Only one line is the primary line. All lines must be activated on the same billing account and in the same market.

National IN Calling

If Caller ID is not present or Caller ID Block is initiated, National IN Calling does not apply to incoming calls and will apply to outgoing calls only. National IN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. National IN Calling does not apply if Call Forwarding or No Answer/Busy Transfer features are activated or to data usage, including Push to Talk calls, Picture Messaging or Video Messaging, calls to check your voice mail and calls to Verizon Wireless customers using Airfone® Service or any of the VZGlobal services. National IN Calling does not apply in those areas of Louisiana and Mississippi where your phone's roaming indicator flashes.

Internet Access

Mobile Office Kits, PC Cards, PDAs or other wireless modem devices may not be used for Internet access without a subscription to select VZAccess plans.

Verizon Wireless Calling Plans, Rate and Coverage Areas, rates, agreement provisions, business practices, procedures and policies are subject to change as specified in the Customer Agreement.
