TRUE-UP TESTIMONY OF MICHAEL R. NOACK

CASE NO. GR-2004-0209

July 19, 2004

1	Q.	WOULD YOU PLEASE STATE YOUR NAME AND BUSINESS ADDRESS?
2	A.	My name is Michael R. Noack, and my business address is 3420 Broadway, Kansas
3		City, Missouri 64111.
4		
5	Q.	HAVE YOU PREVIOUSLY SUBMITTED TESTIMONY IN THIS CASE?
6	A.	Yes. I have submitted direct, updated direct, rebuttal and surrebuttal testimony
7		regarding the updated revenue requirement based upon the test period established by
8		the Commission. I testified at the evidentiary hearing conducted by the Commission
9		for Missouri Gas Energy ("MGE").
10		
11	Q.	WHAT IS THE PURPOSE OF YOUR TRUE-UP TESTIMONY?
12	A.	The purpose of my testimony is to support the True-up Revenue Deficiency Summary
13		accompanying my testimony identified as Schedule MRN-1. On June 21, 2004, the
14		Commission issued an order from the bench establishing a True-up to recognize in
15		rates, changes in revenue requirement elementsthrough April 30, 2004. MGE has
16		prepared its True-up Revenue Deficiency consistent with the understandings reached
17		regarding the true up.

18

2		TO THE TRUE-UP?
3	A.	Certainly. The true-up audit addressed the following items:
4	A.	Rate Base
5		• All rate base components with the exception of working capital revenue and
6		expense lags.
7	В.	Expenses
8		Payroll employee levels, current wage rates and corresponding payroll taxes and
9		benefits;
10		• Rate case expense;
11		Depreciation & amortization expense;
12		• Income taxes;
13		• FAS 106 OPEB expense;
14		 Medical expense (including dental and prescription drugs);
15	C	Return
16		• Capital structure and the embedded cost of debt.
17		
18	Q.	AS A RESULT OF THE PARTIAL STIPULATION AND AGREEMENT
19		WERE SEVERAL OF THE ITEMS PREVIOUSLY LISTED AS TRUE UP
20		ITEMS ELIMINATED?
21	A.	Yes. As a result of the partial stipulation and agreement it was agreed to exclude
22		from the true-up the following items:
23	A	. Rate Base
24		Gas storage inventory
25		Alternative minimum tax
26	В	. Revenue
27		• Customer growth;

1 Q. WOULD YOU PLEASE IDENTIFY THE ITEMS WHICH WERE SUBJECT

1	C.	Expenses
2		Bad debt expense.
3		
4	Q.	PLEASE EXPLAIN THE REVENUE DEFICIENCY SUMMARY
5		SCHEDULES ATTACHED TO YOUR TRUE-UP TESTIMONY.
6	A.	The True-up schedules and resultant revenue deficiency are prepared consistent with
7		the understandings reached regarding the true-up. The Company's revenue deficiency
8		as trued-up to April 30, 2004, is \$37,900,620, or \$40,056,176 including recognition of
9		the management efficiency rate of return adjustment proposed by MGE.
10		
11	Q.	PLEASE DESCRIBE HOW THE COMPANY HAS TREATED TRUE-UP
12		ITEMS.
13	A.	Under the category of rate base, the Company has treated those individual items as
14		follows.
15		Plant in service - individual plant balances recorded as of April 30, 2004 have been
16		included. The Federal Energy Regulatory Commission ("FERC") Uniform System of
17		Accounts ("USOA") has three primary categories of plant; Intangible plant,
18		Distribution plant and General plant. The corporate plant and reserve balance as of
19		December 31, 2003 has been used in the true up schedules.
20		
21		Depreciation reserve - all individual reserve balances as of April 30, 2004 have been
22		included. Consistent with the treatment of corporate allocated plant, the associated

1		corporate depreciation reserve as of December 31, 2003 has been included and has
2		been allocated to MGE.
3		
4		Deferred income taxes (including deferred taxes associated with SLRP) - as of April
5		30,2004, have been included. Consistent with the treatment of corporate allocated
6		plant and depreciation reserve, the associated corporate deferred income taxes as of
7		December 31, 2003, has been allocated to MGE.
8		
9		Working capital effects - material and supplies inventory and the actual stores
10		inventory are included based upon a thirteen-month average ended April 30, 2004.
11		Prepayments have been included based upon a thirteen-month average ended April
12		30, 2004 and prepaid pension balance as of April 30, 2004 has also been included.
13		
14		Other rate base offsets – rate base offsets of customer deposits and customer advances
15		are included based upon a thirteen-month average ended April 30, 2004.
16		
17		
18	Q.	PLEASE DESCRIBE THE TREATMENT OF EXPENSES.
19	A.	Payroll - employee levels, current wage rates and corresponding payroll taxes and
20		benefits. Annual payroll levels were determined by utilizing the known employee
21		levels and wage levels in effect as of April 30, 2004. Corporate payroll as of
22		December 31, 2003 has been allocated to MGE. The associated payroll benefits and

taxes were also determined using the known tax and benefit levels in effect as of April 30, 2004.

Rate case expense - is included based upon the cumulative expenditures incurred for services rendered as of the date of the filed testimony, July 19, 2004. Although the true-up period concluded as of April 30, 2004, the Company continues to pay invoices for services provided to date. Expenses related to outside fees associated with the post-hearing process have not been estimated or included for true-up purposes. The Company remains consistent in proposing three-year normalization of rate case expense (\$461,111) but a four-year normalization (\$345,833) could be appropriate if the rate case order in this case is sufficient to enable the resulting rates to remain in effect for four years.

<u>Depreciation & amortization.</u> Depreciation expense has been determined utilizing the depreciation rates agreed to in the partial stipulation and agreement based upon plant balances as of April 30, 2004. Depreciation expense for corporate plant is determined similarly and applied to the level of corporate plant as of December 31, 2003, allocated to MGE. Also included in the depreciation computation is an amount of \$771,039 to reflect the ongoing level of expense associated with cost of removal.

<u>Income taxes</u> have been included by synchronizing the changes of items identified herein.

<u>Property tax expense</u> has not been trued up based upon changes in the level of plant in service as of April 30,2004. An adjustment has been made however to reflect an item that only recently became known to MGE recently, a new Kansas law imposing

property taxes on gas held in storage in Kansas for tax years beginning January 1, 2004. Therefore, MGE's true-up revenue requirement reflects the level of property tax expense to be paid based upon the December 31, 2003 level of natural gas in storage in Meade County, Kansas and other Kansas counties. Schedule MRN-2 includes the new law passed in Kansas, correspondence MGE has received from Kansas assessing authorities related to this new tax and calculation of the tax amount. The amount of the tax is expected to be \$1,262,059, which MGE understands will have to be paid even though MGE plans to challenge the lawfulness of this new law. MGE has not included any property taxes associated with the gas stored in Oklahoma, even though Oklahoma assessing authorities are seeking to tax such gas, because—unlike in Kansas—MGE will only have to actually pay such Oklahoma taxes in the event its ongoing litigation efforts are not successful.

<u>FAS 106 OPEB expenses</u>. The level of FAS 106 OPEB expenses has been trued up to the level computed by MGE's actuary at Rudd and Wisdom, Inc.

Medical expenses (including dental and prescription drugs). Medical expenses including dental and prescription drugs have been trued up to the actual 12-month expense level at April 30, 2004. This adjustment is net of any employee contributions or stop/loss fees which are recovered.

A.

Q. PLEASE DESCRIBE THE RETURN ITEM.

The capital structure, which consists of the balances for long-term debt, preferred equity and common equity, and the embedded cost of debt and preferred, has been trued up to the per book levels at April 30, 2004 and appropriate adjustments were made as described earlier in the proceeding to remove any impacts of the Panhandle Eastern Pipeline acquisition.

- 1 Q. HAS THE COMPANY HAD ANY ISSUANCES OF DEBT OR EQUITY AS OF
- 2 THE TRUE-UP?
- 3 A. No.

4

- 5 Q. HAS THE COMPANY CHANGED ITS METHODOLOGY IN
- 6 DEVELOPMENT OF THE TRUE-UP REVENUE REQUIREMENT?
- 7 A. No.

8

- 9 Q. DOES THIS CONCLUDE YOUR TRUE-UP TESTIMONY?
- 10 A. Yes.

RE: Company Number G4006

Dear Sir:

During the 2004 session, the Kansas Legislature passed Senate Bill 147. In section 4 of that bill, the definition of pubic utility companies was amended to include every individual, company, corporation, association of persons, brokers, lessees or receivers that now or hereafter own, control and hold for resale stored natural gas in an underground formation in this state. With this change, the inventories of gas held for resale in Kansas by these companies will become taxable by the state to the owner of the gas. The legislation was made retroactive to inventories held as of January 1, 2004.

The Division has information indicating that your company has gas in a Kansas storage field as of January 1, 2004. Therefore a set of forms have been sent to you. If your company does not own, control or hold for resale stored natural gas in an underground formation in Kansas, please complete only Schedule One marking the box on the second page. Otherwise please complete all forms.

The filing deadline for completion of these forms is August 1, 2004.

If you have any questions about completing your filing, please contact either Roger Dallam at 785-296-4539 or Floyd Rumsey at 785-296-3964.

Sincerely,

John H.Hughes
