RE: REQUEST FOR TO CONTINOUS TO JANET PARKS vs
MGE.
RESTORING MY GAS SERVICE
DATE: SEPTEMBER 30, 2011

Hello Kim, I am still away for my treatments and don't have a projected date as to when I will be home for any period of time to be able to continue with the findings in the case of Janet Parks vs MGE.

Also, I am requesting that my gas service be restore while we are going through this process of "agreeing to disagree" at this time. I am 67 years old battling breast cancer. I don't have a home to go to that will be heated. Where I won't get sick again or get pneumonia for a third time. Which may prove to be fatal for me in my fragile health. Already the tempts have dipped to the low 40's. So, I'm sure that by the time I return home it will be possibly that or lower. I have nowhere else to go. I don't have a way of cooking, bathing, doing laundry or having hot water to keep things sterile.

I will agree to keep "my" bills paid as I have done in the past. Knowing that at any time they are not paid that I will and should be disconnected. My doctors have documented that being denied gas in my home can be detrimental to my health during the cold months of the year. I have NO immune system and something as little as a common cold could kill me. I pray that MGE will have some type of concern and conscious regarding this.

Also, please understand that this would be a sign of good intention on behalf of MGE while we are attempting to come to some conclusion to this matter. That it will in no way excuse or relieve them of the claims that I have made against them should they agree to extend to me this courtesy.

I would like to hear from MGE as soon as possible on this matter. Should they agree, I will have someone at my home to let them in. I pray that this will be the case.

Sincerely,
Janet Parks
