Missouri Public
Service Commission

In The Matter of the Application of Laclede Gas)
Company to Change its Infrastructure System) File No. GO-2015-0343
Replacement Surcharge in its Missouri Gas Energy)
Service Territory)

VERIFIED APPLICATION AND PETITION OF MISSOURI GAS ENERGY,
AN OPERATING UNIT OF LACLEDE GAS COMPANY, TO CHANGE ITS
INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE IN ITS
MISSOURI GAS ENERGY SERVICE TERRITORY

COMES NOW Missouri Gas Energy ("MGE" or "Company"), an operating unit of Laclede Gas Company, pursuant to Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri, and 4 CSR 240-2.060, 2.080, and 3.265 of the Rules of the Missouri Public Service Commission ("Commission"), and for its Verified Application and Petition to Change its Infrastructure System Replacement Surcharge in its Missouri Gas Energy Service Territory (its "Application") and Motion for Expedited Treatment, respectfully states as follows:

I. BACKGROUND

1. Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri authorize eligible gas corporations to recover certain infrastructure replacement costs by establishing and updating an infrastructure system replacement surcharge ("ISRS"). MGE's current ISRS was established effective October 18, 2014 by Commission Order in Case No. GR-2015-0025, covering ISRS costs incurred through August 31, 2014. At the time MGE's ISRS was established, the Commission approved MGE's initial notice, annual notice and the surcharge description on MGE bills, all as

required by 4 CSR.240-3.265(8) and (9). No change to these items is requested or required as a result of this Application to change the ISRS.

2. Since MGE's ISRS was established, it has been changed once. That change became effective on May 22, 2015, covering ISRS costs incurred through February 28, 2015. Since February 28, the Company has continued to make ISRS-eligible investments. MGE submits this Application to change its ISRS to reflect these additional investments covering the period from March 1, 2015 through June 30, 2015, with pro-forma ISRS costs updated through August 31, 2015.

III. THE APPLICANT

3. MGE is an operating unit of Laclede Gas Company, which is duly incorporated under the laws of the State of Missouri and conducts business in its MGE service territory under the fictitious name of Missouri Gas Energy. Laclede's principal office is located at 700 Market Street, St. Louis, Missouri 63101. MGE's principal office is located at 3420 Broadway, Kansas City, Missouri 64111. A Certificate of Good Standing evidencing Laclede's standing to do business in Missouri was submitted in Case No. GF-2013-0085 and is incorporated by reference herein for all purposes. The information in such Certificate is current and correct.

4. In its Missouri Gas Energy service territory, MGE is engaged in the business of distributing and transporting natural gas to approximately 500,000 customers in the western Missouri counties of Andrew, Barry, Barton, Bates, Buchanan, Carroll, Cass, Cedar, Christian, Clay, Clinton, Dade, Dekalb, Greene, Henry, Howard, Jackson, Jasper, Johnson, Lafayette, Lawrence, McDonald, Moniteau, Pettis, Platte, Ray, Saline, Stone, and Vernon.

5. Communications in regard to this Application should be addressed to the persons below:

Rick Zucker
Associate General Counsel
Laclede Gas Company
700 Market Street, 6th Floor
St. Louis, MO 63101
(314) 342-0533
rick.zucker@thelacledegrou.com

Michael R. Noack
Director, Pricing and Regulatory Affairs
Missouri Gas Energy
3420 Broadway
Kansas City, Missouri 64111
(816) 360-5560
Michael.noack@thelacledegrou.com

6. Other than cases that have been docketed at the Commission, neither MGE nor Laclede has a pending action or final unsatisfied judgment or decision against it from any state or federal agency or court which involve customer service or rates within the past three years of the date of this application.

7. Laclede and MGE are current on their annual report and assessment fee obligations to the Commission; no such report or assessment fee is overdue.

IV. THE ISRS REQUEST

8. With this application, MGE requests an adjustment to its ISRS rate schedule to reflect ISRS-eligible infrastructure system investments made during the period March 1, 2015 through August 31, 2015.

9. In accordance with the provisions of Sections 393.1009-1015 and 4 CSR 240-3.265, the revised ISRS rate schedule reflects the appropriate pre-tax ISRS revenues necessary to produce net operating income equal to MGE's pre-tax rate of return

multiplied by the net original cost of the requested infrastructure replacements during this period that are eligible for the ISRS, including recognition of accumulated deferred income taxes and accumulated depreciation associated with eligible infrastructure system replacements that have been included in MGE's currently effective ISRS. MGE also seeks to recover all state, federal and local income or excise taxes applicable to such ISRS income, and to recover all other ISRS costs such as depreciation expense and property taxes due within 12 months of this filing.

A. Eligibility of Costs

10. The summary of the new infrastructure system replacements for which MGE seeks ISRS recognition are set forth on page 1 of Appendix A, with the details set forth on Appendices B, C and D, which are attached hereto and made a part hereof for all purposes. The infrastructure system replacements listed in the appendices are eligible gas utility plant projects in that they are either: a) mains, valves, service lines, regulator stations, vaults, and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition; or b) main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life, or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements; or c) unreimbursed infrastructure facility relocations due to the construction or improvement of a highway, road, street, public way or other public work required by or on behalf of the United States, the State of Missouri, a political subdivision of the State of Missouri, or another entity having the power of eminent domain.

11. In addition to meeting the foregoing criteria, the infrastructure system replacements listed in the appendices are also eligible for ISRS treatment because they: (a) did not increase revenues by directly connecting to new customers; (b) are currently in service and used and useful; (c) were not included in MGE's rate base in its most recently completed general rate case, or in a previous ISRS filing; and (d) replaced and/or extended the useful life of existing infrastructure. The details in Appendices B, C and D further describe when the ISRS projects were completed and became used and useful; the net original cost, costs eligible for recovery and a breakdown of those costs in accordance with Commission Rule 4 CSR 240-3.265(20)(K); and, a description of the projects in accordance with Commission Rule 4 CSR 240-3.265(20)(L).

B. Rate Schedules, Calculations and Supporting Documentation

12. Attached hereto is the rate schedule, with supporting documents in Appendices A, B, C and D, proposed by MGE in order to provide for the adjustment of its rates and charges to reflect recovery of eligible infrastructure costs. This proposed rate schedule, on an annualized basis, will produce additional ISRS revenues that do not exceed ten percent of MGE's base revenue level as approved by the Commission in its most recently completed general rate proceeding.

13. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes current local, state and federal income tax rates through a combined income tax rate conversion factor of 1.62308.

14. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a pre-tax rate of return of 9.75% per the approved

stipulation and agreement in MGE's most recently completed general rate proceeding (Case No. GR-2014-0007).

15. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes depreciation rates currently applicable to the eligible infrastructure system replacements, as approved by the Commission for MGE in the Rate Case.

16. In determining the appropriate monthly ISRS charge, the proposed rate schedule is based on a reasonable estimate of billing units in the period in which the charge will be in effect, derived by dividing the appropriate pre-tax revenues, as calculated above, by the average number of customers in the most recent year ended December 31, 2014, and then further dividing this quotient by twelve. Consistent with the methodology used in previous ISRS filings, the monthly ISRS charge is apportioned between customer classes in proportion to the customer charges applicable to those classes.

V. ADDITIONAL INFORMATION

17. Like Laclede Gas, MGE, as noted above, includes pro-forma estimates of ISRS investments made, or to be made, in July and August 2015, which estimates will be updated to actual in the next six weeks. MGE assumes that if a decision is made on this issue in the Laclede Gas case, it would also apply to MGE's ISRS investments.

18. In connection with 4 CSR 240-3.265(22), attached hereto and incorporated herein as Appendix E is a description of the Company's call center instructions pertaining to the ISRS, along with a description of ISRS information posted on the Company's website.

WHEREFORE, pursuant to 393.1015.2(3) RSMo and Commission Rule 3.265(12), MGE respectfully requests that the Commission issue an order approving a change to MGE's ISRS rate schedules to provide for the recovery of the eligible infrastructure system replacement investments made by MGE as described herein, and grant such other relief as may be necessary and appropriate to accomplish the purposes of Sections 393.1009 through 393.1015 and the parties agreement in the Rate Case.

Respectfully submitted,

/s/ Rick E. Zucker

place bare steel main - safety re	Addition	ISRS - Other	201503	(1,262.51)	Approved by: Steve Lindsey on 12/09/2013. This sector is the 4th highest on the Eastern Division Risk Assessment for the FY 2014 Accelerated Main Replacement Program. Gregory Heights is one of the few "rear easement" main installations in the Eastern Region. There are 13 active main leaks. 82 main leaks have been repaired/cleared since the advent of LRS. Getting men and equipment in the back yards with fences to repair leaks is difficult at best. We are not able to utilize the leak survey truck in this neighborhood and must survey all mains and services on foot through back yards with fences and dogs.	393.1009 (5) (a) (b)	A,B,C
place bare steel main - safety re	Addition	ISRS - Other	201504	(897.65)	Approved by: Steve Lindsey on 12/09/2013. rectifier Replacements	Addition	ISRS - Other	201503	3.72	Approved by: Randy Spector on 11/08/2013. This work order is necessary to replace the existing ground bed and rectifier originally installed on work order 76-3303. The ground bed is depleted to where there are several P/S readings below criteria. The new ground will have 5' 3" X 60' anodes spaced at 15' intervals in a private easement acquired previously. No electrical work will be required. All installation will be drilled in by contractor and MGE crews will perform balancing and adjustments. This rectifier is designed to protect approximately 5,234' of 2" PCS and 6,578' of 2" PBS main. Calculated current demand is 6.28 amps.		
rectifier Replacements	Addition	ISRS - Other	201504	(62.10)	Approved by: Randy Spector on 11/08/2013. This work order is necessary to replace the existing ground bed and rectifier originally installed on work order 76-3303. The ground bed is depleted to where there are several P/S readings below criteria. The new ground will have 5' 3" X 60' anodes spaced at 15' intervals in a private easement acquired previously. No electrical work will be required. All installation will be drilled in by contractor and MGE crews will perform balancing and adjustments. This rectifier is designed to protect approximately 5,234' of 2" PCS and 6,578' of 2" PBS main. Calculated current demand is 6.28 amps.		
rectifier Replacements	Addition	ISRS - Other	201505	(21.76)	Approved by: Randy Spector on 11/08/2013. This work order is necessary to replace the existing ground bed and rectifier originally installed on work order 76-3303. The ground bed is depleted to where there are several P/S readings below criteria. The new ground will have 5' 3" X 60' anodes spaced at 15' intervals in a private easement acquired previously. No electrical work will be required. All installation will be drilled in by contractor and MGE crews will perform balancing and adjustments. This rectifier is designed to protect approximately 5,234' of 2" PCS and 6,578' of 2" PBS main. Calculated current demand is 6.28 amps.		
rectifier Replacements	Addition	ISRS - Other	201506	(21.75)	Approved by: Randy Spector on 11/08/2013. This work order is necessary to replace the existing ground bed and rectifier originally installed on work order 76-3303. The ground bed is depleted to where there are several P/S readings below criteria. The new ground will have 5' 3" X 60' anodes spaced at 15' intervals in a private easement acquired previously. No electrical work will be required. All installation will be drilled in by contractor and MGE crews will perform balancing and adjustments. place cast iron main - CPI / pfo	Addition	ISRS - Other	201503	(43.29)	Approved by: Steve Lindsey on 11/18/2013, ISRS. Replace and abandon a total of 1414' of cast iron main in Sector 030 & 0308 with 1607' of PE. This work will be part of the Cast Iron Replacement Program as mandated by the Missouri Public Service Commission for calendar year 2014. New main will go into the C-175 KCLS pressure system. New main to operate at 50 psig MOP, 58 psig MAOP. Test all mains at 100 psi for a design MAOP = 68 psig. Existing main to be replaced has an MOP = 1.10 psig & MAOP = 2.20 psig. All service regulators will need to be changed. See attached sheet for the work order number, size and footage of main to be retired. 87 bare steel services are to be replaced. Replacement services are to be charged to a service replacement blanket work order. 297 covers of PE services are to be performed. A biologist meeting will need to be scheduled for 6a in and abandonment procedures.		
place cast iron main - CPI / pfo	Addition	ISRS - Other	201504	152.31	Approved by: Steve Lindsey on 11/18/2013, ISRS. Replace and abandon a total of 1414' of cast iron main in Sector 030 & 0308 with 1607' of PE. This work will be part of the Cast Iron Replacement Program as mandated by the Missouri Public Service Commission for calendar year 2014. New main will go into the C-175 KCLS pressure system. New main to operate at 50 psig MOP, 58 psig MAOP. Test all mains at 100 psi for a design MAOP = 68 psig. Existing main to be replaced has an MOP = 1.10 psig & MAOP = 2.20 psig. All service regulators will need to be changed. See attached sheet for the work order number, size and footage of main to be retired. 87 bare steel services are to be replaced. Replacement services are to be charged to a service replacement blanket work order. 297 covers of PE services are to be performed. A biologist meeting will need to be scheduled for 6a in and abandonment procedures.		
place cast iron main - CPI / pfo	Addition	ISRS - Other	201505	54.42	Approved by: Steve Lindsey on 11/18/2013, ISRS. cliffr Replacements	Addition	ISRS - Other	201503	(140.24)	Approved by: Randy Spector on 11/08/2013. This work order is necessary to replace the existing ground bed and recifier originally installed on work order 79-0234. The ground bed is depicted to where there are several PVS readings below criteria. The new ground will have 10' X 60' anodes spaced at 15' intervals in a private easement acquired previously on the Three Trials Elementary school property. Anodes will be drilled in by contractor and VGE crews will complete installation. This recifier is designed to protect approximately 1,200' of 4" PCS and 6,500' of 4" PBS main. The current demand is approximately 11.33 amps.		
cliffr Replacements	Addition	ISRS - Other	201504	1,639.45	Approved by: Randy Spector on 11/09/2013. This work order is necessary to replace the existing ground bed and recifier originally installed on work order 79-0234. The ground bed is depicted to where there are several PVS readings below criteria. The new ground will have 10' X 60' anodes spaced at 15' intervals in a private easement acquired previously on the Three Trials Elementary school property. Anodes will be drilled in by contractor and VGE crews will complete installation. This recifier is designed to protect approximately 1,200' of 4" PCS and 6,500' of 4" PBS main. rectifier Replacements	Addition	ISRS - Other	201503	(9.22)	Approved by: Randy Spector on 11/10/2011. ISRS This work order is necessary to replace the existing rectifier that was destroyed by lightning and replace the existing grounded all installed on work order 74-2095. Then, install ten 4' X 62in graphite anodes and a 60V 30A Rectifier on Peris Drive. After the installation of the new grounded investigations will be done to attempt to eliminate rectifier/grounded W0256 located County road N of Montserrat, original installation 77-0765, which is creating issues with the 8in high pressure feeder main installed in 2000. Thence, also attempt to eliminate rectifier/grounded W0164, original installation 75-0302 which circuit resistivity is at 4.6 ohms indicating the grounded is depulging.		
rectifier Replacements	Addition	ISRS - Other	201504	32.52	Approved by: Randy Spector on 11/10/2011. ISRS This work order is necessary to replace the existing rectifier that was destroyed by lightning and replace the existing grounded all installed on work order 74-2095. set & highway relocates	Addition	ISRS - Other	201506	(61.04)	Approved by Steve Lindsey on 02/26/2014. (SRS). Replace 9,743 feet in River Market area due to public improved project. Instal 2,220'-26in PCS, 872'-2in PCS, 335'-6in PCS, 747'-4in PE, 5,995'-4in PCS, 1,537'-2in PE, 332'-2in PCS. Contractor needs to take pictures and video of work area before work has started and after work has been completed. Contact Chris Colne (772-3415) 1 week prior to start of work to schedule staking. Tie-over 48 services. COST PER FOOT \$103.03	393.1009 (5) (C)	
place bare steel main - safety re	Addition	ISRS - Other	201503	(3,491.90)	Approved by Steve Lindsey on 04/01/2014. Accelerated Main Replacement: Replace 17,439' of PBS, 6,259' of PCS, and 1,147' of PE main with 22,300' - 2" PE and 347' - 4" PE. After this work order is complete we will retire 2 existing stations - DRS# 48 at Sterling and 32nd (on W#1 14-341), and DR#59 at Norton and 32nd (on W#1 14-342). This WO will make DRS 119 at 32nd and Shady Bend a single feed station. We will also retire Recifert# D429 - 33rd and Vermont. The 2 DRS to retire feed the C-001 pressure system (WOP = 1.33 psig, MAOP = 1.5 psig). The new main will be fed onto the C-500 pressure system (WOP = 30 psig, MAOP = 44 psig). 2,624' of 4" PBS to be replaced is on the C-500 system feeding the three DRS. The difference in fugage between abandon-replace main is due to the dual mains on 32nd between Sterling and Vermont and 10 piping for the two DRS to be replaced. Main to abandon: 15' - 2in PBS - W#04 26525; 334' - 2in PBS - W#04 30455; 187' - 4in PBS - W#04 39722; 476' - 2in PBS - W#04 43575; (61' - 2in PBS - W#04 50245; 72' - 4in PBS - W#04 52577; 931' - 2in PBS - W#04 A118; 191' - 4in PBS - W#04 A2033; 1,055' - 4in PBS - W#04 A2528; 37' - 2in PBS - W#04 A2811; 1131' - 4in PBS - W#04 A2811; 591' - 4in PBS - W#04 A3321706'; 4in PBS - W#04 A5108; 1064' - 4in PBS - W#04 A6237; 1169' - 4in PBS - W#04 A6590; 1627' - 4in PBS - W#04 A5748; 2511' - 4in PBS - W#04 A7295; 1049' - 4in PBS - W#04 A7608; 597' - 4in PBS - W#04 A8245; 2154' - 4in PBS - W#04 A8347; 1859' - 4in PCS - W#04 A9448; 632' - 4in PCS - W#04 B1492A; 327' - 2in PCS - W#04 B1492B; 357' - 4in PCS - W#04 513974; 189' - 4in PCS - W#04 B34384; 133' - 2in PCS - W#04 674428; 2505' - 2in PCS - W#04 674427; 724' - 3in PE - W#04 790219; 56' - 2in PCS - W#04 810359; 7' - 4in PCS - W#04 810359; 109' - 4in PCS - W#04 87149; 68' - 2in PCS - W#04 87149S; 3' - 4in PE - W#04 913115; 5' - 4in PE - W#04 013048; 403' - 4in PE - W#04 036097; 5' - 2in PE - W#04 055097; 57' - 4in PCS - W#04 055335. (SRS) - Price per ft = \$38.71		
place bare steel main - safety re	Addition	ISRS - Other	201504	(730.09)	Approved by Steve Lindsey on 04/01/2014. Accelerated Main Replacement: Replace 17,439' of PBS, 6,259' of PCS, and 1,147' of PE main with 22,300' - 2" PE and 347' - 4" PE. After this work order is complete we will retire 2 existing stations - DRS# 48 at Sterling and 32nd (on W#1 14-341), and DR#59 at Norton and 32nd (on W#1 14-342). The new main will be fed onto the C-500 pressure system (MOP = 30 psig, MAOP = 44 psig). 2,624' of 4" PBS to be replaced is on the C-500 system feeding the three DRs. The difference in footage between abandon/replacement is due to the dual mains on 32nd between Sterling and Vermont and 10 piping for the two DRs to be retired. Main to abandon: 166' - 2n PBS - WO# 26525; 347' - 2n PBS - WO# 50246; 72' - 4n PBS - WO# 62577; 581' - 2n PBS - WO# A1318; 191' - 4n PBS - WO# A2033; 1059' - 4n PBS - WO# A2228; 37' - 2n PBS - WO# A2311; 1131' - 4n PBS - WO# A2811; 591' - 4n PBS - WO# A3321705'; 4n PBS - WO# A5108; 166' - 4n PBS - WO# A6237; 1169' - 4n PBS - WO# A6350; 1627' - 4n PBS - WO# A8746; 2511' - 4n PBS - WO# A7288; 1049' - 4n PBS - WO# A7008; 560' - 4n PBS - WO# A8245; 2154' - 4n PBS - WO# A8347; 1655' - 4n PCS - WO# A9446; 632' - 4n PCS - WO# B1492A; 322' - 2n PCS - WO# B1492B; 357' - 4n PCS - WO# B13974; 189' - 4n PCS - WO# B3434; 137' - 3n PCS - WO# B74428; 2505' - 2n PCS - WO# B74427; 724' - 3n PE - WO# 700319; 55' - 2n PCS - WO# 871495; 3' - 4n PE - WO# 913115; 5' - 4n PE - WO# 013045; 403' - 4n PE - WO# 036097; 5' - 2n PE - WO# 039397; 57' - 4n PCS - WO# 058335. (SR5) - Price per ft = \$33.71	393.1009 (5) (a) (b)	A,B,C
place bare steel main - safety re	Addition	ISRS - Other	201503	(1,033.90)	Approved by: Steve Lindsey on 04/01/2014. This work order is being written as part of the accelerated main replacement program. We will replace all PBS and PCS main within the C-027 pressure system with 7.87' of 2" PE. This will allow us to retire the two DRs that feed this pressure system - DRs 8 at 35th and Bus Ridge Blvd (retire on WO# 14-3456) and DRs 134 at 40th and Sterling (retire on WO# 14-3457). C-027: MOP = MAOP = 2 psig. C-500: MOP = 30 psig. MAOP = 44 psig. All services on existing plastic have been checked for adequate pressure test. There are 11 that will be cut off, pressure tested, EFV installed and 5 that have wmp saddle fittings replaced, pressure tested, EFV installed prior to tying onto the C-500 pressure system. All existing PE main has an adequate pressure test for the pressure increase. Main to abandon: 1668' - 2" PBS (WO# J05113); 1181' - 4" PBS (WO# A6057); 787' - 4" PBS (WO# A4402); 816' - 4" PBS (WO# A7302); 1009' - 4" PCS (WO# B1505); 178' - 4" PCS (WO# 65940); 929' - 4" PCS (WO# 61-1583); 24' - 4" PCS (WO# 61-3033); 989' - 2" PCS (WO# 62-6853); 10' - 2" PE (WO# 08-5100). (SR5) Price per ft = \$32.65		
place bare steel main - safety re	Addition	ISRS - Other	201504	(873.00)	Approved by: Steve Lindsey on 04/01/2014. This work order is being written as part of the accelerated main replacement program. place cast iron main - CPI / pto	Addition	ISRS - Other	201503	46.39	Approved by: Steve Holcomb on 04/11/2014. ISRS. Replace and abandon a total of 20,604' of cast iron main in Sector 0306 with 21,313' of PE. This work will be part of the Cast Iron Replacement Program as mandated by the Missouri Public Service Commission for calendar year 2014. New main will tie into the C-175 KCLS pressure system. New main to operate at 50 psig MOP, 58 psig MAOP. Test all mains at 100 psi for a design MOP = 58 psig. Existing main to be replaced has an MOP = 1.10 psig & MAOP = 2.20 psig. All service regulators will need to be changed. 84 bare steel services are to be replaced. Replacement services are to be charged to a service replacement blanket work order. 374 receivers of PE services are to be performed. A tailgate meeting will need to be scheduled for tie in and abandonment procedures.		
place cast iron main - CPI / pto	Addition	ISRS - Other	201504	(173.59)	Approved by: Steve Holcomb on 04/11/2014. ISRS. Replace and abandon a total of 20,604' of cast iron main in Sector 0306 with 21,313' of PE. This work will be part of the Cast Iron Replacement Program as mandated by the Missouri Public Service Commission for calendar year 2014. New main will tie into the C-175 KCLS pressure system. New main to operate at 50 psig MOP, 58 psig MAOP. Test all mains at 100 psi for a design MOP = 58 psig. Existing main to be replaced has an MOP = 1.10 psig & MAOP = 2.20 psig. place steel & plastic main	Addition	ISRS - Other	201505	0.10	Approved by: Steve Holcomb on 04/18/2014, The existing bridge valve setting installed in 1991 on the original Grain Valley lateral feeding DR5 1 is leaking. Replace the bridge and valve/valve to DR5 1 on WOF# 14-3475. Rebuild DR5 1 on WOF# 14-3474. Main to abandon: 165' - 12" PCS (WOF# 61-1515); 60' - 6" PCS (WOF# 61-1498); INLET/OUTLET to DR5 #1: 61" - 6" PCS AND 45" - 4" PCS (WOF# 63-1933).		

Estimates for July and August 2015

Funding Project Description	FERC Activity	Category	Month	Addition Amount	Work Order Description	Statute Section	State or Federal Requirement
place steel & plastic main	Addition	ISRS - Other	201508	(810.88)	Approved by Steve Holcomb on 04/16/2014. The existing bridge valve setting installed in 1991 on the original Green Valley lateral feeding DRS 1 is leaking. Replace the bridge and relocate to DRS 1 on WO# 14-3475. Rebuild DRS 1 on WO# 14-3474. Main to abandon: 16" - 12" PCS (WO# 61-1515); 60" - 6" PCS (WO# 61-1459); INLET/OUTLET to DRS #1: 61" - 6" PCS AND 45" - 4" PCS (WO# 68-1933).	393.1009 (5) (a) (b)	A,B
place bare steel main - safety re	Addition	ISRS - Other	201503	0.81	Approved by Steve Holcomb on 04/23/2014. Replace main around 31st and Overton with 3425' - 2" PE and 160' - 1-1/4" PE. The City of Independence has a storm improvement project with a 54" culvert crossing 31st St near the west property line of 9930 E 31st that would require us to relocate 4" PCS (from 1953). This main is on a single feed pressure system near the dead end (S-179). MOP = MADP = 2 psig, fed from 29th and Westport Rd. There is a lot of PBS main in the S-179 pressure system and we would like to eventually replace all steel main in the system with PE to retire the DRS. By performing this WO we will take the dead end 1953' off of this system and replace with 2" PE on the C-500 pressure system (MOP = 30 psig, MADP = 44 psig). This will also create a loop where before there were two dead ends and get us into one of our higher risk sectors (02-01-1303). Main to retire: 578' - 4" PBS (WO# A2631); 333' - 4" PCS (WO# A4029); 260' - 2" PBS (WO# 26534); 18' - 2" PBS (WO# 37684); 126' - 2" PBS (WO# 33333); 50' - 2" PBS (WO# 45594); 82' - 4" PBS (WO# 43327); 242' - 2" PBS (WO# 49146); 84' - 2" PBS (WO# 53016); 32' - 2" PBS (WO# 63017); 651' - 4" PCS (WO# 61-1523); 504' - 2" PCS (WO# 68-7877); 50' - 4" PCS (WO# 71-3385); Z - 4" PCS (WO# 95-1257); 169' - 2" PE (WO# E323574). (SR5) Price per ft = \$33.43	393.1009 (5) (a) (b)	A,B
place bare steel main - safety re	Addition	ISRS - Other	201504	(2.98)	Approved by Steve Holcomb on 04/23/2014. Replace main around 31st and Overton with 3425' - 2" PE and 160' - 1-1/4" PE. The City of Independence has a storm improvement project with a 54" culvert crossing 31st St near the west property line of 9930 E 31st that would require us to relocate 4" PCS (from 1953). place bare steel main - safety re	Addition	ISRS - Other	201503	203.21	Approved by: Steve Holcomb on 05/03/2014. The City of Independence has a yearly street overlay project. This year they will replace 35th Terr and 35th St from 40 to Blue Ridge Blvd, as well as 34th St between Evanson and Cedar/SR55. Much of the existing main is bare steel and in the roadway. This is an area that will be targeted for replacement on WO# 14-3515. Replace all steel main on these streets with 4,120' - 2" PE. This main and existing PE in the system will be fed onto the C-500 pressure system as part of WO# 14-3515 and WO# 14-3517, so all service tie-overs will require an EVF and regulator change out for the increased pressure. Main to abandon: 2017 - 2" PBS: 169 - WO# 12459; 101' - WO# 13267; 326' - WO# 13659; 210' - WO# 13760; 189' - WO# 14055; 62' - WO# 16332; 112' - WO# 17395; 334' - WO# 25841; 65' - WO# 36325; 42' - WO# 40583; 74' - WO# 43330; 300' - WO# 50940; 1659' - 4" PBS: 693' - WO# A1141; 279' - WO# A1971A; 633' - WO# J07655; 120' - 2" PGS (WO# 61281); 64' - 4" PGS (WO# 611812); 119' - 4" PGS (WO# 63-073); 89' - 2" PGS (WO# 79-0333); 40' - 4" PE (WO# 98-3723). (ISRS) 65 be-overs. Price per ft = \$32.72 Our main lines are not in contact with the paving, but we are choosing to replace the main before the overlay project to avoid future cutting of their new pavement to provide utility crossings during replacement.		
place bare steel main - safety re	Addition	ISRS - Other	201504	(1,975.51)	Approved by: Steve Holcomb on 05/03/2014. The City of Independence has a yearly street overlay project. place steel & plastic main	Addition	ISRS - Other	201503	1,158.74	Approved by: Ralph Jones on 05/12/2014. In 2003 the existing CI and PBS main at Evanston, Overton Terr, and 34th St to Overton was replaced on WO# 03-6025. We were charged for 44 service tie-overs, but discovered recently that we have no service tie-over cards for these. On this WO, we will cut and cap some of the existing PE in order to isolate the PE from existing PBS in the area, then tie the PE onto the C-500 pressure system. Prior to doing so, IJW will expose all service taps, cut off and pressure test the service lines, install EFVs, and change out service regulators and document doing so. This will set us up to install new PE main on WO's 14-3515 and 14-3520 on the C-500 pressure system.		
place steel & plastic main	Addition	ISRS - Other	201504	(330.59)	Approved by: Ralph Jones on 05/12/2014. place bare steel main - safety re	Addition	ISRS - Other	201503	7,325.08	Approved by: Steve Holcomb on 05/14/2014. Accelerated Main Replacement: This WO is to replace a total of 27,810' of main, mostly PBS in one of our high risk sectors identified through our DMP plan(02-01-1303) with 7,059' - 6", 5" - 4", 20,650' - 2" PE main and 5" - 2" thin film with new 2" gate valve to DR5 23. It is to be completed after WO#s 14-3520 and 14-3547. By replacing this main we will be able to raise the pressure on some existing PE main and retire two reg stations - #33 at Blue Ridge Blvd and 36th Terr and #37 at 35th and Arlington (WO# 14-3567 and 14-3568, respectively). Please see Pipe tab for info on main to be retired. (SRS) Price per ft = \$42.22		
place bare steel main - safety re	Addition	ISRS - Other	201504	(4,080.83)	Approved by: Steve Holcomb on 05/14/2014. Accelerated Main Replacement: This WO is to replace a total of 27,810' of main, mostly PBS in one of our high risk sectors identified through our DMP plan(02-01-1303) with 7,059' - 6", 5" - 4", 20,650' - 2" PE main and 5" - 2" thin film with new 2" gate valve to DR5 23. It is to be completed after WO#s 14-3520 and 14-3547. By replacing this main we will be able to raise the pressure on some existing PE main and retire two reg stations - #33 at Blue Ridge Blvd and 36th Terr and #37 at 35th and Arlington (WO# 14-3567 and 14-3568, respectively). Please see Pipe tab for info on main to be retired. (SRS) Price per ft = \$40.23		
place bare steel main - safety re	Addition	ISRS - Other	201505	(993.59)	Approved by: Steve Holcomb on 05/14/2014. Accelerated Main Replacement: This WO is to replace a total of 27,810' of main, mostly PBS in one of our high risk sectors identified through our DMP plan(02-01-1303) with 7,059' - 6", 5" - 4", 20,650' - 2" PE main and 5" - 2" thin film with new 2" gate valve to DR5 23. It is to be completed after WO#s 14-3520 and 14-3547. By replacing this main we will be able to raise the pressure on some existing PE main and retire two reg stations - #33 at Blue Ridge Blvd and 36th Terr and #37 at 35th and Arlington (WO# 14-3567 and 14-3568, respectively). Please see Pipe tab for info on main to be retired. (SRS) Price per ft = \$40.23		
place bare steel main - safety re	Addition	ISRS - Other	201506	(2,147.88)	Approved by: Steve Holcomb on 05/14/2014. Accelerated Main Replacement: This WO is to replace a total of 27,810' of main, mostly PBS in one of our high risk sectors identified through our DMP plan(02-01-1303) with 7,059' - 6", 5" - 4", 20,650' - 2" PE main and 5" - 2" thin film with new 2" gate valve to DR5 23. cliffr initial installations	Addition	ISRS - Other	201503	4,129.46	Approved by: Mark Lauber on 08/08/2014. This work order is necessary to install a 20 volt 10 amp Universal Rectifier with a 5 rod 3' X 60' graphite anode ground bed. This rectifier will protect all the main installed on work order 13-2400, the relocation of the 24" main for the trolley car project in the River Market area. Shaw Electric will install the power, set the rectifier and take care of the electrical inspection and DTS will install the ground bed. This ground bed will be installed in the Highway Right of Way between Independence Ave and I-35. Permission for this installation was obtain from MODOT with stipulations of rectifier location. See map attached for further details.		
cliffr initial installations	Addition	ISRS - Other	201504	(325.80)	Approved by: Mark Lauber on 08/08/2014. place steel & plastic main	Addition	ISRS - Other	201503	144,794.51	Approved by: Steve Hobcomb on 08/19/2014. Replace and reline 500' - 12" pos main (work order 61-1515) for pipeline transmission integrity by installing 500' of 12" 250wt X-52 coated pipe. We will be replacing the existing Grain Valley DRS #1 bridge valve setting on work order 14-3475 and wish to capitalize on the opportunity to replace the bore shot under I-70 and to replace the High Consequence Area (HCA) at the DRS caused by the proximity of a Day Care Center while the main is out of service. A hydro-test of the existing main on the North side of I-70 West of Buckner Tersney Route 88 will occur at the same time on work order 14-7777.		
place steel & plastic main	Addition	ISRS - Other	201504	(1,392.16)	Approved by: Steve Hobcomb on 08/19/2014. Replace and reline 500' - 12" pos main (work order 61-1515) for pipeline transmission integrity by installing 500' of 12" 250wt X-52 coated pipe. rectifier Replacements	Addition	ISRS - Other	201503	24.56	Approved by: Mark Lauber on 08/21/2014. This work order is necessary to replace the existing rectifier and ground bed originally installed on work order 77-2561 then six additional anodes were added on work order 05-6907. The pipe to soil readings associated with this system are below cathodic protection criteria. Therefore, a new Universal 60 volt 30 amp rectifier will be required with fifteen 3" X 60" graphite anodes installed in the same location as the existing rectifier. No electrical work or easement work will be required.		
rectifier Repacements	Addition	ISRS - Other	201504	(508.08)	Approved by: Mark Lauber on 08/21/2014. This work order is necessary to replace the existing rectifier and ground bed originally installed on work order 77-2561 then six additional anodes were added on work order 05-6907. The pipe to soil readings associated with this system are below cathodic protection criteria. Therefore, a new Universal 60 volt 30 amp rectifier will be required with fifteen 3" X 60" graphite anodes installed in the same location as the existing rectifier. No electrical work or easement work will be required.		
rectifier Replacements	Addition	ISRS - Other	201505	(176.78)	Approved by: Mark Lauber on 08/21/2014. This work order is necessary to replace the existing rectifier and ground bed originally installed on work order 77-2561 then six additional anodes were added on work order 05-6907. The pipe to soil readings associated with this system are below cathodic protection criteria. Therefore, a new Universal 60 volt 30 amp rectifier will be required with fifteen 3" X 60" graphite anodes installed in the same location as the existing rectifier. No electrical work or easement work will be required.		
rectifier Replacements	Addition	ISRS - Other	201506	3,248.33 2,588.03	Approved by: Mark Lauber on 08/21/2014. This work order is necessary to replace the existing rectifier and ground bed originally installed on work order 77-2561 then six additional anodes were added on work order 05-6907. The pipe to soil readings associated with this system are below cathodic protection criteria. Therefore, a new Universal 60 volt 30 amp rectifier will be required with fifteen 3" X 60" graphite anodes installed in the same location as the existing rectifier. No electrical work or easement work will be required.	393.1009 (5) (a), (b)	A, B, E
rectifier Initial Installation	Addition	ISRS - Other	201503	7,299.50	Approved by: Mark Lauber on 08/21/2014. This work order is necessary to install a new 40 Volt 20 Amp Universal rectifier and a ten 3" X 60" graphite rod ground bed. This rectifier will restore cathodic protection acceptable criteria levels on the 6" and 12" main along "A" Highway and the 6" main south of Nashua Road and the 12" main south to Ruth Ewing Road. The ground bed will be installed next to a drainage area as established in Northwick Plat 1, Track 1. The electrical will be installed and coordinated with KCP&L by Shaw Electric. A contractor will install the grounded under inspection of MGE.		
rectifier Initial Installation	Addition	ISRS - Other	201504	(824.80)	Approved by: Mark Lauber on 08/21/2014. This work order is necessary to install a new 40 Volt 20 Amp Universal rectifier and a ten 3" X 60" graphite rod ground bed. This rectifier will restore cathodic protection acceptable criteria levels on the 6" and 12" main along "A" Highway and the 6" main south of Nashua Road and the 12" main south to Ruth Ewing Road. The ground bed will be installed next to a drainage area as established in Northwick Plat 1, Track 1. The electrical will be installed and coordinated with KCP&L by Shaw Electric. A contractor will install the grounded under inspection of MGE.		
rectifier Initial Installation	Addition	ISRS - Other	201505	(288.77)	Approved by: Mark Lauber on 08/21/2014. This work order is necessary to install a new 40 Volt 20 Amp Universal rectifier and a ten 3" X 60" graphite rod ground bed. This rectifier will restore cathodic protection acceptable criteria levels on the 6" and 12" main along "A" Highway and the 6" main south of Nashua Road and the 12" main south to Ruth Ewing Road. The ground bed will be installed next to a drainage area as established in Northwick Plat 1, Track 1. The electrical will be installed and coordinated with KCP&L by Shaw Electric. A contractor will install the grounded under inspection of MGE.		
rectifier Initial Installation	Addition	ISRS - Other	201506	(266.50) 5,919.43	Approved by: Mark Lauber on 08/21/2014. This work order is necessary to install a new 40 Volt 20 Amp Universal rectifier and a ten 3" X 60" graphite rod ground bed. This rectifier will restore cathodic protection acceptable criteria levels on the 6" and 12" main along "A" Highway and the 6" main south of Nashua Road and the 12" main south to Ruth Ewing Road. The ground bed will be installed next to a drainage area as established in Northwick Plat 1, Track 1. The electrical will be installed and coordinated with KCP&L by Shaw Electric. A contractor will install the grounded under inspection of MGE.	393.1009 (5) (a), (b)	A, B, E
rectifier Replacements	Addition	ISRS - Other	201503	(20.35)	Approved by: Mark Lauber on 09/25/2014. This work order is necessary to relocate the Vella Road rectifier and ground bed to a different location due to the replacement of the 16 inch and 8 inch to a single 20 inch line resulting from a public improvement project. The new location will be in a private easement behind 8712 Lee's Summit Road, Kansas City, MO. The existing rectifier purchased on work order 98-3520 will be utilized, however the ground bed will be abandoned and a new fifteen graphite 3" X 60" rod will be installed. Shaw Electric will take care of all the electrical including installation, permits and inspections. Dupree Testing Services will install the ground bed.		
rectifier Replacements	Addition	ISRS - Other	201504	460.12	Approved by: Mark Lauber on 08/25/2014. This work order is necessary to relocate the Vella Road rectifier and ground bed to a different location due to the replacement of the 16 inch and 8 inch to a single 20 inch line resulting from a public improvement project. The new location will be in a private easement behind 8712 Lee's Summit Road, Kansas City, MO. The existing rectifier purchased on work order 98-3520 will be utilized, however the ground bed will be abandoned and a new fifteen graphite 3" X 60" rod will be installed. Shaw Electric will take care of all the electrical including installation, permits and inspections. Dupree Testing Services will install the ground bed.

clifier Replacements	Addition	ISRS - Other	201505	(252.71)	Approved by: Mark Lazar on 08/26/2014. This work order is necessary to relocate the Vela Road rectifier and ground bed to a different location due to the replacement of the 16 inch and 8 inch to a single 20 inch line resulting from a public improvement project. The new location will be in a private easement behind 8712 Lee's Summit Road, Kansas City, MO. The existing rectifier purchased on work order 09-3520 will be utilized, however the ground bed will be abandoned and a new trench graphite 3" X .67 rod will be installed. Shaw Electric will take care of all the electrical including installation, permits and inspections. Dupree Testing Services will install the ground bed.		
clifier Replacements	Addition	ISRS - Other	201506	(209.83) (22.82)	Approved by: Mark Lazar on 09/25/2014. This work order is necessary to relocate the Vela Road rectifier and ground bed to a different location due to the replacement of the 16 inch and 8 inch to a single 20 inch line resulting from a public improvement project. The new location will be in a private easement behind 8712 Lee's Summit Road, Kansas City, MO. place cast iron main - CPI / prio	Addition	ISRS - Other	201503	413.54	Approved by: Gary Williams on 09/03/2014. AOR. This job must be completed by Dec. 12, 2014. Replace 65ft of 6in CI with 6in PE due to 25' of exposed pipe. CI pipe was exposed from 6' NSCB TO 23' SSBC of 29th Street. No services to be ever.		
place cast iron main - CPI / prio	Addition	ISRS - Other	201504	(607.43)	Approved by: Gary Williams on 09/06/2014. AOR. This job must be completed by Dec. 12, 2014. Replace 65ft of 6in CI with 6in PE due to 25' of exposed pipe. CI pipe was exposed from 6' NSCB TO 23' SSBC of 29th Street. No services to be ever.		
place cast iron main - CPI / prio	Addition	ISRS - Other	201505	(271.47)	Approved by: Gary Williams on 06/06/2014. AOR. This job must be completed by Dec. 12, 2014. Replace 65ft of 6in CI with 6in PE due to 25' of exposed pipe. CI pipe was exposed from 6' NSCB TO 23' SSBC of 29th Street. No services to be ever.		
place cast iron main - CPI / prio	Addition	ISRS - Other	201506	(289.84) (965.20)	Approved by: Gary Williams on 09/03/2014. AOR. This job must be completed by Dec. 12, 2014. Replace 65ft of 6in CI with 6in PE due to 25' of exposed pipe. CI pipe was exposed from 6' NSCB TO 23' SSBC of 29th Street. No services to be ever.	393.1009 (5) (a) (b)	A,B,C,D,I
place bare steel main - safety re	Addition	ISRS - Other	201503	681.38	Approved by: Gary Williams on 09/08/2014. Replace PBS for down project. Pressure system C-10		
place bare steel main - safety re	Addition	ISRS - Other	201504	1,726.40	Approved by: Gary Williams on 09/08/2014. Replace PBS for down project. Pressure system C-10		
place bare steel main - safety re	Addition	ISRS - Other	201505	(474.94)	Approved by: Gary Williams on 09/08/2014. Replace PBS for down project. Pressure system C-10		
place bare steel main - safety re	Addition	ISRS - Other	201506	(2,125.94) 6.90	Approved by: Gary Williams on 09/08/2014. Replace PBS for down project. Pressure system C-10	393.1009 (5) (a) (b)	A,B,C
place bare steel main - safety re	Addition	ISRS - Other	201503	(155.15)	Approved by: Galen Shoemaker on 06/08/2014. Lay 255ft 2in Plastic Main to replace 266ft 2in Bare Steel from 46552 and 19ft of 2in Bare Steel from 45506 due to isolated bare steel had started having multiple leaks. MOP=42# MADP=42# TEST=100# SYSTEM=C-1 ISRS		
place bare steel main - safety re	Addition	ISRS - Other	201504	(1,256.15)	Approved by: Galen Shoemaker on 06/08/2014. Lay 255ft 2in Plastic Main to replace 266ft 2in Bare Steel from 46552 and 19ft of 2in Bare Steel from 45506 due to isolated bare steel had started having multiple leaks. MOP=42# MADP=42# TEST=100# SYSTEM=C-1 ISRS		
place bare steel main - safety re	Addition	ISRS - Other	201505	(403.59)	Approved by: Galen Shoemaker on 06/08/2014. Lay 255ft 2in Plastic Main to replace 266ft 2in Bare Steel from 46552 and 19ft of 2in Bare Steel from 45506 due to isolated bare steel had started having multiple leaks. MOP=42# MADP=42# TEST=100# SYSTEM=C-1 ISRS		
place bare steel main - safety re	Addition	ISRS - Other	201506	(222.23) (2,037.12)	Approved by: Galen Shoemaker on 06/08/2014. Lay 255ft 2in Plastic Main to replace 266ft 2in Bare Steel from 46552 and 19ft of 2in Bare Steel from 45506 due to isolated bare steel had started having multiple leaks. MOP=42# MADP=42# TEST=100# SYSTEM=C-1 ISRS	393.1009 (5) (a) (b)	A,B,C
place steel & plastic main	Addition	ISRS - Other	201503	8.36	Approved by: Galen Shoemaker on 09/15/2014. Lower 167' - 2' PE main (WOF: 92-6050) due to construction over shallow main. Project Location: Doughboy Dr North of 32nd St; Pressure System: C-1; MOP: 58 psig; MADP: 58 psig; Design: 58 psig; Test: 100 psig; \$34,349		
place steel & plastic main	Addition	ISRS - Other	201504	(33.14)	Approved by: Galen Shoemaker on 09/15/2014. Lower 167' - 2' PE main (WOF: 92-6050) due to construction over shallow main. Project Location: Doughboy Dr North of 32nd St; Pressure System: C-1; MOP: 58 psig; MADP: 58 psig; Design: 58 psig; Test: 100 psig; \$34,349		
place steel & plastic main	Addition	ISRS - Other	201505	(10.23)	Approved by: Galen Shoemaker on 09/15/2014. Lower 167' - 2' PE main (WOF: 92-6050) due to construction over shallow main. Project Location: Doughboy Dr North of 32nd St; Pressure System: C-1; MOP: 58 psig; MADP: 58 psig; Design: 58 psig; Test: 100 psig; \$34,349		
place steel & plastic main	Addition	ISRS - Other	201506	(7.30)	Approved by: Galen Shoemaker on 09/15/2014. Lower 167' - 2' PE main (WOF: 92-6050) due to construction over shallow main. Project Location: Doughboy Dr North of 32nd St; Pressure System: C-1; MOP: 58 psig; MADP: 58 psig; Design: 58 psig; Test: 100 psig; \$34,349

394-100-PIPESAFE	Addition	ISRS - Other	201503	81,207.21	Approved by: Mark Lauber on 10/09/2014, MGE does not have verifiable tests and mill specs, for much of the Grain Valley Lateral Transmission Main. MGE will be replacing a leaking bridge valve at the Grain Valley TBS on work order 14-3475 and will be replacing the I-70 crossing on work order 14-3738. MGE had previously relocated/replaced that portion of the Grain Valley Lateral East of MO Route 88 on work order 12-1214 for which verifiable tests and mill specs, are on file. This work order will utilize TDW Services and other vendors to document, provide environmental services and hydrotest that portion of original piping north of I-70 between MO Route 88 and the new I-70 crossing as well as perform a Non-Destructive Evaluation to provide the missing required data. (ISRS)		
394-100-PIPESAFE	Addition	ISRS - Other	201504	81,994.00	Approved by: Mark Lauber on 10/09/2014, MGE does not have verifiable tests and mill specs, for much of the Grain Valley Lateral Transmission Main. place bare steel main - safety re	Addition	ISRS - Other	201504	241,629.63	Approved by: Steve Holcomb on 11/05/2014. Main Replacement project. Replace and abandon existing mains on C-009 pressure system with 7,744' -2" of PE on C-500 Intermediate pressure system between Turner St and Ann St and Independence Ave and Truman Rd. One of the DRs feeding this C-009 pressure system was hit by a car. We are choosing to replace the bare steel main and update the system rather than rebuilding the damaged DRs. 65 6e-overs. Summary of main to abandon (see pipe tab for details): 4,822' -2" PBS, 2,589' -2" PCS, 32' -4" PCS, and 57' -2" PE. Price per ft = \$24.93. Note: DRs #37 and DRs #90 to be referred on separate work orders. (ISRS)		
place bare steel main - safety re	Addition	ISRS - Other	201505	405.93	Approved by: Steve Holcomb on 11/05/2014. Main Replacement project. Replace and abandon existing mains on C-009 pressure system with 7,744' -2" of PE on C-500 Intermediate pressure system between Turner St and Ann St and Independence Ave and Truman Rd. One of the DRs feeding this C-009 pressure system was hit by a car. We are choosing to replace the bare steel main and update the system rather than rebuilding the damaged DRs. 65 6e-overs. Summary of main to abandon (see pipe tab for details): 4,822' -2" PBS, 2,589' -2" PCS, 32' -4" PCS, and 57' -2" PE. Price per ft = \$24.93. Note: DRs #37 and DRs #90 to be referred on separate work orders. (ISRS)		
place bare steel main - safety re	Addition	ISRS - Other	201506	(1,950.12)	Approved by: Steve Holcomb on 11/05/2014. Main Replacement project. Replace and abandon existing mains on C-009 pressure system with 7,744' -2" of PE on C-500 Intermediate pressure system between Turner St and Ann St and Independence Ave and Truman Rd. One of the DRs feeding this C-009 pressure system was hit by a car. We are choosing to replace the bare steel main and update the system rather than rebuilding the damaged DRs. 65 6e-overs. Estimates for July and August 2015

Funding Project Description	FERC Activity	Category	Month	Addition Amount	Work Order Description	Statute Section	State or Federal Requirement
place bare steel main - safety re	Addition	ISRS - Other	201505	75,801.27	Approved by: Joe Hampton on 03/18/2015. Replace 60' of 2" PBS - 61' of 4" PBS - 22' of PCS with 233' of 2" PE. Proposed 2" PE will be fed in to system C-250KCLS. PBS/PCS to be abandoned is currently in system C-001. All regulators will need to be changed out for the services. Existing rear services will need a new service from the proposed main on 7th and 5th street. 12223 7th Street is a replacement service. Coordinate with engineering prior to construction. District Regulator Station 11 will be reified on WO 15-5167. ISRS		
place bare steel main - safety re	Addition	ISRS - Other	201506	8,068.51	Approved by: Joe Hampton on 03/18/2015. Replace 100' of 2" PBS - 61' of 4" PBS - 22' of PCS with 233' of 2" PE. Proposed 2" PE will be fed in to system C-250KCLS. PBS/PCS to be abandoned is currently in system C-001. All regulators will need to be changed out for the services. Existing rear services will need a new service from the proposed main on 7th and 5th street. 12223 7th Street is a replacement service. Coordinate with engineering prior to construction. District Regulator Station 11 will be reified on WO 15-5167. ISRS	393.1009 (5) (a) (b)	A,B,C
place bare steel main - safety re	Addition	ISRS - Other	201506	81,869.78	Approved by: Joe Hampton on 03/18/2015. Replace 1396' of 4"BS main and 5' of CS main with PE main due to down project.	393.1009 (5) (a) (b)	A,B,C
place bare steel main - safety re	Addition	ISRS - Other	201506	62,192.92	Approved by: Joe Hampton on 03/18/2015. Replace 60' of 2" PBS main and 5' of CS main with PE main due to down project.	393.1009 (5) (a) (b)	A,B,C
place bare steel main - safety re	Addition	ISRS - Other	201506	11,477.13	Approved by: Kevin Driskell on 03/23/2015. Replace and abandon 60' - 2" PBS main (Work Order Unknown) and 20' - 2" PBS main (Work Order 50492) by installing 60' - 2" pe main to clear a g3 leak. (ISRS)	393.1009 (5) (a) (b)	A,B,C
place bare steel main - safety re	Addition	ISRS - Other	201504	4,597.58	Approved by: Ray Wilson on 03/27/2015. Replace 160' of 3" PBS main with 180' of 4" PE due to leakage and install 1- new remote outlet valve at District Regulator Station 9. ISRS		
place bare steel main - safety re	Addition	ISRS - Other	201505	(100.25)	Approved by: Ray Wilson on 03/27/2015. Replace 180' of 3" PBS main with 160' of 4" PE due to leakage and install 1- new remote outlet valve at District Regulator Station 9. ISRS		
place bare steel main - safety re	Addition	ISRS - Other	201506	3,086.67	Approved by: Ray Wilson on 03/27/2015. Replace 180' of 3" PBS main with 180' of 4" PE due to leakage and install 1- new remote outlet valve at District Regulator Station 9. ISRS	393.1009 (5) (a) (b)	A,B,C
place cast iron main - CPI / pio	Addition	ISRS - Other	201506	46,677.34	Approved by: Joe Hampton on 04/24/2015. ISRS Replace 6' of 6" east iron and 296' of 4" cast iron with 45' of 4" PE and 90' of 2" PE due to cast iron breaks and grouting. New main to be tied into System C-175KCLS MOP= 60PSIG MADP= 58PSIG. Cast iron main to be abandoned on C-001 System MOP= 1.10PSIG MADP= 2.20PSIG. Tie over services - 9. There are 4 service line replacements, to be charged to blanket work order. 3606 E 58th Street, 6728 Askew and 6800 Askew. Service regulators will need to be changed.	393.1009 (5) (a) (b)	A,B,C,D,I
place steel & plastic main	Addition	ISRS - Other	201505	6,039.00	Approved by: Gary Williams on 05/06/2015. Abandon 1' of 3" PCS and 1-3" valve due to leak, replace 3" of 3" PCS no replacement on valve.		
place steel & plastic main	Addition	ISRS - Other	201506	(131.00)	Approved by: Gary Williams on 05/06/2015. Abandon 1' of 3" PCS and 1-3" valve due to leak, replace 3" of 3" PCS no replacement on valve.	393.1009 (5) (a) (b)	A,B
place steel & plastic main	Addition	ISRS - Other	201505	772.70	Approved by: Gary Williams on 05/11/2015. Replace 4' of 2" PCS with 8' of 2" PCS due to leak. Pressure system C-200KCLS.		
place steel & plastic main	Addition	ISRS - Other	201506	(10.31)	Approved by: Gary Williams on 05/11/2015. Replace 4' of 2" PCS with 8' of 2" PCS due to leak. Pressure system C-200KCLS.	393.1009 (5) (a) (b)	A,B
place steel & plastic main	Addition	ISRS - Other	201505	4,977.58	Approved by: Gary Williams on 05/11/2015. Replace 8' of 2" PCS with 14' of 2" PCS due to leak. Pressure system C-022.		
place steel & plastic main	Addition	ISRS - Other	201506	(99.66)	Approved by: Gary Williams on 05/11/2015. Replace 8' of 2" PCS with 14' of 2" PCS due to leak. Pressure system C-022.	393.1009 (5) (a) (b)	A,B
place steel & plastic main	Addition	ISRS - Other	201505	4,877.92	Approved by: Gary Williams on 05/11/2015. Replace 8' of 2" PCS due to leak. Install 8' of 2" PCS. Pressure system C-008.		
place steel & plastic main	Addition	ISRS - Other	201505	4,772.05	Approved by: Gary Williams on 05/11/2015. Replace 8' of 2" PCS due to leak. Install 8' of 2" PCS. Pressure system C-008.	393.1009 (5) (a) (b)	A,B
place steel & plastic main	Addition	ISRS - Other	201506	(91.06)	Approved by: Gary Williams on 05/11/2015. Replace 8' of 2" PCS due to leak. Install 8' of 2" PCS. Pressure system C-006.	393.1009 (5) (a) (b)	A,B
place bare steel main - safety re	Addition	ISRS - Other	201506	4,680.99	Approved by: Michael Formell on 05/04/2015. Replace 8' of 2" PCS (WO# A9284) with 9' - 2" Thru-9in due to leaking valve. Project Location: Mockingbird and River. Pressure System: S-31; MOP: 80 psig; MADP: 60 psig; Design: 90 psig; Test: 135 psig.		
place steel & plastic main	Addition	ISRS - Other	201505	4,635.78	Approved by: Gary Williams on 05/11/2015. Replace 2" valve. Pressure system C-039 135psig.	393.1009 (5) (a) (b)	A,B,C
place steel & plastic main	Addition	ISRS - Other	201506	(91.07)	Approved by: Gary Williams on 05/11/2015. Replace 2" valve. Pressure system C-039 135psig.	393.1009 (5) (a) (b)	A,B
steel & highway relocates	Addition	Public Improvements	201505	(24,407.95)	Approved by: Galen Shoemaker on 08/26/2013. Replace 442' - 48"quot; PCS (WO# 90-1095) and 29' - 68quot; PCS (WO# 90-1095) and relocate with 370' - 48quot; PE and 50' - 68quot; PE due to 20th St Trail's Public Improvement Project and utility stop being built directly over existing main. New main will be relocated to edge of proposed right-of-way. Project Location: 20th and Mississippi. Pressure System: C-3; MOP: 8.00 psig; MADP: 8.50 psig; Design: 68 psig; Test: 100 psig; ISRS		
steel & highway relocates	Addition	Public Improvements	201505	25,400.67	Approved by: Galen Shoemaker on 08/26/2013. Estimates for July and August 2015

<u>Funding Project Description</u>	<u>FERC Activity</u>	<u>Category</u>	<u>Month</u>	<u>Addition Amount</u>	<u>Work Order Description</u>	<u>Statute Section</u>	<u>State or Federal Requirement</u>
Lee & highway relocates	Addition	Public Improvements	201506	(22.01) (66.45)	Approved by: Steve Holcomb on 02/16/2014. "MDOT Permit Required" Abandon 48" - 2" PBS (WOF# 1013), 1631' - 4" PBS (WOF# 30139, 52370), 59' - 2" PCS (WOF# 67-1660, 75-4141, 77-1956), 109' - 4" PCS (WOF# 75-4141), and 37' - 7/8" PE (WOF# 77-1608) and replace with 115' - 2" PE and 1855' - 4" PE due to City of Republic overlay program. Project location: Main and Elm; Pressure System: C-1; MOP: 245 psig; MAOP: 335 psig; Design: 53 psig; Test: 100 psig; ISSS \$43,634.	393.1009 (5) (C)	
Lee & highway relocates	Addition	Public Improvements	201503	31,540.42	Approved by: Steve Lindsey on 11/26/2013. Public Improvement: Lee's Summit Road. We have a high pressure main on each side of Lee's Summit Road - 18" on the west and 6" on the east. Both are dated and in conflict with Jackson County's road improvement plans. We will replace both mains from Anderson to 40 Hwy with a single 20" main. We are purchasing the lot at 5105 LS Rd (on WOF# 13-2520) in order to build new DRG 100 (on WOF# 13-2616) to separate the Grati Valley lateral 12" pressure system C-225. MOP = 125 psig, MAOP = 245 psig) from the C-100 pressure system (MOP = 125 psig, MAOP = 155 psig). Currently there is no regular station at this location - just SCADA monitoring. We will also install underground piping with plans for a future pig receiver on this lot, as well as a bridge valve from the outlet of new DRG 100 to the new 20" main. Install 3550' - 20" thin film, 4570' - 20" thin film w/ powercycle, 10' - 16" thin film, 386' - 12" thin film, 5' - 8" thin film, 31' - 4" thin film, and 10' - 2" thin film. Abandon 2' - 4" PCS (WOF# 00-2933), 161' - 12" PCS (WOF# 61-1515), 16' - 6" PCS (WOF# 61-1575), Z - 6" PCS (WOF# 67-0797), 6' - 6" PCS (WOF# 67-0797), 32' - 12" PCS (WOF# 67-0797), 14' - 16" PCS (WOF# 67-0797), 641' - 6" PCS (WOF# 77-3312), 97' - 6" PCS (WOF# 84-0722), 129' - 6" PCS (WOF# 84-0722), 500' - 16" PCS (WOF# 84-1022), 5' - 2" PCS (WOF# 65-3591), 578' - 16" PCS (WOF# 87-5479), 4453' - 16" PCS (WOF# AS337C), 1710' - 16" PCS (WOF# A9-933), 8370' - 6" PBS (WOF# 64-2362), purchased in ground from Parhadee, AKA Liberty Lateral, AKA M22472. NOTE: Jackson County agreed to pay \$1,179,275 for this relocation. The 3rd and final installment of \$235,655 was rec'd 1-23-15 per VNOES - AVM.	393.1009 (5) (C)

set & highway relocates - safety	Addition	Public Improvements	201506	(82.96)			393.1009 (5) (C)
set & highway relocates	Addition	Public Improvements	201505	(95,960.81)	Approved by: Steve Lindsey on 01/16/2014. Abandon 669' - 2' PCS (WOF: NONE), 610' - 6' PCS (WOF: 62-2543), and 250' - 4' PE (WOF: 04-8356) in order to relocate for new I-49 overpass. Relocate with 115' - 4" PE, 64' - 6" PE, and 60' - 6" Thru-film. There are currently two services coming off of the existing 2' PCS on the West Outer Rd to the North that will need to be fed over. Main will lay along new right-of-way line, inside 30' utility easement purchased by MODOT. Project Location: I-49 and 1st St (NE 6th Rd); Pressure System: S-1; MOP: 35 psig; MAOP: 40 psig; Design: 58 psig; Test: 100 psig; ISR \$71,437.

set & highway relocates	Addition	Public Improvements	201503	38.29	Approved by: Steve Lindsey on 01/16/2014. Abandon 669' - 2' PCS (WOF: NONE), 610' - 6' PCS (WOF: 62-2543), and 250' - 4' PE (WOF: 04-8356) in order to relocate for new I-49 overpass. Relocate with 115' - 4" PE, 64' - 6" PE, and 60' - 6" Thru-film. There are currently two services coming off of the existing 2' PCS on the West Outer Rd to the North that will need to be fed over. Main will lay along new right-of-way line, inside 30' utility easement purchased by MODOT. Project Location: I-49 and 1st St (NE 6th Rd); Pressure System: S-1; MOP: 35 psig; MAOP: 40 psig; Design: 58 psig; Test: 100 psig; ISR \$71,437.		
set & highway relocates	Addition	Public Improvements	201504	(69.85)	Approved by: Rob Hack on 08/15/2013. Build a double run 8" regulator station at 1S Rd and 52nd Street as part of the Lee's Summit Road improvements (40 Hwy to Anderson) public improvement project. The 12" Gran Valley lateral (pressure system C-225; MOP = 125 psig, MAOP = 245 psig) terminates at Lee's Summit road, feeding the 8" and 16" C-100 pressure system (MOP = 125 psig, MAOP = 155 psig). Currently there is no regulator station at this location - just SCADA monitoring. We are replacing the 8" and 16" lines with a single 20" line (on WOF 13-2520) and will build DRS 100 on WOF 13-2518 to separate the two systems.

street & highway relocates	Addition	Public Improvements	201503	0.31	Approved by: Steve Lindsey on 03/18/2014. MoDOT Project J4P1475. This work order is written for the 6" PE and 2" PE relocation on Commercial, Rock Haven, and Plaza city. WO# 14-3265 is written to relocate 8" PCS in private easements along 291 for the same MoDOT project at MoDOT's expense. We are relocating 1659' - 6" PE, 208' of 2" PE, 10' of 2" thin film, and 165' of 1-1/4" PE. The 6" PE will be run west across Rock Haven replacing 2" PCS due to the growth to the area since the original main was installed in the 1900's. The 1-1/4" PE main will be run to serve three meters on the SW corner of the intersection due to new storm installation and grading. Main to abandon: 457' - 2" PCS (WO# 68-3227); 568' - 2" PCS (WO# 65-7197); 8' - 2" PCS (WO# 87-3251); 160' - 6" PCS (WO# 87-3251); 35' - 2" PCS (WO# 84-4330); 573' - 6" PCS (WO# 63-0397); 142' - 2" PCS (WO# 84-4313). (SRS) Price per ft = \$51.12

Estimates for July and August 2015

Funding Project Description	FERC Activity	Category	Month	Addition Amount	Work Order Description	Statute Section	State or Federal Requirement
1er relocates	Addition	Public Improvements	201503	6.68	Approved by: Steve Holcomb on 04/02/2014. Unity Village is making improvements to the Coborn/Unity Way intersection, including rerouting Blue Parkway to meet the existing intersection and creating a traffic circle. There will be grade cuts up to 3.4' deep over our existing 10' main which lies in an easement, as well as storm structures in conflict. We will relocate around the roundabout and lower in the area of the storm conflicts with 565' of new 10' main. There is 250' of main between the roundabout and the storm that is not in conflict with the improvements, but will be replaced as part of this work. This is a 55% reimbursable project (31S:565). Main to refine 500' - 10' PBS (W04 64-2362). SW rotary meter set that serves Unity to be relocated/rebuilt on W0# 13-2731. Check 616663 rec'd 3-28-14 for \$57,068.67 per WOES.

				7,142.09			393.1009 (5) (C)
sidewalk & highway relocates	Addition	Public Improvements	201503	88.97	Approved by Galen Shoemaker on 06/23/2014, "MODOT Permit Required" Abandon 32' - 3' PCS (1109, 59-2037) and relocate with 42' - 4' Thruhim due to conflict with drop box associated with new roundabout at 171 and Hwy 43. There are no active or repaired leaks on this section of main. Main is on recifier. Pressure System: G-1; MOP: 15 psig; MAOP: 15 psig; Design: 58 psig; Test: 100 psig; ISRS		
sidewalk & highway relocates	Addition	Public Improvements	201503	10.19	Approved by Ralph Jones on 07/02/2014, Relocate and abandon 8' - 6" pos main (workorder 132741) by installing 16" - 6" pos main to allow City to install new storm sewer structure. (ISRS)		
sidewalk & highway relocates	Addition	Public Improvements	201504	(11.96)	Approved by Ralph Jones on 07/02/2014, Relocate and abandon 8' - 6" pos main (workorder 132741) by installing 16" - 6" pos main to allow City to install new storm sewer structure. (ISRS)		
sidewalk & highway relocates	Addition	Public Improvements	201505	(4.15)	Approved by Ralph Jones on 07/02/2014, Relocate and abandon 8' - 6" pos main (workorder 132741) by installing 16" - 6" pos main to allow City to install new storm sewer structure. (ISRS)		
sidewalk & highway relocates	Addition	Public Improvements	201506	(6.33)	Approved by Ralph Jones on 07/02/2014, Relocate and abandon 8' - 6" pos main (workorder 132741) by installing 16" - 6" pos main to allow City to install new storm sewer structure. (ISRS)		
				(12.25)			393.1009 (5) (C)
sidewalk & highway relocates	Addition	Public Improvements	201503	61.26	Approved by Kevin Driskell on 07/11/2014, ISRS Relocate main for public improvement project. Pressure System C-008. Coordinate with Engineering prior to construction.		
sidewalk & highway relocates	Addition	Public Improvements	201504	(12.92)	Approved by Kevin Driskell on 07/11/2014, ISRS Relocate main for public improvement project. Pressure System C-008. Coordinate with Engineering prior to construction.		
sidewalk & highway relocates	Addition	Public Improvements	201505	(4.51)	Approved by Kevin Driskell on 07/11/2014, ISRS Relocate main for public improvement project. Pressure System C-008. Coordinate with Engineering prior to construction.		
sidewalk & highway relocates	Addition	Public Improvements	201506	(6.77)	Approved by Kevin Driskell on 07/11/2014, ISRS Relocate main for public improvement project. Pressure System C-008. Coordinate with Engineering prior to construction.		

Estimates for July and August 2015

Funding Project Description	FERC Activity	Category	Month	Addition Amount	Work Order Description	Statute Section	State or Federal Requirement
street & highway relocates	Addition	Public Improvements	201503	37.06	Approved by: Steve Holcomb on 07/14/2014. ISRS Relocate gas mains due to public improvement project. Public Improvement is due to start 2nd week of July. New gas mains will be tied to intermediate pressure abandoning the low pressure currently in the area. Cut and caps at low pressure locations will be critical to ensure the new gas mains have intermediate pressure and are not connected to low pressure system in the area. Coordinate with Engineering prior to construction.	393.1009 (5) (C)	
street & highway relocates	Addition	Public Improvements	201504	(1.64)	Approved by: Steve Holcomb on 07/14/2014. ISRS Relocate gas mains due to public improvement project. Public Improvement is due to start 2nd week of July. New gas mains will be tied to intermediate pressure abandoning the low pressure currently in the area. Cut and caps at low pressure locations will be critical to ensure the new gas mains have intermediate pressure and are not connected to low pressure system in the area. Coordinate with Engineering prior to construction.	393.1009 (5) (C)	
street & highway relocates	Addition	Public Improvements	201505	3.22	Approved by: Steve Holcomb on 07/14/2014. ISRS Relocate gas mains due to public improvement project. Public Improvement is due to start 2nd week of July. New gas mains will be tied to intermediate pressure abandoning the low pressure currently in the area. Cut and caps at low pressure locations will be critical to ensure the new gas mains have intermediate pressure and are not connected to low pressure system in the area. Coordinate with Engineering prior to construction.	393.1009 (5) (C)	
street & highway relocates	Addition	Public Improvements	201506	(0.20)	Approved by: Steve Holcomb on 07/14/2014. ISRS Relocate gas mains due to public improvement project. Public Improvement is due to start 2nd week of July. New gas mains will be tied to intermediate pressure abandoning the low pressure currently in the area. Cut and caps at low pressure locations will be critical to ensure the new gas mains have intermediate pressure and are not connected to low pressure system in the area. Coordinate with Engineering prior to construction.	393.1009 (5) (C)	
street & highway relocates	Addition	Public Improvements	201503	(77.10)	Approved by: Galen Shoemaker on 07/14/2014. Abandon 843' - 2" PBS (WOF: NONE, 3759, 29765, 29320, 45555, 66-0077, 66-2012), 199' - 2" PCS (WOF: 66-4776), and 143' - 3" PCS (WOF: 57692) and replace with 1215' - 2" PE due to conflict with proposed sidewalk improvement. There is one active #3 Leak (Leak No. 10-0084) and 5 repaired leaks on this stretch of main. The school is warning this project done before school starts. Project Location: 1st and McKinley; Pressure System: C-2; MOP: 1.5 psig; MAOP: 1.5 psig; Design: 55 psig; Test: 100 psig; ISRS \$39.95/t	393.1009 (5) (C)	
street & highway relocates	Addition	Public Improvements	201504	268.31	Approved by: Galen Shoemaker on 07/14/2014. Abandon 843' - 2" PBS (WOF: NONE, 3759, 29765, 29320, 45555, 66-0077, 66-2012), 199' - 2" PCS (WOF: 66-4776), and 143' - 3" PCS (WOF: 57692) and replace with 1215' - 2" PE due to conflict with proposed sidewalk improvement. street & highway relocates	Addition	Public Improvements	201503	(519.15)	Approved by: Galen Shoemaker on 08/15/2014. Abandon 744' - 3" PCS (W#s: 57149, 56800, 62-3215, 64-3282, 73-3430) and replace with 747' - 2" PE due to City of Joplin sidewalk project requiring main to be lowered. One block will be lowered by the company crews due to a quick turn around needed. City of Joplin had originally spliced the main and said it would be clear, but contractor doing work uncovered main and it was too shallow. Project Location: 24th and Michigan; Pressure System: C-3; MOP: 8.00 psig; MAOP: 8.60 psig; Design: 5.60 psig; Test: 100 psig; \$67,539. *Due to having to work here two different times to meet schedule and held on so many findings* (SRS)

How to Read My Bill?

The following is an explanation of the terms found on your Missouri Gas Energy bill, effective with customer bills created after May 16, 2008. If you have additional questions about your bill, please contact our Customer Service Center.

Understanding Your Bill:

Current MGE Service Charge is the total of:

Fixed Monthly Charge:

Fixed amount per month to recover costs associated with delivering natural gas; includes items such as bill processing, service line maintenance, meter reading, facilities, equipment, personnel, etc.

Volumetric Delivery Charge:

A per-unit of gas (CCF) charge; amount on bill will fluctuate based on usage.

ISRS (Infrastructure Replacement Surcharge):

Charge to recover cost of government-mandated infrastructure system replacements not currently included in MGE's rates. The ISRS, as authorized by Missouri law, is subject to review by the Missouri Public Service Commission and may change periodically. Applicable taxes are shown separately on the bill as "ISRS Taxes".

Miscellaneous Charges:

Include but are not limited to collection charges, reconnect charges, return check charges, etc.

Cost of Gas Charge:

Cost paid by MGE for natural gas used by customers, plus related storage and transportation costs; amount on bill will fluctuate based on usage; per CCF charge may change up to 4 times per year.

Fee and Tax Total:

City Franchise Fee:

Reflects tax levied by local municipalities which MGE collects and then passes on to those respective cities. Fee varies from city to city and is usually a percentage based on a customer's gas bill.

City, County, State & ISRS taxes are also displayed here.

Other Charges and Credits:

May include charitable contributions and certain other special billing adjustments.

ABC Amount (For participating customers only):

The Average Bill Calculation (ABC) plan charge; bill also will show ABC Account Balance after payment, which reflects the difference between actual charges for gas used and ABC Plan charges to date.

Non-ABC Amount:

If applicable, separate Miscellaneous Charges, ISRS charges and Other Charges and Credits, defined above, which may fluctuate over time.

Definitions:

CCF = 100 Cubic Feet; natural gas is sold according to the volume of gas used; MGE measures gas in cubic feet.

Pressure Factors: If applicable, this factor is used to convert metered gas volume to actual gas volume delivered (gas volumes can vary depending on local atmospheric pressure or increased delivery pressure).

Return Checks: Checks returned for insufficient or uncollected funds are subject to electronic presentation without further notice.

Payment Alternatives

Website----- Go to www.missourigasenergy.com to make payments by check or credit card

Telephone----- Call 1-800-582-1234 (756-5252 in the KC Metro area) to make payments by check or credit card

Pay Station----- Call 1-800-582-1234 (756-5252 in the KC Metro area) or visit our website to find walk-in locations in your area

Note: All charges and adjustments have been approved by the Regulatory Authorities in your service area.

Note: Checks returned for insufficient or uncollected funds are subject to electronic presentation without further notice. OR If your check is returned we reserve the right to collect the check electronically via a debit to your checking account.

**Infrastructure System Replacement Surcharge
(ISRS)**

What is ISRS?

Calculating the ISRS

Calculating the taxes on the ISRS

ISRS Rate by Customer Class

Q&A Talking Points

The Infrastructure System Replacement Surcharge (ISRS), as approved by the Missouri Public Service Commission (MPSC), recovers the cost of local, state and federal government-mandated public improvement projects not included in MGE's rates. These projects include safety line replacements made to comply with requirements of the MPSC and facility relocations required by municipalities, such as road widening. By utilizing the ISRS, MGE recovers over time the costs associated with these government-mandated projects, which should reduce the frequency of expensive general rate cases in the future.

ISRS, as authorized by Missouri law (sections 393.1009, 393.1012 and 393.1015 RSMo.), is subject to review and approval by the Missouri Public Service Commission and may be adjusted periodically.

*****NOTE*****

Taxes applicable to the ISRS are shown on the bill as "ISRS taxes".

What is the ISRS surcharge? [\(Back to the top\)](#)

A surcharge billed to the customer for the public improvements of service lines mandated by local, state and federal government

Calculating the ISRS (Infrastructure System Replacement Surcharge [\(Back to the top\)](#))

The charge is incorporated into the customer charge so like the customer charge this is a flat fee billed to the customer every month and is prorated on bills 25 days or less.

ISRS Proration Formula [\(Back to the top\)](#)

For billing periods less than 26 days, the ISRS shall be calculated by dividing the number of days in the customer billing period by 30 days, multiplied by the applicable ISRS rate.

Example:

Residential customer has a 24-day bill.

$$24/30=0.8 \times \$0.69 = \$0.55$$

Formula:

Number days in the billing period (24) divided by 30, multiplied by the applicable ISRS charge (\$0.69) = ISRS Charge (\$0.55)

Click here for calculation of the ISRS taxes.

This surcharge allows MGE over time to recover cost of government projects.
