### 3.1 OPERATOR SERVICES (cont'd.)

Collect calls are permissible between all stations except that the Collect Call option is not available for calls to a public or semi-public coin station.

The following operator service requirements apply:

1. Carrier will not knowingly bill for incomplete calls and will remove any charge(s) for incomplete calls upon subscriber notification or carrier's knowledge of the charge(s) for incomplete calls.
2. Carrier will advise the caller and billed party (if different from the end user) that Carrier is the operator service provider at time of the Initial contact.
3. Carrier will provide rate quotes, including all rate components and any additional charges, upon request, at no charge.
4. Carrier will allow only tariff charges approved by the commission, or otherwise allowed by law for the provision of operator services, to appear on billings rendered by local exchange companies (LEC's) on behalf of carrier and will not collect locations surcharges imposed by traffic aggregators.
5. Carrier will arrange for listing of its name on LEC's Billing of Carrier's charges, if the LEC has multi-carrier bill listing capability.

### 3.3 PRIVATE LINE SERVICE

Private Line Service is a dedicated transmission channel furnished to a customer without intermediate switching arrangements for full-time customer use.

Private Line Service is priced on an individual case basis. Individual Case Basis (ICB) determinations involve situations where complex Customer-specific Company arrangements are required to satisfactorily serve the Customer. When it becomes possible to determine specific terms and conditions for such offerings, they will be offered pursuant to such terms and conditions. Rates for services offered on an ICB will be structured to recover the Company's cost of providing the services. Terms of specific ICB contracts will be made available to the Commission staff upon request on a proprietary basis. ICB provisioning is only available for non-switched, private line local exchange services.
