James B. Lowery

Reference: PUBLIC SERVICE COMMISSION OF THE STATE OF MISSOURI

File No. EA-2018-0202

Subject: Quarterly Reporting requirements set forth in the THIRD STIPULATION

AND AGREEMENT before the Public Service Commission of the State of Missouri regarding the CCN pursuant to Section 393.170.1 to construct and own a wind generation facility to be constructed in Schuyler and Adair

Counties in Missouri, under the Build Transfer Agreement ("BTA") with TG

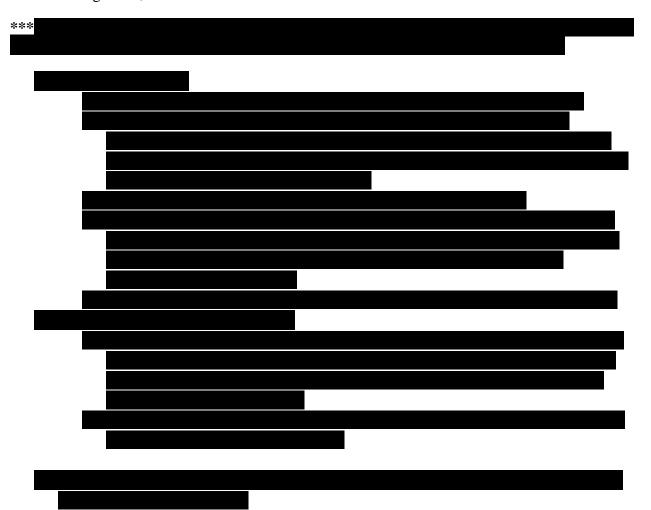

High Prairie Holdings.

Quarterly Progress Report:

Build Transfer Agreement Amendments

Fifth Amendment to the Build Transfer Agreement (BTA)

Executed August 22, 2019

Plans and Specifications

Updated plans and specifications per the attached were provided to the Staff on September 27, 2019 (plans were provided for the near term construction but may not be available for all future activities at the start of construction of the first activity - for instance, electrical plans may not be final at the time civil construction commences). A submission of plans Issued for Construction (IFC) is expected by the fourth quarter of 2019. Timely completion of the Final Design remains on schedule.

Missouri Department of Transportation	Missouri	Applied for
Driveway Permits	Department of	
	Transportation	
ACOE Section 404 (Nationwide Permit)	Army Corps of	Applied for
	Engineers	
Schuyler County Zoning Permit	Schuyler County	Issued**

^{**} On August 22, 2019, three individuals claiming to be landowners in Schuyler County, Missouri filed a Petition in Schuyler County Circuit Court against the Schuyler County Zoning Commission, the Schuyler County Commission (as a body and against each County Commissioner Individually), and the Schuyler County Board of Zoning Adjustment. The Petition alleges various procedural and substantive flaws or failures in the County's adoption of zoning amendments in 2019 related to wind and solar development in the County and seek invalidation of the permit issued to the developer under the County's zoning ordinance. The County defendants have filed a motion to dismiss. Both the developer and Ameren Missouri have applied for and been granted intervention in the lawsuit and will also be filing motions to dismiss. The lawsuit has not affected the developer's receipt of financing for the project nor continuation of the project, including commencement of its construction.
