This email is to inform you that I am not able to give a time or date as to when I can move forward on this issue between myself and MGE. I do wish that I could have control of my health, life and the condition that I am in. But, don't have. There are days that my doctors think I'm improving and then there are others that disprove it. But, I thank God that at least I'm still here. Not to mention that I would like to be able to have a home that is suitable for me to live in, have gas to bath, cook and be warm in. But that is not the case. So, I have to stay here where I have somebody that can provide those things for me while I feel that my recovery would be much better if I could be in my home. This weighs heavily upon me and hinders my healing greatly. I am asking to not close or discount my complaint against MGE. I would greatly love to have this resolved and be able to return to my home.

Sincerely,
Janet Parks
