Re: GridLiance High Plans LLC, Independent Power Producer, BARE-2023-0635 ("GLHP")

Dear Ms. Horton:

GLHP had previously requested and been granted an extension to file the 2022 Annual Report. As you are aware, the extension was requested to accommodate our filing of the FERC Form 1 on or about April 18.

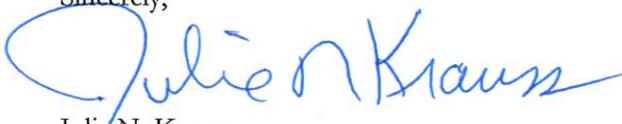

We are respectfully requesting an additional 30 day extension to file. As a result of a FERC order certain assets located in Oklahoma were reclassified from Transmission to Distribution and as a result we are having to modify certain information contained in our FERC Form 1s. We have been granted until May 15 by FERC to update the FERC Form 1 to reflect the changes.

We will not have the FERC Form 1 for 2022 completed until at least May 15, 2023 which would not give us time to complete and file the annual report on said date.

Please let us know if an additional 30 days to complete will be acceptable given the circumstances.

Thanking you in advance for your consideration.

Sincerely,

Julie N. Krauss
Principal Business Analyst
NextEra Energy Transmission
