

**BEFORE THE PUBLIC SERVICE COMMISSION  
OF THE STATE OF MISSOURI**

In the Matter of KCP&L Greater Missouri Operations            )  
Company’s Request for Authority to Implement                 )        Case No. ER-2018-0146  
A General Rate Increase for Electric Service                    )

**KCP&L GREATER MISSOURI OPERATIONS COMPANY’S  
NOTICE OF BILL CREDITS**

COME NOW KCP&L Greater Missouri Operations Company (“GMO” or the “Company”), and for its *Notice of Bill Credits* (“Notice”) to the Missouri Public Service Commission (“Commission”), state as follows:

1. Pursuant to Paragraph 11 of the *Non-Unanimous Partial Stipulation and Agreement* (“Settlement Agreement”)<sup>1</sup> filed in this docket on September 19, 2018, which was approved by the Commission’s *Order Approving Stipulations and Agreement* (“Order”) issued in this docket on October 31, 2018, GMO hereby notifies the Commission that they have provided bill credits pursuant to the Tax Cuts and Jobs Act (“TCJA”) to its customers, as detailed below and in the attached.

2. **Attachment 1** appended hereto summarizes the amounts of the TCJA bill credits provided to customers broken down by customer class. **Attachment 2** details these amounts (without providing customer-identifiable information).

3. As noted on Attachment 1, certain funds have not been applied to customer bills due to rounding, customers leaving the system and the inadvertent application of bill credits to 86 accounts which should not have been included. More specifically, within the process,

---

<sup>1</sup> “...GMO shall return to customers by the methods set forth below all “stub period” benefits which reflect the full impact of the Tax Cut and Jobs Act (“TCJA”) for KCP&L and GMO, respectively, with no offset for any other factors. The full annual amount [is] \$29.3 million for GMO. The amount to be returned to customers shall be prorated based on the number of days in the stub period (i.e., from January 1, 2018 to the effective date of the tariff sheets approved by the Commission in this case).” See, Settlement Agreement, p. 5.

accounts used for service provided to GMO (“Company accounts”) are manually removed from the customer extracts from the billing system prior to calculating and applying the bill credits. In completing this task, a number of Company accounts were overlooked and left in the credit processing. It was not until later in the process, after the credits had been applied, that the error was discovered. GMO reversed these credits from the Company accounts and noted these amounts within the funds identified here as not having been applied to customer bills. GMO requests that the Commission authorize it to provide these funds (\$16,871.61) to the Mid America Assistance Coalition (“MAAC”) to be applied to the Dollar Aide program which is administered by MAAC for the purpose of providing energy assistance to customers in need.<sup>2</sup> \$16,871.61 represents just 0.0006% of the total amount of \$27,409,202 ordered to be provided as TCJA bill credits.

4. Counsel for Commission Staff, the Office of the Public Counsel and Midwest Energy Consumers Group have been apprised of the contents of this pleading and do not oppose the relief requested in Paragraph 3.

**WHEREFORE**, GMO requests that the Commission take notice of the information herein and authorize the disposition of remaining funds as requested in Paragraph 3.

---

<sup>2</sup> As is customary with the Dollar Aide program, the Company will contribute 50% in matching funds and MAAC will receive 10% of the total amount as compensation for its services in administering the program.

Respectfully submitted,

**Column Reference:**

- A** Planned Amount represents the allocation of the credit amount to the classes and individual customers. Due to rounding, the allocation did not provide for an exact match to the Ordered amount. The rounding difference is \$373.53.
  
- B** Actual Credit Amount represents the credit applied to customer accounts.
  
- C** Variance Amount represents the difference between the Planned Credit Amount and the Actual Credit Amount. These variances are the result of customer account closure after the determination of the merger bill credit and before the application of the credit. In the processing of the credit, 86 Company accounts were inadvertently included in the distribution and not identified until after the credits were applied. The resulting \$10,259.80 of credits were removed from those accounts and returned to show as a variance here.
