("Cooperative"), hereinafter referred to collectively as "Applicants," and for their Joint Application to the Missouri Public Service Commission ("Commission"), for an order: (1) approving a change in the electric supplier for approximately 800 structures in Audrain, Boone, Callaway, Montgomery and Warren Counties from Company to Cooperative pursuant to Section 393.106, RSMo 2000; (2) approving a change in the electric supplier for approximately 600 structures in Audrain, Boone, Callaway, Montgomery and Warren Counties from Cooperative to Company to Section 394.315, RSMo 2000, (3) authorizing the sale, transfer, and assignment of certain electric distribution facilities, easements, and other rights (hereinafter, collectively referred to as "the Assets") generally constituting Company's electric utility business associated with said structures pursuant to Section 393.190, RSMo 2000; (4) approving Applicants' territorial agreement ("Territorial

3. **Change in Supplier** -- Company currently supplies retail electric energy through permanent facilities to the structures that are owned or occupied by the customers listed in **Exhibit A of Exhibit 1**, incorporated by reference and made a part hereof for all purposes. Specifically, Applicants are requesting to transfer from Company to Cooperative approximately 800 structures in Audrain, Boone, Callaway, Montgomery and Warren Counties, and their related electric service accounts. Applicants seek an order from the Commission approving a change in supplier as to these structures from Company to Cooperative pursuant to Sections 393.106 and 394.315, RSMo 2000.

Cooperative currently supplies retail electric energy through permanent facilities to the structures that are owned or occupied by the customers listed in **Exhibit B of Exhibit 1**, incorporated by reference and made a part hereof for all purposes. Specifically, Applicants are requesting to transfer from Cooperative to Company approximately 600 structures in Audrain, Boone, Callaway, Montgomery and Warren Counties, and their related electric service accounts.

Applicants seek an order from the Commission approving a change in supplier as to these structures from Company to Cooperative pursuant to Section 393.106, RSMo 2000.

4.     **Contract to Transfer Company Facilities** -- Subject to the terms and conditions of a Contract for Purchase and Sale of Distribution Facilities between Company and Cooperative (the "Contract"), attached hereto as **Exhibit 1**, which is incorporated by reference and made a part hereof for all purposes, Company will sell, convey, and assign to Cooperative, and Cooperative will purchase from Company, the Assets as described in **Exhibit C of Exhibit 1** (subject to the certain exclusions set forth in **Exhibit D of Exhibit 1**, which is incorporated by reference and made a part hereof for all purposes,) all as are more particularly described in the Contract, that generally constitute Company's entire works and system, necessary or useful in the performance of Company's duties to provide retail electric service to the approximately 800 structures, which are owned or occupied by the customers listed in **Exhibit A of Exhibit 1**. Pursuant to Section 393.190, RSMo 2000, Company seeks an order from the Commission authorizing the sale, transfer, and assignment of the Assets in accordance with the terms and conditions of the Contract.

5.     **The Territorial Agreement** -- Subject to the terms and conditions of the Territorial Agreement, Applicants have specifically designated the boundaries of the exclusive electric service area of each electric service supplier for service of new structures in Audrain, Boone, Callaway, Montgomery and Warren Counties, which are more particularly described in the Territorial Agreement. Applicants have attached a copy of the Territorial Agreement to this Application as **Exhibit 2** and it is incorporated by reference into this Application and made a part hereof for all purposes. Pursuant to Section 394.312, RSMo 2000 the Applicants seek an order from the Commission approving the Territorial Agreement.

Metes and bounds descriptions of the exclusive service areas of each Applicant are shown in **Exhibits B and C of Exhibit 2** and are incorporated by reference into this Application and made a part hereof for all purposes. County highway maps depicting the Applicants' exclusive service areas covered by the Territorial Agreement are part of **Exhibit A of Exhibit 2** and are incorporated by reference into this Application and made a part hereof for all purposes.

The exclusive service area of Cooperative in Callaway County excludes the AmerenUE Callaway Plant Site, which is described by metes and bounds in **Exhibit D of Exhibit 2** and is incorporated by reference into this Application and made a part hereof for all purposes. The Callaway Plant Site shall remain open to competition.

The Territorial Agreement only establishes amended electric service territories for the Applicants in Audrain, Boone, Callaway, Montgomery and Warren Counties; it does not affect, in any way, the rights of or the service area of any other electric service provider.

6. **Resolutions of Boards of Directors** -- A certified copy of the Resolution of the Board of Directors of Cooperative authorizing the consummation of the transaction contemplated by this Joint Application is also attached hereto as **Exhibit 3**, is incorporated by reference and made a part hereof for all purposes. A certified copy of the Resolution of the Board of Directors of Company authorizing the consummation of the transaction contemplated by this Joint Application is attached hereto as **Exhibit 4**, is incorporated by reference and made a part hereof for all purposes.

7. **Articles of Incorporation** -- There is already on file with the Commission a certified copy of (1) the Company's Restated Articles of Incorporation (see Commission Case No. EO-96-431) and (2) the registration of the fictitious name, AmerenUE, with the Secretary of

State (see Commission Case No. EO-99-267). Said documents are incorporated by reference and made a part hereof for all purposes. A certified copy of Cooperative's Articles of Incorporation and Certificate of Incorporation from the Secretary of State are attached hereto as **Exhibit 5**.

8. **Tax Impact Statement** -- A statement filed pursuant to section 393.190, RSMo 2000 showing the impact of the sale on the tax revenues of the political subdivisions in which any of the facilities transferred between Applicants are located is attached as **Exhibit 6**, which is incorporated by reference and made a part hereof for all purposes.

9. **Impact of Sale on Company** -- Company has analyzed this transaction using its EVA EVALUATE program. The results of the EVA EVALUATE show a positive benefit to Company during the first five (5) years after the transfer of the facilities and customers without crediting any benefit attributable to generation savings, which is Company's internal acceptance criteria for entering into a transaction of this type. A description of the assets transferred to Cooperative, in accordance with the terms of the Contract, is attached as **Exhibit C of Exhibit 1**.

10. **Right to Serve** -- The Cooperative has statutory authority in the areas it proposes to serve under the Territorial Agreement. Company will need a certificate of public convenience and necessity for certain areas that are presently served by Cooperative and pursuant to the Territorial Agreement and the Contract Company proposes to serve. Pursuant to Section 393.170, RSMo 2000, Company will need a certificate of public convenience and necessity to serve these new customers. Therefore, Company now requests a certificate of public convenience and necessity to install, own, acquire, operate, manage, and maintain an electric power system for the public portions of the Missouri Counties of Audrain and Callaway (hereinafter "Certificate").

After approval of the Territorial Agreement and implementation of the customer transfer, Cooperative will no longer be provided electrical service in the area sought to be

certificated. While other cooperatives operate within the area covered by the Territorial Agreement, they do not provide electric service in the area sought to be certificated. In addition, no other regulated electric supplier provides electric service in the area sought to be certificated.

In lieu of defining the area to be certified by a metes and bounds description, Company proposes that the Certificate be limited to all land sections in which it is acquiring new facilities from the Cooperative. The Commission approved this approach in Case Nos. EA-87-159 et al and EO-95-400 et. al. Attached hereto as **Exhibit 7** is a list of land sections/ U.S. Surveys that meet the above requirement. **Exhibit 7** is incorporated herein by reference and made a part hereof for all purposes.

County highway maps depicting the service area covered by the Territorial Agreement are part of **Exhibit A of Exhibit 2**.

Company respectfully requests the Commission waive its regulations requiring submission of a feasibility study and plans for future construction and financing of new electrical systems (4 CSR 240-2.060(4)(A)5) as it did in Case Nos. EA-94-278 and EO-95-400 et al. Cooperative has electric service facilities in the area for which Company seeks the Certificate. Pursuant to the Contract, Company will acquire these facilities and would continue to provide the same service through these facilities as it does in its other certificated service areas.

Company requires no additional municipal franchises to serve within the proposed area sought to be certificated. Company has received a county franchise in accordance with the legal requirements of Audrain and Callaway Counties. Copies of such county franchises are attached hereto as **Exhibit 8**. Said documents are incorporated herein by reference and made a part hereof for all purposes.

11. **Illustrative Tariffs** -- Illustrative tariffs pursuant to 4 CSR 240-2.060(10)(G) are attached hereto as **Exhibit 9**, which are made a part hereof for all purposes.

12. **Other Electric Suppliers** -- The following is a list of other Rural Electric Cooperatives that serve in the territory covered by the Territorial Agreement:

Boone Electric Cooperative  
Consolidated Electric Cooperative  
Cuivre River Electric Cooperative

In addition, the cities of Fulton, Columbia, Vandalia, and Centralia operate municipal electric supply systems within the area covered by the Territorial Agreement.

13. **The Territorial Agreement and Transfer of Structures and Assets are in the Public Interest** -- The Territorial Agreement is in the public interest because it establishes exclusive service territories for new structures for the two electric suppliers. The establishment of exclusive service territories will prevent future duplication of electric service facilities, will result in economic efficiencies and future cost savings, and will benefit the public safety and community aesthetics. The exchange of facilities and customers will aid both Applicants in the consolidation of facilities and bring additional efficiencies and savings to Company's customers and Cooperative's members. The Territorial Agreement will also allow future customers to know with certainty the supplier of their electric service.

In general, Applicants believe that it is in the public interest to transfer the customers listed in **Exhibits A and B of Exhibit 1** and their associated electric service facilities at this time because the transfer (i) would improve electric service reliability as discussed below, (ii) emergency personnel will have certainty in contacting either Company or Cooperative, (iii) permits Company and Cooperative to prudently employ their capital resources, (iv) will limit the

duplication of facilities as discussed below, and (v) will improve efficiency by decreasing travel time to operate and maintain facilities, which will result in shorter outage periods.

Presently, the communities of Williamsburg and Stephens are served by Company through long radial lines. After the transfer, the Cooperative will serve these communities from sources closer to the communities, which should improve reliability. In addition, there is extensive duplication of electric service facilities between the Applicants in the areas in and around Holts Summit. The Territorial Agreement and the transfer of customers and facilities will mitigate the effects of this duplication. The above will result in lower costs to the customers over time.

14. **Waiver of Provisions of The Utility Billing Practices Rule, 4 CSR 240-13.010 et seq.** -- The Contract contains a provision that appoints the Company to act as collection agent for Cooperative to assure payment of Cooperative's final bill for customers transferred to Company. In the event that this ex-Cooperative member fails to pay his final bill, the Applicants desire that Company would have the ability to disconnect electric service to said customer without having to comply with the provisions of the Utility Billing Practices Rule, 4 CSR 240-13.010 et seq., which would prohibit Company from discontinuing service for a Customer's failure to pay a delinquent account owed to the Cooperative. The Applicants have good cause for this request. Company is the only electrical cooperation affected. The waiver is limited, since it will only affect the members transferred from Cooperative to Company. Without the waiver, the Cooperative will have no effective method of collecting its overdue accounts.

15. **Other Findings and Orders Required by the Commission** -- Each Applicant will still have occasion to construct, operate and maintain facilities in the electric service territory of the other as described in the Territorial Agreement. Each Applicant will continue to have

service responsibilities beyond the boundaries of the First Amendment, unaffected by the terms of the Territorial Agreement. As stated in the Territorial Agreement, each Applicant will have the right to serve existing customers within the electric service area of the other for the indefinite future. In general, Applicants will need the authority to construct, operate and maintain facilities throughout the electric service area of the other. In particular, Company requires a finding of the Commission that the Territorial Agreement will not impair the Company's certificates of public convenience and necessity, except as specifically limited by the Territorial Agreement.

16. **Customer Notification** -- A list of all customers whose utility service would be transferred is listed on **Exhibits A and B of Exhibit 1**. Customers were notified of this proposed transfer from Company to Cooperative on or about November 9, 2001. Enclosed with the notification letter were brochures explaining the proposed exchange and providing information about the Company and Cooperative. The notification letters invited customers to meet representatives of the Applicants on November 27, 2001, from 3 to 7 p.m. at Callaway Electric Cooperative's Community Room in Fulton and on November 29, 2001, from 5 to 7 p.m. at Montgomery High School in Montgomery City. **Exhibit 10** is a copy of a typical customer notification letter.

17. **Judgments, Actions and Fees** -- Company has no final unsatisfied judgments or decisions against it from any state or federal agency or court that involve customer service or rates, which judgments or decisions have occurred within three (3) years of the date of this Joint Application. By the nature of its business, Company has, from time-to-time, pending actions in state and federal agencies and courts involving customer service or rates. Company has no annual report or assessment fees that are overdue to this Commission.

Cooperative also has no final unsatisfied judgments or decisions against it from any state or federal agency or court that involve customer service or rates, which judgments or decisions have occurred within three (3) years of the date of this Joint Application. Further, Cooperative has no actions in state and federal agencies and courts involving customer service or rates. Cooperative has no annual report or assessment fees that are overdue to this Commission.

18. **Application Fee** -- The Commission's fee required by 4 CSR 240-21.010 is submitted herewith.

**WHEREFORE**, Company and Cooperative respectfully request that the Commission issue an order:

(1) authorizing Company to sell, transfer, and assign to Cooperative the Assets, as more particularly described in the Contract, which is attached as **Exhibit 1** hereto;

(2) finding the change in electric supplier for approximately 700 structures from Company to Cooperative and approximately 600 structures from Cooperative to Company in Callaway and Montgomery Counties, for reasons other than rate differential, is in the public interest and approving such change;

(3) finding that the designated electric service areas of the Applicants as set forth in the Territorial Agreement, which is attached as **Exhibit 2** hereto, are not detrimental to the public interest, and approving the Territorial Agreement;

(4) finding that the Territorial Agreement shall not impair the Company's certificates of public convenience and necessity, except as specifically limited by the Territorial Agreement;

(5) approving Company's changes to its tariffs as illustrated in **Exhibit 9**;

(6) authorizing Company to perform in accordance with the terms of the Territorial Agreement and Contract, and to enter into and execute all other documents reasonably necessary and incidental to the performance of the transactions which are the subject of the Contract, the First Amendment, and this Joint Application;

(7) granting a waiver from the provisions of the Utility Billing Practices Rule, 4 CSR 240-13.010 et seq., which would prohibit Company from discontinuing service as a result of a Customer's failure to pay a delinquent final bill owed to the Cooperative;

(8) granting Company a Certificate of Convenience and Necessity authorizing it to own, control, manage, and maintain an electric power system for the public in certain portions of Audrain and Callaway Counties as shown in **Exhibit 8**; and

(9) granting such other relief as is deemed necessary to accomplish the purposes of this Joint Application and to consummate the sale, transfer, and assignment of the Assets and related transactions.

Respectfully submitted,

- G. **Accounts Receivable.** Transferor shall retain all accounts receivable related to Transferor's electric business at the time of closing and through the time that the customers are transferred from Transferor to Transferee. Transferor shall be entitled to receive all money paid to either Transferor or Transferee on said account.
- H. **Time and Method of Transfers of Easements.** Transferor shall transfer all Easements to Transferee on the date of closing by executing an Assignment of Easements. Transferor shall cooperate with Transferee to obtain the consent for such transfer from the granting party, if required.
- I. **Final Bill.** As each Customer is transferred from Transferor to Transferee, Transferor shall read Customers' meters and provide a final bill to them for service received. Security deposits and accrued interest existing at the time of transfer shall be credited to the customer on the final bill. If Transferor does not receive payment of the final bill within sixty (60) days of the date of its remittance, it may identify Transferee as its agent to collect the accounts receivable. Transferee agrees to take all actions as may be necessary to collect the final bill, including but not limited to, the disconnection of service. Any payments on said accounts received by Transferee shall be remitted promptly to Transferor.

**ARTICLE VI**  
**INTERIM OPERATIONS**

- A. **Responsibilities of Transferee and Transferor.** After Commission approval and until the customers are physically removed from Transferor's system and connected to Transferee's system (hereinafter, the "Interim Period"), Transferor will continue to provide maintenance of the Facilities, electricity, read meters and bill the customers. Upon connection to Transferee's system, the Transferee shall take over these responsibilities. Transferor and Transferee agree to cooperate during this transition period in order to minimize any adverse impact on the customers.
- B. **Emergency Calls.** Transferor shall respond to emergency service calls during the Interim Period. Once facilities are transferred, Transferee shall respond to all emergency service calls associated with the transferred facilities.

**ARTICLE VII**  
**REPRESENTATIONS AND WARRANTIES**

1. **Title.** Transferor warrants to Transferee that Transferor will transfer to Transferee good and marketable title to facilities transferred under this Agreement, free and clear of any security interest, liens, encumbrances, or adverse claim of any third party.
2. **Licenses, Permits and Approvals.** Transferor will have applied for and/or obtained in due time before the closing hereunder, all necessary authorizations, licenses, permits, approvals and other official consents as may be required under law and regulation for Transferor's performance of its obligations hereunder.

**TRANSFEROR DISCLAIMS ALL WARRANTIES OF ANY KIND, WHETHER STATUTORY, WRITTEN, ORAL, EXPRESSED, OR IMPLIED WITH REGARD TO THE FACILITIES, INCLUDING ALL WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.** In no event shall

Transferor be liable for any damages including, but not limited to, special, direct, indirect or consequential damages arising out of, or in connection with, the use or performance of the Facilities. Any description of the Facilities contained in this Agreement is for the sole purpose of identifying the Facilities, is not a part of the basis of the bargain, does not constitute a warranty that the Facilities shall conform to that description, and does not constitute a warranty that the Facilities will be fit for a particular purpose. No affirmation of fact or promise made by Transferor, not contained in this Agreement, shall constitute a warranty that the Facilities will conform to the affirmation or promise.

- B. **Transferee.** Transferee represents and warrants to Transferor that Transferee will have applied for and/or obtained in due time before the Closing hereunder, all necessary authorizations, licenses, permits, approvals and other official consents as may be required under law and regulation for Transferor's performance of its obligations hereunder.

## **ARTICLE VIII**

### **RECORDS**

Transferor shall give to Transferee, Transferee's accountants, counsel and other representatives, during normal business hours from the date hereof to the Closing Date, access to books, records, contracts and commitments of Transferor related to this transaction and shall furnish Transferee during such period with information concerning Transferor's affairs as Transferee may reasonably request with respect to the various transactions contemplated hereby. In the event that, after closing, any controversy or claim by or against either party arises out of this transaction or the subject matter hereof, either party shall make available to the other, copies of such relevant records as may reasonably be requested pertaining thereto.

**ARTICLE IX**  
**FITNESS OF PROPERTY**

If, between the time this Agreement is executed and the closing, a significant portion of the Facilities are damaged or destroyed beyond normal wear and tear, Transferee and Transferor shall attempt in good faith to achieve a mutually satisfactory agreement for the repair and restoration of such Facilities. In the event that Transferee and Transferor cannot agree upon terms for the repair and restoration of such Facilities, either party shall have the option to submit the dispute to arbitration. If any portion of the Facilities or Easements is taken through condemnation during the period between execution of this Agreement and the closing, Transferee shall be entitled to the condemnation award(s).

**ARTICLE X**  
**INDEMNITY AND RELEASE**

**A. Transferee's Environmental Indemnification and Release.**

1. Transferee shall indemnify, defend and save harmless Transferor from and against any suits, actions, legal or administrative proceedings, demands, or against any suits, actions, legal or administrative proceedings, demands, claims, liabilities, fines, penalties, losses, injuries, damages, expenses or costs, including interest and attorney's fees, in any way connected with any injury to any person or damage to any property (including cost of studies, surveys, clean-up and any other environmental claim expenses) which arise out of the condition, operation or use of the Facilities or Easements or any loss occasioned in any way by hazardous substances (as defined under any Federal or Missouri law) on the property or by the negligent or intentional activities of Transferee during or after Transferee's acquisition of the property. This indemnity specifically includes the direct obligation of Transferee to perform any remedial or other activities required, ordered, recommended or requested by any agency, government official or third

party, or otherwise necessary to avoid injury or liability to any person, or to prevent the spread of pollution, however it came to be located on the property (hereinafter, the "Remedial Work").

2. After the closing and without limiting its obligations under any other paragraph of this Agreement, Transferee shall be solely and completely responsible for responding to and complying with any administrative notice, order, request or demand, or any third party claim or demand relating to potential or actual contamination on the premises. The responsibility conferred under this paragraph includes, but is not limited to, responding to such orders on behalf of Transferor and defending against any assertion of Transferor's financial responsibility or individual duty to perform under such orders. Transferee shall assume, pursuant to paragraph (1) above, any liabilities or responsibilities which are assessed against Transferor in any action described under this paragraph (2).
3. Transferee hereby waives, releases and discharges forever Transferor from all present and future claims, demands, suits, legal and administrative proceedings and from all liability for damages, losses, costs, liabilities, fees and expenses, present and future, known and unknown, arising out of or in any way connected with the condition, operation or use of the Facilities, Easements or Contractual Arrangements, any condition of environmental contamination on the property, and/or the existence of hazardous substances (as defined under Federal or Missouri law) in any state on the property, however they came to be placed there during or after Transferee's acquisition of property.

B. **Indemnity and Release – Prior to Closing.** The parties desire to permit Transferee to have access to the Facilities prior to closing to aid in the transfer of the Facilities. The parties also agree that Transferee shall assume the risks of loss and liability with respect to the Facilities due to Transferee's access and use of the Facilities prior to closing. Accordingly:

1. Transferor hereby gives Transferee permission to access and use the Facilities as required to assist Transferee in planning and implementing the transfer of the Facilities contemplated by this Agreement;
2. Transferee hereby agrees to reimburse Transferor, for any loss of or damage to any of the Facilities caused by Transferee's access and use prior to closing; and
3. Transferee shall indemnify and hold harmless Transferor, the directors, officers, employees, attorneys, and agents of Transferor from and against all liabilities, costs and expenses including, without limitation, reasonable attorney's fees, incurred by Transferor by reason of any injury to or death of any employee of Transferor, employee of Transferee, or third party; or damage to the property of Transferor, Transferee or third party arising out of or involving Transferee's access or use of the Facilities prior to closing. The foregoing release and indemnity shall apply irrespective of whether said loss, damage, personal injury, or death **WAS ALLEGEDLY CAUSED BY THE FACILITIES OR THE NEGLIGENCE OF TRANSFEROR OR ITS EMPLOYEES.** For purposes of the foregoing indemnification, neither party hereto shall be deemed the agent of the other party.

C. **Estoppel.** The foregoing provisions of this Article may be pled as a full and complete defense to, and may be used as a basis for, enjoining any action, suit, or other proceeding that may be instituted, prosecuted or attempted in breach of the foregoing provisions, except for an action based on a breach of this Agreement.

and accountants employed by any such party, shall be borne solely and entirely by the party which has incurred same.

- F. **No Waiver.** If a party has waived a right under this Agreement on any one or more occasions, such action shall not operate as a waiver of any right under this Agreement on any other occasion. Likewise, if a party has failed to require strict performance of an obligation under this Agreement, such action shall not release the other party from any other obligation under this Agreement or the same obligation on any other occasion.
