for change of electric supplier.)

Case No. _____

APPLICATION FOR CHANGE OF ELECTRIC SERVICE PROVIDER

1. Applicant's address is: 3699 NE Hwy 13, Osceola MO 64776

2. The name of Applicant's current electric service provider is: The Motel is not
connected, part of the facility is KCPL, the other part is Sac Osage

3. Applicant requests the Missouri Public Service Commission to order a change
of electric supplier to the address indicated above.

4. Applicant requested the Commission to order a change of electric supplier
from KCP&L

(Current)
to Sac Osage

(Requested)

5. Applicant requests the Missouri Public Service Commission to order a change
of electric provider for the following reasons.* Recently we requested KCPL to feed our

facility with a single meter to reduce meter minimum charges. KCPL responded by
insisting that we replace our two meters with four new meters, or pay \$40,000
for modifications to meet KCPL's new requirements. Sac Osage has agreed to
provide a single meter without the extra requirements, saving us more than
\$1000 per year. The KCPL rep (Ronnie) actually bragged about how much money he
had forced his customer (Nevada truck line) to spend to meet their new require-
ments, he considered this a major achievement for which he was quite proud.
Sac Osage is more customer oriented and business friendly. Our business has
been closed for four years and we cannot afford to work with the new KCPL.

6. Applicant has taken the following steps in an attempt to work out electric service problems with the electric service provider: _____

We have worked with KCPL several times to see how we can avoid unnecessary costs to restart our facility. Every time we talk to them we get a different story but always the same answer.

WHEREFORE, Applicant requests the Missouri Public Service Commission to issue an Order which changes the current electric service provider.

*If reason for change is poor service, outages, low voltage, etc., applicant should submit a record of service problems covering at least 90 days, including dates and times of problems to the extent possible. Applicant should also attempt to determine reasons for any service problems. For instance, if electric service was out or you are experiencing blinking lights, you should contact the supplier of electric service to determine the problem, and include this information with the application. (If the reasons from the supplier was a storm, car hitting pole, trees in line, conductor fell down, or whatever the supplier states for the problem, this should be noted.)
