Subject: Staff Recommendation for Approval of Certificate

Date: September 27, 2005

Filing Deadline: n/a (by 4:00 pm 7 working days prior to proposed effective date)

The Telecommunications Department Staff (Staff) recommends the applicant be granted the following certificate(s), as indicated below, to be effective on the same date the tariff becomes effective:

☒ certificate to provide basic local exchange telecommunications services in the following service areas.

- ☒ All of SBC
- ☐ All of Sprint
- ☐ All of CenturyTel
- ☐ All of Spectra
- ☐ Other _____ (please describe)

Granting the certificate should be based on the following conditions:

1. The applicant's originating and terminating access rates will be no greater than the lowest Commission approved corresponding access rates in effect for each ILEC within whose service area the applicant seeks authority to provide service, unless authorized by the Commission pursuant to Sections 392.220 and 392.230 RSMo.
2. The certificate and service classification for switched access service is conditioned on the continued applicability of Section 392.200 RSMo, and the requirement that any increases in switched access services rates above the maximum switched access service rates set forth herein shall be made pursuant to Sections 392.220 and 392.230 RSMo, and not Sections 392.500 and 392.510 RSMo.
3. If the directly competing ILEC, in whose service area the applicant is operating, decreases its originating and/or terminating access service rates, the applicant shall file an appropriate tariff amendment to reduce its originating and/or terminating access rates in the directly competing ILEC's service area within 30 days of the directly competing ILEC's reduction of its originating and/or terminating access rates in order to maintain the cap.

☒ The Company is not delinquent in filing an annual report and paying the PSC assessment.

☐ The Company is delinquent. Staff recommends the Commission grant the requested relief/action on the condition the applicant corrects the delinquency. The applicant should be instructed to make the appropriate filing in this case after it has corrected the delinquency.

Appendix A

(☐ No annual report ☐ Unpaid PSC assessment. Amount owed:)

☒ certificate to provide interexchange telecommunications services.

☒ certificate to provide local exchange telecommunications services.*

*local exchange authority should be restricted to dedicated, private line services.

☐ No objection to tariff taking effect (indicate PSC MO numbers) Effective Date

☒ Tariff was not submitted with application. Pursuant to 4 CSR 240-3.510(1)(C), the applicant cannot lawfully provide service until tariffs are effective.

Staff recommends the applicant and its services receive competitive classification. In addition, Staff recommends approval of the waivers listed in the Notice.

☒ There is an attachment to this recommendation. (see below)

Ironhorse, LLC's application requests some non-standard rule waivers but Staff recommends that the Commission grant Ironhorse the standard waivers only. Staff believes that Ironhorse's application mistakenly requested waivers of the following three rules:

4 CSR 240-33.030 Rule was rescinded September 30, 2004.

4 CSR 240-3.545(2)(C) Rule was rescinded September 30, 2004.

4 CSR 240-3.500(5)(C) Rule does not exist, and appears to be a typographical error.
4 CSR 240-3.550(5)(C) is a standard waiver.

4 CSR 240-2.060(6)(C) Rule was relocated to 4 CSR 240-3.510(1)(C). Should be denied because the rule states that "filing the tariff and any applicable interconnection agreements simultaneously with the certificate application is optional" and waiver of the rule could be misconstrued.
