Re: Infotelecom, LLC – LOCAL EXCHANGE

Dear Ms. Dale:

I hereby seek to appear in Infotelecom, LLC's Application for Certificate of Service Authority to Provide Local Telecommunications Services Within the State of Missouri.

Enclosed please find an original and eight (8) copies of the Acknowledgement Receipt of \$100.00 as required by Rule 6.01(m) for myself from the Clerk of the Supreme Court along with the Application for Certificate of Service Authority to Provide Local Telecommunications Services Within the State of Missouri and Motion for Protective Order for information that is "highly confidential".

The Motion includes one copy of the confidential information in redacted form marked "Non Proprietary Version" and eight (8) copies of the intact confidential information.

I have also enclosed an extra copy of this letter to be date stamped and returned to me in the enclosed, self-addressed, postage prepaid envelope.

If you have any questions or if I may provide you with any additional information, please do not hesitate to contact me.

Please note that this Application is being submitted by myself and Judith A. Rau, Esq., Missouri Counsel, Bar # 24856.

Respectfully submitted,

Lance J.M. Steinhart

for a certificate of service authority to) Case No.
provide resold and facilities-based/UNE)
Basic Local Telecommunications Services)
in Portions of the State of Missouri and)
to Classify Such Services and the Company)
as Competitive)

APPLICATION

Infotelecom, LLC ("Applicant" or "Infotelecom"), a Delaware Limited Liability Company, files this verified application respectfully requesting that the Missouri Public Service Commission ("Commission") issue an order that:

- (a) grants Applicant a Certificate of Service Authority to provide resold and facilities-based/UNE Basic Local Telecommunications Services in Portions of the State of Missouri pursuant to Sections 392.455 and 392.420 - .44055 of the Revised Statutes of Missouri (RSMo) 1994 and Sections 392.410 and .450, RSMo Supp. 1996.
- (b) grants competitive status to Applicant pursuant to Section 392.361 RSMo Supp 1996., and classifies the Applicant's services as competitive.
- (c) waives certain Commission rules and statutory provisions pursuant to Section 392.420, RSMo Cum. Supp. 1996.

In support of its request, Applicant states:

1. The legal name and principal office or place of business of the Applicant are:

Infotelecom, LLC
1228 Euclid Avenue, Suite 390
Cleveland, Ohio 44115
(216) 373-4600 (Phone)
(216) 373-4699 (Fax)

A copy of Applicant's Certificate of Formation, and certificate of authority from the Missouri Secretary of State to transact business in Missouri are attached hereto as Exhibit I.

2. The name and address of Applicant's in-state attorney is:

Judith A. Rau, Esq.
Rau & Rau
119 E. Mill Street
Waterloo, Illinois 62298

3. Applicant proposes to provide resold and facilities-based/UNE basic local telecommunications service as a separate and distinct service within portions of the State of Missouri. Applicant is willing to comply with all applicable Commission rules and is willing to meet all relevant service standards, including, but not limited to, billing, quality of service and tariff filing and maintenance. Applicant proposes to provide services to prospective customers in exchanges currently served by Southwestern Bell Telephone Company, United Telephone Company of Missouri d/b/a Sprint, and CenturyTel as set forth in the list of exchanges attached hereto as Exhibit II. Applicant will give consideration to equitable access for all Missourians, regardless of where they might reside or their income, to affordable telecommunications services in the proposed service area as set forth in Exhibit II, in accordance with applicable law.

When it initiates service in Missouri, Infotelecom, LLC, (Infotelecom) proposes to offer resold local exchange services and local services utilizing unbundled network elements obtained through commercial agreements. Such services will be provided by utilizing the facilities of incumbent local exchange carriers ("LECs"). Initially, the services Infotelecom intends to offer are likely to be those local exchange telecommunications services offered by incumbent local exchange carriers in the proposed service area. Infotelecom intends to provide local exchange services that may include but are not limited to the following:

- * Basic Residential Exchange Services
- * Residential Custom and Class Features (call waiting, caller ID, call forwarding, call blocking, speed calling, etc.)
- * Basic Business Exchange Services
- * Business Customer Calling and Class Features
- * Adjunct Provided Features (voice messaging, etc.)
- * Business and Residential Ancillary Services (911, E911, 411, Relay Service, directory listing, directory assistance, etc.)
- * Centrex
- * DSL and ISDN
- * DID Trunks and Lines
- * Private Lines

Infotelecom does not initially intend to install any

switching equipment for the provision of local exchange service in the State of Missouri, but may install such equipment in the future.

If Infotelecom installs facilities in Missouri, it will probably use the following or a similar configuration of equipment: Infotelecom will provide voice and high speed data services through a combination of the latest technology switching and transport media comprised of the Lucent Technology 5 ESS Generic 13 switch module, ADSL/SDSL transport and Internet service equipment and the latest Optical multiplexer DAC's configurations. The switching system consists of a central processing and control complex capable of interconnection as a peer to the incumbent as well as competitive local exchange companies. The hub portion of the switch will interconnect with the public switched network on Signaling System 7 ("SS7") or Feature Group D ("FGD") facilities. The system's remote module capability will allow properties to be served in a manner that provides the exchange of appropriate signaling, control and calling/caller information to the network in accordance with network standards and specifications. Additionally, these services will be delivered over a combination of delivery mechanisms through incumbent local carriers' unbundled loop network, both copper and fiber and transport networks, as well as via Infotelecom constructed facilities.

4. Applicant has the experience in the telecommunications industry and the technical and financial resources to provide

telecommunications services within Missouri. A brief description of the qualifications and experience of the key management employees is attached hereto as Exhibit III, along with a description of the Applicant's telecommunications background. A copy of the financial information to demonstrate Applicant's financial ability to provide service, Exhibit IV, contains confidential and proprietary information, and is being submitted under separate cover with a Motion for Protective Order.

Applicant is currently authorized in Colorado, Florida, Georgia, Illinois, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania, Texas and Washington to provide local exchange and interexchange services. Applicant is in the process of applying for authorization to provide competitive local exchange and interexchange services in approximately 15 additional states. Applicant has not been denied authority for any of the services for which it seeks authority in this Application.

5. Applicant hereby respectfully requests a temporary waiver of 4 CSR 240-3.510 (1) (C) that requires Applicant to file a draft tariff simultaneously with this application until Applicant has executed interconnection agreements with the incumbent LECs and those agreements have been approved by the Commission. Applicant will file its tariff with an effective date of at least 45 days after filing.

6. Applicant hereby respectfully requests classification as a competitive telecommunications company within the State of Missouri and receive a lesser degree of regulation as permitted by Sections 392.361 and 392.420 RSMo. Applicant also requests that its services be classified as competitive. Applicant believes that its proposed services will be subject to sufficient competition to justify a lesser degree of regulation. Granting of this application will allow greater price and service options for telephone users.

7. Applicant also respectfully requests, pursuant to Section 392.420 RSMo (Cum. Supp. 1992), that the Commission waive the application of the following rules and statutory provisions as it relates to the regulation of Applicant:

Statutes

392.210.2 Establish Uniform System of Accounts for Annual reports
392.240(1) Setting just and reasonable rates
392.270 Ascertain Property values
392.280 Establish Depreciation accounts
392.290 Issuance of securities
392.300.2 Acquisition of stock
392.310 Issuance of stock and debt
392.320 Stock Dividend Payment
392.330 Issuance of securities, debts and notes
392.340 Reorganization(s)

Commission Rules

4 CSR 240-10.020 Depreciation fund income
4 CSR 240-3.550(5)C) File Exchange boundary maps with Commission
4 CSR 240-30.040 Uniform System of Accounts

The above-referenced rules and statutory provisions have been waived to other carriers in prior cases.

8. Applicant, pursuant to Section 386.570, Cum. Supp. 1992, will comply with all applicable Commission rules except those which are specifically waived by the Commission pursuant to a request filed by the Applicant.

9. All inquiries, correspondence, communications, pleadings, notices, orders and decisions relating to this case shall be addressed to:

Lance J.M. Steinhart

Lance J.M. Steinhart, P.C.

1720 Windward Concourse

Suite 250

Alpharetta, Georgia 30005

(770) 232-9200

(770) 232-9208 (Fax)

lsteinhart@telecomcounsel.com (Email)

10. The Applicant has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this application. No Commission annual reports or assessment fees are overdue.

11. Infotelecom submits the following arguments to demonstrate that the public interest will be served by the approval of this Application:

The grant of a certificate to provide competitive basic local telecommunications services to the Applicant will serve the public interest. The Applicant's presence in the market will expand customer choice for telecommunications service. The increased competition brought by the Applicant to the market will have the effect of improving the quality of telecommunications services in Missouri and decreasing the cost of such services through increased innovation and efficiency. The result will be beneficial to economic development in Missouri. The granting of a certificate to the Applicant will contribute to the availability of reasonably affordable local exchange services in the State of Missouri.

WHEREFORE, Applicant, Infotelecom, LLC, respectfully requests that the Missouri Public Service Commission grant it a certificate of service authority to provide resold and facilities-based/UNE Basic Local Telecommunications Services within portions of the State of Missouri. Applicant also respectfully requests classification as a competitive telecommunications company and requests that its services be classified as competitive. In addition, Applicant respectfully requests a waiver of the above-referenced rules and statutory provisions and a temporary waiver of the tariff filing requirement.

Respectfully submitted,

Exhibit III
Executive Officers' Qualifications and Experience

Company's Telecommunications Background

See Attached

Andre Temnorod
Chairman & Chief Executive Officer

Building on 12 years of executive management experience. Mr. Temnorod has excelled in business operations and the high tech industry. Mr. Temnorod is the strategy behind Broadvox's vision to be a leader in the telecommunications space to include its wholesale long distance deployment and its initiative in the hosted Centrex and converged communications efforts. Prior to Broadvox Mr. Temnorod Served as the Chief Executive officer of Nexbell Communications, a leader in the VoIP space, and sold to COUNSEL Communications in 2001. Subsequent to that Mr. Temnorod served as Chief Technology Officer as Unicent Technologies. Here Mr. Temnorod, among other things, spearheaded research and deployment testing of early VoIP initiatives and was a driving force in this 100 million dollar, privately held pc and communications company. Mr. Temnorod is one of the most respected VoIP technologists in the market today. Mr. Temnorod has been featured in numerous professional forums to include print, video, and as a guest speaker on a variety panels.

Jeffery Williams
Chief Information Officer

Jeffery Williams accepted appointment as executive vice president of marketing in March 2002. Mr. Williams was charged with the responsibility of all marketing and public relations activities. In October of 2003 Mr. Williams accepted a position with Broadvox Direct, the residential operating arm of Broadvox, as its President. Seeing Broadvox Direct through its structuring and launch phase he was responsible for all day-to-day activities. In May 2004 Mr. Williams accepted appointment as Chief Information Officer. As Broadvox's chief architect he is responsible for all software and systems design, development, and implementation. Mr. Williams reports directly to the companies CEO, and board of Directors. Prior to joining Broadvox Mr. Williams served as Chief Executive Officer of Now Online, a national ISP. As CEO Mr. Williams implemented his vision as an ISP, driving sales to nearly \$5 million annually and becoming proficient in acquisitions, completing 9 in just two years. Prior to that, he was the President of Star Leasing Acceptance Corporation, a computer and technology leasing company. Acting as a direct funding source Mr. Williams pioneered the consumer pc leasing space as the first source for residential computer leasing. Mr. Williams has more than 10 years experience in the internet / telephony space and has held a range of executive positions in senior management, operations, and technology related roles.

Mr. Williams is a member of the Association of Internet Professionals, has lectured at numerous professional engagements to include a panel of Internal revenue policy makers for internet taxation, schools, and organizations. Mr. Williams has been featured in numerous articles, stories, and industry white papers with highlights to include; Crains Cleveland Business magazine, New York Times, Network Magazine, ABC News, and hundreds of online technology publications, analysts reviews and magazines.

Pete Sandrev
President, Hosted Telephony Service Operations

Pete Sandrev is President of Hosted Telephony Service Operations at Broadvox. With over twenty years of experience in developing and deploying digital communications solutions, Mr. Sandrev is responsible for developing, deploying and supporting Hosted PBX and IP Centrex services into the Broadvox network. Mr. Sandrev has held several senior leadership roles in general management, operations, and strategy. Prior to joining Broadvox, Mr. Sandrev served in various Director and Managing capacities at Nexbell Communications. As Director of Provisioning and Network Operations at Nexbell Communications, he was responsible for leading a 30 NFL city VoIP network deployment and was integral to the development of a joint venture VoIP route into Senegal back in 1999, long before VoIP was a fashionable voice medium. Previously, Mr. Sandrev co-founded and served as VP of Operations at Communication Solutions, Inc., a Midwest Regional CPE Service Provider of Voice and Data Services, as Vice President, Mr. Sandrev was instrumental in the sale of CSI to PC Importers in 1996, where he continued as Executive Vice President of the unit until its subsequent sale in 1998.

Mr. Sandrev received a Bachelor of Science degree in Business Management from the University of Phoenix and an Associate degree in Electronic Engineering Technology from the Electronic Technology Institute in Cleveland, OH.

Richard DeHaven

President of Indirect Channel Sales

Richard (Gerry) DeHaven is President of Alternate Channel Sales at Broadvox. Utilizing his retail, wholesale and alternate channel sales and marketing experience, Mr. DeHaven is now focused on building global distribution partnerships with consumer and commercial focused service providers to market Broadvox's leading VoIP technology. Mr. DeHaven has more than 15 years of entrepreneurial experience in telecommunications sales, marketing, product development, and operations management. Prior to Broadvox, Mr. DeHaven co-founded and served as President and Chief Operating Officer of InTandem Communications Corp., an integrated communications provider focused on Internet-based private label systems and distribution of traditional voice, data and Internet services. Previously, Mr. DeHaven co-founded and served as Executive Vice President/COO of Blink Data Corporation, an integrated communications provider that, prior to its acquisition by Covista Communications, focused on alternate channel distribution to the SME and Enterprise markets. At Covista Communications, Mr. DeHaven was Executive Vice President of Sales and Marketing where he was responsible for Covista's \$100ml+ direct, agent, and carrier sales organization. During his career, Mr. DeHaven has also served on the Board of Directors for several communication and technology companies and held senior management positions at other communications companies including Vista International and Viatel/Destia. Mr. DeHaven received a Bachelor of Science in Business Administration from Marist College and lives in Princeton, NJ with his wife and three children.

Sergey Galchenko

Chief Technology Officer

Sergey Galchenko is the company's Chief Technology Officer responsible for managing the organizations technology infrastructure. Mr. Galchenko is actively involved in all aspects of the Infrastructure, from planning to implementation to the ongoing health of the service platforms and networking infrastructure...Mr. Galchenko keeps the Broadvox Machine running. Prior to joining Broadvox Mr. Galchenko was the chief engineer in the Nexbell network deployment, overseeing all aspects of the network design, implementation, and network health, making Mr. Galchenko a true veteran of VoIP design, engineering, and deployment.

Prior to joining Nexbell Mr. Galchenko served as a group leader on the application support team for AT&T's TCAP database. In this role Mr. Galchenko was responsible for systems administration, application support, monitoring and troubleshooting, and script programming.

Mr. Galchenko holds a Master's degree in Computer science with major in software development from Don State Technical University, Rostov-on-Don, Russian Federation.
