State of Missouri and to Classify said Services and)
the Company as Competitive)

File No. LA-2012-0287

**ORDER GRANTING CERTIFICATES TO PROVIDE
BASIC LOCAL, NONSWITCHED LOCAL, AND INTEREXCHANGE
TELECOMMUNICATIONS SERVICES**

Issue Date: April 24, 2012

Effective Date: May 4, 2012

This order grants certificates of service authority to provide basic local, nonswitched local, and interexchange telecommunications services in the state of Missouri, classifies those services and the company as competitive and waives certain statutes and regulations.

On March 6, 2012, BG Sprint, LLC applied for certificates of service authority to provide basic and nonswitched local exchange, as well as interexchange telecommunications services within the state of Missouri, and for competitive classification. The company seeks certification to provide service throughout the state but will initially provide service in the areas currently served by Southwestern Bell Telephone Company d/b/a AT&T Missouri, Embarq Missouri, Inc., d/b/a CenturyLink, CenturyTel of Missouri, LLC d/b/a CenturyLink and Spectra Communications Group, LLC d/b/a CenturyLink. BG Sprint is authorized to do business in Missouri by the Missouri Secretary of State.

On March 7, 2012, the Commission issued its Notice of Applications, establishing April 6 as the deadline for intervention. No applications to intervene were received. On

April 16 the Staff of the Commission recommended that the requested certificates, classifications and waivers be granted.

The Commission may grant an application for a certificate of service authority to provide telecommunications service upon a showing that the applicant has met the statutory requirements,¹ and that the grant of authority is in the public interest.² Based on the verified application and Staff's uncontested recommendation, the Commission finds that BG Sprint satisfies the requirements for certification and that granting such certificates is in the public interest.

BG Sprint also requests that it and its services be classified as competitive and that the application of certain statutes and regulatory rules be waived. The Commission may classify a telecommunications service as competitive if the Commission determines that the applicant is subject to a sufficient degree of competition to justify a lesser degree of regulation.³ The Commission may only classify a telecommunications carrier as competitive if all of its services are so classified.⁴ The Commission may waive the application of certain statutes and of its rules to a competitive carrier if it determines that such waiver is consistent with the purposes of Chapter 392.⁵

The Commission finds that the intrastate interexchange market is competitive and that the interexchange services BG Sprint will offer are subject to competition. In addition, BG Sprint will compete with incumbent local exchange carriers, as well as other competitive local exchange carriers in the exchanges in which it provides basic local telecommunications service. The Commission finds that BG Sprint will be subject to a

¹ See Sections 392.450, 392.451 and 392.455, RSMo 2000.

² Sections 392.430 and 392.440.

³ Section 392.361.2.

⁴ Section 392.361.3.

⁵ See Sections 392.185, 392.361.3 and 392.420.

sufficient level of competition to justify a lesser degree of regulation. Furthermore, all of the services BG Sprint will offer are qualified for classification as competitive services.

The Commission may waive certain statutes and administrative rules for competitively classified carriers “if such waiver or modification is otherwise consistent with the other provisions of Section 392.361 to 392.520 and the purposes of this chapter.”⁶ The Commission has developed a standard list of statutes and regulations that it waives for competitive local exchange and interexchange carriers. The Commission finds that the waiver of those statutes and regulations is consistent with the purposes of Chapter 392, and will waive those provisions for BG Sprint.

The Commission may also require a telecommunications company to comply with any conditions reasonably necessary to protect the public interest. Staff recommends that BG Sprint’s application be granted subject to certain restrictions regarding switched access rates. These conditions are routinely recommended by Staff and BG Sprint accepted them in its application. The conditions proposed by Staff are necessary to protect the public interest and will be adopted.

BG Sprint did not file a tariff along with its application but relies on Section 392.461 RSMo, which allows the company to instead publish its rates and terms on its website.

The Commission places BG Sprint on notice that failure to comply with certain obligations pursuant to law may result in penalties assessed against the company. These obligations include, but are not limited to, the following:

- A) The obligation to file an annual report, as established by Section 392.210, RSMo 2000. Failure to comply with this obligation will make the utility liable for a penalty of \$100 per day for each day that the violation continues. Rule

⁶ Sections 392.361.5 and 392.420.

4 CSR 240-3.540 requires telecommunications utilities to file their annual report on or before April 15 of each year.

- B) The obligation to pay an annual assessment fee established by the Commission, as required by Section 386.370, RSMo 2000.
- C) The obligation to comply with all relevant laws and regulations, as well as orders issued by the Commission. If the company fails to comply it is subject to penalties for noncompliance ranging from \$100 to \$2,000 per day of noncompliance, under Section 386.570, RSMo 2000.
- D) The obligation to keep the Commission informed of its current address and telephone number.

The company is reminded that its officers may not represent it before the Commission. The company must be represented by an attorney licensed to practice law in Missouri.

In addition, Section 392.410.5, RSMo Cum. Supp. 2010, provides that the company's certificate of service authority becomes null and void one year from the date of this order unless the company has exercised its authority under that certificate.

The Commission notes that before providing telecommunications services in Missouri, a party shall possess the following: (1) an interconnection agreement approved by the Commission; and (2) except for wireless providers, a certificate of service authority from the Commission to provide interexchange or basic local telecommunications services.

THE COMMISSION ORDERS THAT:

1. BG Sprint, LLC is granted a certificate of service authority to provide basic local telecommunications services throughout the state subject to the conditions and recommendations contained in the Staff's Memorandum.

2. BG Sprint, LLC is granted certificates of service authority to provide nonswitched local exchange and interexchange telecommunications services in the state of Missouri.

3. BG Sprint, LLC and its services are granted competitive classification.

4. BG Sprint, LLC's originating and terminating access rates shall not exceed the access rates of the incumbent local exchange company against whom the applicant is competing pursuant to Sections 392.361.6 and 392.370.

5. If the directly-competing incumbent local exchange carrier, in whose service area BG Sprint, LLC is operating, decreases its originating or terminating access service rates, BG Sprint shall publish an appropriate tariff amendment to reduce its originating or terminating access rates in the directly competing incumbent local exchange carrier's service area within 30 days of the directly competing incumbent local exchange carrier's reduction of its originating or terminating access rates in order to maintain the cap.

6. The company will undertake all necessary measures to ensure its contracts with underlying carriers do not contain provisions preventing delivery of traffic to any telephone exchange area of Missouri. Such measures include but are not limited to:

a) Prevention of call blocking or call gapping based on the cost of traffic termination.

b) Preventing the alteration or stripping of Calling Party Number identification, and

c) Ensuring sufficient network capacity exists to process all traffic according to industry accepted practices.

7. Application of the following statutes and Commission rules is waived:

Statutes

- 392.210.2 – uniform system of accounts
- 392.240.1 – rates-rentals-service & physical connections
- 392.270 – valuation of property (ratemaking)
- 392.280 – depreciation accounts
- 392.290 – issuance of securities
- 392.300 – transfer of property and acquisition of stock
- 392.310 – stock and debt issuance
- 392.320 – stock dividend payment
- 392.330 – issuance of securities, debts and notes
- 392.340 – reorganization(s)

Commission Rules

- 4 CSR 240-3.520 – Applications to sell or transfer assets
- 4 CSR 240-3.525 – Applications to merge or consolidate
- 4 CSR 240-3.530 – Applications to issue stocks, obtain loans
- 4 CSR 240-3.535 – Applications to acquire stock
- 4 CSR 240-3.545(8)(C) – Listing of Waivers in Tariff
- 4 CSR 240-3.550 – Telco Records and Reports, except (5)(B), (D) and (E)
- 4 CSR 240-3.555 – Residential Customer Inquiries
- 4 CSR 240-3.560 – Procedure for Ceasing Operations
- 4 CSR 240-10.020 – Depreciation Records
- 4 CSR 240-30.020 – Residential Telephone Underground Systems
- 4 CSR 240-30.040 – Uniform System of Accounts
- 4 CSR 240-32.010 – General Provisions
- 4 CSR 240-32.040 – Metering, Inspections and Tests
- 4 CSR 240-32.050 – Customer Services
