

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of)	
Windstream Missouri, LLC for Approval)	
Of an Interconnection Agreement With)	
Communications Venture Corporation)	Case No.
D/B/A INdigital)	

**APPLICATION OF WINDSTREAM MISSOURI, LLC
FOR APPROVAL OF AN INTERCONNECTION AGREEMENT
WITH COMMUNICATIONS VENTURE CORPORATION D/B/A INDIGITAL**

COMES NOW Windstream Missouri, LLC (“Windstream” or “Applicant”), pursuant to Missouri Public Service Commission ("Commission") 20 CSR 4240-28.013(2), and hereby applies for approval by the Commission of the accompanying Interconnection Agreement (“Agreement”) voluntarily entered into by Applicant and Communications Venture Corporation d/b/a INdigital (“INdigital”) pursuant to the Federal Telecommunications Act of 1996 (the "Act") under 47 U.S.C. § 252(e).

1. Windstream Missouri, LLC is a Delaware limited liability company duly authorized to conduct business in Missouri, as evidenced by the Certificate of Amendment filed on June 21, 2006 in Case No. IN-2006-0481, and incorporated herein by reference pursuant to Commission Rule 20 CSR 4240-2.060(1)(G). Windstream’s principal office is located at 4001 Rodney Parham Road, Little Rock, Arkansas 72212. Windstream is a “local exchange telecommunications company” and a “public utility,” and is duly authorized to provide “telecommunications service” within the State of Missouri as each of those phrases is defined in Section 386.020, RSMo 2000.

2. INdigital holds authority from the Commission to operate as a competitive local exchange carrier in Missouri and provides or will provide telecommunications services employing such authorization.

3. All correspondence, communications, and orders and decisions of the Commission issued in this matter should be sent to:

Carol Keith
Deputy General Counsel
Windstream Missouri, LLC
4001 N. Rodney Parham
Little Rock, AR 72212
Telephone: (847) 550-4433
Facsimile: (330) 486-3561
E-mail: Carol.Keith@windstream.com

4. Applicant has no pending action or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of the Application. No Missouri annual reports or assessment fees are overdue.

In support of this Application, Applicant states the following:

I. AGREEMENT REACHED

Applicant presents to this Commission for approval the attached Agreement between Windstream and INdigital that was negotiated and executed pursuant to the terms of the Act. Following good faith negotiations to address all of the complex issues involved in such an agreement, the parties signed the Agreement September 22, 2020, and hereby file the Agreement with all pages sequentially numbered. There are no outstanding issues between the parties to the Agreement that need the assistance of mediation or arbitration.

II. REQUEST FOR APPROVAL

Applicant seeks the Commission's approval of the Agreement, consistent with the provisions of the Act. Applicant believes that the implementation of this Agreement complies fully with Section 252(e) of the Act because the Agreement is consistent with the public interest, convenience and necessity, and does not discriminate against any telecommunications carrier. The Agreement promotes interconnectivity and diversity in providers and will increase customer choices for telecommunications services.

Applicant respectfully requests that the Commission grant approval of this Agreement, without change, suspension or other delay in its implementation. This is an Agreement, reached as a result of negotiation and compromise between the Applicant and INdigital.

III. STANDARD FOR REVIEW

The statutory standards of review are set forth in Section 252(e) of the Act, which provides:

(e) APPROVAL BY STATE COMMISSION

- (1) APPROVAL REQUIRED.** – Any interconnection agreement adopted by negotiation or arbitration shall be submitted for approval to the State commission. A State commission to which an agreement is submitted shall approve or reject the agreement, with written findings as to any deficiencies.
- (2) GROUNDS FOR REJECTION.** – The State Commission may only reject –
 - (A)** an agreement (or any portion thereof) adopted by negotiation under subsection (a) if it finds that –
 - (i)** the agreement (or portion thereof) discriminates against a telecommunications carrier not a party to the agreement; or
 - (ii)** the implementation of such agreement or portion is not consistent with the public interest, convenience, and necessity;

WHEREFORE, Windstream respectfully requests the Commission to enter an Order approving the attached agreement between Windstream and INdigital.

Respectfully submitted,

Carol Keith MBN 45065

APPENDIX A – BILLING DISPUTE FORM114

APPENDIX B: PRICE LIST117

GENERAL TERMS AND CONDITIONS

This Agreement ("Agreement") is between Communications Venture Corporation d/b/a INdigital ("INdigital") an Indiana corporation, having an office at 1616 Directors Row, Ft. Wayne, IN 46808 and Windstream Missouri, LLCs, LLC, ("Windstream"), having an office at 4001 Rodney Parham Road Little Rock, Arkansas, 72212, hereinafter referred to collectively as the "Parties".

WHEREAS, pursuant to the Telecommunications Act of 1996 (the "Act"), the Parties wish to establish terms for the provision of certain services and Ancillary Functions as designated in the Attachments hereto for the purpose of determining the rates, terms, and conditions for the interconnection of the Parties' Telecommunications networks within the state of Missouri.

NOW, THEREFORE, in consideration of the premises and the mutual covenants of this Agreement, the Parties hereby agree as follows:

1.0 Introduction

- 1.1 This Agreement, in accordance with §§251 and 252 of the Act, sets forth the terms, conditions and prices under which Windstream may provide (a) services for interconnection, and (b) Ancillary Functions to INdigital. The specific services, functions, or facilities that Windstream agrees to provide are those specifically identified in appendixes attached to this Agreement and executed simultaneously with this General Terms and Conditions. Further this Agreement sets forth the terms, conditions, and prices under which INdigital will provide services to Windstream, where applicable.
- 1.2 This Agreement includes and incorporates herein the Attachments of this Agreement, and all accompanying Appendices, Addenda and Exhibits.
- 1.3 The Parties acknowledge and agree that by entering into and performing in accordance with this Agreement, the Parties have not waived or relinquished any applicable exemptions that are provided by or available under the Act, including but not limited to those described in §251(f) of the Act, or under state law.
- 1.4 Prior to execution of this Agreement, INdigital agrees to provide Windstream in writing INdigital's CLEC certification for the state covered by this Agreement prior to the filing of this Agreement with the appropriate Commission for approval.

2.0 Effective Date

- 2.1 The effective date of this Agreement will be the first business day following receipt of final approval of this Agreement by the relevant state Commission or, where approval by such state Commission is not required, the date that both Parties have executed the Agreement.

3.0 Intervening Law

- 3.1 In the event that any effective legislative, regulatory, judicial or other legal action materially changes any rule, law or judicial or administrative decision that was the basis of the requirement, obligation or right upon which any provision of this Agreement was negotiated, or materially impairs the ability of Windstream or INdigital to perform any material terms of this Agreement, INdigital or Windstream may, on thirty (30) days' written notice require that such terms be renegotiated, and the Parties shall renegotiate in good faith such mutually acceptable new terms as may be required. In the event that such

new terms are not renegotiated within ninety (90) days after such notice, the Dispute shall be referred to the Dispute Resolution procedure set forth in Section 9.0.

4.0 Term of Agreement

- 4.1 The Parties agree to the provisions of this Agreement for an initial term of two (2) years from the Effective Date of this Agreement, and thereafter on a month to month basis, unless terminated or modified pursuant to the terms and conditions of this Agreement.
- 4.2 Either Party may request for this Agreement to be renegotiated upon the expiration of the initial two (2) year term or upon any termination of this Agreement, except in cases in which this Agreement has been terminated for Default pursuant to Section 4.6. The Party desiring renegotiation shall provide written notice to the other Party. Not later than thirty (30) days from receipt of said notice, the receiving Party will acknowledge receipt of the written notice and the Parties will commence negotiation, which shall be conducted in good faith.
- 4.3 Intentionally Left Blank
- 4.4 If either Party has requested re-negotiations and the Parties have not executed a Subsequent Agreement or filed arbitration at the applicable state commission, then this Agreement will continue in effect pursuant to Section 4.1.
- 4.5 Subject to the requirements of Section 4.4, after completion of the initial two (2) year term, this Agreement may be terminated by either Party for any reason not prohibited by law upon sixty (60) calendar days' written notice to the other Party. By mutual Agreement, the Parties may amend this Agreement in writing to modify its terms.
- 4.6 In the event of Default or Abandonment, as defined in this §4.6, the non-defaulting Party may terminate this Agreement provided that the non-defaulting Party so advises the defaulting Party in writing ("Default Notice") of the event of the alleged Default and the defaulting Party does not cure the alleged Default with sixty (60) calendar days after receipt of the Default Notice thereof, provided, however, that if sixty (60) calendar days is not sufficient time to reasonably cure the alleged Default, then the defaulting Party shall have such time as is reasonably necessary to cure the alleged Default so long as the defaulting Party has commenced the cure within said sixty (60) calendar days and diligently prosecutes the cure to completion. In no case shall the cure period be longer than one hundred twenty (120) calendar days.
 - 4.6.1 Either Party's insolvency or initiation of bankruptcy or receivership proceedings by or against the Party; or
 - 4.6.2 A decision under §9.0, Dispute Resolution that a Party has materially breached any of the terms or conditions hereof, or
 - 4.6.3 A Party has notified the other Party in writing of the other Party's material breach of any of the material terms hereof, and the material breach remains uncured per §4.6 above, provided, however, that if the alleged material breach involves a material interruption to, or a material degradation of, the E911 services provided under this Agreement, the cure period shall be five (5) business days from receipt of such notice. If the Defaulting Party is making good faith efforts to cure such material breach regarding E911 services and there is an impossibility to cure such breach within the specified time frame, the non-Defaulting Party may agree to a reasonable extension of time.
 - 4.6.3 Illegal use or theft of facilities is considered a material breach of this Agreement and termination of the Agreement will occur. For purposes of this section, "theft" shall include

but not be limited to the use by a Party of the other Party's facilities without the other Party's knowledge, permission, and compensation under this Agreement.

- 4.6.4 In addition, this Agreement shall be null and void if INdigital has not placed an order for a service or facility or terminated traffic within one (1) year following Effective Date (defined as "Abandonment"). If INdigital has not placed an order for a service, a facility, or terminated traffic within one (1) year, Windstream shall provide INdigital with written notice of Windstream's intent to terminate the Agreement. INdigital shall have thirty (30) calendar days to indicate in writing to Windstream that INdigital intends to place orders or terminate traffic within thirty (30) calendar days. If INdigital cannot meet this timeframe for placing orders or terminating traffic, the Agreement will be terminated. If INdigital does not intend to place orders or terminate traffic, this Agreement shall be deemed suspended and Windstream shall apply to the Commission to terminate the Agreement.

5.0 Assignment

- 5.1 Neither Party may assign, subcontract, or otherwise transfer its rights or obligations under this Agreement except under such terms and conditions as are mutually acceptable to the other Party and with such Party's prior written consent, which consent shall not be unreasonably restricted, delayed or withheld. Notwithstanding anything to the contrary, a Party may assign, subcontract or otherwise transfer its rights or obligations under this Agreement upon notice to the other Party, but without needing the other Party's consent, to a subsidiary, affiliate, or parent company, including any firm, corporation, or entity which the Party controls, is controlled by, or is under common control with, or has a majority interest in, or to any entity which succeeds to all or substantially all of its assets whether by merger, sale, or otherwise. Nothing in this Section is intended to impair the right of either Party to utilize subcontractors.
- 5.2 Neither Party shall assign this Agreement to any Affiliate or non-affiliated entity unless either (1) the assigning Party pays all undisputed bills, past due and current, under this Agreement, or (2) the assignee expressly assumes liability for payment of such bills.
- 5.3 In the event that INdigital makes any corporate name change (whether it involves a merger, consolidation, assignment or transfer, and including addition or deletion of a d/b/a), change in OCN/AOCN, or makes or accepts a transfer or assignment of interconnection trunks or facilities (including leased facilities), or a change in any other CLEC identifier (collectively, a "CLEC Change"), INdigital shall submit written notice to Windstream within thirty (30) days of the first action taken to implement such CLEC Change.
- 5.4 In the event of an assignment as described in Section 5.1 above, the Parties shall negotiate an implementation plan to effectuate any changes. In addition, INdigital shall compensate Windstream for any service order charges as specified in Windstream's General Subscriber/Local or Access tariffs, associated with such CLEC Change

6.0 Confidential and Proprietary Information

- 6.1 For the purposes of this Agreement, confidential information means confidential or proprietary technical, Customer, End User, network, or business information disclosed by one Party (the "Discloser") to the other Party (the "Recipient"), which is disclosed by one Party to the other in connection with this Agreement, during negotiations or the term of this Agreement ("Confidential Information"). Such Confidential Information shall automatically be deemed proprietary to the Discloser and subject to this §6.0, unless otherwise confirmed in writing by the Discloser. All other information which is indicated and marked, as Confidential Information at the time of disclosure

shall also be treated as Confidential Information under §6.0 of this Agreement. The Recipient agrees (i) to use Confidential Information only for the purpose of performing under this Agreement, (ii) to hold it in confidence and disclose it to no one other than its employees or agents having a need to know for the purpose of performing under this Agreement, and (iii) to safeguard it from unauthorized use or disclosure using at least the same degree of care with which the Recipient safeguards its own Confidential Information, but in no event less than a reasonable degree of care. If the Recipient wishes to disclose the Discloser's Confidential Information to a third-party agent or consultant, the agent or consultant must have executed a written agreement of nondisclosure and nonuse comparable to the terms of this Section.

- 6.2 The Recipient may make copies of Confidential Information only as reasonably necessary to perform its obligations under this Agreement. All such copies will be subject to the same restrictions and protections as the original and will bear the same copyright and proprietary rights notices as are contained on the original.
- 6.3 The Recipient agrees to return all Confidential Information to the Discloser in tangible form received from the Discloser, including any copies made by the Recipient within thirty (30) days after a written request is delivered to the Recipient, or to destroy all such Confidential Information if directed to do so by Discloser except for Confidential Information that the Recipient reasonably requires to perform its obligations under this Agreement. If either Party loses or makes an unauthorized disclosure of the other Party's Confidential Information, it will notify such other Party immediately and use reasonable efforts to retrieve the lost or wrongfully disclosed information.
- 6.4 The Recipient will have no obligation to safeguard Confidential Information: (i) which was in the possession of the Recipient free of restriction prior to its receipt from the Discloser; (ii) after it becomes publicly known or available through no breach of this Agreement by the Recipient, (iii) after it is rightfully acquired by the Recipient free of restrictions on its disclosure, or (iv) after it is independently developed by personnel of the Recipient to whom the Discloser's Confidential Information had not been previously disclosed. In addition, either Party will have the right to disclose Confidential Information to any state or federal regulatory body, or a court in the conduct of approval or performance of this Agreement, as long as, in the absence of an applicable protective order, the Discloser has been previously notified by the Recipient in time sufficient for the Recipient to undertake lawful measures to avoid disclosing such information and for Discloser to have reasonable time to seek or negotiate a protective order before or with any applicable state or regulatory body or a court.
- 6.5 The Parties recognize that an individual End User may simultaneously seek to become or be a Customer of both Parties. Nothing in this Agreement is intended to limit the ability of either Party to use Customer specific information lawfully obtained from End Users or sources other than the Discloser, subject to applicable rules governing use of Customer Propriety Network Information (CPNI).
- 6.6 Each Party's obligations to safeguard Confidential Information disclosed prior to expiration or termination of this Agreement will survive such expiration or termination.
- 6.7 Except as otherwise expressly provided elsewhere in this Agreement, no license is hereby granted with respect to any patent, trademark, or copyright, nor is any such license implied solely by virtue of the disclosure of any Confidential Information.
- 6.8 Each Party agrees that the Discloser may be irreparably injured by a disclosure in breach of this Agreement by the Recipient or its representatives and the Discloser will be entitled to seek equitable relief, including injunctive relief and specific performance, in the event of any breach or threatened breach of the confidentiality provisions of this Agreement. Such remedies will not be deemed to be the exclusive remedies for a breach of this Agreement but will be in addition to all other remedies available at law or in equity.

7.0 **Liability and Indemnification**

7.1 **Limitation of Liabilities**

With respect to any claim or suit for damages arising out of mistakes, omissions, defects in transmission, interruptions, failures, delays or errors occurring in the course of furnishing any service hereunder, the liability of the Party furnishing the affected service, if any, shall not exceed a credit for the actual, documented cost of the services or functions not performed or improperly performed for the period of that particular service during which such mistakes, omissions, defects in transmission, interruptions, failures, delays or errors occurs and continues; provided, however, that any such mistakes, omissions, defects in transmission, interruptions, failures, delays, or errors which are caused by the gross negligence or willful, wrongful act or omission of the complaining Party or which arise from the use of the complaining Party's facilities or equipment shall not result in the imposition of any liability whatsoever upon the other Party furnishing service.

7.2 **No Consequential Damages**

EXCEPT AS SPECIFICALLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY WILL BE LIABLE TO THE OTHER PARTY FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES SUFFERED BY SUCH OTHER PARTY (INCLUDING WITHOUT LIMITATION DAMAGES FOR HARM TO BUSINESS, LOST REVENUES, LOST SAVINGS, OR LOST PROFITS SUFFERED BY SUCH OTHER PARTY), REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, WARRANTY, STRICT LIABILITY, OR TORT, INCLUDING WITHOUT LIMITATION NEGLIGENCE OF ANY KIND WHETHER ACTIVE OR PASSIVE, AND REGARDLESS OF WHETHER THE PARTIES KNEW OF THE POSSIBILITY THAT SUCH DAMAGES COULD RESULT. EACH PARTY HEREBY RELEASES THE OTHER PARTY (AND SUCH OTHER PARTY'S SUBSIDIARIES AND AFFILIATES, AND THEIR RESPECTIVE OFFICERS, DIRECTORS, EMPLOYEES, AND AGENTS) FROM ANY SUCH CLAIM. NOTHING CONTAINED IN THIS SECTION WILL LIMIT EITHER PARTY'S LIABILITY TO THE OTHER PARTY FOR (i) WILLFUL OR INTENTIONAL MISCONDUCT (INCLUDING GROSS NEGLIGENCE) OR (ii) BODILY INJURY, DEATH, OR DAMAGE TO TANGIBLE REAL OR TANGIBLE PERSONAL PROPERTY.

7.3 **Obligation to Indemnify**

7.3.1 Each Party shall be indemnified ("Indemnified Party") and held harmless by the other Party ("Indemnifying Party") against claims, losses, suits, demands, damages, costs, expenses, including reasonable attorneys' fees ("Claims"), asserted, suffered, or made by third parties arising from (i) any act or omission of the Indemnifying Party in connection with its performance or non-performance under this Agreement; and (ii) provision of the Indemnifying Party's services or equipment, including but not limited to claims arising from the provision of the Indemnifying Party's services to its End Users (e.g., claims for interruption of service, quality of service or billing disputes) except to the extent such act or omission was caused by the negligence or willful misconduct of the Indemnified Party. Each Party shall also be indemnified and held harmless by the other Party against claims and damages of persons for services furnished by the Indemnifying Party or by any of its subcontractors, under worker's compensation laws or similar statutes.

7.3.2 Each Party, as an Indemnifying Party agrees to release, defend, indemnify, and hold harmless the other Party from any claims, demands or suits that asserts any infringement or invasion of privacy or confidentiality of any person or persons caused or claimed to be caused, directly or indirectly, by the Indemnifying Party's employees and equipment associated with the provision of any service herein. This provision includes but is not limited to suits arising from unauthorized disclosure of the End User's name, address, or telephone number.

7.3.3 Neither Party makes any warranties, express or implied, concerning its respective (or any third party's) rights with respect to intellectual property (including without limitation, patent, copyright and trade secret rights) or contract rights associated with their respective interconnection with the other Party's network use or receipt of the other Party's services.

7.3.4 When the lines or services of other companies and carriers are used in establishing connections to and/or from points not reached by a Party's lines, neither Party shall be liable for any act or omission of the other companies or carriers.

7.4 Obligation to Defend; Notice; Cooperation

Whenever a claim arises for indemnification under this Section (the "Claim"), the Indemnatee will promptly notify the Indemnifying Party and request the Indemnifying Party to defend the same. Failure to so notify the Indemnifying Party will not relieve the Indemnifying Party of any liability that the Indemnifying Party might have, except to the extent that such failure prejudices the Indemnifying Party's ability to defend such Claim. The Indemnifying Party will have the right to defend against such Claim in which event the Indemnifying Party will give written notice to the Indemnatee of acceptance of the defense of such Claim and the identity of counsel selected by the Indemnifying Party. Except as set forth below, such notice to the Indemnatee will give the Indemnifying Party full authority to defend, adjust, compromise, or settle such Claim with respect to which such notice has been given, except to the extent that any compromise or settlement might prejudice the Intellectual Property Rights of the Indemnatee. The Indemnifying Party will consult with the Indemnatee prior to any compromise or settlement that would affect the Intellectual Property Rights or other rights of the Indemnatee, and the Indemnatee will have the right to refuse such compromise or settlement and, at the Indemnatee's sole cost, to take over such defense of such Claim. Provided, however, that in such event the Indemnifying Party will not be responsible for, nor will it be obligated to indemnify the Indemnatee against any damages, costs, expenses, or liabilities, including without limitation, attorneys' fees, in excess of such refused compromise or settlement. With respect to any defense accepted by the Indemnifying Party, the Indemnatee will be entitled to participate with the Indemnifying Party in such defense if the Claim requests equitable relief or other relief that could affect the rights of the Indemnatee and also will be entitled to employ separate counsel for such defense at such Indemnified Party's expense. In the event the Indemnifying Party does not accept the defense of any indemnified Claim as provided above, the Indemnatee will have the right to employ counsel for such defense at the expense of the Indemnifying Party, and the Indemnifying Party shall be liable for all costs associated with the Indemnatee's defense of such Claim including court costs, and any settlement or damages awarded the third party. Each Party agrees to cooperate and to cause its employees and agents to cooperate with the other Party in the defense of any such Claim.

8.0 Payment of Rates and Late Payment Charges

8.1 In the event of a material adverse change in CLEC's financial condition during the life of this Agreement, Windstream may request a security deposit. A "material adverse change in financial condition" means CLEC is a new CLEC with no established credit history, or is a CLEC that has not established satisfactory credit with Windstream, or the Party is repeatedly delinquent in making its payments, or is being reconnected after a disconnection of Service or discontinuance of the processing of orders by Windstream due to a previous failure to pay undisputed charges in a timely manner, or Windstream receives credible information of a negative impact to the CLEC's financial stability. Windstream may require a deposit to be held as security for the payment of charges before the orders from CLEC will be provisioned and completed or before reconnection of Service. "Repeatedly delinquent" means any payment of a material amount of total monthly Billing under the Agreement received after the Payment Due Date, three (3) or more times during the last twelve (12) month period. The security deposit may not exceed the estimated total monthly charges for a

two (2) month period based upon recent or forecasted billing. The deposit may be adjusted by CLEC's actual monthly average charges, payment history under this Agreement, or other relevant factors.

- 8.1.1 The deposit may be an irrevocable bank letter of credit, a letter of credit with terms and conditions acceptable to Windstream, or some other form of mutually acceptable security such as a cash deposit. Any such security deposit may be held during the continuance of the service as security for the payment of any and all amounts accruing for the service, for so long as CLEC's credit is impaired, plus one year.
- 8.1.2 If a security deposit is required, such security deposit shall be made prior to the activation of service.
- 8.1.3 The fact that a security deposit has been provided in no way relieves INdigital from complying with Windstream's regulations as to advance payments and the prompt payment of bills on presentation nor does it constitute a waiver or modification of the regular practices of Windstream providing for the discontinuance of service for non-payment of any sums due Windstream.
- 8.1.4 Windstream reserves the right to increase the security deposit requirements when, in its reasonable judgment, circumstances so warrant and/or gross monthly billing has increased for three (3) consecutive months to a level beyond the level initially used to determine the security deposit. Windstream shall provide thirty (30) days' written notice of its decision to increase the security deposit requirements. INdigital shall provide the increased deposit within thirty (30) days of receipt of such notice. INdigital may dispute the need for or amount of the increase in accordance with the Dispute Resolution provisions of this Agreement by providing written notice of dispute within thirty (30) days of receipt of such notice, but initiating the dispute resolution process will not relieve it of its obligation to timely provide the increased deposit.
- 8.1.5 In the event that INdigital is in breach of this Agreement, service to INdigital may be terminated by Windstream; any security deposits applied to its account and Windstream may pursue any other remedies available at law or equity.
- 8.1.6 In the case of a cash deposit, interest at a rate as set forth in the appropriate Windstream tariff shall be paid to INdigital during the possession of the security deposit by Windstream. Interest on a security deposit shall accrue annually and, if requested, shall be annually credited to INdigital by the accrual date.
- 8.2 Windstream may, but is not obligated to, draw on the cash deposit, as applicable, upon the occurrence of any one of the following events.
 - 8.2.1 INdigital owes Windstream undisputed charges under this Agreement that are more than thirty (30) calendar days past due; or
 - 8.2.2 INdigital admits its inability to pay its debts as such debts become due, has commenced a voluntary case (or has had an involuntary case commenced against it) under the U.S. Bankruptcy Code or any other law relating to insolvency, reorganization, wind-up, composition or adjustment of debts or the like, has made an assignment for the benefit of creditors or, is subject to a receivership or similar proceeding; or
 - 8.2.3 The expiration or termination of this Agreement.
- 8.3 If Windstream draws on the security deposit, upon request by Windstream, INdigital will provide a replacement deposit conforming to the requirements of Section 8.1.

- 8.4 Except as otherwise specifically provided elsewhere in this Agreement, the Parties will pay all undisputed rates and charges due and owing under this Agreement within thirty (30) days of the invoice date in immediately available funds. The Parties represent and covenant to each other that all invoices will be promptly processed and mailed in accordance with the Parties' regular procedures and billing systems.
- 8.4.1 If the payment due date falls on a Sunday or on a Holiday which is observed on a Monday, the payment due date shall be the first non-Holiday following such Sunday or Holiday. If the payment due date falls on a Saturday or on a Holiday which is observed on Tuesday, Wednesday, Thursday, or Friday, the payment due date shall be the last non-Holiday preceding such Saturday or Holiday. If payment is not received by the payment due date, a late penalty, as set forth in §8.5 below, will be assessed.
- 8.4.2 Each Party shall establish monthly billing dates and the bill date will be the same day each month. All bills will be delivered to the other Party no later than ten (10) calendar days from the bill date and at least twenty (20) calendar days prior to the payment due date (as described in this Attachment), whichever is earlier. If a Party fails to receive a billing within the time period specified in this Section, the corresponding payment due date will be extended by the number of days the bill is late in being delivered.
- 8.5 If the undisputed payment amount billed is received by the billing Party after the payment due date or if any portion of the payment is received by the billing Party in funds which are not immediately available to the billing Party, then a late payment charge will apply to the unpaid undisputed balance.
- 8.6 Except as otherwise specifically provided in this Agreement, interest on overdue invoices will apply at the lesser of the highest interest rate (in decimal value) which may be levied by law for commercial transactions, compounded daily and applied for each month or portion thereof that an outstanding balance remains, or shall not exceed 0.0004930% compounded daily and applied for each month or portion thereof that an outstanding balance remains.

9.0 Dispute Resolution

9.1 Notice of Disputes

- 9.1.1 Notice of a valid contractual dispute must be in writing, specifically documenting the nature of the dispute, and must include a detailed description of the underlying dispute (the "Dispute Notice"). Billing disputes must be submitted on the Billing Dispute Form contained in Appendix A or the dispute will not be accepted as a valid billing dispute and therefore rejected by the billing Party. The billing dispute form must be completed with all relevant fields populated by the disputing Party or the form will be rejected by the billing Party.

9.2 Billing Disputes

- 9.2.1 For all services purchased under this Agreement, if the disputing party intends to withhold disputed amounts, the disputing Party must submit the applicable billing dispute ("Billing Dispute") to the billing Party on the Billing Dispute Form contained in Appendix A by the due date on the disputed bill. For all services purchased under this Agreement, if a particular bill is paid in full by the due date of the bill, the disputing Party may submit a billing dispute ("Billing Dispute") to the billing Party on the Billing Dispute Form contained in Appendix A within 12 months of the due date of the bill. The dispute form must be complete, with all relevant fields populated with the required information for the billable element in dispute. If the billing dispute form is not complete with all information, the dispute will be rejected by the billing Party. After receipt of a completed dispute, the

billing Party will review to determine the accuracy of the billing dispute and make a good faith attempt to either accept or reject the dispute within thirty (30) days. If the billing Party determines the dispute is valid, the billing Party will credit the disputing Party's bill by the next bill date. If the billing Party determines the billing dispute is not valid, the billing Party will provide information outlining why the dispute is rejected. The disputing Party may escalate the dispute as outlined in section 9.2.1.1. If escalation of the billing dispute does not occur within the sixty (60) calendar days as outlined below, the disputing Party must remit payment for the disputed charge, including late payment charges, to the billing Party by the next bill date and these charges are no longer considered disputed charges. Closure of the dispute does not waive the disputing Party's right to file an additional dispute for prospective billing. The Parties will endeavor to resolve all Billing Disputes within sixty (60) calendar days from receipt of the Dispute Form.

9.2.1.1 Resolution of the dispute is expected to occur at the first level of management, resulting in a recommendation for settlement of the dispute and closure of a specific billing period. If the issues are not resolved within the allotted time frame, the following resolution procedure will be implemented:

9.2.1.1.1 If the dispute is not resolved within thirty (30) calendar days of receipt of the escalation request, the dispute will be escalated via written notice to the second level of management, or its equivalent, for each of the respective Parties for resolution. If the escalated dispute is not resolved within sixty (60) calendar days of the escalation request, the dispute will be escalated to the third level of management for each of the respective Parties for resolution.

9.2.1.1.2 If the dispute is not resolved within ninety (90) calendar days of the receipt of the escalation request, the dispute will be escalated to the fourth level of management, or its equivalent, for each of the respective Parties for resolution.

9.2.1.1.3 Each Party will provide to the other Party an escalation list for resolving billing disputes. The escalation list will contain the name, title, phone number, fax number and email address for each escalation point identified in this Section 9.2.1.1. A Party's failure to pay all undisputed amounts by the due date listed on the bill, is a material breach of this Agreement that shall be governed by the Default provisions of Section 4.6.

9.2.1.1.4 If the dispute is not resolved within one hundred twenty (120) calendar days of receipt of the Dispute Form or either Party is not operating in good faith to resolve the dispute, the Formal Dispute Resolution process, outlined in section 9.4, may be invoked.

9.2.1.2 If the disputing Party disputes a charge and does not pay such charge by the payment due date, such charges shall be subject to late payment charges as set forth in subsection 8.3 above. If the disputing Party disputes charges and the dispute is resolved in favor of the disputing Party, the billing Party shall credit the bill of the disputing Party for the amount of the disputed charges, along with any late payment charges assessed, by the next billing cycle after the resolution of the dispute. If the disputing Party disputes a charge and has submitted payment by the due date, and the dispute is resolved in favor of the disputing Party, the billing Party shall credit the bill of the disputing Party for the amount of the disputed charges and any applicable interest. Accordingly, if the disputing Party disputes charges and the dispute is resolved in favor of the billing Party, the disputing Party shall pay the billing Party the amount of the disputed charges and any associated late payment charges, by the next billing due date after the resolution of the dispute.

9.2.1.3 For purposes of this subsection 9.1.1, a billing dispute shall not include the refusal to pay other amounts owed to a Party pending resolution of the dispute. Claims by the disputing Party for damages of any kind will not be considered a Bona Fide Dispute for purposes of this subsection 9.2.1. Parties failure to pay all undisputed amounts by the due date listed on the bill is a material breach of this agreement that shall be governed by the Default provisions of section 4.6.

9.2.1.3 Neither Party shall bill the other Party for charges incurred more than twelve (12) months after the service is provided to the non-billing Party.

9.2.2 **All Other Disputes**

All other disputes (*i.e.*, contractual disputes) shall be valid within the scope of this Agreement, and the applicable statute of limitations shall govern such disputes.

9.3 **Alternative to Litigation**

9.3.1 The Parties desire to resolve disputes arising out of this Agreement without litigation. Accordingly, except for action seeking a temporary restraining order, an injunction, or similar relief from the PSC or if the PSC declines to act having concluded it lacks jurisdiction then in a court of competent jurisdiction, related to the purposes of this Agreement, or suit to compel compliance with this Dispute Resolution process, the Parties agree to use the following Dispute Resolution procedure with respect to any controversy or claim arising out of or relating to this Agreement or its breach.

9.3.2 Each Party agrees to promptly notify the other Party in writing of a dispute and may in the Dispute Notice invoke the informal dispute resolution process described in §9.4. The Parties will endeavor to resolve the dispute within thirty (30) days after the date of the Dispute Notice.

9.4 **Informal Resolution of Disputes**

In the case of any dispute and upon receipt of the Dispute Notice each Party will appoint a duly authorized representative knowledgeable in telecommunications matters, to meet and negotiate in good faith to resolve any dispute arising under this Agreement. The location, form, frequency, duration, and conclusion of these discussions will be left to the discretion of the representatives. Upon agreement, the representatives may, but are not obligated to, utilize other alternative dispute resolution procedures such as mediation to assist in the negotiations. Discussions and the correspondence among the representatives for purposes of settlement are exempt from discovery and production and will not be admissible in any lawsuit without the concurrence of both Parties. Documents identified in or provided with such communications, which are not prepared for purposes of the negotiations, are not so exempted and, if otherwise admissible, may be admitted in evidence in the lawsuit. Unless otherwise provided herein, or upon the Parties' Agreement, either Party may invoke formal dispute resolution procedures or other procedures as appropriate, not earlier than thirty (30) days after the date of the Dispute Notice, provided the Party invoking the formal dispute resolution process has in good faith negotiated, or attempted to negotiate, with the other Party.

9.5 **Formal Dispute Resolution**

9.5.1 The Parties agree that all unresolved disputes arising under this Agreement may be submitted to PSC for resolution in accordance with its dispute resolution process and the outcome of such process will be binding on the Parties, subject to any right to appeal a decision reached by the PSC under applicable law.

9.5.2 If the PSC does not have or declines to accept jurisdiction over any dispute arising under this Agreement, either Party may proceed with any remedy available to it pursuant to law, equity or agency mechanisms

9.5.3 Each Party shall bear its own costs of these procedures unless the Missouri Public Service Commission or other presiding authority, if any, rules otherwise.

9.6 **Conflicts**

9.6.1 The Parties agree that the Dispute Resolution procedures set forth in this Agreement are not intended to conflict with applicable requirements of the Act or the state commission with regard to procedures for the resolution of disputes arising out of this Agreement and do not preclude a Party from seeking relief under applicable rules or procedures of the PSC.

10.0 **INTENTIONALLY LEFT BLANK**

11.0 **Notices**

11.1 Except as otherwise specifically provided in this Agreement, all notice, consents, approvals, modifications, or other communications to be given under this Agreement shall be in writing and sent postage prepaid by certified US mail return receipt requested. Notice may also be effected by personal delivery or by overnight courier. All notices will be effective upon actual receipt or refusal of delivery, and should be directed to the following:

If to INdigital:

Little Rock, AR 72212

- 11.2 Either Party may unilaterally change its designated representative and/or address, telephone contact number or facsimile number for the receipt of notices by giving seven (7) days' prior written notice to the other Party in compliance with this Section.

12.0 Taxes

- 12.1 Each Party purchasing services hereunder shall pay or otherwise be responsible for all federal, state, or local sales, use, excise, gross receipts, transaction or similar taxes, fees or surcharges (hereinafter "Tax") levied against or upon such purchasing Party (or the providing Party when such providing Party is permitted to pass along to the purchasing Party such taxes, fees or surcharges), except for any tax on either Party's corporate existence, status or income, corporate property taxes and payroll taxes. Whenever possible, these amounts shall be billed as a separate item on the invoice. Purchasing Party may be exempted from certain taxes if purchasing Party provides proper documentation, e.g., reseller certificate, from the appropriate taxing authority. Failure to timely provide said resale tax exemption certificate will result in no exemption being available to the purchasing Party until such time as the purchasing Party presents a valid certification.
- 12.2 With respect to any purchase of services, facilities or other arrangements, if any Tax is required or permitted by applicable law to be collected from the purchasing Party by the providing Party, then (i) the providing Party shall bill the purchasing Party for such Tax, (ii) the purchasing Party shall remit such Tax to the providing Party and (iii) the providing Party shall remit such collected Tax to the applicable taxing authority, except as otherwise indicated below.
- 12.3 The Parties agree that each Party shall generally be responsible for collecting and remitting to the appropriate city, any franchise fees or taxes for use of city rights of way, in accordance with the terms of that Party's franchise Agreement. In the event a city attempts to require both Parties to pay franchise fees on the same revenues with respect to resold services or unbundled network elements then the Parties agree to cooperate in opposing such double taxation.
- 12.4 With respect to any purchase hereunder of services, facilities or arrangements that are resold to a third party, the purchasing Party agrees to indemnify and hold harmless the providing Party on an after-tax basis for any costs incurred by the providing Party as a result of actions taken by the applicable taxing authority to collect the Tax from the providing Party due to the failure of the purchasing Party to pay or collect and remit such tax to such authority.
- 12.5 If the providing Party fails to properly bill any Tax as required herein, then, as between the providing Party and the purchasing Party, (i) the purchasing Party shall remain liable for such uncollected Tax and (ii) the providing Party shall be liable for any penalty and interest assessed with respect to such uncollected Tax by such authority. However, if the purchasing Party fails to pay any taxes properly billed, then, as between the providing Party and the purchasing Party, the purchasing Party will be solely responsible for payment of the taxes, penalty and interest.
- 12.6 If the purchasing Party fails to impose and/or collect any Tax from End Users as required herein, then, as between the providing Party and the purchasing Party, the purchasing Party shall remain liable for such uncollected Tax and any interest and penalty assessed thereon with respect to the uncollected Tax by the applicable taxing authority. With respect to any Tax that the purchasing Party has agreed to pay or impose on and/or collect from End Users, the purchasing Party agrees to indemnify and hold harmless the providing Party on an after-tax basis for any costs incurred by the providing Party as a result of actions taken by the applicable taxing authority to collect the Tax from the providing Party due to the failure of the purchasing Party to pay or collect and remit such Tax to such authority.

- 12.7 All notices, affidavits, exemption certificates or other communications required or permitted to be given by either Party to the other Party under this §12.0, shall be made in writing and sent postage prepaid by registered mail return receipt requested. All notices shall be effective upon receipt. All notices sent pursuant to this Section shall be directed to the following:

- 12.8 Either Party may unilaterally change its designated representative and/or address, telephone contact number or facsimile number for the receipt of notices by giving seven (7) days' prior written notice to the other Party in compliance with this Section.

13.0 Force Majeure

- 13.1 Except as otherwise specifically provided in this Agreement, neither Party shall be liable for delays or failures in performance resulting from acts or occurrences beyond the reasonable control of such Party, regardless of whether such delays or failures in performance were foreseen or foreseeable as of the date of this Agreement, including, without limitation: fire, explosion, power failure, acts of God, war, revolution, civil commotion, or acts of public enemies; epidemics, riots, insurrections, earthquakes, tornadoes, hurricanes, nuclear accidents, floods, or labor unrest, including, without limitation strikes, slowdowns, picketing or boycotts or delays caused by the other Party or by other service or equipment vendors; or any other similar circumstances beyond the Party's reasonable control. In such event, the Party affected shall, upon giving prompt notice to the other Party, be excused from such performance on a day-to-day basis to the extent of such interference (and the other Party shall likewise be excused from performance of its obligations on a day-for-day basis to the extent such Party's obligations relate to the performance so interfered with). The affected Party

shall use its reasonable commercial efforts to avoid or remove the cause of nonperformance and both Parties shall proceed to perform with dispatch once the causes are removed or cease.

14.0 Publicity

- 14.1 The Parties agree not to use in any advertising or sales promotion, press releases or other publicity matters, any endorsements, direct or indirect quotes or pictures implying endorsement by the other Party or any of its employees without such Party's prior written approval. The Parties will submit to each other for written approval, prior to publication, all such publicity endorsement matters that mention or display the other's name and/or marks or contain language from which a connection to said name and/or marks may be inferred or implied.
- 14.2 Neither Party will offer any services using the trademarks, service marks, trade names, brand names, logos, insignia, symbols or decorative designs of the other Party or its affiliates without the other Party's written authorization.

15.0 Network Maintenance and Management

- 15.1 The Parties will work cooperatively to implement this Agreement. The Parties will exchange appropriate information (e.g., maintenance contact numbers, network information, information required to comply with law enforcement and other security agencies of the Government, etc.) to achieve this desired reliability, subject to the confidentiality provisions herein.
- 15.2 Each Party will provide a 24-hour contact number for Network Traffic Management issues to the other's surveillance management center. A facsimile (FAX) number must also be provided to facilitate event notifications for planned mass calling events. Additionally, both Parties agree that they will work cooperatively to ensure that all such events will attempt to be conducted in such a manner as to avoid disruption or loss of service to other End Users.

15.2.1 24 Hour Network Management Contact:

For Windstream:

Contact Number: 330-650-7929

For INdigital:

Contact Number: 877-469-2010

Fax: 260-469-2091

- 15.3 Neither Party will use any service provided under this Agreement in a manner that impairs the quality of service to other carriers or to either Party's subscribers. Either Party will provide the other Party notice of said impairment at the earliest practicable time.

16.0 Law Enforcement and Civil Process

16.1 Intercept Devices

Local and federal law enforcement agencies periodically request information or assistance from local telephone service providers. When either Party receives a request associated with a Customer of the other Party, the receiving Party will refer such request to the appropriate Party, unless the request directs the receiving Party to attach a pen register, trap-and-trace or form of intercept on the

Party's own facilities, in which case that Party will comply with any valid requirement, to the extent the receiving Party is able to do so; if such compliance requires the assistance of the other Party such assistance will be provided.

16.2 **Subpoenas**

If a Party receives a subpoena for information concerning an End User the Party knows to be an End User of the other Party, the receiving Party will refer the subpoena to the requesting entity with an indication that the other Party is the responsible company.

16.3 **Law Enforcement Emergencies**

If a Party receives a request from a law enforcement agency to implement at its switch a temporary number change, temporary disconnect, or one-way denial of outbound calls for an End User of the other Party, the receiving Party will comply so long as it is a valid emergency request. Neither Party will be held liable for any claims or damages arising from compliance with such requests, and the Party serving the End User agrees to indemnify and hold the other Party harmless against any and all such claims.

- 16.4 The Parties will provide five (5) day a week 8:00 a.m. to 5:00 p.m. installation and information retrieval pertaining to lawful, manual traps and information retrieval on Customer invoked CLASS services pertaining to non-emergency calls such as annoyance calls. The Parties will provide assistance twenty-four (24) hours per day for situations involving immediate threat of life or at the request of law enforcement officials. The Parties will provide a twenty-four (24) hour contact number to administer this process.

17.0 **Changes in Subscriber Carrier Selection**

- 17.1 Each Party will abide by applicable state or federal laws and regulations in obtaining End User authorization prior to changing End User's Local Service Provider to itself and in assuming responsibility for any applicable charges as specified in §258 (b) of the Telecommunications Act of 1996. Either Party shall make authorization available to the other Party upon reasonable requests and at no charge.
- 17.2 Either Party can initiate a challenge to a change in its local exchange service provider. If an End User notifies either Party that the End User requests local exchange service, the Party receiving such request shall be free to immediately provide service to such End User.
- 17.3 When an End User changes or withdraws authorization, each Party will release Customer specific facilities in accordance with the Customers' direction or the End User's authorized agent.
- 17.4 Subject to applicable rules, orders, and decisions, Windstream will provide INdigital with access to Customer Proprietary Network Information (CPNI) for Windstream End Users upon INdigital affirmation that INdigital has obtained a Letter of Agency (LOA). INdigital will provide such Letter of Authorization upon request from Windstream.
- 17.4.1 The Parties agree that they will conform to FCC and/or state regulations regarding the information provided on the LOA, provisioning of CPNI between the Parties, and regarding the use of that information by the requesting Party.
- 17.4.2 The requesting Party will document End User permission obtained to receive CPNI, whether or not the End User has agreed to change Local Service Providers. If the Parties do not agree that INdigital requested CPNI for a specific End User, or that Windstream has erred in not accepting proof of an LOA, the Parties may immediately request dispute

resolution in accordance with General Terms & Conditions, Section 9.0, Dispute Resolution.

- 17.5 Windstream will only accept an LOA for a Windstream Customer of record or other authorized individual. INdigital may not delegate its obligation to obtain written authorization from Windstream's Customer of record to a third party.

18.0 Amendments or Waivers

- 18.1 Except as otherwise provided in this Agreement, no amendment to this Agreement will be effective unless the same is in writing and signed by an authorized representative of each Party. In addition, no course of dealing or failure of a Party strictly to enforce any term, right or condition of this Agreement will be construed as a waiver of such term, right, or condition. Windstream does not waive, any rights including, but not limited to, the rights that would be afforded Windstream under 47 USC § 251(f). The Parties enter into this Agreement without prejudice to any positions they have taken previously, or may take in the future in any legislative, regulatory, other public forum, contract negotiation, or bona fide request, including matters related to the types of arrangements prescribed by this Agreement.

19.0 Authority

- 19.1 Each person whose signature appears below represents and warrants that they have the authority to bind the Party on whose behalf they executed this Agreement.

20.0 Binding Effect

- 20.1 This Agreement will be binding on and inure to the benefit of the respective successors and permitted assigns of the Parties.

21.0 Consent

- 21.1 Where consent, approval, or mutual Agreement is required of a Party, it will not be unreasonably conditioned, withheld or delayed.

22.0 Expenses

- 22.1 Except as specifically set out in this Agreement, each Party will be solely responsible for its own expenses involved in all activities related to the subject of this Agreement.

23.0 Headings

- 23.1 The headings in this Agreement are inserted for convenience and identification only and will not be considered in the interpretation of this Agreement.

24.0 Relationship of Parties

- 24.1 This Agreement will not establish, be interpreted as establishing, or be used by either Party to establish or to represent their relationship as any form of agency, partnership or joint venture.

Neither Party will have any authority to bind the other Party, nor to act as an agent for the other Party unless written authority, separate from this Agreement, is signed by both Parties. Nothing in the Agreement will be construed as providing for the sharing of profits or losses arising out of the efforts of either or both of the Parties. Nothing herein will be construed as making either Party responsible or liable for the obligations and undertakings of the other Party.

25.0 Conflict of Interest

- 25.1 The Parties represent that no employee or agent of either Party has been or will be employed, retained, paid a fee, or otherwise received or will receive any personal compensation or consideration from the other Party, or any of the other Party's employees or agents in connection with the arranging or negotiation of this Agreement or associated documents.

26.0 Multiple Counterparts

- 26.1 This Agreement may be executed in multiple counterparts, each of which will be deemed an original but all of which will together constitute but one, and the same document.

27.0 Third Party Beneficiaries

- 27.1 Except as may be specifically set forth in this Agreement, this Agreement does not provide and will not be construed to provide third parties with any remedy, claim, liability, reimbursement, cause of action, or other privilege.

28.0 Regulatory Approval

- 28.1 Each Party agrees to cooperate with the other Party and with any regulatory agency to obtain regulatory approval. During the term of this Agreement, each Party agrees to continue to cooperate with the other Party and any regulatory agency so that the benefits of this Agreement may be achieved.
- 28.2 Upon execution of this Agreement, it shall be filed with the appropriate state regulatory agency pursuant to the requirements of §252 of the Act. If the state regulatory agency imposes any filing(s) or public interest notice(s) regarding the filing or approval of the Agreement, INdigital shall assume sole responsibility in making such filings or notices. All costs associated with the aforementioned filing(s) or notice(s) shall borne by INdigital.

29.0 Trademarks and Trade Names

- 29.1 Each Party warrants that, to the best of its knowledge, the services provided under this Agreement do not or will not violate or infringe upon any patent, copyright, trademark, or trade secret rights of any other persons.
- 29.2 Except as specifically set out in this Agreement, nothing in this Agreement will grant, suggest, or imply any authority for one Party to use the name, trademarks, service marks, or trade names of the other Party for any purpose whatsoever, absent written consent of the other Party.

30.0 Regulatory Authority

- 30.1 Each Party will be responsible for obtaining and keeping in effect all Federal Communications Commission, state regulatory Commission, franchise authority and other regulatory approvals that may be required in connection with the performance of its obligations under this Agreement. Each Party will reasonably cooperate with the other Party in obtaining and maintaining any required approvals necessary for fulfilling its obligations under this Agreement.

31.0 Verification Reviews

- 31.1 Subject to each Party's reasonable security requirements and except as may be otherwise specifically provided in this Agreement, either Party may audit the other Party's relevant books, records and other documents pertaining to services provided under this Agreement once in each Contract Year solely for the purpose of evaluating the accuracy of the other Party's billing and invoicing to the other Party. Such audit will take place at a time and place agreed on by the Parties no later than sixty (60) calendar days after notice thereof.
- 31.2 The review will consist of an examination and verification of data involving records, systems, procedures and other information related to the services performed by either Party as related to settlement charges or payments made in connection with this Agreement as determined by either Party to be reasonably required. Each Party shall maintain reasonable records for a minimum of twelve (12) months and provide the other Party with reasonable access to such information as is necessary to determine amounts receivable or payable under this Agreement.
- 31.3 Adjustments, credits, or payments shall be made and any corrective action shall commence within thirty (30) days or by the second invoice cycle date from the Requesting Party's receipt of the final audit report to compensate for any errors or omissions which are disclosed by such audit and are agreed to by the Parties. Audit findings may be applied retroactively for no more than twelve (12) months from the date the audit began. Interest shall not exceed one and one-half (1 ½%) of the highest interest rate allowable by law for commercial transactions shall be assessed and shall be computed by compounding daily from the time of the overcharge, not to exceed twelve (12) months from the date the audit began to the day of payment or credit. Any disputes concerning audit results will be resolved pursuant to the Dispute Resolution procedures described in §9.0 of this Agreement.
- 31.4 Each Party will cooperate fully in any such audit, providing reasonable access to any and all appropriate employees and books, records and other documents reasonably necessary to assess the accuracy of the Party's bills.
- 31.5 Verification reviews will be limited in frequency to once per twelve (12) month period, with provision for staged reviews, as mutually agreed, so that all subject matters are not required to be reviewed at the same time. Verification reviews will be scheduled subject to the reasonable requirements and limitations of the audited Party and will be conducted in a manner that will not interfere with the audited Party's business operations.
- 31.6 The Party requesting a verification review shall fully bear its costs associated with conducting a review. The Party being reviewed will provide access to required information, as outlined in this Section, at no charge to the reviewing Party. Should the reviewing Party request information or assistance beyond that reasonably required to conduct such a review, the Party being reviewed may, at its option, decline to comply with such request or may bill actual, documented costs incurred in complying subsequent to the concurrence of the reviewing Party.
- 31.7 For purposes of conducting an audit pursuant to this Agreement, the Parties may employ other persons or firms for this purpose (so long as said Parties are bound by this Agreement). The Parties will bear their own reasonable expenses associated with the audit.

- 31.8 Information obtained or received by either Party in conducting the audit described in §31.0 shall be subject to the confidentiality provisions of §6.0 of this Agreement, whether or not marked as confidential.

32.0 Complete Terms

- 32.1 This Agreement sets forth the entire understanding and supersedes prior Agreements between the Parties relating to the subject matter contained herein and merges all prior discussions between them, and neither Party shall be bound by any definition, condition, provision, representation, warranty, covenant or promise other than as expressly stated in this Agreement or as is contemporaneously or subsequently set forth in writing and executed by a duly authorized officer or representative of the Party to be bound thereby.

33.0 Cooperation on Preventing End User Fraud

- 33.1 The Parties agree to cooperate with one another to investigate, minimize, and take corrective action in cases of fraud. The Parties' fraud minimization procedures are to be cost-effective and implemented so as not to unduly burden or harm one Party as compared to the other Party.
- 33.2 In cases of suspected fraudulent activity by an End User, at a minimum, the cooperation referenced in the above paragraph will include providing to the other Party, upon request, information concerning End Users who terminate services to that Party without paying all outstanding charges. The Party seeking such information is responsible for securing the End User's permission to obtain such information.

34.0 Notice of Network Changes

- 34.1 The Parties agree to provide each other with reasonable notice consistent with applicable FCC rules of changes in the information necessary for the transmission and routing of services using the other Party's facilities or networks, as well as other changes that affect the interoperability of those respective facilities and networks. Nothing in this Agreement is intended to limit either Party's ability to upgrade or modify its network, including without limitation, the incorporation of new equipment, new software or otherwise so long as such upgrades are not inconsistent with the Parties' obligations under this Agreement.

35.0 Modification of Agreement

- 35.1 If either Party changes its name or makes changes to its company structure or identity due to a merger, acquisition, transfer or any other reason, it is the responsibility of that Party to notify the other Party of said change and request that an amendment to this Agreement, if necessary, be executed to reflect said change.

36.0 Responsibility of Each Party

- 36.1 Each Party is an independent contractor, and has and hereby retains the right to exercise full control of and supervision over its own performance of its obligations under this Agreement and retains full control over the employment, direction, compensation and discharge of its employees assisting in the performance of such obligations. Each Party will be solely responsible for all matters relating

to payment of such employees, including compliance with social security taxes, withholding taxes and all other regulations governing such matters. Each Party will be solely responsible for proper handling, storage, transport and disposal at its own expense of all (i) substances or materials that it or its contractors or agents bring to, create or assume control over at Work Locations or, (ii) waste resulting therefrom or otherwise generated in connection with its or its contractors' or agents' activities at the Work Locations. Subject to the limitations on liability in this Agreement, and except as otherwise provided in this Agreement, each Party will be responsible for (i) its own acts and performance of all obligations imposed by applicable law in connection with its activities, legal status and property, real or personal and, (ii) the acts of its own affiliates, employees, agents and contractors during the performance of the Party's obligations hereunder.

37.0 INTENTIONALLY LEFT BLANK

38.0 Governmental Compliance

- 38.1 Each Party will comply at its own expense with all applicable law that relates to i) its obligations under or activities in connection with this Agreement; of ii) its activities undertaken at, in connection with or relating to Work Locations. The Parties agree to indemnify, defend, (at the other Party's request) and save harmless the other Party, each of its officers, directors and employees from and against any losses, damages, claims, demands, suits, liabilities, fines, penalties, and expenses (including reasonable attorneys' fees) that arise out of or result from i) its failure or the failure of its contractors or agents to comply with this Section 38.1 or ii) any activity, omission, or duty of such Party or its contractors or agents that triggers any legal obligation to investigate or remediate environmental contamination in connection with this Section 38.1. The provisions of Section 7.4 will apply to indemnification under this Section 38.1.

39.0 Responsibility for Environmental Contamination

- 39.1 INdigital will in no event be liable to Windstream for any costs whatsoever resulting from the presence or release of any Environmental Hazard that INdigital did not introduce to the affected work location. Windstream will indemnify, defend (at INdigital's request) and hold harmless INdigital, each of its officers, directors and employees from and against any losses, damages, claims, demands, suits, liabilities, fines, penalties and expenses (including reasonable attorneys' fees) that arise out of or result from (i) any Environmental Hazard that Windstream, its contractors or agents introduce to the Work Locations or (ii) the presence or release of any Environmental Hazard for which Windstream is responsible under applicable law.
- 39.2 Windstream will in no event be liable to INdigital for any costs whatsoever resulting from the presence or release of any Environmental Hazard that Windstream did not introduce to the affected work location. INdigital will indemnify, defend (at Windstream's request) and hold harmless Windstream, each of its officers, directors and employees from and against any losses, damages, claims, demands, suits, liabilities, fines, penalties and expenses (including reasonable attorneys' fees) that arise out of or result from i) any Environmental Hazard that INdigital, its contractors or agents introduce to the Work Locations or ii) the presence or release of any Environmental Hazard for which INdigital is responsible under applicable law.

40.0 Subcontracting

- 40.1 If a Party through a subcontractor performs any obligation under this Agreement, such Party will remain fully responsible for the performance of this Agreement in accordance with its terms,

including any obligations such Party performs through its subcontractors, and each Party will be solely responsible for payments due to the subcontractors such Party engages or uses. No subcontractor will be deemed a third party beneficiary for any purposes under this Agreement. Any subcontractor who gains access to Confidential Information covered by this Agreement will be required by the subcontracting Party to protect such Confidential Information to the same extent the subcontracting Party is required to protect the same under the terms of this Agreement.

41.0 Referenced Documents

- 41.1 Whenever any provision of this Agreement refers to a technical reference, technical publication, any publication of telecommunications industry administrative or technical standards, Windstream handbooks and manuals, or any other document specifically incorporated into this Agreement, it will be deemed to be a reference to the most recent version or edition (including any amendments, supplements, addenda, or successors) of each document that is in effect, and will include the most recent version or edition (including any amendments, supplements, addenda, or successors) of each document incorporated by reference in such a technical reference, technical publication, or publication of industry standards. However, if such reference material is substantially altered in a more recent version to significantly change the obligations of either Party as of the Effective Date of this Agreement and the Parties are not in Agreement concerning such modifications, the Parties agree to negotiate in good faith to determine how such changes will impact performance of the Parties under this Agreement, if at all. Until such time as the Parties agree, the provisions of the last accepted and unchallenged version will remain in force.

42.0 Severability

- 42.1 If any term, condition or provision of this Agreement is held to be invalid or unenforceable for any reason, such invalidity or unenforceability will not invalidate the entire Agreement, unless such construction would be unreasonable. The Agreement will be construed as if it did not contain the invalid or unenforceable provision or provisions, and the rights and obligations of each Party will be construed and enforced accordingly; provided, however, that in the event such invalid or unenforceable provision or provisions are essential elements of this Agreement and substantially impair the rights or obligations of either Party, the Parties will promptly negotiate a replacement provision or provisions. If impasse is reached, the Parties will resolve said impasse under §9.0, Dispute Resolution.

43.0 Survival of Obligations

- 43.1 Any liabilities or obligations of a Party for acts or omissions prior to the cancellation or termination of this Agreement, any obligation of a Party under the provisions regarding indemnification, Confidential Information, limitations on liability, and any other provisions of this Agreement which, by their terms, are contemplated to survive (or to be performed after) termination of this Agreement, will survive cancellation or termination thereof.

44.0 Governing Law

- 44.1 This Agreement shall be governed by and construed in accordance with applicable federal law, the Act, and the FCC's Rules and Regulations, except insofar as state law may control any aspect of this Agreement, in which case the domestic laws of Missouri without regard to its conflicts of laws principles, shall govern. The Parties submit to personal jurisdiction in Missouri.

45.0 Other Obligations of INdigital

- 45.1 Intentionally Left Blank.
- 45.2 INdigital shall use Windstream's electronic operations support system access platform (Windstream Express) to submit orders and requests for maintenance and repair of services, and to engage in other pre-ordering, ordering, provisioning, maintenance and repair transactions. If Windstream has not deployed an electronic capability, INdigital shall use such other processes as Windstream has made available for performing such transaction (including, but not limited, to submission of orders by telephonic facsimile transmission and placing trouble reports by voice telephone transmission). If INdigital chooses to submit orders manually, when Windstream's electronic operations support system access platform (Windstream Express) is available, INdigital will pay a manual order charge as reflected in the applicable Windstream tariff.
- 45.3 INdigital represents and covenants that it will only use Windstream Express pursuant to this Agreement for services related to UNEs, resold services or other services covered by this Agreement, for which this Agreement contains explicit terms, conditions and rates and will not provide its access to a third party.
- 45.4 A service order processing charge (Service Order Charge) will be applied to each service order issued by one Party to the other Party to process a request for installation, disconnection, rearrangement, or changes to orders or existing service pursuant to this Agreement.

46.0 Customer Inquiries

- 46.1 Each Party will refer all questions regarding the other Party's services or products directly to the other Party at a telephone number specified by that Party.
- 46.2 Each Party will ensure that all of their representatives who receive inquiries regarding the other Party's services or products: (i) take commercially reasonable efforts to provide contact information of the other Party; and (ii) do not in any way disparage or discriminate against the other Party or its services or products.

47.0 Disclaimer of Warranties

- 47.1 **EXCEPT AS OTHERWISE SPECIFICALLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY AS TO MERCHANTABILITY OR FITNESS FOR INTENDED OR PARTICULAR PURPOSE WITH RESPECT TO SERVICES PROVIDED HEREUNDER. ADDITIONALLY, NEITHER PARTY ASSUMES ANY RESPONSIBILITY WITH REGARD TO THE CORRECTNESS OF DATA OR INFORMATION SUPPLIED BY THE OTHER PARTY WHEN THIS DATA OR INFORMATION IS ACCESSED AND USED BY A THIRD PARTY.**

49.0 INTENTIONALLY LEFT BLANK**50.0 INTENTIONALLY LEFT BLANK****51.0 INTENTIONALLY LEFT BLANK****52.0 INTENTIONALLY LEFT BLANK****53.0 Definitions and Acronyms****53.1 Definitions**

For purposes of this Agreement, certain terms have been defined in Attachment 20: Definitions and elsewhere in this Agreement to encompass meanings that may differ from, or be in addition to, the normal connotation of the defined word. Unless the context clearly indicates otherwise, any term defined or used in the singular will include the plural. The words "will" and "shall" are used interchangeably throughout this Agreement and the use of either connotes a mandatory requirement. The use of one or the other will not mean a different degree of right or obligation for either Party. A defined word intended to convey its special meaning is capitalized when used.

53.2 Acronyms

Other terms that are capitalized and not defined in this Agreement will have the meaning in the Act. For convenience of reference only, Attachment 21: Acronyms provides a list of acronyms used throughout this Agreement.

54.0 INTENTIONALLY LEFT BLANK**55.0 INTENTIONALLY LEFT BLANK****56.0 INTENTIONALLY LEFT BLANK****57.0 Other Requirements and Attachments**

57.1 This Agreement incorporates a number of listed Attachments, which, together with their associated Appendices, Exhibits, and Addenda, constitute the entire Agreement between the Parties.

57.1.1 Each Party agrees that if at any time a discrepancy arises between the General Terms and Conditions and one of the Attachments, the Attachments will control.

57.1.2 Appended to this Agreement and incorporated herein are the Attachments listed below. To the extent that any definitions, terms or conditions in any given Attachment differ from those contained in the main body of this Agreement, those definitions, terms or conditions will supersede those contained in the main body of this Agreement, but only in regard to the services or activities listed in that particular Attachment. In particular, if an

Attachment contains a term length that differs from the term length in the main body of this Agreement, the term length of that Attachment will control the length of time that services or activities are to occur under the Attachment, but will not affect the term length of other attachments.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed as of this ____ day of _____, 2020.

ATTACHMENT 2 RESALE

All services made available to INdigital by Windstream for resale by INdigital pursuant to the Agreement (Resale Services) will be subject to the terms and conditions set forth in the Agreement and in this Attachment 2: Resale.

1.0 General Provisions

- 1.1 Resale Services will be made available to INdigital by Windstream.
- 1.2 The applicable rules, regulations and rates in the Windstream Local Exchange Tariff shall be applicable to Resale Services and to the extent of conflict herewith this Agreement shall control.
- 1.3 INdigital will be the Customer of record for all services purchased from Windstream, pursuant to this Agreement. Except as specified herein, Windstream will take service orders from, bill and collect payment from INdigital for all services purchased pursuant to this Agreement.
- 1.4 INdigital will be Windstream's single point of contact for all services purchased pursuant to this Agreement.
- 1.5 INdigital may resell Windstream services only within the Windstream local service area as specified in the appropriate Windstream tariff.
- 1.6 Except where otherwise explicitly provided in the Windstream Local Exchange Tariff, INdigital shall not permit the sharing of a service by multiple End Users or the aggregation of traffic from multiple End Users onto a single service.
- 1.7 INdigital shall resell telecommunications services only to the same class of Customers to which Windstream sells the services; e.g. residential service may not be resold to business Customers.
- 1.8 INdigital shall not use a resold service to avoid the rates, terms, and conditions of Windstream's Local Exchange Tariff, as applicable.
- 1.9 INdigital shall not use resold local exchange telephone service to provide access services to Interexchange Carriers (IXCs), wireless carriers, competitive access providers (CAPs), or other telecommunication service providers.
- 1.10 Subject to the availability of facilities, Windstream shall provide Resale Services to INdigital pursuant to this Agreement.
- 1.11 INdigital has no right to the telephone number or any other call number designation associated with services furnished by Windstream, and no right to the continuance of service through any particular central office or number. Windstream reserves the right to change numbers or the central office designation associated with such numbers, or both, whenever Windstream deems it necessary to do so in the conduct of its business with justifiable reason, for example in a rate center consolidation.
- 1.12 Service is furnished to INdigital on the condition that it will not be used for any unlawful purpose.
- 1.13 Service will be discontinued if any law enforcement agency advises that the service is being used in violation of the law.
- 1.14 Windstream can refuse service when it has grounds to believe that service will be used in violation of the law.

-
- 1.15 Windstream accepts no responsibility for any unlawful act committed by INdigital or its End Users as part of providing service to INdigital for purposes of resale or otherwise.
- 1.16 Windstream is authorized, but not required to cooperate with law enforcement agencies with respect to their investigation of any alleged unlawful activity of INdigital or its End Users. Law enforcement agency subpoenas and court orders regarding the End Users of INdigital will be directed to INdigital. Windstream shall be entitled to bill INdigital for any actual, documented cost associated with complying with any requests by law enforcement agencies regarding INdigital or INdigital's End Users.
- 1.17 White Page Directory Services shall be provided as set forth in Section 10 of Attachment 2 Directories: White Pages.
- 1.18 Interexchange-carried traffic (e.g. sent-paid, information services and alternate operator services messages) received by Windstream with respect to INdigital end-user accounts will be returned to the IXC as unbillable, and will not be passed on to INdigital for billing. An unbillable code returned with those messages to the carrier will indicate that the messages originated from a resold account and will not be billed by Windstream.
- 1.19 All necessary information with respect to an end-user, including telephone number, requested service dates, and products and services desired will be provided to Windstream by INdigital in accordance with the practices and procedures established by Windstream.
- 1.20 Except as otherwise provided in this Agreement, if Windstream notifies INdigital in writing of a violation of a provision of this Agreement, INdigital shall have thirty (30) days from notice to correct the violation and notify Windstream in writing that the violation has been corrected.
- 1.21 Windstream shall continue to have the right to serve and market directly to any End User within Windstream's service area, including but not limited to INdigital's End Users. Windstream shall have the right to continue to directly market its own telecommunications products and services, and in doing so may establish independent relationships with INdigital's End Users.
- 1.22 INdigital shall not interfere with the right of any person or entity to obtain service directly from Windstream.
- 1.23 The circuits, facilities or equipment provided by any person or entity other than Windstream and use, operation, maintenance or installation thereof shall not:
- 1.23.1 interfere with or impair service over any facilities of Windstream, its affiliates, or its connecting and concurring carriers involved in its service;
 - 1.23.2 cause damage to plant;
 - 1.23.3 impair the privacy of any communications; or
 - 1.23.4 create hazards to any employees or the public.
- 1.24 INdigital assumes the responsibility of notifying Windstream regarding any less than standard operations with respect to services provided by INdigital.
- 1.25 Facilities and/or equipment utilized by Windstream to provide service to INdigital shall remain the property of Windstream.

- 1.26 Windstream will provide Customer record information to INdigital, only after INdigital has provided Windstream the appropriate Letter(s) of Authorization (LOA) from the relevant Customer. Windstream may provide Customer record information to INdigital via Windstream Express.
- 1.27 All actual, documented costs incurred by Windstream for providing services to INdigital that are not covered in the Windstream tariffs shall be recovered from INdigital for utilizing such services.
- 1.28 The Parties agree that this Agreement shall not be proffered by either Party in another jurisdiction or proceeding as evidence of any concession or as a waiver of any position taken by the other Party in that jurisdiction or for any other purpose.
- 1.29 The rates applicable to INdigital for purchase of services from Windstream for resale shall be the retail rate for the telecommunications services as provided in Windstream's applicable Local Exchange Tariff.

2.0 **General Obligations**

- 2.1 Windstream shall implement INdigital service orders within the same time intervals that Windstream uses to implement service orders for similar services for its own End Users.
- 2.2 The appropriate Windstream trouble reporting centers shall accept INdigital trouble reports with respect to INdigital End Users services twenty-four (24) hours a day, seven (7) days a week. INdigital will be assigned a Customer contact center when initial service agreements are made. INdigital End Users calling Windstream will be referred to INdigital at the number provided by INdigital.
- 2.3 If Windstream determines that an unauthorized change in local service by a local service provider has occurred, Windstream will reestablish service with the appropriate local service provider, and will assess against the local service provider an unauthorized change charge similar to that described in the Windstream F.C.C. Tariff No. 1. Appropriate nonrecurring charges, as set forth in the Local Exchange Tariff as applicable, will also be assessed to the local service provider.
- 2.4 To the extent allowable by law, INdigital shall be responsible for Primary Interexchange Carrier (PIC) change charges associated with such local exchange line. These charges will be assessed regardless if the INdigital or the End User made the change. INdigital shall pay for PIC changes at the tariffed rate.
- 2.5 INdigital shall resell the services provided herein only in those service areas in which such Resale Services or any feature or capability thereof are offered at retail by Windstream as the incumbent local exchange carrier to its End Users.
- 2.6 INdigital is solely responsible for the payment of charges for all service furnished under this Agreement, including, but not limited to, calls originated or accepted at INdigital location and its End Users' service locations, with the exception of any retail services provided directly by Windstream to the End User which Windstream is responsible for billing.
- 2.7 Windstream shall not be responsible for the manner in which the use of Resale Services or the associated charges are billed to others by INdigital. All applicable rates and charges for such services will be billed to and shall be the responsibility of INdigital, with the exception of other retail services provided directly to the End User by Windstream as described in paragraph 2.6 above.
- 2.8 If INdigital does not wish to be responsible for toll, collect, third number billed, 900 and 976 calls, INdigital must order blocking services as outlined in the Windstream Local Exchange Tariff and pay any applicable charges.

- 2.9 INdigital shall be responsible for providing to its End Users, and to Windstream a telephone number or numbers that INdigital End Users can use to contact INdigital in the event of service or repair requests. In the event that INdigital End Users contact Windstream with regard to such requests, Windstream shall provide the End User INdigital's contact number and inform the End User to contact INdigital.

3.0 **Establishment of Service**

- 3.1 Upon receiving the applicable certification from the appropriate state regulatory agency, INdigital will provide Windstream with the necessary documentation to enable Windstream to establish a master account for INdigital. Such documentation shall include, but is not limited to, the Application for Master Account, proof of authority to provide telecommunications services, an Operating Company Number ("OCN") assigned by the National Exchange Carriers Association ("NECA"), and a tax exemption certificate, if applicable. When necessary deposit requirements are met, Windstream will begin taking orders from INdigital for Resale Services.
- 3.2 Intentionally Left Blank
- 3.3 Service orders will be submitted in the format designated in Windstream handbooks and manuals.
- 3.4 When Windstream receives notification from INdigital that a current Windstream Customer will be subscribing to INdigital's services, standard service order intervals for the appropriate class of service will apply.
- 3.5 Except as required by applicable laws or rules, Windstream will not require End User confirmation prior to establishing service for INdigital's Customers. INdigital must, however, be able to demonstrate End User authorization upon request.
- 3.6 INdigital will be the single point of contact with Windstream for all subsequent ordering activity resulting in additions or changes to Resale Services, except that Windstream will accept a request directly from the End User for conversion of the End User's service from INdigital to Windstream, or will accept a request from another local service provider for conversion of the End User's service from INdigital to the other local service provider.
- 3.7 Windstream will provide INdigital at their request per Customer, blocking of calls (e.g., toll, 900, international calls, and third party or collect calls) by line or trunk on an individual switching element basis, to the extent that Windstream provides such blocking capabilities to its Customers and to the extent required by law.
- 3.8 When ordering Resale Services via a service order, INdigital may where available, order from Windstream separate InterLATA and IntraLATA service providers (i.e., two PICs) on a line or trunk basis where IntraLATA presubscription has been introduced. Windstream will accept PIC change orders for IntraLATA and long distance services through the Windstream service provisioning process.
- 3.9 Windstream will provide order format specifications to INdigital with respect to all services, features, and functions available and with respect to ancillary data required by Windstream to provision these services through Windstream manuals and handbooks.

4.0 **Maintenance of Services**

- 4.1 Windstream's facilities and equipment provided by Windstream shall be maintained by Windstream.

-
- 4.2 Windstream will attempt to provide maintenance for all Resale Services ordered under this Agreement at levels equal to the maintenance provided by Windstream in serving its Customers. Windstream technicians will attempt to provide repair service on Resale Services that is at least equal in quality to that provided to Windstream Customers; trouble calls from INdigital will receive response time and priorities that are at least equal to that of Windstream Customers.
- 4.3 INdigital or its End Users may not rearrange, move, disconnect, remove or attempt to repair any facilities owned by Windstream, other than by connection or disconnection to any interface means used, without the written consent of Windstream.
- 4.4 INdigital shall promptly notify Windstream of any situations that arise that may result in a service problem.
- 4.5 INdigital will be Windstream's single point of contact for all repair calls on behalf of INdigital's End Users with respect to Resale Services. All misdirected repair calls to Windstream from INdigital Customers will be given a recording (or live statement) directing them to call the number designated by INdigital. INdigital on a reciprocal basis will refer all misdirected repair calls that INdigital receives for Windstream Customers to Windstream.
- 4.6 INdigital will contact the appropriate Windstream repair center in accordance with procedures established by Windstream. INdigital will refer repair calls to Windstream via Windstream Express.
- 4.7 For all repair requests, INdigital shall adhere to Windstream's prescreening guidelines prior to referring the trouble to Windstream.
- 4.8 For purposes of this Section, Resale Services is considered restored or a trouble resolved when the quality of Resale Services is equal to that provided before the outage or the trouble occurred.
- 4.9 Windstream will bill INdigital for handling troubles that are found not to be in Windstream's network pursuant to its standard time and material charges. The standard time and material charges will be no more than what Windstream charges to its retail Customers for the same services.
- 4.10 Windstream will provide INdigital with written escalation procedures for maintenance resolution to be followed if, in INdigital's judgment, any individual trouble ticket or tickets are not resolved in a timely manner. The escalation procedures to be provided thereunder shall include names and telephone numbers of Windstream management personnel who are responsible for maintenance issues.
- 4.11 Windstream Maintenance of Service Charges, when applicable, will be billed by Windstream to INdigital, and not to INdigital's end-user Customers.
- 4.12 Dispatching of Windstream technicians to INdigital Customer premises shall be accomplished by Windstream pursuant to a request received from INdigital.
- 4.13 When a Windstream employee visits the premises of a INdigital local Customer, the Windstream employee will inform the Customer or occupant, directly or indirectly, that he or she is there acting on behalf of "their local service provider". Materials left at the Customer premises (e.g., a door hanger notifying the Customer of the service visit) must also inform the Customer that Windstream was on their premises acting on behalf of "their local service provider".
- 4.14 If trouble cannot be cleared without access to INdigital local Customer's premises and the Customer is not at its premises, the Windstream technician will leave at the Customer's premises a non-branded "no access" card requesting the Customer to call "their local service provider" for rescheduling of repair.

- 4.15 Windstream reserves the right, but is not required, to contact INdigital's Customers for any lawful purpose.
- 4.16 Windstream will perform testing (including trouble shooting to isolate any problems) of Resale Services purchased by INdigital in order to identify any new circuit failure performance problems.

5.0 **Discontinuance of Service**

5.1 End User Disconnect Procedures

- 5.1.1 At the request of INdigital, Windstream will disconnect a INdigital Customer.
- 5.1.2 All requests by INdigital for denial or disconnection of an End User for nonpayment must be provided to Windstream in writing in the manner and format prescribed by Windstream.
- 5.1.3 INdigital will be solely responsible for notifying the End User of the proposed disconnection of service.
- 5.1.4 Upon restoration of the End User's service as requested by INdigital, charges will apply and will be the responsibility of INdigital.
- 5.1.5 Windstream will continue to process calls made to Windstream for annoyance calls and will advise INdigital when it is determined that annoyance calls are originated from one of its End User's locations. Windstream shall be indemnified, defended and held harmless by INdigital against any claim, loss or damage arising from providing information to INdigital in regard to the annoyance calls. It is the responsibility of INdigital to take the corrective action necessary with its Customers who make annoying calls. Failure to do so will result in Windstream's disconnecting the End User's service.

7.0 **Termination of Service to INdigital**

- 7.1 Windstream reserves the right to suspend or terminate service for nonpayment or in the event of prohibited, unlawful or improper use of facilities or service, abuse of facilities, or any other violation or noncompliance by INdigital of the rules and regulations of the Windstream Local Exchange Tariff.
- 7.2 Disputes hereunder shall be resolved in accordance with the procedures identified in GT&C § 9.0 Dispute Resolution. Failure of INdigital to pay undisputed charges owed to Windstream shall be grounds for termination under this Agreement
- 7.3 Failure of INdigital to pay all charges, including disputed amounts, shall be grounds for suspension or termination of this Agreement. If INdigital fails to pay when due, all charges billed to INdigital under this Agreement, and any portion of such charges remain unpaid more than fifteen (15) days after the due date of such charges, Windstream will notify INdigital in writing that in order to avoid having service disconnected and or suspension of order acceptance, INdigital must remit all charges to Windstream within fifteen (15) days after receipt of said notice (the "Embargo Notice").
- 7.4 If any INdigital charges remain unpaid at the conclusion of the time period as set forth in § 7.3 above fifteen (15) days from the due date of such unpaid charges), Windstream will notify INdigital, (the "Disconnect Notice") and the appropriate commission(s) in writing, pursuant to state public service commission's rules and regulations, that INdigital's service will be disconnected and INdigital's End Users may be switched to Windstream local service and Windstream will suspend order acceptance. Applicable service establishment charges for switching End Users from INdigital to Windstream will be assessed to INdigital. In the case of such discontinuance, all billed charges, as

well as applicable termination charges shall become due. If Windstream does not discontinue the provision of the services involved on the date specified in the fifteen (15) day Embargo Notice, and INdigital's noncompliance continues, nothing contained herein shall preclude Windstream's right to discontinue the provisions of the services to INdigital without further notice.

- 7.5 Within five (5) calendar days of the transfer to Windstream's service, thirty (30) days past INdigital's due date), Windstream will notify all affected End Users that because of a INdigital's failure to pay all charges, their service is now being provided by Windstream.
- 7.6 After disconnect procedures have begun, Windstream will not accept service orders from INdigital until all charges are paid in full, in immediately available funds. Windstream will have the right to require a deposit equal to two (2) months charges (based on the highest previous month of service from Windstream) prior to resuming service to INdigital after disconnection for nonpayment.
- 7.7 Beyond the specifically set out limitations in this Section, nothing herein will be interpreted to obligate Windstream to continue to provide service to any such End Users or to limit any and all disconnection rights Windstream may have with regard to such End Users.

8.0 **Billing and Payments**

- 8.1 Pursuant to this Agreement, Windstream shall bill INdigital those charges, which INdigital incurs as a result of INdigital purchasing Resale Services from Windstream.
- 8.2 Windstream shall provide INdigital a monthly bill including all charges incurred by and credits and/or adjustments due to INdigital for the Resale Services ordered, established, utilized, discontinued or performed pursuant to this Agreement. Each bill provided by Windstream to INdigital will include:
 - 8.2.1 all non-usage sensitive charges incurred for the period beginning with the day after the current bill date and extending to, and including, the next bill date;
 - 8.2.2 any known unbilled non-usage sensitive charges for prior periods;
 - 8.2.3 unbilled usage sensitive charges for the period beginning with the last bill date and extending up to, but not including, the current bill date; and
 - 8.2.4 any known unbilled usage sensitive charges for prior periods. Windstream will also bill all charges, including but not limited to 911 and E911 charges, telecommunications relay charges, and franchise fees, to INdigital.
- 8.3 Any switched access charges associated with interexchange carrier access to the resold local exchange lines will be billed by, and due Windstream from the Interexchange Carrier.
- 8.4 All End User common line (EUCL) charges, subscriber line charges (SLC), or other similar charges will continue to apply for each local exchange line resold under this Agreement. All applicable federal and state rules, tariffs and regulations associated with such charges shall be applicable, as may be amended from time to time.
- 8.5 Each Party will provide the other Party at no charge a contact person for the handling of any Resale Billing questions or problems.
- 8.6 Windstream will render bills each month on established bill days for each of INdigital's accounts.
- 8.7 If INdigital requests an additional copy(ies) of a bill, INdigital will pay Windstream a reasonable fee per additional bill copy, unless such copy(ies) was requested due to errors, omissions, or

corrections, or the failure of the original transmission to comply with the specifications set forth in this Agreement.

- 8.8 Payment of all charges will be the responsibility of INdigital. INdigital shall make payment to Windstream for all Resale Services billed. Windstream is not responsible for payments not received by INdigital from INdigital's Customer. Windstream will not become involved in Billing Disputes that arise between INdigital and its Customer. Payments made to Windstream, as payment on account, will be credited to an accounts receivable master account and not to an End User's account.
- 8.9 Payment of all charges will be due within thirty (30) days of the invoice date and payable in immediately available funds. Payment is considered to have been made when received by Windstream.

9.0 **Customer Usage Data**

- 9.1 Usage Data with respect to End Users will be provided by Windstream to INdigital when the End User has been transferred to INdigital, and INdigital purchases Resale Services from Windstream.
- 9.2 Windstream will provide usage data for INdigital Customers using Windstream-provided Resale Services. Usage Data includes, but is not limited to, the following categories of information:
- 9.2.1 All record types that are currently processed for Windstream Customers;
- 9.2.2 Use of CLASS/ Custom Features;
- 9.2.3 Station level detail for Windstream - provided CENTREX families of services; and
- 9.2.4 Complete call detail and complete timing information for Resale Services.
- 9.3 Windstream will provide Usage Data for completed calls only for service offerings that Windstream records for itself (e.g., Local Measured Services) and recordings performed on the behalf of Windstream for operator services and directory assistance.
- 9.4 Windstream will provide Usage Data to INdigital only for INdigital Customers. Windstream will not submit other carriers' local usage data as part of the INdigital Usage Data.
- 9.5 Windstream will provide Usage Data in Exchange Message Interface "EMI" standard industry format with population of the applicable fields so that INdigital can bill its end users correctly.
- 9.6 Windstream will include the Working Telephone Number (WTN) of the call originator on each EMI call record.
- 9.7 Customer usage records and station level detail records will be in packs in accordance with EMI guidelines.
- 9.8 Windstream will transmit formatted Usage Data to INdigital via CONNECT: Direct or as otherwise agreed to by the Parties. INdigital is responsible for the connection.
- 9.9 INdigital and Windstream will test and certify the CONNECT: Direct interface to ensure the accurate transmission of Usage Data. INdigital will pay to Windstream a per message charge for Windstream's transmission of usage data to INdigital.
- 9.10 Windstream will provide Usage Data to INdigital daily (Monday through Friday) on a time schedule to be determined by the Parties. By mutual agreement of both Parties, this schedule can be amended with thirty (30) days' written notice.

- 9.11 Windstream will establish a single point of contact to respond to INdigital call usage, data error, and record transmission inquiries.

10.0 **Directories: White Pages**

10.1 Introduction

- 10.1.1 Windstream obtains the publication of White Pages directories (White Pages) from a third party publisher for geographic areas in which INdigital may also provide local exchange telephone service, and INdigital wishes to include listings information for its Customers in the appropriate White Pages directories.
- 10.1.2 Windstream will include INdigital's Customer listings in the appropriate White Pages directory in accordance with § 10.2 Resale as specified in this Section. The Parties agree that § 10.2 Resale shall be applicable to Customers which INdigital serves through a Resale Agreement.
- 10.1.3 Any references in this Section to Windstream procedures, practices, requirements, or words of similar meaning, shall also be construed to include those of Windstream's agents and/or contractors that produce directories on its behalf.
- 10.1.4 A service order processing charge (Service Order Charge) will be applied to each service order issued by INdigital for Windstream to process a directory listing request or change to an existing directory listing.

10.2 **Service Provided - Resale**

- 10.2.1 Windstream will include in appropriate White Pages directories the primary alphabetical listings of all INdigital Customers (other than non-published or non-list Customers) located within the local directory area.
- 10.2.2 INdigital will furnish to Windstream subscriber listing information pertaining to INdigital Customers located within the Windstream local directory area, along with such additional information as Windstream may require in order to prepare and print the alphabetical listings of said directory.
- 10.2.3 Windstream will include the listing information for INdigital's Customers for Resale Services in the White Pages directory database in the same manner as it includes listing information for Windstream's Customers.
- 10.2.4 Windstream will provide INdigital with format requirements and procedures for submitting directory listings and directory updates.
- 10.2.5 INdigital may purchase Enhanced White Pages listings for residential Customers on a per listing basis, and will pay Windstream amounts attributable to such Enhanced Listings used by its Customers.
- 10.2.6 INdigital's subscriber listings will be inter-filed (interspersed) with Windstream's and other local service provider's subscriber listings in the White Pages directory with no discernible differentiation in the listings to indicate to the reader that the listings are served by another local service provider.

- 10.2.7 Windstream will deliver White Pages directories to INdigital Customers. The timing of such delivery and the determination of which White Pages directories will be delivered (by Customer address, NPA/NXX or other criteria), and the number of White Pages directories to be provided per Customer, will be on the same terms that Windstream delivers White Pages directories to its own End Users.
- 10.2.8 Windstream will distribute any subsequent directories in accordance with the same practices and procedures used by Windstream.
- 10.2.9 At its option, INdigital may purchase information pages (Customer Guide Pages) in the informational section of the White Pages directory covering the geographic area(s) it is serving. These pages will be in alphabetical order with other local service providers and will be no different in style, size, color and format than Windstream information pages. Sixty (60) days prior to the directory close date, INdigital will provide to Windstream the information page(s) in camera ready format. Windstream will have the right to approve or reject the format and content of such information page(s) and, with INdigital's agreement, Windstream may, but is not required to, revise the format and content of such information page(s).
- 10.2.10 Windstream will include INdigital specific information (i.e., business office, residence office, repair bureau, etc.) in the White Pages directory on an "index-type" information page, in alphabetical order along with other local service providers, at no charge. The space available to INdigital on such page will be 1/8th page in size. In order to have such information published, INdigital will provide Windstream, sixty (60) days prior to the directory close date, with its logo and information in the form of a camera ready copy, sized at 1/8th of a page. INdigital will be limited to a maximum of 1/8th of a page in any single edition of a White Pages directory.

10.3 Limitation Of Liability And Indemnification for White Pages

- 10.3.1 Windstream will not be liable to INdigital for any losses or damages arising out of errors, interruptions, defects, failures, delays, or malfunctions of the White Pages services, including any and all associated equipment and data processing systems, unless said losses or damages result from Windstream's gross negligence or willful or wanton or intentional misconduct. Any losses or damages for which Windstream is held liable under this Agreement to INdigital, shall in no event exceed the amount of the charges billed to INdigital for White Pages services with respect to the period beginning at the time notice of the error, interruption, defect, failure, or malfunction is received by Windstream to the time Service is restored.
- 10.3.2 INdigital agrees to defend, indemnify, and hold harmless Windstream from any and all losses, damages, or other liability that Windstream may incur as a result of claims, demands, wrongful death actions, or other claims by any Party that arise out of INdigital's Customers' use of the White Pages services, or the negligence or wrongful act of INdigital except to the extent any such losses, damages or other liability solely from Windstream's gross negligence or willful misconduct. INdigital will defend Windstream against all Customer claims just as if INdigital had provided such service to its Customer with INdigital's own employees and will assert its contractual or tariff limitation of liability, if any, for the benefit of both Windstream and INdigital.
- 10.3.3 INdigital agrees to release, defend, indemnify, and hold harmless Windstream from any claims, demands, or suits with respect to any infringement or invasion of privacy or confidentiality of any person or persons caused or claimed to be caused, directly, or indirectly, by Windstream employees or equipment associated with provision of the White Pages services, except to the extent any such losses, damages or other liability is

based on or results from Windstream's gross negligence or willful misconduct. This provision includes but is not limited to suits arising from disclosure of the telephone number, address, or name associated with the telephone called or the telephone used in connection with White Pages services.

10.4 Pricing

- 10.4.1 Prices for White Pages services are as contained on Exhibit I, attached hereto and incorporated herein.

10.5 Term

- 10.5.1 Upon termination of this Interconnection Agreement, this Section 10 Directories will be null and void with respect to any issue of directories published thereafter.

EXHIBIT I: PRICE LIST

Price Disclaimer: The following prices are for purchasing directories and Information Pages. Based on fluctuating printing and publishing expenses, Windstream reserves the right to increase these prices by no more than 3% annually.

Price Per Initial White Page listing: \$0.00

Price Per Additional White Page listing: \$3.00

Price Per Single Sided Informational Page:

6x9

1 additional information page	\$475.00
-------------------------------	----------

2 additional information pages	\$750.00
--------------------------------	----------

9x11

1 additional information page	\$1,225.00
-------------------------------	------------

2 additional information pages	\$1,440.00
--------------------------------	------------

Price Per Book Copy for Initial Book Order: Respective Directory Wholesale Price (See Below)

Price Per Book Copy Ordered after Initial Order: Respective Directory Retail Price (See Below)

ATTACHMENT 3: INTENTIONALLY LEFT BLANK

ATTACHMENT 4: NETWORK INTERCONNECTION ARCHITECTURE**1.0 Scope**

- 1.1 This Attachment describes the arrangements that may be utilized by the Parties for interconnection of their respective networks for the transmission and routing of Telephone Exchange Service and Exchange Access Service pursuant to §251 of the Act. The routing and exchange of 911 traffic is excluded from Attachment 4 and is specifically addressed in Attachment 5: Network 911 Interconnection Architecture. Network Interconnection will be provided by the Parties at any technically feasible point(s) within Windstream's interconnected network within a LATA. INdigital must establish a point of interconnection at the Windstream tandem that supports the rate center in which INdigital is providing service. It is INdigital's responsibility to establish interconnection, pursuant to this Attachment, within Windstream's interconnected network within each LATA. In each Windstream Exchange Area where the Parties interconnect their networks, the Parties will utilize the interconnection method as specified below unless otherwise mutually agreed to in writing by the Parties. Except for Transit Traffic, traffic originated by any third party, not a Party to this Agreement, delivered to the other Party, regardless of whether such traffic is delivered to the Party's End User, is not originating on that Party's network and may not be routed through any interconnection facilities. The terms "originate" and "terminate" refer to the end points of a call, regardless of the classification of the Party's End User.
- 1.2 Each Party is responsible for the cost, appropriate sizing, operation, and maintenance of the facilities on its side of each IP. Each IP must be located within Windstream's serving territory in the LATA in which traffic is originating. An IP determines the point up to which the originating Party shall be responsible for providing at its own expense, the call transport with respect to its Local traffic and IntraLATA Traffic.
- 1.3 An Interconnection Point ("IP"), as defined in §2.0 of this Attachment will be designated for each interconnection arrangement established pursuant to this Agreement. Street address and/or Vertical and Horizontal (V & H) Coordinates will be provided to identify each IP.

2.0 Interconnection

- 2.1 Direct interconnection facilities provide for network interconnection between the Parties at a technically feasible point(s) on Windstream's interconnected network within a LATA as described in Section 2.1.1. INdigital must establish a point of interconnection at the Windstream tandem that supports the rate center in which INdigital is providing service. Except for Transit Traffic, traffic originated by any third party, not a Party to this Agreement, delivered to the other Party, regardless of whether such traffic is delivered to the Party's End User, is not originating on that Party's network and may not be routed through any interconnection facilities. Direct interconnection shall be accomplished by, including but not limited to, one or more of the following methods: 1) lease arrangements, and 2) jointly provisioned facilities arrangements.
 - 2.1.1 In order to gain connectivity, the IP/s must be established in at least one or more of the following locations:
 - a) IP at the Windstream Tandem Office where available;
 - b) IP at the Windstream End Office;
 - c) IP at the Windstream Access Tandem, where available, or End Office for a Windstream remote central office; or
 - d) Any other technically feasible location on Windstream's interconnected network.

- 2.1.2 Lease arrangements will be governed by the TELRIC rates as shown in Attachment (X).
- 2.1.3 Each Party will be responsible for the engineering and construction of its own network facilities on its side of the IP, however, should Windstream be required to modify its network to accommodate the interconnection request made by INdigital, INdigital agrees to pay Windstream reasonable charges for such modifications. If INdigital uses a third party network Carrier to reach the IP, INdigital will bear all third party Carrier charges for facilities and traffic.
- 2.2 The Parties shall utilize direct end office facilities under any one of the following conditions:
- 2.2.1 Tandem Exhaust - If a tandem through which the Parties are interconnected is unable to, or is forecasted to be unable to support additional traffic loads for any period of time, the Parties will mutually agree on an end office facility plan that will alleviate the tandem capacity shortage and ensure completion of traffic between INdigital and Windstream.
- 2.2.2 Traffic Volume – Where traffic exceeds or is forecasted to exceed a single DS1 of traffic per month, then INdigital shall install and retain direct end office facilities sufficient to handle such traffic volumes. INdigital will install additional capacity between such points when overflow traffic exceeds or is forecasted to exceed a single DS1 of traffic per month. In the case of one-way facilities, additional facilities shall only be required by the Party whose facilities has achieved the preceding usage threshold.
- 2.2.3 Mutual Agreement - The Parties may install direct end office facilities upon mutual agreement in the absence of conditions (2.2.1) or (2.2.2) above.
- 2.3 Indirect Interconnection. Both Parties agree traffic shall be exchanged through the tandem that the Windstream end office is associated with as identified in the Local Exchange Routing Guide (“LERG”) until such time either Parties’ traffic meets or exceeds one (1) DS1 level volume of calls or INdigital enters into a Windstream rate center to compete for voice services. Both Parties agree only to deliver traffic to the other pursuant to and consistent with the terms of this Agreement. Neither Party shall utilize a third party for the delivery of traffic to the other pursuant to this Agreement without the prior written consent of all Parties and without the establishment of mutually agreeable terms and conditions among all Parties governing any intermediary arrangement with a third party. Traffic originated by any third party, not a Party to this Agreement, delivered to the other Party, regardless of whether such traffic is delivered to the Party’s End User, is not originating on that Party’s network and may not be routed through Indirect Interconnection unless the traffic is properly identified as being originated by a 3rd party and such traffic is Local Traffic as defined in this Agreement. Telecommunications Traffic to or from INdigital under its wholesale business arrangement is not considered transit traffic under this Agreement.
- 2.4 Transit Traffic. When Windstream is the tandem provider identified in the LERG, Windstream will transit traffic originated on INdigital’s network and deliver the transit traffic to the terminating third party network. Windstream will charge INdigital the rate set forth in Attachment B: Price List.
- 2.5 Neither Party shall deliver: (i) traffic destined to terminate at the other Party's end office via another LEC's end office, or (ii) traffic destined to terminate at an end office subtending the other Party's tandem via another LEC's tandem.

3.0 Signaling Requirements

- 3.1 Signaling protocol. The Parties will interconnect their networks using SS7 signaling where technically feasible and available as defined in FR 905 Bellcore Standards including ISDN user part (“ISUP”) for trunk signaling and Transaction Capabilities Application Part (“TCAP”) for CCS-

based features in the interconnection of their networks. All Network Interoperability Interface Forum (NIIF) adopted standards shall be adhered to.

- 3.2 Where available, CCS signaling shall be used by the Parties to set up calls between the Parties' Telephone Exchange Service networks. If CCS signaling is unavailable, the Parties shall use MF (Multi-Frequency) signaling.
- 3.3 The following list of publications describe the practices, procedures and specifications generally utilized by the industry for signaling purposes and are listed herein to assist the Parties in meeting their respective interconnection responsibilities related to signaling:

GR-000246-CORE, Bell Communications Research Specifications of Signaling System 7 ("SS7")

GR-000317-CORE, Switching System Requirements for Call Control Using the Integrated Services Digital Network User Part

GR-000394-CORE, Switching System Requirements for Interexchange Carrier Interconnection Using the Integrated Services Digital Network User Part

GR-000606-CORE, LATA Switching Systems Generic Requirements-Common Channel Signaling-§6.5

GR-000905-CORE, Common Channel Signaling Network Interface Specification Supporting Network Interconnection Message Transfer Part ("MTP") and Integrated Digital Services Network User Part ("ISDNUP")

- 3.4 The Parties will cooperate on the exchange of Transactional Capabilities Application Part (TCAP) messages to facilitate interoperability of CCS-based features between their respective networks, including all CLASS features and functions, to the extent each Party offers such features and functions to its End Users. All CCS signaling parameters will be provided including, without limitation, Calling Party Number (CPN), Originating Line Information ("OLI"), calling party category and charge number.
- 3.5 Where available each Party shall cooperate to ensure that all of its trunk groups are configured utilizing the B8ZS ESF protocol for 64 kbps clear channel transmission to allow for ISDN interoperability between the Parties' respective networks.
- 3.6 The Parties shall jointly develop a grooming plan (the "Joint Grooming Plan") which shall define and detail, inter alia,
 - 3.6.1 disaster recovery provisions and escalations;
 - 3.6.2 direct/high usage trunk engineering guidelines; and
 - 3.6.3 such other matters as the Parties may agree.

4.0 Interconnection and Trunking Requirements

4.1 **Local Traffic, ISP Bound Traffic, IntraLATA Traffic, InterLATA Traffic, Transit Traffic or Toll VOIP Traffic**

4.1.1 The Parties shall reciprocally terminate Local Traffic, ISP Bound Traffic, IntraLATA Traffic, InterLATA Traffic, Transit Traffic or Toll VOIP Traffic originating on each other's networks as follows:

4.1.1.1 Where technically feasible, the Parties shall make available to each other two-way trunks for the reciprocal exchange of combined Local Traffic, ISP Bound Traffic, IntraLATA Traffic, InterLATA Traffic, Transit Traffic or Toll VOIP Traffic. In such case, each Party will provide to each other its Percentage of Local Use (PLU) for billing purposes on a quarterly basis. If a Necessary Factor is not provided, the one already in effect stays in effect. If either Party questions the accuracy of the other's PLU, that issue may be included in a verification review as provided in §32.0 of the General Terms and Conditions. Pending such verification review, the PLU in effect immediately prior to the verification review shall remain in effect. If at any time during the term of this Agreement, the average monthly number of minutes of use (combined Local Traffic, ISP Bound Traffic, IntraLATA Traffic, InterLATA Traffic, Transit Traffic or Toll VOIP Traffic) terminated by either Party on the network of the other exceeds the generally accepted engineering practices as mutually agreed to by the Parties, the Party on whose network those minutes have been terminated may elect to require jurisdictionally separate trunks for Local Traffic, ISP Bound Traffic, IntraLATA Traffic, InterLATA Traffic, Transit Traffic or Toll VOIP Traffic.

4.1.1.2 Each Party's operator bureau shall accept BLV and BLVI inquiries from the operator bureau of the other Party where that service is available in order to allow transparent provisioning of BLV/BLVI traffic between the Parties' networks. Each Party shall route BLV/BLVI inquiries between the Parties respective operator bureaus.

4.1.2 Neither Party shall utilize the interconnection facilities for delivery of any other type of traffic to the other Party.

4.2 **Trunking and Facilities**

4.2.1 Trunking will be established at the DS-1 level or DS-0 level, and facilities will be established at the DS1, DS-3/OC-3 level, or higher, as agreed upon by the Parties. All trunking will be jointly engineered to an objective P.01 grade of service.

4.2.2 Where Windstream is a 911 provider, and if INdigital uses Windstream as its 911 provider, separate trunks connecting INdigital's switch to Windstream's E911 routers will be established by INdigital. If INdigital purchases facilities for such services from Windstream, they will be provided at full applicable tariff rates. For all 911/E911 traffic originating from INdigital, it is the responsibility of INdigital and the appropriate state or local public safety answering agency to negotiate the manner in which 911/E911 traffic from INdigital will be processed.

4.2.3 INdigital will not route traffic to Windstream's local end office switches to act as a tandem on INdigital's behalf nor will Windstream route traffic to INdigital's local end office switches to act as a tandem on Windstream's behalf.

- 4.2.4 This Agreement is applicable only to Windstream's serving areas. Windstream will not be responsible for interconnections or contracts relating to any of INdigital's interconnection with any other Carrier.

5.0 Network Management

5.1 Protective Protocols

Either Party may use protective network traffic management controls such as 7-digit and 10-digit code gaps on traffic toward each other's network, when required to protect the public switched network from congestion due to facility failures, switch congestion or failure or focused overload. The Parties will immediately notify each other of any protective control action planned or executed.

5.2 Expansive Protocols

Where the capability exists, originating or terminating traffic reroutes may be implemented by either Party to temporarily relieve network congestion due to facility failures or abnormal calling patterns. Reroutes will not be used to circumvent normal trunk servicing. Expansive controls will only be used when mutually agreed to by the Parties.

5.3 Mass Calling

The Parties shall cooperate and share pre-planning information, where available, regarding cross-network call-ins expected to generate large or focused temporary increases in call volumes, to prevent or mitigate the impact of these events on the public switched network.

6.0 Forecasting/Service Responsibilities

- 6.1 Both Parties agree to provide an initial forecast for establishing the initial interconnection facilities. Subsequent forecasts will be provided on a semi-annual basis.
- 6.2 Windstream shall be responsible for forecasting and servicing the trunk groups terminating to INdigital. INdigital shall be responsible for forecasting and servicing the trunk groups terminating to Windstream End Users. Standard trunk traffic engineering methods will be used as described in Bell Communications Research, Inc. (Bellcore) document SR-TAP-000191, Trunk Traffic Engineering Concepts and Applications.
- 6.3 The Parties shall both be responsible for efficient planning and utilization of the network and employ all reasonable means of forecasting, monitoring and correcting for inefficient use of the network. The Parties will conduct facility planning meetings to determine initial and subsequent utilization standards subsequent to execution of this Agreement but prior to direct interconnection in accordance with §3.5 of this Appendix preceding.
- 6.4 Each Party shall provide a specified point of contact for planning, forecasting and trunk servicing purposes.

7.0 Trunk Servicing

- 7.1 Orders between the Parties to establish, add, change or disconnect trunks shall be processed by use of an Access Service Request ("ASR") or another industry standard method subsequently adopted by the Parties to replace the ASR for local trunk ordering.

-
- 7.2 The Parties shall jointly manage the capacity of local Interconnection Trunk Groups. Either Party may send the other Party an ASR to initiate changes to the Local Interconnection Trunk Groups that the ordering Party desires based on the ordering Party's capacity assessment.
- 7.3 Orders that comprise a major project (i.e., new switch deployment, multiple office trunk group installation, or network reconfiguration) shall be submitted in a timely fashion, and their implementation shall be jointly planned and coordinated.
- 7.4 Each Party shall be responsible for engineering its networks on its side of the IP.
- 7.5 Each Party will provide trained personnel with adequate and compatible test equipment to work with each other's technicians.
- 7.6 The Parties will coordinate and schedule testing activities of their own personnel, and others as applicable, to ensure its interconnection trunks/trunk groups are installed per the interconnection order, meet agreed-upon acceptance test requirements, and are placed in service by the due date.
- 7.7 Each Party will perform sectionalization to determine if a trouble is located in its facility or its portion of the interconnection trunks prior to referring the trouble to each other.
- 7.8 The Parties will advise each other's Control Office if there is an equipment failure, which may affect the interconnection trunks.
- 7.9 Provided information is not available through the LERG, each Party will provide to each other test-line numbers and access to test lines.
- 7.10 The Parties will cooperatively plan and implement coordinated repair procedures for the local interconnection trunks to ensure trouble reports are resolved in a timely and appropriate manner.
- 7.11 A blocking standard of one-half of one percent (.005) during the average busy hour for final trunk groups between an INdigital end office and Windstream access tandem carrying meet point traffic shall be maintained. All other final trunk groups are to be engineered with a blocking standard of one percent (.01). Windstream will engineer all interconnection trunks between the Parties to a 6 db of digital pad configuration.

ATTACHMENT 5: NETWORK 911 INTERCONNECTION ARCHITECTURE**1. INTRODUCTION**

- 1.1 This Appendix sets forth terms and conditions by which the applicable Windstream owned Incumbent Local Exchange Carrier (ILEC) and INdigital will provide each other with access to the applicable 911 and E911 Databases and provide Interconnection and Call Routing for purposes of 911 call completion to Public Safety Answering Point (PSAPs) as required by Section 251 of the Act.
- 1.2 The Parties acknowledge and agree that the Parties can only provide 911 Service in a territory where the Party is the 911 Service network provider, and then only that 911 Service configuration as purchased by the 911 Customer. The Parties' Selective Routers and Database Management System are by mutual agreement being provided under this Agreement on an "as is" basis.
- 1.3 Each Party shall provide access to its respective Selective Routers as described herein only where a PSAP and/or 911 Customer served by the Selective Routers has requested and approved the Party to carry 911 Service calls.
- 1.4 If a 911 Customer requests either Party to establish a PSAP to PSAP transfer arrangement, each Party will work independently with its respective 911 Customer to determine its respective 911 Customer's transfer service expectations, and each Party shall work cooperatively with the other Party to effectuate the requested transfer arrangement where technically feasible. A PSAP to PSAP transfer arrangement will be implemented where deemed technically feasible and when each 911 Customer has approved the PSAP to PSAP transfer arrangement.
- 1.5 Each Party is responsible for their respective agreements for 911 services with any 3rd party 911 service provider should a 3rd party 911 service provider be utilized for call routing and transport.

2. Windstream RESPONSIBILITIES WHERE Windstream IS THE DESIGNATED 911/E911 SERVICE PROVIDER

- 2.1. **Windstream** shall provide and maintain such equipment at the **Windstream** Selective Router and the DBMS as is necessary to provide INdigital 911 Services at parity with that of **Windstream** retail End Users. **Windstream** shall provide INdigital access to the **Windstream** 911 System as described in this section.
- 2.2. **Call Routing**
 - 2.2.1. **Windstream** will route 911 calls from the **Windstream** Selective Router to the designated primary PSAP or to designated alternate locations, according to routing criteria specified by the PSAP.
 - 2.2.2. **Windstream** will forward the calling party number (ANI) it receives from INdigital and the associated 911 Automatic Location Identification (ALI) to the PSAP for display. If no ANI is forwarded by INdigital, **Windstream** will forward an Emergency Service Central Office (ESCO) identification code for display at the PSAP. If ANI is forwarded by INdigital, but no ALI record is found in the E911 DBMS, **Windstream** will report this

“No Record Found” condition to INdigital in accordance with NENA recommended standards.

2.3. **Facilities and Trunking**

2.3.1. **Windstream** shall provide and maintain sufficient dedicated Selective Router trunks from **Windstream**'s Selective Router to the PSAP of the 911 Customer, according to provisions of the appropriate state Commission-approved tariff and documented specifications of the 911 Customer.

2.3.2. **Windstream** will, if requested, provide facilities to interconnect INdigital to the **Windstream** Selective Router, as specified in the applicable **Windstream** Appendix Pricing or tariff. Additionally, when diverse facilities are requested by INdigital, **Windstream** will provide such diversity where technically feasible, as specified in Appendix Pricing or at standard **Windstream** tariff rates.

2.4. **Database**

2.4.1. Where **Windstream** is designated by the E911 Customer to manage the E911 Database **Windstream** shall provide INdigital access to the **Windstream** E911 Database to store INdigital's End User 911 Records (e.g., the name, address, and associated telephone number(s) for each of INdigital's End Users). INdigital or its representative(s) is responsible for electronically providing End User 911 Records and updating this information.

2.4.2. Where **Windstream** manages the E911 Database, **Windstream** shall coordinate access to the **Windstream** DBMS for the initial loading and updating of INdigital End User 911 Records by INdigital.

2.4.3. Where **Windstream** manages the E911 Database, **Windstream**'s E911 Database shall accept, at no charge, electronically transmitted files that are based upon NENA recommended standards. Manual (i.e. facsimile) entry shall be utilized only in the event that the DBMS is not functioning properly.

2.4.4. Where **Windstream** manages the E911 Database, **Windstream** shall provide an initial MSAG load and updates to INdigital for use in submitting MSAG valid End User record information to **Windstream**'s DBMS for those Selective Routers that INdigital has End Users. INdigital shall be responsible for accepting and maintaining the updates from **Windstream**. **Windstream** will make updates available as frequently as each state's system currently provides.

3. **INdigital RESPONSIBILITIES WHERE Windstream IS THE DESIGNATED 911/E911 SERVICE PROVIDER**

3.1. **Call Routing**

3.1.1. INdigital will transport 911 calls to each Point of Interconnection (POI) on the interconnected **Windstream** network within the LATA where the 911 Customer is located. **Windstream** shall transport INdigital traffic from the POI(s) to the **Windstream** Selective Router. INdigital may utilize its own facilities or the facilities of another carrier.

3.1.1.1. Notwithstanding Section 3.1.1, where a wire center serves end users both within and outside of the **Windstream** E911 Service area, INdigital shall work cooperatively with **Windstream** and the affected 911 Customer(s) (i) to establish call routing and/or call handoff arrangements; (ii) to establish which 911 Service provider will serve as the "primary" Selective Routing provider

for direct trunking from the split wire center, determined by a clear majority based on the Number of Access Lines (NALs) served by the primary wireline service provider unless mutually agreed to otherwise; and (iii) to establish which 911 Service provider will serve as the "secondary" Selective Routing provider receiving a call hand-off from the primary Selective Routing provider.

- 3.1.2. INdigital will forward the ANI information of the party calling 911 to the **Windstream** Selective Router.

3.2. **Facilities and Trunking**

- 3.2.1. INdigital shall provide interconnection trunking at each **Windstream** Selective Router that serves the exchange areas in which INdigital is authorized to and offers service.
- 3.2.2. INdigital acknowledges that its End Users in a wire center may be served by different Selective Routers and INdigital shall be responsible for providing interconnection facilities to route 911 calls from its End Users to the proper Selective Router.
- 3.2.3. INdigital shall provide a minimum of two (2) one-way outgoing E911 Trunk(s) dedicated for originating 911 emergency service calls to each **Windstream** Selective Router, where applicable. Where SS7 connectivity is available and required by the applicable 911 Customer, the Parties agree to implement Common Channel Signaling trunking rather than CAMA MF trunking.
- 3.2.4. INdigital is responsible for providing a separate E911 Trunk group for each county or other geographic area that INdigital serves if the 911 Customer for such county or geographic area has a specified varying default routing condition. Where MF signaling is used and PSAPs do not have the technical capability to receive 10-digit ANI, E911 traffic must be transmitted over a separate trunk group specific to the underlying technology. In addition, 911 traffic originating in one (1) NPA (area code) must be transmitted over a separate 911 Trunk group from 911 traffic originating in any other NPA.
- 3.2.5. INdigital shall segregate wireless traffic on separate E911 Trunk(s) groups following the same requirements outlined in 3.2.3. and 3.2.4.
- 3.2.6. INdigital shall maintain facility transport capacity sufficient to route 911 traffic over dedicated trunks for 911 interconnection between the INdigital switch and the **Windstream** Selective Router.
- 3.2.7. INdigital shall order via Access Service Request (ASR) sufficient trunking to route INdigital's originating 911 calls to the designated **Windstream** Selective Router.
- 3.2.8. A diverse (i.e., separate) 911 Trunk is recommended and may be required by the 911 Service Customer. If required by the 911 Customer, diverse 911 Trunks shall be ordered in the same fashion as the primary 911 Trunks. INdigital is responsible for initiating trunking and facility orders for diverse routes for 911 interconnection.
- 3.2.9. INdigital is responsible for determining the proper quantity of trunks from its switch(es) to interconnect with the **Windstream** Selective Router.
- 3.2.10. INdigital shall engineer its 911 Trunks to attain a minimum P.01 grade of service as measured using the "busy day/busy hour" criteria or, if higher, at such other minimum grade of service as required by Applicable Law.
- 3.2.11. INdigital shall monitor its 911 Trunks for the purpose of determining originating network traffic volumes. If INdigital's traffic study indicates that additional 911 trunks are needed

to meet the current level of 911 call volumes, INdigital shall provision additional 911 Trunks for interconnection with Windstream.

- 3.2.12. INdigital is responsible for the isolation, coordination, and restoration of all 911 facility and trunking maintenance problems on its side of the IP. INdigital is responsible for advising Windstream of the 911 Trunk identification and the fact that the trunks are dedicated for 911 traffic when notifying Windstream of a failure or outage. The Parties agree to work cooperatively and expeditiously to resolve any 911 outage condition. Windstream will refer network trouble to INdigital if no defect is found in Windstream's 911 network. The Parties agree that 911 network problems will be managed expeditiously and the Parties will work cooperatively until problems are resolved.

3.3. Database

- 3.3.1. Within five (5) business days of receiving confirmation from Windstream of the authorization to transfer the End User SOI Records in a mutually-agreeable format and process, INdigital or its representatives shall provide INdigital's End User SOI Records to Windstream, at no charge, for the purpose of validating load file format conformity and MSAG record validation readiness.
- 3.3.1.1.1. Upon INdigital notification of successful confirmation of file format and data acceptability, INdigital or its representatives will timely provide an initial load file of INdigital's End User SOI Records to Windstream, at no charge, for inclusion in Windstream's DBMS and ALI systems, and INdigital will activate ongoing End User SOI Record daily update processes to keep the Windstream DBMS and ALI systems synchronized with INdigital's End User SOI systems.
- 3.3.1.1.2. Upon request from INdigital, at no charge, but no more frequent than once per quarter (reciprocal to 4.4.5), each Party shall provide to the other Party a file containing all INdigital End User SOI Records contained in their respective systems for audit/comparison purposes to validate data synchronization has been successfully maintained. Both Parties will work cooperatively to resolve any discrepancies discovered during the audit processes should they occur.
- 3.3.2. INdigital shall adopt use of a NENA Company ID on all INdigital End User 911 Records in accordance with NENA recommended standards.
- 3.3.3. INdigital is responsible for providing Windstream updates to the E911 database; in addition, INdigital is responsible for correcting any errors that may occur during the loading of its data to the Windstream 911 DBMS.
- 3.3.4. INdigital or its designated representative(s), shall process PSAP inquiries associated with INdigital end user 911 records.
- 3.3.5. INdigital or its designated representative(s) shall notify Windstream, or its designated representative, when new NPA-NXXs need to be added to Windstream's DBMS when such prefix table updates are required.
- 3.3.6. INdigital or its designated representative(s) shall provide to Windstream, or its designated representative, LNP reports on an as needed basis.

4. INdigital RESPONSIBILITIES WHERE INdigital IS DESIGNATED 911 SERVICE PROVIDER

- 4.1. INdigital shall provide and maintain such equipment at the INdigital Selective Router and the DBMS as is necessary to provide to Windstream 911 Services at parity with that of INdigital's

End Users. INdigital shall provide Windstream access to INdigital's 911 System as described in this Section.

4.2. **Call Routing**

- 4.2.1. INdigital will route Windstream 911 calls from the INdigital Selective Router to the primary PSAP or to designated alternate locations, according to routing criteria specified by the local governing authorities having control and accountability for primary PSAP and alternate routing decisions.
- 4.2.2. INdigital will forward the calling party number (ANI) it receives from Windstream and the associated 911 Automatic Location Identification (ALI) to the PSAP for display. If no ANI is forwarded by Windstream, INdigital will forward an Emergency Service Central Office (ESCO) identification code for display at the PSAP. If ANI is forwarded by Windstream, but no ALI record is found in the E911 DBMS, INdigital will report this "No Record Found" condition to Windstream in accordance with NENA standards. Windstream will investigate and resolve such failures based on state statutes.
- 4.2.3. INdigital will forward to the PSAP the calling party number (ANI) it receives from any other provider who hands off Windstream end user 911 calls to INdigital. The associated 911 Address Location Identification (ALI) will be displayed if the originating service provider who hands off the call to INdigital makes the information available to INdigital. If no ANI is forwarded by the originating service provider calls, INdigital will forward an ESCO identification code for display at the PSAP. If ANI is forwarded by the originating service provider, but no corresponding ALI is available for display at the PSAP, INdigital will report this "No Record Found" condition to the originating service provider and Windstream in accordance with NENA standards.

4.3. **Facilities and Trunking**

- 4.3.1. INdigital shall provide and maintain sufficient dedicated Selective Router trunks/IP connections from INdigital's Selective Router to the PSAP of the 911 Customer, according to provisions of the appropriate state Commission-approved tariff and documented specifications of the 911 Customer.

4.4. **Database**

- 4.4.1. Where INdigital is designated by the 911 Customer to manage the E911 Database, INdigital shall provide Windstream or its representative(s) access to the E911/ Database, to store Windstream's End User 911 Records (e.g., the name, address, and associated telephone number(s) for each of Windstream's End Users). Windstream or its representative(s) is responsible for electronically providing End User SOI Records and updating this information.
- 4.4.2. Where INdigital manages the E911 Database, INdigital's E911 Database shall accept electronically transmitted files that are based upon NENA recommended standards. Manual (i.e., facsimile) entry shall be utilized only in the event that the DBMS is not functioning properly.
- 4.4.3. Where INdigital manages the E911 Database, INdigital shall provide an initial MSAG load and monthly publications of statewide MSAGs. INdigital will notify Windstream of any MSAG changes that affect any of Windstreams existing TNs. for use in submitting MSAG valid End User record information to INdigital's DBMS. Windstream shall be responsible for accepting and maintaining the updates from INdigital.

- 4.4.4. Where INdigital manages the E911 Database, INdigital shall provide **Windstream** SOI record error details, based upon a mutually-agreeable format and process, to **Windstream** or its designated representative(s) at no charge, for errors associated with **Windstream**'s customer records.
- 4.4.5. Where INdigital manages the E911 database, INdigital shall provide an extract to **Windstream** or its designated representative(s), containing **Windstream**'s end user SOI records stored on INdigital's DBMS, upon request from **Windstream**, at no charge, but no more frequent than once per quarter.

4.5. **Point of Interconnection**

- 4.5.1. INdigital shall establish a point of interconnection ("POI") on the Windstream interconnected network to pick up calls originated on such Windstream interconnected network that are destined for PSAPs serviced by INdigital and/or to deliver 911 calls processed by INdigital for 911 end users that originate calls on the Windstream interconnected network. Windstream shall not be required to transport any traffic across Windstream franchise territory boundaries.
- 4.5.2. INdigital will be responsible for engineering its network on its side of the POI. Windstream will be responsible for engineering its network on its side of the POI.
- 4.5.3. Upon mutual agreement, INdigital may pick up 911 traffic originating on Windstream's interconnected network at an existing meet point or wire center location provided by another Selective Routing provider not a party to this Agreement. Each Party shall be responsible for its respective interconnection agreement with the other 911, Service Provider to avail delivery and/or pickup of 911 traffic between that Party's network and the other 911 Service Provider's location.
- 4.5.4. Where a 3rd party is performing selective routing of a Windstream wire center, INdigital may work cooperatively with the 3rd party (and independent of Windstream) to establish a POI with the 3rd party for the delivery of the formerly routed Windstream wire centers 911 calls to INdigital. In no case shall Windstream be required to modify its network or incur additional costs to conform to whatever arrangement is made by INdigital and the 3rd party.. Further, anyand all costs associated with the INdigital and 3rd party POI arrangement shall be handled solely between INdigital and the 3rd party.

5. **Windstream RESPONSIBILITIES WHERE INDIGITAL IS THE DESIGNATED 911/E911 SERVICE PROVIDER**

5.1. **Call Routing**

- 5.1.1. **Windstream** will transport 911 calls originated on the Windstream interconnected network to the INdigital POI(s) established on such Windstream network within the Windstream interconnected network where the 911 Customer is located, or at any other mutually agreed upon POI. This traffic may be aggregated but not switched after **Windstream** End Office origination and prior to delivery to the INdigital Selective Router. In the event **Windstream**'s End Office has End Users served by more than one Selective Router network, **Windstream** will transport 911 calls originated on the Windstream interconnected network to the POI(s) on the Windstream interconnected network within the LATA where the 911 Customer is located.
- 5.1.2. Where an End Office serves End Users both within and outside of the INdigital network serving area, and Windstream is the 911 provider, **Windstream** shall work cooperatively with INdigital and the affected 911 Customer(s) (i) to establish call routing and/or call handoff arrangements, (ii) to establish which 911 Service provider will serve as the "primary" Selective Routing provider for direct trunking from the split wire center, commonly determined by a clear majority based on the Number of Access Lines (NALs)

served by the Designated Primary Wireline Service Provider; and (iii) to establish which 911 Service provider will serve as the “secondary” Selective Routing provider receiving a call hand-off from the primary Selective Routing provider. The primary Selective Routing provider may be another 911 Service Provider. Each party is responsible for their respective agreements with the other 911 Service Providers. Determination of primary and secondary routing shall be made between 911 Service Providers with concurrence by the appropriate Public Safety agencies.

5.1.3. Intentionally Omitted.

5.1.4. Intentionally Omitted.

5.1.5. **Windstream** will forward the ANI information of the party calling 911 to the appropriate Selective Router.

5.2. **Facilities and Trunking to INdigital Selective Router**

5.2.1. **INdigital** will order via the **Windstream ASR process** and **Windstream** shall provision E911 trunks and transport facilities to each INdigital Selective Router location for delivery of Windstream’s aggregated retail End User 911 call traffic for delivery of Windstream retail End User 911 calls to PSAP(s) served by INdigital.

5.2.1.1.1. INdigital will pay Windstream tariffed rates for each E911 Trunk and transport facility ordered by INdigital and provisioned by Windstream under §5.2.1 on INdigital’s side of the POI.

5.2.2. **Windstream** acknowledges that its End Users in a Wire Center may be served by different Selective Routers, and **Windstream** shall be responsible for providing interconnection facilities to route 911 calls from its End Users to the proper INdigital POI(s).

5.2.3. **Windstream** shall provide a minimum of two (2) one-way outgoing 911 Trunk(s) dedicated for originating 911 emergency service calls from its End Offices or Selective Router to the POI. Where SS7 connectivity is available and required by the applicable 911 Customer, the Parties agree to implement channel-associated signaling trunking rather than CAMA MF trunking.

5.2.4. **Windstream** is responsible for providing a separate E911 Trunk group for each county or other geographic area that **Windstream** serves if the 911 Customer for such county or geographic area has a specified varying default routing condition.

5.2.5. **Windstream** shall maintain facility transport capacity sufficient to route 911 traffic originated on the Windstream interconnected network over E911 trunks on dedicated, diverse facilities provisioned by INdigital between the **Windstream** switch and the INdigital POI(s) established with **Windstream interconnected network** within the LATA of the 911 Customer that serves the end user originating such calls providing P.01 grade of service.

5.2.6. At the time of execution of this Agreement, Windstream does not aggregate, transit or transport other carrier’s 911 traffic. If this changes, Windstream and INdigital shall negotiate for mutually agreeable information to be routed for such traffic so that INdigital may work independently with such carriers regarding the converting of 911 traffic.

5.2.7. **Windstream** is responsible for initiating orders for E911 trunking and delivering 911 calls to INdigital’s POI.

5.2.8. **Windstream** is responsible for determining the proper quantity of trunks from its switch(es) to the INdigital POI.

- 5.2.9. **Windstream** shall engineer its 911 Trunks to attain a minimum P.01 grade of service as measured using the “busy day/busy hour” criteria or, if higher, at such other minimum grade of service as required by Applicable Law.
- 5.2.10. **Windstream** shall monitor its E911 Trunks for the purpose of determining originating network traffic volumes. If **Windstream**’s traffic study indicates that additional 911 trunks are needed to meet the current level of 911 call volumes, **Windstream** shall provision additional 911 trunks for interconnection with INdigital.
- 5.2.11. **Windstream** is responsible for the isolation, coordination, and restoration of all 911 facility and trunking maintenance problems on **Windstream**’s side of the POI. **Windstream** is responsible for advising INdigital of the 911 Trunk identification and the fact that the trunks are dedicated for 911 traffic when notifying INdigital of a failure or outage. The Parties agree to work cooperatively and expeditiously to resolve any 911 outage. INdigital will refer network trouble to **Windstream** if no defect is found in INdigital’s 911 network. The Parties agree that 911 network problems will be managed expeditiously and the Parties will work cooperatively until problems are resolved.

5.3. **Database**

- 5.3.1. Windstream will coordinate with INdigital concerning the transfer of the End User 911 SOI Records in a mutually-agreeable NENA format and process, **Windstream** or its representatives shall be responsible for providing **Windstream**’s End User 911 SOI Records to INdigital, at no charge, for the purpose of validating load file format conformity and MSAG record validation readiness.
 - 5.3.1.1. Upon Windstream notification of successful confirmation of file format and data acceptability, **Windstream** or its representatives will timely provide an initial load file of **Windstream**’s End User SOI Records to INdigital, at no charge, for inclusion in INdigital’s DBMS and ALI systems, and **Windstream** will activate ongoing End User SOI Record daily update processes to keep the INdigital DBMS and ALI systems synchronized with **Windstream**’s End User SOI systems. At the time of execution of this Agreement, Windstream does not aggregate, transit or transport other carrier’s 911 traffic. If this changes, Windstream and INdigital shall negotiate for mutually agreeable information to be provided so that INdigital may work independently with such carriers for SOI Records.
 - 5.3.1.2. Upon request or other mutually beneficial basis, each Party shall provide to the other Party a file containing all Windstream SOI records contained in their respective systems for audit/comparison purposes to validate data synchronization has been successfully maintained. Both Parties will work cooperatively to resolve any discrepancies discovered during the audit processes should they occur.
- 5.3.2. **Windstream** or its agent shall provide initial and ongoing updates of **Windstream**’s End User 911 SOI Records that are MSAG-valid in electronic format based upon established NENA recommended standards.
- 5.3.3. **Windstream** shall adopt use of a Company ID on all **Windstream** End User SOI 911 Records in accordance with NENA recommended standards.
- 5.3.4. **Windstream** is responsible for providing daily SOI Record updates to the INdigital DBMS. Based upon state Statutes concerning the receipt of error notifications from INdigital, **Windstream** or its designated representative(s) shall correct any errors that may occur during the entry of such data into the INdigital DBMS and resubmit the corrected SOI Records to INdigital for processing.
- 5.3.5. **Windstream** or its designated representative(s) shall resolve errors associated with **Windstream**’s SOI records.
- 5.3.6. Based upon state Statutes **Windstream** or its designated representative(s) shall resolve No Record Found errors associated with **Windstream**’s customer 911 calls when identified by INdigital.

- 5.3.7. Based upon state Statutes, **Windstream** or its designated representative(s) shall process PSAP inquiries associated with customer 911 calls when identified by INdigital.

6. RESPONSIBILITIES OF BOTH PARTIES WHEN BOTH PARTIES ARE 911 SELECTIVE ROUTING PROVIDERS

- 6.1. Both Parties shall jointly coordinate the provisioning of transport capacity sufficient to route originating E911 calls to the 911 Selective Router(s).
- 6.2. The Parties will cooperate to promptly test all trunks and facilities between their network(s) and Selective Router(s). The Parties agree that they will not pass live traffic until successful testing is completed by both Parties.
- 6.3. **911 Surcharge Remittance to PSAP**
- 6.3.1. The Parties agree that:
- 6.3.1.1. Each Party is responsible for collecting applicable 911 surcharges or fees from their respective End Users and remitting those surcharges and fees directly to municipalities or government entities where such surcharges or fees are assessed by said municipality or government entity.
- 6.3.1.2. Each Party collecting and remitting 911 surcharges from its respective End Users is responsible for providing the 911 Customer detailed monthly listings of the actual number of access lines, or breakdowns between the types of access lines (e.g., residential, business, payphone, Centrex, PBX, and exempt lines) in accordance with Applicable Law.
- 6.3.1.3. For INdigital as a reseller, except where state law requires Windstream to serve as a clearinghouse between resellers and PSAPs, the Parties agree that:
- 6.3.1.3.1. INdigital shall be responsible for collecting and remitting all applicable 911 fees and surcharges on a per line basis to the appropriate PSAP or other governmental authority responsible for collection of such fees and surcharges.
- 6.3.1.3.2. **Windstream** shall include reseller INdigital information when providing the 911 Customer with detailed monthly listings of the actual number of access lines, or breakdowns between the types of access lines (e.g., residential, business, payphone, Centrex, PBX, and exempt lines).
- 6.4. **ALI Database Responsibilities**
- 6.4.1. Where INdigital has been designated the 911 Provider for a 911 Customer contiguous to a **Windstream** 911 Customer, and where each Party's respective 911 Customer has requested the ability for PSAP-to-PSAP call transfer with ALI for dynamic ALI type calls (e.g., wireless 911 and nomadic VoIP calls), each Party shall load pANI Shell Records and update ALI steering tables in their respective ALI databases to support PSAP-to-PSAP call transfer with ALI for dynamic ALI type calls (e.g., wireless 911 and nomadic VoIP calls).
- 6.4.2. Intentionally Omitted.
- 6.4.3. Where technically feasible and INdigital has been designated the 911 Provider for a 911 Customer contiguous to a **Windstream** 911 Customer, and where each Party's respective 911 Customer has requested the ability for PSAP-to-PSAP call transfer, the Parties shall work cooperatively to establish methods and procedures to support PSAP to PSAP call transfer with ALI for 911 calls.
- 6.5. **Inter-Selective Routing Trunks**

- 6.5.1. Where INdigital is the 911 Provider for a 911 Customer that is contiguous to a **Windstream** 9-1-1 Customer, INdigital and **Windstream** may deploy bi-directional inter-SR Trunking using one-way trunk configurations that will allow transfers between PSAPs subtending **Windstream** Selective Routers and PSAPs subtending on INdigital Selective Routers, upon terms and conditions that will be mutually agreed upon by all of the affected parties (including PSAPs) in writing. INdigital will be responsible for deploying and maintaining one-way trunks from INdigital's routing network for PSAP call transfers from INdigital subtending PSAPs to **Windstream** subtending PSAPs. **Windstream** will be responsible for deploying and maintaining one-way trunks from the **Windstream** Selective Router for PSAP call transfers from the **Windstream** subtending PSAPs to INdigital subtending PSAPs. Parties may mutually agree to use two-way trunking arrangements, where able, and each Party would be responsible for provisioning and costs of one-half of the two-way trunk group.
- 6.5.2. Configuration of inter-Selective Router Trunk groups shall be designed to support the existing E911 generic of the **Windstream** E911 Selective Router tandem. **Windstream** will notify INdigital of any necessary upgrades to the **Windstream** E911 generic in the Selective Router to accommodate call transfers.
- 6.5.3. Each Party will have a sufficient number of inter-Selective Router Trunks to support simultaneous inter-Selective Router tandem PSAP call transfers such that a P.01 grade of service is attained.
- 6.5.4. Where technically feasible, each Party will establish and maintain appropriate Selective Routing translations as necessary to support inter-tandem E911 PSAP call transfer capability requested by the 911 Customer.
- 6.5.5. Each Party will provide the appropriate number of one-way outgoing 911 Selective Router Trunks over diversely routed facilities between Selective Routers to enable transfer of 911 calls between PSAPs served by INdigital's E911 routing network and PSAPs served by **Windstream**'s E911 routing network.
- 6.5.6. The Parties will maintain appropriate dial plans to support inter-Selective Router tandem transfer
- 6.5.7. Each Party will be responsible for alarming and monitoring their respective originating E911 inter-Selective Routing Trunks. Each Party shall notify the other of any service outages on their respective inter-Selective Routing Trunk(s), and work cooperatively to restore service in accordance with federal, state and local 911 rules.
- 6.5.8. Inter-selective routing trunks may also be utilized for call handoffs associated with split Wire Center calls from the primary Selective Router to the secondary Selective Router, as well as misrouted wireless calls.

7. METHODS AND PRACTICES

- 7.1. With respect to all matters covered by this Attachment, each Party will comply with all of the following to the extent that they apply to access to 911 Selective Router and E911 Databases: (i) all FCC and applicable state Commission rules and regulations, (ii) any requirements imposed by any Governmental Authority other than a Commission, (iii) the terms and conditions of the Party's Commission-ordered tariff(s), and (iv) the principles expressed in the recommended standards published by NENA.

8. CONTINGENCY

- 8.1. The terms and conditions of this Attachment represent a negotiated plan between the Parties for providing access to 911 and E911 Databases, and for providing trunking and call routing for purposes of 911 call completion to *each Party's respective Public Safety Answering Point (PSAP) customers* as required by Section 251 of the Act.

- 8.2. The Parties agree that the 911 System is provided herein is for the use of the 911 Customer, and recognize the authority of the 911 Customer to establish service specifications and grant final approval (or denial) of service configurations offered by **Windstream** and INdigital.

9. **BASIS OF COMPENSATION**

- 9.1. Rates for access to the Parties' 911 and E911 Databases, trunking and call routing of E911 call completion to a Public Safety Answering Point (PSAP) as required by Section 251 of the Act shall apply to both Parties under the terms and conditions set forth in the **Windstream** Appendix Pricing or the applicable Party's Commission-approved access tariff.

10. **LIABILITY**

- 10.1. **Windstream**'s liability and potential damages, if any, for its gross negligence, recklessness, or intentional misconduct, is not limited by any provision of this Appendix. **Windstream** shall not be liable to INdigital, its End Users or its 911 Service calling parties or any other parties or persons for any Loss arising out of the 911 System or any errors, interruptions, defects, failures or malfunctions of the 911 System, including any and all equipment and data processing systems associated therewith. Damages arising out of such interruptions, defects, failures or malfunctions of the system after **Windstream** have been notified and has had reasonable time to repair, shall in no event exceed an amount equivalent to any charges made for the service affected for the period following notice from INdigital until service is restored.
- 10.2. INdigital's liability and potential damages, if any, for its gross negligence, recklessness or intentional misconduct is not limited by any provision of this Appendix. In the event INdigital provides 911 Service to **Windstream**, INdigital shall not be liable to **Windstream**, its End Users, or its 911 Service calling parties or any other parties or persons for any Loss arising out of the provision of 911 Service or any errors, interruptions, defects, failures or malfunctions of 911 Service, including any and all equipment and data processing systems associated therewith. Damages arising out of such interruptions, defects, failures or malfunctions of the system after INdigital have been notified and has had reasonable time to repair, shall in no event exceed an amount equivalent to any charges made for the service affected for the period following notice from **Windstream** until service is restored.
- 10.3. Each Party agrees to release, indemnify, defend and hold harmless the other Party from any and all Loss arising out of either Party's 911 System hereunder or out of either Party's customers' or End Users' use of the 911 System, whether suffered, made, instituted or asserted by their respective customers or End Users, or by any other parties or persons, for any personal injury or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by their respective customers or End Users or others.
- 10.4. Each Party also agrees to release, indemnify, defend and hold harmless the other Party from any and all Loss involving an allegation of the infringement or invasion of the right of privacy or confidentiality of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of the 911 System features and the equipment associated therewith, including but not limited to the identification of the telephone number, address or name associated with the telephone used by the calling party accessing the 911 System provided hereunder

ATTACHMENT 6: UNBUNDLED NETWORK ELEMENTS (UNEs)**1.0 Introduction**

- 1.1 This Attachment sets forth rates, terms and conditions for Network Elements, subject to facility availability and technical feasibility, that Windstream agrees to offer to INdigital in accordance with its obligations under Section 251(c)(3) of the Act. The rates for each Network Element set forth in this Attachment.
 - 1.1.1 UNEs shall only be obtained for the provision of Telecommunications Services, which do not include telecommunications utilized by INdigital for its own administrative use.
 - 1.1.2 INdigital may not access UNEs for the exclusive provision of Mobile Wireless Services or Interexchange Services.
 - 1.1.3 INdigital will request Unbundled Network Elements on the Local Service Request (LSR).
 - 1.1.4 INdigital is responsible for paying all monthly recurring charges, non-recurring charges, miscellaneous charges and service order charges pursuant to this Unbundled Network Elements attachment and Agreement.
 - 1.1.5 If it is determined by INdigital or Windstream that INdigital's access to or use of UNEs is inconsistent with Existing Rules, except due to change of law, INdigital has thirty (30) days to convert such UNEs to alternate service arrangements and INdigital is subject to back billing for the difference between rates for the UNEs and rates for the Windstream alternate service arrangements. INdigital is also responsible for all non-recurring charges associated with such conversions.
- 1.2 Windstream's sole obligation is to provide and maintain Unbundled Network Elements in accordance with such specifications herein. Windstream DOES NOT WARRANT THAT UNBUNDLED NETWORK ELEMENTS ARE COMPATIBLE WITH ANY SPECIFIC FACILITIES OR EQUIPMENT OR CAN BE USED FOR ANY PARTICULAR PURPOSE OR SERVICE. Windstream, in order to properly maintain and modernize the network, may make necessary modifications and changes to the Network Elements in its network on an as needed basis. Such changes may result in minor changes to transmission parameters.
- 1.3 Unbundled Network Elements may not be used to provide any service that would degrade or otherwise adversely affect Windstream's network services, e.g., introduce harmful voltages or electrical currents in excess of standards used in common industry practice. Windstream will determine the medium over which the Unbundled Local Loop is provisioned to meet the appropriate technical parameters, except that, if INdigital requires a specific type of Unbundled Local Loop to meet the technical requirements of a proposed service, Windstream will consider the request on a case-by-case basis.
- 1.4 It is INdigital's responsibility to provision and provide E911/NG911 Services to its End Users that are provisioned utilizing Windstream's Unbundled Network Elements.
- 1.5 Unbundled Network Elements are only available to INdigital for use in its provisioning of local exchange service to its End Users.
- 1.6 Access to the facility or functionality of a network element will be provided separately from access to other elements, and for a separate charge.
- 1.7 Windstream retains duty to maintain, repair, or replace the element.

-
- 1.8 Each Party is solely responsible for the services it provides to its End Users and to other Telecommunications Carriers.
- 1.9 Network elements provided to INdigital under the provisions of this Attachment will remain the property of Windstream.
- 1.10 Installation intervals for Unbundled Network Elements are contained on Windstream's website.
- 1.11 Maintenance and repair is described herein. The repair center contact telephone numbers are provided on Windstream's web site.
- 1.12 In order to maintain and modernize the network properly, Windstream may make necessary modifications and changes to the UNEs in its network on an as needed basis. Such changes may result in minor changes to transmission parameters. Network maintenance and modernization activities will result in UNE transmission parameters that are within transmission limits of the UNE ordered by INdigital. Windstream shall provide advance notice of changes that affect network Interoperability pursuant to applicable FCC rules. Changes that affect network Interoperability include changes to local dialing from seven (7) to ten (10) digit, area code splits, and new area code implementation. FCC rules are contained in C.F.R. Parts 51 and 52. Windstream provides such disclosures on an Internet web site.
- 1.13 Recurring and nonrecurring charges apply for Unbundled Network Elements, as provided under Exhibit A.
- 1.14 Miscellaneous Charges apply for miscellaneous services listed below in this Section, if such miscellaneous services are available with Unbundled Network Elements. Miscellaneous services are provided at INdigital's request or are provided based on INdigital's actions that result in miscellaneous services being provided by Windstream. Miscellaneous Charges are in addition to recurring and nonrecurring charges that apply under this Agreement. When more than one miscellaneous service is requested for the same Unbundled Network Element(s), Miscellaneous Charges for each miscellaneous service apply. Basic rates apply for miscellaneous services provided during Windstream's regular business hours, 8 a.m. to 5 p.m., local time, Monday through Friday, excluding holidays; overtime Miscellaneous Charges apply for such services provided between 5 p.m. and 8 a.m., local time, Monday through Friday, or any time Saturday, excluding holidays; and premium Miscellaneous Charges apply for such services provided any time on Sundays or holidays.
- a) Additional engineering – engineering work including: 1) additional technical information after Windstream has already provided the technical information normally on the design layout record; 2) customized service; or 3) review of Windstream outside plant records. Basic or overtime rates apply.
 - b) Additional labor – installation – installation work scheduled to be performed outside of Windstream's regular business hours. Overtime or premium rates apply.
 - c) Additional labor - other - work not included in "additional labor – installation" above that involves labor only, including testing and maintenance that are not part of initially requested installation or maintenance, or, for example, for Optional Testing when INdigital reports trouble and provides no test results and authorizes Windstream to perform tests on INdigital's behalf. Basic, overtime, or premium rates apply.
 - d) Additional cooperative acceptance testing – performing specific tests requested by INdigital. Windstream's participation in such testing is subject to the availability of necessary qualified Windstream personnel and test equipment at test locations, which normally include the Windstream Central Office and may include INdigital's specified location. Tests include, but are not limited to, loop back, attenuation, intermodulation, phase jitter, noise, delay, echo, and frequency shift tests. Basic, overtime, or premium rates apply.
 - e) Non-scheduled testing - performing specific tests requested by INdigital as described above under "cooperative testing" or "manual testing" on a non-scheduled basis. Tests include, but

are not limited to, loss, noise, slope, delay, and echo. Such tests are performed as the result of a repair request and are in addition to tests required to isolate and repair trouble. Basic, overtime, or premium rates apply.

- f) Cancellation – cancellation of a pending order for the installation of services at any time prior to notification by Windstream that service is available for use. The cancellation date is the date Windstream receives notice from INdigital that the order is cancelled. If INdigital or INdigital's End User Customer is unable to accept service within thirty (30) Days after the original Due Date, the order will be cancelled by Windstream. Prices for this miscellaneous service are market-based, using Windstream's Tariffed, cataloged, price listed, or other similarly documented prices, and are subject to change. Additional information concerning the application of prices for cancellations can be found in Windstream's Tariff FCC No. 3.
- g) Design change – information provided by INdigital or a request from INdigital that results in an engineering review and/or a design change to service on a pending service order, per order, per occurrence. Design changes include, but are not limited to: 1) changes to the address on a pending service order when the new address is in the same Windstream Wire Center as the original address; or 2) conversions from an Unbundled Network Element to a private line/Special Access circuit. In addition to a design change Miscellaneous Charge, an address change may result in the application of an expedite Miscellaneous Charge in order to retain the original Due Date. Prices for this miscellaneous service are market-based, using Windstream's Tariffed, cataloged, price listed, or other similarly documented prices, and are subject to change.
- h) Dispatch – 1) information provided by INdigital, or a request from INdigital, in relation to installation of services, resulting in dispatch of a Windstream technician(s) when dispatch is not required for Windstream to complete its installation work; 2) information provided by INdigital resulting in dispatch, or a request from INdigital for dispatch, of a Windstream technician(s) in relation to a repair request where no trouble is found in Windstream's facilities; and 3) a Windstream technician(s) is dispatched and INdigital or INdigital's End User Customer is not available or ready. Prices for this miscellaneous service are market-based, using Windstream's Tariffed, cataloged, price listed, or other similarly documented prices, and are subject to change.
- i) Expedite – a Due Date that reflects a shorter service interval than is available in Windstream's Service Interval Guide; or that is a request for an earlier Due Date than has been established on a pending order; or that is required to meet a Due Date on a pending order due to design or other changes submitted by INdigital. Windstream will accommodate INdigital's request for an expedited installation if it can do so without delaying Due Dates or orders of other CLECs or End User Customers. Charges for expedited installations are in addition to nonrecurring charges for the service ordered. Prices for this miscellaneous service are market-based, using Windstream's Tariffed, cataloged, price listed, or other similarly documented prices, and are subject to change.
- j) Maintenance of Service/Trouble Isolation – work performed by Windstream when INdigital reports trouble to Windstream and no trouble is found in Windstream's facilities. INdigital is responsible for payment of charges when the trouble is in equipment or systems provided by a party(ies) other than Windstream. Additionally, when INdigital reports trouble within a quantity of services and circuits, but fails to identify the specific service and circuit experiencing trouble, charges apply for the time spent by Windstream to isolate the trouble. A call-out of Windstream technician at a time not consecutive with that technician's scheduled work period is subject to a minimum charge of four (4) hours. Failure of Windstream personnel to find trouble in Windstream facilities will result in no charge if the trouble is subsequently found in those facilities. Charges apply per Windstream technician, from the time of dispatch until the work is complete. Trouble Isolation Charges (TIC) apply for trouble isolation work on POTS and Maintenance of Service charges apply for trouble isolation work on other services. Dispatch Miscellaneous Charges may apply in addition to Maintenance of Service charges or TIC. Basic, overtime, or premium rates apply. Prices for this miscellaneous service are market-based, using Windstream's Tariffed, cataloged, price listed, or other similarly documented prices, and are subject to change.

- 1.15 Expedite requests for designed Unbundled Network Elements are allowed. Expedites are requests for intervals that are shorter than the interval defined in Windstream's website or Individual Case Basis (ICB) Due Dates.

- 1.15.1 INdigital will request an expedite for designed Unbundled Network Elements, including an expedited Due Date, on the Local Service Request (LSR).

2.0 Intentionally Left Blank

3.0 Network Interface Device (NID)

- 3.1 The Windstream NID is defined as any means of Interconnection of Customer on-premises wiring and Windstream's distribution plant, such as a cross connect device used for that purpose. Specifically, the NID is a single line termination device or that portion of a multiple line termination device required to terminate a single line or circuit at a premise. If INdigital seeks to access a NID, it may do so only pursuant to Section 3. If INdigital seeks to access a NID, it may only do so pursuant to this Section 3. Windstream shall permit INdigital to connect its own Loop facilities to on-premises wiring through Windstream's NID, or at any other Technically Feasible point. The NID carries with it all features, functions and capabilities of the facilities used to connect the Loop distribution plant to the End User Customer's premises wiring, including access to the Cross Connection field, regardless of the particular design of the NID mechanism. Although the NID provides the connection to the End User Customer's premises wiring, it may not represent the Demarcation Point where Windstream ownership or control of the intra-premises wiring ends. The NID contains a protective ground connection that protects the End User Customer's on-premises wiring against lightning and other high voltage surges and is capable of terminating media such as twisted pair cable. The NID is offered in three (3) varieties:

- 3.1.1 Simple NID - The modular NID is divided into two (2) components, one containing the over-voltage unit (protector) and the other containing the End User Customer's on-premises inside wiring termination, and a modular plug which connects the inside wire to the distribution plant or dial tone source. The non-modular NID is a protector block with the inside wire terminated directly on the distribution facilities.
- 3.1.2 Smart NID – To the extent Windstream has deployed "smart" devices in general meaning a terminating device that permits the service provider to isolate the Loop facility from the premises wiring for testing purposes, and such devices have spare functioning capacity not currently used by Windstream or any other provider, Windstream shall provide unbundled access to such devices. Windstream shall also continue to allow INdigital, at its option, to use all features and functionality of the Windstream NID including any protection mechanisms, test capabilities, or any other capabilities now existing or as they may exist in the future regardless of whether or not INdigital terminates its own distribution facility on the NID.
- 3.1.3 Multi-Tenant (MTE) NID - The MTE NID is divided into two (2) functional components: one containing the over-voltage unit (protector) and the other containing the terminations of the on-premises inside wiring. Such devices contain the protectors for, and may be located externally or internally to the premises served.

3.2 Terms and Conditions

- 3.2.1 INdigital may use the existing Windstream NID to terminate its drop if space permits, otherwise a new NID or other Technically Feasible Interconnection point is required. If INdigital installs its own NID, INdigital may connect its NID to the Windstream NID by placing a cross connect between the two. When Provisioning a NID-to-NID connection, INdigital will isolate the Windstream facility in the NID by unplugging the modular unit.

If INdigital requires that a non-modular unit be replaced with a modular NID, Windstream will perform the replacement for the charge described in Section 3.3.1. If INdigital is a facilities-based provider up to and including its NID, the Windstream facility currently in place, including the NID, will remain in place.

3.2.1.1 Windstream shall allow INdigital to connect its Loops directly to the NID field containing the terminations of the on-premises inside wiring not owned or controlled by Windstream, without restriction. Where Windstream does not own or control the on-premises inside wiring, INdigital and the landowner shall determine procedures for such access.

3.2.1.2 Windstream shall allow INdigital to use all features and functionality of the Windstream NID including any protection mechanisms, test capabilities, or any other capabilities now existing or as they may exist in the future.

3.2.1.3 Pursuant to generally acceptable work practices, and provided the inside wire re-termination is required to meet service requirements of either Parties' End User Customer, either Party may remove the inside wire from the NID and connect that wire to that Party's own NID. Future installation of Windstream NIDs will be such that it will not unnecessarily impede access to the End User Customer's wiring.

3.2.1.4 INdigital may enter the subscriber access chamber or End User Customer side of a dual chamber NID enclosure for the purpose of NID-to-NID connections.

3.2.1.5 Upon INdigital request, Windstream will make other rearrangements to the inside wire terminations or terminal enclosure. Charges will be assessed per Section 3.3.4. No such charge shall be applicable if Windstream initiates the rearrangement of such terminations. In all such instances, rearrangements shall be performed in a non-discriminatory fashion and timeframe and without an End User Customer's perceivable disruption in service. Windstream will not make any rearrangements of wiring that is provided by another Carrier that relocates the other Carrier's test access point without notifying the affected Carrier promptly after such rearrangement if INdigital has properly labeled its cross connect wires.

3.2.2 Windstream will retain sole ownership of the Windstream NID and its contents on Windstream's side. Windstream is not required to proactively conduct NID change-outs, on a wide scale basis. At INdigital's request, Windstream will change the NID on an individual request basis by INdigital and charges will be assessed per Section 3.3.5 except where Section 3.5.1 applies. Windstream is not required to inventory NID locations on behalf of INdigital.

3.2.3 When INdigital accesses a Windstream NID, it shall employ generally accepted best engineering practices and comply with industry standards should such standards exist when it physically connects its NID (or equivalent) to the Windstream NID and makes Cross Connections necessary to provide service. At MTE NIDs, INdigital shall clearly label the cross connect wires it uses to provide service. Windstream shall label its terminals when a technician is dispatched.

3.2.4 All services fed through a protector field in a Windstream NID located inside a building will interface on an industry standard termination block and then extend, via a Cross Connection to the End User Customer's in-premises wiring. All services fed through a protector field in a Windstream NID that is attached to a building will interface on industry standard lugs or a binding post type of termination and then extend, via a Cross Connection, to the End User Customer's on-premises wiring.

- 3.2.5 If so requested by INdigital, Windstream shall allow INdigital to connect its Loops directly to the protector field at Windstream NIDs that have unused protectors and are not used by Windstream or any other Telecommunications Carrier to provide service to the premises. If INdigital accesses the Windstream protector field, it shall do so on the distribution side of the protector field only where spare protector capacity exists. In such cases, INdigital shall only access a Windstream NID protector field in cable increments appropriate to the NID. If twenty-five (25) or more metallic cable pairs are simultaneously terminated at the MTE NID, additions must be in increments of twenty-five (25) additional metallic pairs. In all cases, Telecommunications cables entering a Windstream NID must be terminated in compliance with FCC 88-57, section 315 of the National Electric Safety Code and section 800.30 of the National Electric Code.

3.3 Rate Elements

Exhibit A provides recurring and nonrecurring rates for access or modifications to an existing NID, and Exhibit A also provides Miscellaneous Charges.

- 3.3.1 If INdigital requests the current simple NID be replaced with a different simple NID, pursuant to Section 3.2.1, additional labor – other Miscellaneous Charges will be assessed with INdigital paying only for the portion of the change-out that is specific to and for the functionality that supports INdigital requirements.
- 3.3.2 Recurring rates apply for unbundled access to the protector field in a Windstream NID, pursuant to Section 3.2.5.
- 3.3.3 When INdigital requests that Windstream perform the work to connect its NID to the Windstream NID, the costs associated with Windstream performing such work will be charged to INdigital as additional labor – other Miscellaneous Charges.
- 3.3.4 When Windstream makes rearrangements to the inside wire terminations or terminal enclosure pursuant to Section 3.2.1.5, charges will be assessed as additional labor – other Miscellaneous Charges.
- 3.3.5 INdigital will be charged for any change-out Windstream performs pursuant to Section 3.2.2. INdigital will be billed only for the portion of the change-out that is specific to INdigital's request for modified/additional capacity. Charges will be assessed as additional labor – other Miscellaneous Charges.

3.4 Ordering Process

- 3.4.1 INdigital may access a MTE NID after determining that the terminal in question is a NID, per the process identified in Section 3. If the terminal is a NID and INdigital wishes to access the End User Customer field of the NID, no additional verification is needed by Windstream. INdigital shall tag its jumper wire.
- 3.4.1.1 When INdigital seeks to connect to a cross connect field other than to the End User Customer field of the NID, INdigital shall submit a LSR for connection to the NID. Windstream shall notify INdigital, within ten (10) business days, if the connection is not Technically Feasible. In such cases, Windstream shall inform INdigital of the basis for its claim of technical infeasibility and, at the same time, identify all alternative points of connection that Windstream would support. INdigital shall have the option of employing the alternative terminal or disputing the claim of technical infeasibility pursuant to the Dispute Resolution provisions of this Agreement. No additional verification is needed by Windstream and INdigital shall tag its jumper wire.

3.4.2 Subject to the terms of Section 3.4.1, INdigital may perform a NID-to-NID connection, according to Section 3.1.3, and access the End User Customer field of the NID by submitting a LSR. INdigital may access the protector field of the NID by submitting a LSR.

3.5 Maintenance and Repair

3.5.1 If Windstream is dispatched to an End User Customer's location on a maintenance issue and finds the NID, facilities and lines have been removed from the protector field or damaged by INdigital, INdigital will be responsible for all costs associated with returning the NID, facilities and lines back to their original state. This work is billed to INdigital as additional labor – other Miscellaneous Charges.

4.0 Dedicated Transport

4.1 Subject to the conditions of Section 4, where facilities are available, at CLEC's request, Windstream shall provide CLEC with interoffice transmission facilities ("IOF") in accordance with, but only to the extent required by Applicable Law.

4.2 Wire Center "Tiers" -- wire centers are classified into three "tiers," as follows:

(i) Tier 1 Wire Centers are those Windstream wire centers that contain at least four fiber-based collocators, at least 38,000 business lines, or both. Tier 1 Wire Centers also are those Windstream tandem switching locations that have no line-side switching facilities, but nevertheless serve as a point of traffic aggregation accessible by CLEC. Once a wire center is determined to be a Tier 1 Wire Center, that wire center is not subject to later reclassification as a Tier 2 or Tier 3 Wire Center.

(ii) Tier 2 Wire Centers are those Windstream wire centers that are not Tier 1 Wire Centers, but contain at least 3 fiber-based collocators, at least 24,000 business lines, or both. Once a wire center is determined to be a Tier 2 Wire Center, that Wire Center is not subject to later reclassification as a Tier 3 Wire Center.

(iii) Tier 3 Wire Centers are those Windstream wire centers that do not meet the criteria for Tier 1 or Tier 2 Wire Centers.

Exhibit A: UNE Price List

	Monthly Recurring	Nonrecurring Charges	
		Initial	Additional
<u>Unbundled Loops (Excludes NID)</u>			
2-Wire Digital	\$31.85	\$39.06	\$39.06
DS-1	\$163.79	\$78.12	\$78.12
<u>Network Interface Device (NID)</u>			
NID – 2 Lines	\$1.00	\$0.00	\$0.00
NID – 6 Lines	\$1.50	\$0.00	\$0.00
<u>Service Order Charges</u>			
New		\$22.39	\$22.39
Change		\$17.44	\$17.44
Disconnect		\$12.26	\$12.26
Expedite Charge		\$21.76	\$21.76
Manual Service Order Charges (*In addition to the applicable service order charge.)		\$8.07*	\$8.07*
<u>Time and Material Charges</u>			
Basic Time per half (1/2) hour		\$45.00	\$45.00
Overtime per half (1/2) hour		\$62.50	\$62.50
Premium Time per half (1/2) hour		\$85.00	\$85.00
<u>Coordinated Cut-Over Charge</u>			
Basic Time per half (1/2) hour		\$45.00	\$45.00
Overtime per half (1/2) hour		\$62.50	\$62.50
Premium Time per half (1/2) hour		\$85.00	\$85.00

ATTACHMENT 7: PHYSICAL COLLOCATION**1.0 General Provisions**

- 1.1 This Attachment sets forth the rates, terms, and conditions upon which Windstream will offer physical collocation to INdigital as provided under the Act. These rates, terms, and conditions are in addition to those contained elsewhere in this Agreement.
- 1.2 INdigital shall be allowed to obtain dedicated space (the “Collocation Space”) in Windstream’s Wire Centers and to place equipment in such space to interconnect with Windstream’s network.
 - 1.2.1 INdigital shall not occupy or use the Collocation Space, or permit the Collocation Space to be occupied or used, for any purpose, act or thing, whether or not otherwise permitted by the Agreement, if such purpose, act, or thing (i) is in violation of any public law, ordinance, or governmental regulation; (ii) may be dangerous to persons or property; (iii) violates the terms of this Agreement.
- 1.3 Physical collocation shall be provided on a first-come, first-served basis.
- 1.4 Physical collocation also includes Windstream providing resources necessary for the operation and economical use of collocated equipment.
- 1.5 INdigital will disclose appropriate information about the equipment to be installed to allow Windstream to engineer the power, floor loading, heat release, environmental particulate level, and HVAC for the collocated space.
- 1.6 When Windstream personnel are used, the labor rates included in Exhibit A shall apply.
- 1.7 If INdigital chooses to physically collocate in premises which was initially prepared for virtual collocation, INdigital may
 - 1.7.1 retain its virtual collocation in that premise and expand that virtual collocation according to the rates, terms, and conditions contained in Attachment 8: Virtual Collocation; or
 - 1.7.2 unless it is not practical for technical reasons or because of space limitations, convert its virtual collocation to physical at such premises, in which case INdigital shall coordinate the construction and rearrangement with Windstream of its equipment and circuits for which INdigital shall pay Windstream at applicable rates, and pursuant to the other terms and conditions in this Attachment. In addition, all applicable physical collocation recurring and nonrecurring rates as listed in Exhibit A: Collocation Pricing shall apply.
- 1.8 INdigital is responsible for the installation, maintenance and repair of its equipment located within the collocated space rented from Windstream.
- 1.9 INdigital’s collocated space will be separated from other CLEC’s collocated space and Windstream space through cages constructed by Windstream or Windstream’s contractors.
- 1.10 Once construction is complete for physical collocation and INdigital has accepted its physical collocation space, INdigital may order Cross-Connects.
- 1.11 Prior to the installation of any equipment in the collocation space, INdigital will provide a list of equipment to be collocated and Windstream will review said list and equipment to determine if it meets safety requirements as well as FCC guidelines for allowable collocation equipment. If, during the review, Windstream reasonably determines that the equipment or the installation does not meet

safety requirements or FCC guidelines, it will provide a notice of noncompliance to INdigital along with an identification of the problem and recommendations for its solution. INdigital will be responsible for the costs associated with any modifications necessary to bring the request into compliance. If INdigital installs equipment that has not been previously identified reviewed and determined compliant and such equipment is later found to be non-compliant, Windstream will notify INdigital of such non-compliant equipment. If INdigital is notified that certain equipment is non-compliant because of safety reasons, and INdigital fails to commence the correction of any noncompliance within thirty (30) days of receipt of written notice of non-compliance, Windstream may have the equipment removed or the condition reasonably corrected at INdigital's expense. If INdigital is notified that certain equipment is non-compliant for reasons other than safety, INdigital may either 1) invoke the dispute resolution procedures of this Agreement or 2) commence the correction of any noncompliance within thirty (30) days of receipt of written notice of non-compliance. If INdigital fails to do either, Windstream may have the equipment removed or the condition reasonably corrected at INdigital's expense.

- 1.12 During installation if Windstream determines INdigital activities or equipment are unsafe, non-standard, or in violation of any applicable laws or regulations, Windstream has the right to stop work until the situation is remedied. If such conditions pose an immediate threat to the safety of Windstream's employees, interfere with the performance of Windstream's service obligations, or pose an immediate threat to the physical integrity of the conduit system or the cable facilities, Windstream may perform such work and/or take reasonable action as is necessary to correct the condition at INdigital's sole expense.
- 1.13 Windstream may refuse INdigital's requests for additional space if INdigital is in material breach of this Attachment, including having any undisputed past due charges hereunder.
- 1.14 Any collocation element requested by INdigital that is not contained in this Attachment or Exhibit A: Collocation Pricing will be handled on an individual case basis ("ICB").
- 1.15 Types of Collocation
 - 1.15.1 Caged: a form of collocation which allows INdigital to lease caged floor space to house their equipment within Windstream Wire Centers or access tandems pursuant to this attachment. The minimum floor space requirement for caged collocation is 100 sq. feet.
 - 1.15.2 Cageless: a form of collocation which allows INdigital to place their equipment in single bay increments within Windstream Wire Centers or access tandems pursuant to this attachment. This space will be in separate lineups where available, and will not share the same Bay space with Windstream equipment. Equipment will be installed by vendors approved and certified by Windstream. The minimum floor space requirement for cageless collocation is 1 standard rack/bay (approx. 6 sq. feet.).

2.0 Collocation Intervals

- 2.1 All requests for Collocation are evaluated on an individual Wire Center basis. Standard requests are for one (1) Wire Center. Non-standard requests will be addressed on an individual case basis.
- 2.2 Acknowledgment of Floor Space Availability

Within fifteen (15) business days of the receipt by Windstream from INdigital of a Bona Fide Request for Collocation and the associated Application Fee, Windstream will notify INdigital whether the sufficient floor space is available in the requested Wire Center to accommodate INdigital's request and provide floor plans necessary for use by a Windstream approved contractor.
- 2.3 Buildout Quote Preparation

Within thirty-five (35) business days of the receipt by Windstream from INdigital of a Bona Fide Request for Collocation and the associated Application Fee, Windstream will provide INdigital with a written quotation containing all nonrecurring charges for the requested Collocation Space arrangement.

2.4 Quote Acceptance

Within thirty (30) business days of the receipt by INdigital of the Windstream quotation, INdigital will notify Windstream in writing of its acceptance or rejection of the Windstream proposed quotation. Within thirty (30) days of notifying Windstream in writing of its acceptance, INdigital shall make payment to Windstream of fifty percent (50%) of the non-recurring charges provided on the quotation.

2.5 Completion of Cage Construction

Within seventy (70) business days of the payment described in section 2.4 above, the construction of the necessary cage enclosure shall be completed. At this time, the leased floor space will be available to INdigital for installation of its collocated equipment.

2.6 Delays in Windstream's receipt of equipment or material required for physical collocation that are beyond Windstream's reasonable control shall not leave Windstream liable for any claims of delay.

2.7 Windstream shall notify INdigital that the Collocation Space is ready for occupancy. INdigital's operational telecommunications equipment must be placed and connected with Windstream's network within ninety (90) calendar days of such notice. If INdigital fails to place operational telecommunications equipment in the Collocation Space within ninety (90) calendar days and such failure continues for a period of twenty (20) business days after receipt of written notice from Windstream, then and in that event INdigital's right to occupy the Collocation Space terminates and Windstream shall have no further obligations to INdigital with respect to said Collocation Space. Termination of INdigital's rights to the Collocation Space pursuant to this Section shall not operate to release INdigital from its obligations to reimburse Windstream for all cost reasonably incurred by Windstream in preparing the Collocation Space, but rather such obligation shall survive this Attachment. For purposes of this paragraph, INdigital's telecommunications equipment will be deemed operational when cross-connected to Windstream's network for the purpose of service provision.

3.0 Termination of Collocation Arrangement

3.1 INdigital may terminate occupancy in the Collocation Space upon thirty (30) calendar days' prior written notice to Windstream.

3.2 At the termination of a Collocation Space license by lapse of time or otherwise:

3.2.1 INdigital shall surrender all keys, access cards and Windstream provided photo identification cards to the Collocation Space and the building to Windstream and shall make known to Windstream the combination of all combination locks remaining on the Collocation Space.

3.2.2 INdigital, at its sole expense, shall remove all its equipment from the Collocation Space within thirty (30) days to complete such removal; provide, however that INdigital shall continue payment of monthly fees to Windstream until such date as INdigital has fully vacated the Collocation Space.

3.2.2.1 If INdigital fails to vacate the Collocation Space within thirty (30) days from the termination date and INdigital does not continue to pay the monthly fee,

Windstream reserves the right to remove INdigital's equipment and other property of INdigital, with no liability for damage or injury to INdigital's property unless caused by the negligence or intentional misconduct of Windstream. All expenses shall be borne by INdigital.

- 3.2.3 INdigital shall return to Windstream the Collocation Space and all equipment and fixtures of Windstream in as good a condition and state of repair as when INdigital originally took possession, normal wear and tear or damage by fire or other casualty excepted. INdigital shall be responsible to Windstream for the cost of any repairs that shall be made necessary by the acts or omissions of INdigital or of its agents, employees, contractors, or business invitees. Windstream reserves the right to oversee INdigital's withdrawal from the Collocation Space, and INdigital agrees to comply with all directives of Windstream regarding the removal of equipment and restoration of the Collocation Space, including, without limitation, Windstream's directive to return the Collocation Space in other than its original condition on the date of occupancy; provided, however, that INdigital shall not be responsible for putting the Collocation Space in other than its original condition if to do so would put INdigital to additional expense above and beyond that which would be necessary to return the Collocation Space in its original condition.
- 3.2.4 Prior to any termination or within thirty (30) days thereafter, INdigital shall promptly remove any installations, additions, hardware, non-trade fixtures and improvements, placed in or upon the Collocation Space by INdigital. If INdigital fails to vacate the Collocation Space within thirty (30) days from the termination date and INdigital does not continue to pay the monthly fee, INdigital shall, upon demand, pay to Windstream the cost of such removal and of any necessary restoration of the Collocation Space. No cable shall be removed from inner duct or outside cable duct except as directed by Windstream.
- 3.2.5 All fixtures, installations, and personal property belonging to INdigital not removed from the Collocation Space upon termination of a Collocation Space license and not required by Windstream to have been removed as provided in this Attachment in a written notice, shall be conclusively presumed to have been abandoned by INdigital and title thereto shall pass to Windstream under this Attachment as if by bill of sale.
- 3.2.6 If the Collocation Space is not surrendered at the termination of the Collocation Space license, INdigital shall indemnify Windstream against loss or liability resulting from delay by INdigital in so surrendering the Collocation Space, including, without limitation, any claims made by any succeeding tenant founded on such delay.
- 3.3 Should INdigital default in its performance and said default continues for thirty (30) days after receipt of written notice, or if INdigital is declared bankrupt or insolvent or makes an assignment for the benefit of creditors, Windstream may, subject to and in compliance with all applicable federal, state, and local bankruptcy laws, rules and regulations, immediately or at any time thereafter, without further notice or demand without notice or demand, enter and repossess the Collocation Space, expel INdigital, remove INdigital property, forcibly if necessary forcibly if necessary, and thereupon this Attachment shall terminate, without prejudice to any other remedies Windstream might have. Windstream may also refuse additional applications for service and/or refuse to complete any pending orders for additional space or service by INdigital at any time thereafter.

4.0 Collocation Space

- 4.1 If Windstream determines it necessary for INdigital's Collocation Space to be moved within the building in which the Collocation Space is located ("Building") or to another Windstream Wire Center, INdigital is required to do so. INdigital shall be responsible for the preparation and all costs associated with the new Collocation Space at the new location, if such relocation arises from circumstances beyond the reasonable control of Windstream, including condemnation or

government order or regulation that makes the continued occupancy of the Collocation Space or Building uneconomical in Windstream's reasonable judgment. Otherwise Windstream shall be responsible for any such preparation and costs.

- 4.2 If INdigital requests the Collocation Space to be moved within the Building or to another Windstream Wire Center, Windstream shall permit INdigital to relocate the Collocation Space, subject to the availability of space and associated requirements. INdigital shall be responsible for all applicable charges associated with the move, including the reinstallation of its equipment and facilities and the preparation of the new Collocation Space and the new Wire Center as applicable.
- 4.3 Should either event as described in § 4.1 and § 4.2 occur, the new Collocation Space shall be deemed the "Collocation Space" hereunder and the new Wire Center the "Building."
- 4.4 Windstream agrees to prepare the Collocation Space in accordance with working drawings and specifications, with the responsibility for the cost and expense being as set forth above. The preparation shall be arranged by Windstream in compliance with all applicable codes, ordinances, resolutions, regulations and laws. After INdigital has made the initial payments required and the state regulatory approval is obtained for this attachment, Windstream agrees to pursue diligently the preparation of the Collocation Space for use by INdigital.

5.0 Entrance Facilities and Demarcation Point

- 5.1 INdigital will place its own entrance facilities for connection to the collocated equipment. Windstream will designate the point of interconnection in proximity to the central office building housing the Collocation Space, such as an entrance manhole or a cable vault. INdigital will provide and place cable at the point of interconnection of sufficient length to be pulled through conduit and into the spliced location. No splicing will be permitted in the entrance manhole. INdigital will provide a sufficient length of fire retardant riser cable, to which the entrance cable will be spliced, which will extend from the spliced location to INdigital's equipment in the Collocation Space. INdigital must contact Windstream for instructions prior to placing the entrance facility cable in the manhole. INdigital is responsible for maintenance of the entrance facilities.
- 5.2 Windstream shall designate the point(s) of termination within the Building as the point(s) of physical demarcation between INdigital's network and Windstream's network, with each being responsible for maintenance and other ownership obligations and responsibilities on its side of that demarcation point. The demarcation point between Windstream and INdigital will be at the POT Bay.

6.0 Use of Collocation Space

- 6.1 Subject to § 6.13 below, INdigital shall use the Collocation Space solely for the purposes explicitly allowed under the FCC's collocation rules found in Title 47 Part 51. . Consistent with the nature of the Building and the environment of the Collocation Space, INdigital shall not use the Collocation Space for office, retail, or sales purposes. INdigital shall place no signs or markings of any kind (except for a plaque or other identification affixed to INdigital's equipment and reasonably necessary to identify INdigital's equipment and which shall include a list of emergency contacts with telephone numbers) in the Building or on the grounds surrounding the Building.
- 6.2 INdigital is solely responsible for the design, engineering, testing, performance, monitoring, maintenance, and repair of the equipment and facilities used by INdigital in the Collocation Space.
- 6.3 From time to time Windstream may require access to the Collocation Space. Windstream retains the right to access such space for the purpose of making equipment and building modifications (e.g., running, altering or removing racking, ducts, electrical wiring, HVAC, and cables). Windstream

will give reasonable written notice to INdigital when access to the Collocation Space is required. INdigital may elect to be present whenever Windstream performs work in the Collocation Space. The Parties agree that INdigital will not bear any of the expense associated with this work.

6.4 INdigital Access to INdigital's Collocation Space

INdigital shall have access to its Collocation Space twenty-four (24) hours a day, seven (7) days a week. A security escort will be required at Central Offices where separate, secured ingress and egress are not available and access would require INdigital to traverse restricted areas. All employees, agents and contractors of INdigital having access to the Collocation Space shall comply with Windstream's policies and practices pertaining to fire, safety and security, and each such employee, agent or contractor shall display an identification badge issued by Windstream which contains a current photo, the individual's name and company name/logo. INdigital agrees to comply with all laws, ordinances and regulations affecting the use of the Collocation Space. Upon expiration of this Attachment, INdigital shall surrender the Collocation Space to Windstream in the same condition as when first occupied by INdigital except for ordinary wear and tear or damage by fire or other casualty excepted.

6.5 INdigital must submit an application listing all of INdigital's telecommunications equipment and facilities that will be placed within the Collocation Space with the associated power requirements, floor loading and heat release of each piece. INdigital warrants and represents that the application is complete and accurate and acknowledges that any incompleteness or inaccuracy, which remains uncorrected after thirty (30) days' notification by Windstream, would be a material breach of this Attachment. INdigital shall not place or leave any telecommunications equipment or facilities within the Collocation Space beyond those listed on the application without the express written consent of Windstream.

6.6 In the event that subsequent to the execution of this Attachment INdigital desires to place in the Collocation Space any equipment or facilities not set forth on the application, INdigital shall furnish to Windstream a written list and description of the equipment or facilities. Windstream may provide such written consent or may condition any such consent on additional charges arising from the request, including any engineering design charges and any additional requirements such as power and environmental requirements for such listed and described equipment and/or facilities. Upon the execution by both Parties of a final list and description, including any applicable charges, this Attachment shall be deemed to have been amended to include the terms and conditions of the final list and description.

6.7 The foregoing imposes no obligation upon Windstream to purchase additional plant or equipment, relinquish used or forecasted space or facilities, to undertake the construction of new quarters or to construct additions to existing quarters in order to satisfy a subsequent request for additional space or the placement of additional equipment or facilities.

6.8 INdigital shall indicate its intent to proceed with equipment installation in a Windstream Central Office by submitting the Windstream's Collocation Application Form. This form may be obtained by sending a request to: WCI.Network.Interconnection@Windstream.com. A Collocation Application Form requires INdigital to complete the Application/Inquiry process described in § 6.5 preceding, submit an updated Application document based on the outcome of the Application/Inquiry process, and pay all applicable fees referenced in § 14.0, following. The Collocation Application Form must be received by Windstream no later than thirty (30) days after Windstream's response to INdigital's Application/Inquiry. Space preparation for the Collocation Space will not begin until Windstream receives the Collocation Application Form and all applicable fees.

6.9 INdigital shall bear all costs of any renovation or upgrade to Central Office space or support mechanisms which is required to accommodate physical collocation. For this Section, support mechanisms provided by Windstream may include, but not be limited to heating/ventilation/air

conditioning (HVAC) equipment, HVAC duct work, cable support structure, fire wall(s), mechanical upgrade, asbestos abatement, ground plane addition, or separate ingress/egress construction. Such renovation or upgrade will be evaluated and the charges assessed on a per Central Office basis. Windstream will make reasonable efforts to provide for occupancy of the Collocation Space on the negotiated date and will promptly advise INdigital of delays.

- 6.10 Pursuant to the terms contained in this Attachment, Windstream shall construct an equipment arrangement enclosure in increments of one hundred (100) square feet, with a minimum of one hundred (100) square feet unless cageless collocation has been requested.
- 6.11 INdigital equipment or operating practices representing a significant technical threat to Windstream's network or facilities, including the building, that is supported by demonstrable evidence from Windstream, is strictly prohibited.
- 6.12 Notwithstanding any other provision hereof, the characteristics and methods of operation of any equipment or facilities placed in the Collocation Space shall not interfere with or impair service over any facilities of Windstream or the facilities of any other person or entity located in the building; create hazards for or cause damage to those facilities, the Collocation Space, or the building; impair the privacy of any communications carried in, from, or through the building; or create hazards or cause physical harm to any individual or the public. Any of the foregoing events would be a material breach of this Attachment.
- 6.13 Windstream will permit interconnection between two collocated local service providers at the rates specified in § 14.9 Direct Connection. Windstream will provide nothing more than the labor and physical structure(s) necessary for the local service providers to pull facilities provided by one local service provider from its collocation node to the collocation node of another local service provider. If the local service providers are not located on the same floor, Windstream will perform the cable pull on a time and materials basis, in addition to the charges specified in § 14.0 of this Attachment. At no time, in connection with such interconnection with other local service providers, will the local service providers be allowed access to any portion of the central office other than the collocation area. Windstream will not make the physical connection within the local service provider's collocation node. Windstream will not accept any liability for the cable or the connections and Windstream will not maintain any records concerning these connections.
- 6.14 Subject to this Attachment, INdigital may place or install in or on the Collocation Space such fixtures and equipment as it shall deem desirable for the conduct of business. Personal property, fixtures and equipment placed by INdigital in the Collocation Space shall not become a part of the Collocation Space, even if nailed, screwed or otherwise fastened to the Collocation Space, but shall retain their status as personality and may be removed by INdigital at any time. INdigital shall promptly repair any damage caused to the Collocation Space by the removal of such property at its expense.
- 6.15 In no case shall INdigital or any person purporting to be acting through or on behalf of INdigital make any rearrangement, modification, improvement, addition, repair, or other alteration to the Collocation Space or the building without the advance written permission and direction of Windstream. Windstream shall consider a modification, improvement, addition, repair, or other alteration requested by INdigital, provided that Windstream shall have the right to reject or modify any such request. INdigital shall pay the cost of any such construction in accordance with Windstream's then-standard custom work order process.

7.0 Standards

- 7.1 The Parties warrant that the services provided hereunder this Attachment is made available subject to and in accordance with the Bellcore Network Equipment Building System (NEBS) Generic Requirements and the National Electric Code Standards. However, if such reference material is

substantially altered in a more recent version to significantly change the obligations of INdigital as of the Effective Date of this Attachment and the Parties are not in Agreement concerning such modifications, the Parties agree to negotiate in good faith to determine how such changes will impact performance of the Parties under this Attachment, if at all. Until such time as the Parties agree, the provisions of the last accepted and unchallenged version will remain in force. This condition shall not apply to any statutory and/or regulatory requirements in effect at the execution of this Attachment or that subsequently become effective and then when effective shall also apply to this Attachment regardless of INdigital concurrence. INdigital shall strictly observe and abide by each.

- 7.2 INdigital warrants and represents compliance with the Bellcore Network Equipment Building System (NEBS) Generic Requirements for each item set forth on the application form. INdigital also warrants and represents that any equipment or facilities that may be placed in the Collocation Space pursuant to § 6.6 shall be so compliant.

7.2.1 DISCLOSURE OF ANY NON-COMPLIANT ITEM ON THE APPLICATION FORM, PURSUANT TO § 6.6, OR OTHERWISE SHALL NOT QUALIFY THIS ABSOLUTE CERTIFICATION IN ANY MANNER.

8.0 **Responsibilities of INdigital**

- 8.1 INdigital is responsible for providing to Windstream personnel a contact number for INdigital technical personnel who are readily accessible twenty-four (24) hours a day, seven (7) days a week. INdigital Maintenance: 877-777-2263

- 8.2 INdigital is responsible for providing trouble report status when requested by Windstream.

- 8.3 Regeneration of either DS1 or DS3 signal levels must be provided by INdigital, or Windstream under its then-standard custom work order process, including payment requirements prior to the installation of the regeneration equipment. INdigital must provide any regeneration caused by cross-office extension.

- 8.4 A vendor who has been approved as a Windstream certified vendor to perform all engineering and installation work must install all equipment. Windstream shall provide INdigital with a list of certified vendors upon request. The certified vendor shall be responsible for installing INdigital's equipment and components, extending power cabling to the Windstream power distribution frame, performing operational tests after installation is complete and notifying Windstream's engineers and INdigital upon successful completion of installation. The certified vendor shall bill INdigital directly for all work performed for INdigital pursuant to this Attachment and Windstream shall have no liability for nor responsibility to pay such charges imposed by the certified vendor. Equipment ownership, maintenance and insurance are the full responsibility of INdigital. INdigital will be responsible for servicing, supplying, installing, repairing, and maintaining the following facilities within the Collocation Space:

8.4.1 Entrance Facilities;

8.4.2 INdigital Equipment;

8.4.3 Required Point of Termination Cross Connects;

8.4.4 Point of Termination maintenance, including replacement of fuses and circuit breaker restoration, if and as required;

8.4.5 The connection cable(s) and associated equipment which may be required within the Collocation Space to the point(s) of termination.

Windstream NEITHER ACCEPTS NOR ASSUMES ANY RESPONSIBILITY WHATSOEVER IN ANY OF THESE AREAS.

- 8.5 INdigital is responsible for immediate verbal notification to Windstream of significant outages or operations problems which could impact or degrade Windstream's network, switches, or services, and for providing an estimated clearing time for restoral. In addition, written notification must be provided within twenty-four (24) hours.
- 8.6 INdigital is responsible for coordinating with Windstream to ensure that services are installed in accordance with the service request.
- 8.7 INdigital is responsible for testing, to identify and clear a trouble when the trouble has been isolated to a INdigital provided facility or piece of equipment. If Windstream testing is also required, it will be provided at charges specified in Windstream's F.C.C. Tariff No. 1.

9.0 Assignment

- 9.1 INdigital shall not assign, sublet, or otherwise transfer this Attachment, neither in whole nor in part, or permit the use of any part of the Collocation Space by any other person or entity, without the prior written consent of Windstream which Windstream will not unreasonably withhold. Any purported assignment or transfer made without such prior written consent shall be deemed a material breach of this Attachment and voidable at the option of Windstream. INdigital shall not permit any third party to jointly occupy the Collocation Space. INdigital acknowledges that this Attachment does not convey any right, title or interest in the Central Office to INdigital.

10.0 Casualty Loss

- 10.1 If fire or other casualty damages the Collocation Space, and the Collocation Space is not rendered unusable in whole or in part, Windstream shall repair the same at its expense (as hereafter limited) and the rent shall not be abated. If the Collocation Space is rendered untenable in whole or in part and such damage or destruction can be repaired within ninety (90) calendar days, Windstream has the option to repair the Collocation Space at its expense (as hereafter limited) and rent shall be proportionately abated while INdigital was deprived of the use. If the Collocation Space cannot be repaired within ninety (90) days, or Windstream opts not to rebuild, then this Attachment shall (upon notice to INdigital within thirty (30) calendar days following such occurrence) terminate as of the date of such damage.
- 10.2 Any obligation on the part of Windstream to repair the Collocation Space shall be limited to repairing, restoring and rebuilding the Collocation Space as originally prepared for INdigital and shall not include any obligation to repair, restore, rebuild or replace any alterations or improvements made by INdigital or by Windstream to the Collocation Space at the request of INdigital; or any fixture or other equipment installed in the Collocation Space by INdigital or by Windstream on request of INdigital.
- 10.3 In the event that the Building shall be so damaged by fire or other casualty that closing, demolition or substantial alteration or reconstruction thereof shall, in Windstream's opinion, be necessary, then, notwithstanding that the Collocation Space may be unaffected thereby, Windstream, at its option, may terminate this collocation arrangement by giving INdigital ten (10) calendar days' prior written notice within thirty (30) calendar days following the date of such occurrence, if at all possible.

11.0 Limitation of Liability

- 11.1 In addition to the General Terms and Conditions, § 7.0 Liability and Indemnification, § 11.0 Limitation of Liability shall also apply.
- 11.2 INdigital acknowledges and understands that Windstream may provide space in or access to the building to other persons or entities (“Others”), which may include competitors of INdigital; that such space may be close to the Collocation Space, possibly including space adjacent to the Collocation Space and/or with access to the outside of the Collocation Space; and that the collocation node around the Collocation Space is a permeable boundary that will not prevent the Others from observing or even damaging INdigital equipment and facilities. . In addition to any other applicable limitation, Windstream shall have absolutely no liability with respect to any action or omission by any Other, regardless of the degree of culpability of any such Other, except for the extent of the negligence or willful misconduct of Windstream. INdigital shall save and hold Windstream harmless from any and all costs, expenses, and claims associated with any such acts or omission by any contractor, sub-contractor, employee or agent of INdigital performing services under this Agreement.

12.0 Services, Utilities, Maintenance and Facilities

- 12.1 Windstream, at its sole cost and expense, shall maintain the customary building services; utilities (excluding telephone facilities), including janitor and elevator services, twenty-four (24) hours a day. INdigital shall be permitted to have a single-line business telephone service for the Collocation Space subject to applicable Windstream tariffs.
- 12.2 Windstream will provide negative DC and AC power, back-up power, heat, air conditioning, ventilation and other environmental support necessary for INdigital equipment, in the same manner that it provides such support items for its own equipment within that Wire Center. Additionally, Windstream shall provide smoke/fire detection and any other building code requirements.
- 12.3 Windstream shall maintain the exterior of the Building and grounds, and all entrances, stairways, passageways, and exits used by INdigital to access the Collocation Space.
- 12.4 Windstream agrees to make, at its expense, all changes and additions to the Collocation Space required by laws, ordinances, orders or regulations of any municipality, county, state or other public authority including the furnishing of required sanitary facilities and fire protection facilities, except fire protection facilities specially required because of the installation of telephone or electronic equipment and fixtures in the Collocation Space.
- 12.5 Windstream will not provide INdigital with guaranteed parking. INdigital is required to park in public parking.
- 12.6 Windstream shall provide access to eyewash stations, bathrooms, and drinking water within the collocated facility on a twenty-four (24) hours per day, seven (7) days per week basis for INdigital personnel and its designated agents. Immediate access will be given to eyewash stations in an emergency situation. In situations which require a security escort, INdigital shall be assessed the appropriate security escort fees.

13.0 Compliance with Laws

- 13.1 INdigital and all persons acting through or on behalf of INdigital shall comply with the provisions of the Fair Labor Standards Act, the Occupational Safety and Health Act, and all other applicable federal, state, county, and local laws, ordinances, regulations and codes (including identification and

procurement of required permits, certificates, approvals and inspections) in its performance hereunder.

14.0 Rates and Charges

14.1 INdigital shall pay for Collocation Space(s) according to the rates contained in Exhibit A attached hereto. Any collocation element requested by INdigital, or that is needed for the operation of INdigital's collocation space, not contained in this Attachment or Exhibit A: Collocation Pricing will be handled on an individual case basis ("ICB").

14.2 Application Fee

INdigital shall submit to Windstream an Application fee to cover the work involved in developing a quotation for INdigital for the total costs involved in its collocation request for one (1) Wire Center. INdigital must pay the Application Fee to Windstream prior to Windstream beginning any collocation work for INdigital. The Application Fee is non-refundable.

14.3 Subsequent Application Fee

Windstream requires the submission of an Application Fee for modifications to an existing arrangement.

14.4 Buildout Space Preparation Fee

The Space Preparation Fee is a one-time fee, assessed per arrangement, per location. It recovers costs associated with the shared physical collocation area within a central office, which include survey, engineering, design and building modification costs. This charge may vary depending on the location and the type of arrangement requested.

14.5 Cable Installation Fee

The Cable Installation Charge applies for each cable ordered within a location. Cable installation involves activities associated with pulling the fiber cable from the interconnection point to the terminating equipment or the vault, installing fire retardant riser cable, and splicing the entrance fiber cable to the riser cable. The Cable Installation Charge will not apply on subsequent orders within the same location for INdigital if INdigital and Windstream jointly determine that efficient cable facilities exist to accommodate the subsequent Physical Collocation arrangement(s).

14.6 Cable Support Structure

The Cable Support Structure monthly recurring charge applies for the use of conduit from the point of interconnection to the cable vault or other central office entrance, and for entrance and riser cable rack space.

14.7 Floor Space

The floor space charge includes charges for lighting, heat, air conditioning, ventilation, amperage and other allocated expenses associated with maintenance of the Central Office. When walls or other divider encloses the Collocation Space, INdigital shall pay floor space charges based upon the number of square feet so enclosed. Floor space charges are due beginning with the date on which Windstream releases the Collocation Space for occupancy or on the date INdigital first occupies the Collocation Space, whichever is sooner.

14.8 Power

This provides 48 volt DC A and B power and ground feeds from the local power panel to INdigital's collocated space. Power feeds are provided in twenty (20) ampere increments. Power usage may be ordered in single amp increments with twenty (20) amps being the minimum that can be ordered. A separate ground cable for the INdigital collocated space will also be provided.

14.9 Security Escort

A security escort will be required whenever INdigital or its approved agent desires access to the entrance manhole or must traverse a restricted area within Windstream's central office. Rates for a Windstream security escort are assessed in one-half (1/2) hour increments according to the schedule appended hereto as Exhibit A: Collocation Pricing. A request resulting in the dispatch of a Windstream employee at a time not consecutive with the employee's scheduled work period is subject to a minimum charge of three (3) hours.

15.0 **Insurance**

15.1 INdigital shall, at its sole cost and expense, procure, maintain, pay for and keep in force the insurance as specified in this Section underwritten by insurance companies licensed to do business in the state where physical collocation is offered, and INdigital's insurance company's rating need not be higher than what Windstream requires of its own underwriters. So long as INdigital has assets that equal or exceed ten billion dollars (\$10,000,000,000.00) all or any portion of the insurance required may be effected by a plan of self-insurance. As appropriate, Windstream shall be named as an additional insured and/or as a loss payee on all applicable policies.

15.2 Types of Coverage and Limits

15.2.1 Commercial general liability, including contractual liability, insuring against liability for personal injury and property damage in an amount not less than one million dollars (\$1,000,000.00) combined single limit per occurrence, naming Windstream as an additional insured. The insurance shall also contain coverage for bodily injury and property damage, with a policy aggregate of not less than one million dollars (\$1,000,000.00). Said coverage shall include premises operations, independent contractors, products/completed operations, broad form property, and personal injury endorsements.

15.2.2 Umbrella/excess liability coverage in an amount not less than five million dollars (\$5,000,000.00) excess of coverage specified in § 15.2.1 proceeding.

15.2.2 Statutory Workers Compensation coverage and Employers Liability coverage in an amount not less than one million dollars (\$1,000,000.00) each employee by accident and disease.

15.2.3 INdigital may elect to purchase business interruption and contingent business interruption insurance, having been advised that Windstream assumes no liability for loss of profit or revenues should an interruption of service occur.

15.2.4 All risk property coverage on a full replacement cost basis insuring all of INdigital's personal property situated on or within Windstream location(s). INdigital may also elect to purchase business interruption or contingent business interruption insurance, knowing that Windstream has no liability for loss of profit or revenues should an interruption of service occur.

15.2.5 INdigital may purchase and secure such other and further insurance coverage as it may deem prudent and the Parties shall cooperate with each other and their respective insurance providers to review and coordinate such insurance coverage so as to avoid unneeded or duplicative coverage.

- 15.3 The limits set forth in Section 15.2 above may be increased by Windstream from time to time during the term of the Attachment upon thirty (30) days' notice to INdigital to at least such minimum limits as shall then be customary with respect to comparable occupancy of Windstream structures.
- 15.4 All policies purchased by INdigital shall be deemed to be primary and not contributing to or in excess of any similar coverage purchased by Windstream.
- 15.5 All insurance must be in effect on or before the date equipment is delivered to Windstream's Central Office and shall remain in effect for the term of this Attachment or until all INdigital property has been removed from Windstream's Central Office, whichever period is longer. If INdigital fails to maintain required coverage, Windstream may pay the premiums thereon and seek reimbursement of it from INdigital.
- 15.6 INdigital releases Windstream from and waives any and all right of recovery, claim, action or cause of action against Windstream, its agents, directors, officers, employees, independent contractors, and other representatives for any loss or damage that may occur to equipment or any other personal property belonging to INdigital or located on or in the space at the instance of INdigital by reason of fire or water or the elements or any other risks would customarily be included in a standard all risk casualty insurance policy covering such property, regardless of cause or origin, including negligence of Windstream, its agents, directors, officers, employees, independent contractors, and other representatives. Property insurance on INdigital fixtures and other personal property shall contain a waiver of subrogation against Windstream, and any rights of INdigital against Windstream for damage to INdigital fixtures or personal property are hereby waived. INdigital may also elect to purchase business interruption and contingent business interruption insurance, knowing that Windstream has no liability for loss of profit or revenues should an interruption of service occur.
- 15.7 INdigital shall submit certificates of insurance reflecting the coverage specified above prior to the commencement of the work called for in this Attachment. INdigital shall provide to Windstream at least thirty (30) calendar days' advance written notice of cancellation, of any insurance policies held per this attachment. Upon request by Windstream, INdigital will provide a current proof of insurance certificate. Requests will not be made more than once per year..
- 15.8 INdigital and Windstream will cooperate to conform to any reasonable recommendation(s) made by Windstream's insurance company.
- 15.9 Failure to comply with the provisions of this Section will be deemed a material violation of this Attachment.

16.0 Windstream's Right of Way

- 16.1 Windstream, its agents, employees, and other Windstream-authorized persons shall have the right to enter the Collocation Space at any reasonable time to examine its condition, make repairs required to be made by Windstream hereunder, and for any other purpose deemed reasonable by Windstream with a thirty (30) calendar days' written notice. In the event of an emergency, no written notice will be required prior, however, Windstream will provide written notice within at least three (3) business days after its entry. Windstream may access the Collocation Space for purpose of averting any threat of harm imposed by INdigital or its equipment or facilities upon the operation of Windstream equipment, facilities and/or personnel located outside of the Collocation Space. If routine inspections are required, they shall be conducted at a mutually agreeable time.

17.0 Other Windstream Responsibilities

- 17.1 Windstream is responsible for verbally notifying INdigital as soon as reasonably possible of significant outages or operations problems which could impact or degrade INdigital's network, switches, or services, and for providing an estimated clearing time for restoral. In addition, written notification must be provided within twenty-four (24) hours.

ATTACHMENT 8: VIRTUAL COLLOCATION**1.0 Service Description**

- 1.1 This Attachment sets forth terms and conditions that provide INdigital the capability to collocate Customer provided transmission, concentration and multiplexing equipment at a Windstream wire center or other designated Windstream premises for use as permitted under this contract or other authorized uses provided pursuant to applicable tariffs. INdigital may terminate basic fiber optic transmission facilities at Windstream's premises for connection to their designated equipment or may lease facilities from Windstream. The terms and conditions of Attachment 8: Virtual Collocation, are in addition to those of the General Terms and Conditions, that are applicable to the direct interconnection arrangements, maintenance, repair, and support of the direct interconnection of INdigital's network to Windstream's network at specific locations established in accordance with the terms of this Attachment (Windstream Virtual Collocation Service). To the extent that any provisions of this Attachment are inconsistent with the applicable express requirements, if any, of the FCC rules on collocation and other applicable law, the Parties agree to amend this Attachment so as to conform it to the applicable express requirements of the FCC rules and other applicable law.
- 1.2 Windstream Virtual Collocation Service is provided at central offices, tandems or remote nodes/switches designated by Windstream ("Locations"). INdigital will install fiber optic cable up to a Windstream designated Interconnection Point(s) (IP) that will be located outside of the Location, such as a manhole, as indicated and defined in the Attachment Network Interconnection. INdigital will provide Windstream sufficient length of fiber at the Interconnection Point to extend between the IP and the Location (Entrance Fiber). Windstream will purchase the Entrance Fiber under the provisions of 2.1 following, and will install the Entrance Fiber into the Location for connection to the Virtual Collocation transmission equipment that may be allowed under this Attachment. If multiple entry points are available, and INdigital so desires, multiple entry points will be provided to INdigital.
- 1.3 Windstream Virtual Collocation Service will be made available subject to the availability of space and facilities in each Location.
- 1.4 General provisions, rates and charges applicable to all Windstream Virtual Collocation Services are contained in this Attachment.

2.0 General Provisions

- 2.1 In order to ensure the compatibility of the transmission capabilities of the facilities and equipment used in the provision of Windstream Virtual Collocation Service, such equipment and facilities, including the Entrance Fiber, associated riser cable/fiber, terminal transmission equipment, plug-ins, software, unique tools and test equipment will be provided by INdigital.
- 2.2 Title
 - 2.2.1 INdigital agrees to sell to Windstream all the equipment and support structure components required to provision and maintain/repair Windstream Virtual Collocation on an ongoing basis, for the sum of one dollar (\$1.00).
 - 2.2.2 Upon the termination or expiration of this Agreement or any Virtual Collocation arrangement, Windstream agrees to sell to INdigital for the sum of one dollar (\$1.00), all the equipment and support structure components which were sold to Windstream pursuant to §2.2.1 above.

- 2.2.3 This Agreement does not convey to INdigital any right, title, or interest in Windstream facility; interconnection space; cable space; cable racking; vault or conduit space used in the provisioning of a Windstream Virtual Collocation arrangement.
- 2.3 The Parties will designate the IP in proximity to the premises, which is normally an entrance manhole. Windstream reserves the right to prohibit all equipment and facilities, other than cable, within its entrance manholes. No splicing will be permitted in the entrance manhole. INdigital must provide a length of underground fiber optic cable in the entrance manhole specified by Windstream which is of sufficient length to be pulled through the conduit and into the cable vault splice locations. INdigital is responsible for placement of the fiber optic facility within the manhole and for the maintenance of the fiber optic cable(s) on INdigital's side of the IP. Before placing the fiber optic facility in the manhole, INdigital will contact Windstream for instructions. INdigital agrees to comply with the Windstream's safety and security rules. Access to the manhole is covered by the terms and conditions as may be specified by Windstream.
- 2.4 Windstream will pull the Entrance Fiber from the IP to the cable vault where the cable will be spliced to fire retardant riser cable, which Windstream will install.
- 2.5 INdigital must provide the fiber transmission equipment that Windstream will purchase and use pursuant to paragraph 2.1 preceding to provision the Windstream Virtual Collocation Service. INdigital provided equipment must comply with the Bellcore Network Equipment Building System (NEBS) General Equipment Requirements and National Electrical Code standards. Additionally, this equipment must comply with any local, state or federal statutory and/or regulatory requirements in effect at the time or subsequent to equipment installation.
- 2.6 INdigital is responsible for providing the fiber transmission equipment, e.g., fiber optic terminals, DS3/DS1 channelization equipment, fiber terminating device. INdigital must also specify all software options for the transmission equipment and associated plug-ins. In addition, INdigital shall provide the following:
- 2.6.1 All necessary plug-ins/circuit packs (both working and spare) including any required options that must be physically set on the plug-ins.
- 2.6.2 All unique tools and test equipment.
- 2.6.3 Initial and subsequently added equipment should be sized and equipped to handle a minimum of 12 (twelve) months forecasted growth.
- 2.6.4 Rack mounted storage unit to house spare plug-ins, tools, and test equipment. Any desired equipment for remote monitoring and control.
- 2.6.5 Fuse panel(s) with sufficient capacity for all Windstream Virtual Collocation transmission equipment.
- 2.6.6 Network facility rack(s), i.e., relay racks, to mount all of the above referenced equipment and Company-provided interconnection panel(s).
- 2.7 Any equipment provided under §2.5 preceding shall be provided to Windstream in accordance with §2.1 preceding.
- 2.8 Performance monitoring alarm monitoring and software cross-connect control of all facilities and equipment used in provisioning an arrangement will be the responsibility of INdigital. INdigital will be responsible for initiating maintenance/repair requests for said facilities and equipment, pursuant to §8.0 following.

- 2.9 If INdigital desires Windstream to provide the transport for monitoring and control functions, such transport will be ordered and billed pursuant to the applicable Windstream service tariff provisions.
- 2.10 Windstream will have responsibility for installation and maintenance/repair of the facilities and equipment used to provide Virtual Collocation from the IP up to and including the fiber transmission equipment.
- 2.11 Windstream will work cooperatively with INdigital to facilitate joint testing and maintenance/repair related activities.
- 2.12 INdigital will be responsible for notifying Windstream of significant outages of any portion of its network, which could impact or degrade Windstream switches and services. INdigital will also provide, if possible, an estimated time for restoral.
- 2.13 Troubles reported to or observed by INdigital should be tested and isolated by INdigital prior to reporting the trouble to Windstream.
- 2.14 Windstream or a Windstream-authorized vendor must perform all installation work performed on behalf of INdigital. Authorization procedures may be obtained from Windstream upon request.
- 2.15 Windstream will provide, at rates set forth in §13.0 following, dc Power with generator and/or battery back-up, heat, air conditioning and other environmental support to INdigital's designated equipment in the same standards and parameters required for Windstream equipment. INdigital will provide Windstream with specifications for any non-standard or special requirements at the time of application. Windstream reserves the right to assess INdigital any additional charges on an individual case basis associated with complying with the requirements or to refuse an application where extensive modifications are required.

3.0 Limitations on Provision of Service

- 3.1 The following provisions address Windstream Virtual Collocation Service interconnections to the Windstream network and service prohibitions for Windstream Virtual Collocation Service:
 - 3.1.1 INdigital will not have access to the Windstream buildings, except as provided in §3.1.2 following.
 - 3.1.2 An Windstream security escort will accompany INdigital from the interconnection point outside of the Windstream Virtual Collocation location. The security escort will be provided at INdigital's expense in accordance with charges described in §13.0 following.
 - 3.1.3 An INdigital will not interconnect at less than DS1/DS3 level high capacity services within the Premise(s).
- 3.2 Windstream is not responsible for the design, engineering, or performance of INdigital's designated termination equipment and INdigital provided facilities for Virtual Collocation Service.
- 3.3 Windstream is not required to purchase additional plant or equipment, to relinquish floor space or facilities designated for internal use, to undertake construction of new wire centers or premises, or to construct additions to existing wire centers or premises to satisfy a Customer request.

4.0 Ordering Services

- 4.1 INdigital shall complete and provide to Windstream a written application requesting a Windstream Virtual Collocation service arrangement and an application fee per request, per location. Details on the specific requirements of the requested Windstream Virtual Collocation arrangement, including interconnect drawings technical specifications, monitor and control design and other equipment related documentation, must be provided with the written application.
- 4.2 Windstream will process applications for Windstream Virtual Collocation arrangement on a first-come, first-serve basis by location as determined through the receipt of the application fee.
- 4.3 Windstream will accept letters of agency in conjunction with an application for Windstream Virtual Collocation.
- 4.4 Upon receipt of the application fee, Windstream will conduct the following design and planning activities:
 - 4.4.1 Engineering record search and review to determine availability of conduit, rack, floor space and multiple entry points.
 - 4.4.2 Determination of requirements of the requested Windstream Virtual Collocation design.
 - 4.4.3 Administrative activities required to process the application.
- 4.5 Once Windstream has completed the design and planning activities, INdigital will be informed of the floor space and power requirements. Within thirty (30) days Windstream will provide to INdigital a list of vendors certified to perform equipment installations.
- 4.6 INdigital shall have thirty (30) days from receipt of the information to place a firm order.
- 4.7 Windstream's engineering and other labor time associated with establishing and maintaining Windstream Virtual Collocation Service will be billed under the provisions of §10.0 following.
- 4.8 INdigital agrees to meet with Windstream on an as needed basis to review the design and work plans and schedules for the installation of the equipment and facilities. INdigital is responsible for ordering electronics. Windstream is responsible to provide installation within a thirty (30) day interval once Windstream has taken receipt of the electronics.

5.0 Service Activation

- 5.1 Windstream will notify INdigital in writing upon completion of the installation work and prior to activating the Windstream Virtual Collocation arrangement.
- 5.2 Windstream will provide INdigital with the circuit identifications associated with the terminating transmission equipment as well as specific location of the equipment, e.g., Windstream Virtual Collocation location, bay location, shelf, etc., at the time of installation.
- 5.3 Windstream will utilize existing test equipment, or INdigital unique test equipment, for acceptance and repair in cooperation with INdigital.

6.0 Training

- 6.1 If INdigital selects terminating transmission equipment hardware and/or software which is not currently in use in the Windstream location where Windstream Virtual Collocation will be provided, INdigital will be responsible for payment of the charges as set forth in Appendix A following, for any necessary training for Windstream personnel needed to repair said equipment. Additionally, INdigital will be responsible for payment of any applicable tuition fees associated with said training.
- 6.2 In the event that INdigital does not provide the necessary training to enable Windstream personnel to repair said equipment, Windstream may call a certified vendor to make repairs of said equipment. INdigital will reimburse Windstream for any charges submitted by the certified vendor for repair of said equipment. In addition, charges for security escort will apply as set forth in Appendix A following.

7.0 Inspections

- 7.1 INdigital shall call to schedule a time to enter the Windstream Virtual Collocation location(s) for the purpose of inspecting the terminating transmission equipment dedicated for its use. A Windstream security escort will accompany INdigital during said inspections at the expense of INdigital. Security escort rates are as set forth in Exhibit A attached hereto.

8.0 Maintenance

- 8.1 Except in emergency situations, the fiber optic cable facilities and terminating transmission equipment will be maintained/repared only upon request of INdigital. In an emergency, Windstream will use reasonable efforts to notify INdigital, but nevertheless may perform such maintenance/repair as deemed necessary without prior notification or request. When initiating maintenance/repair requests on equipment, INdigital must provide Windstream with the associated circuit identifications and specific location of the Windstream Virtual Collocation equipment, as well as a detailed description of the trouble. Charges for maintenance/repair performed upon request from, or on behalf of, INdigital will be billed to INdigital on a time and material basis. No charges will be assessed to INdigital for maintenance if said maintenance is required as a result of negligence or willful misconduct on the part of Windstream or from incidental damage resulting from Windstream activities. INdigital is responsible for providing equipment required for maintenance/repair spares under the terms of §2.0 of this Attachment.
- 8.2 All maintenance/repair on Windstream Virtual Collocation terminating transmission equipment will be performed by Windstream.

9.0 Insurance and Liability Requirements

- 9.1 Risk of loss with respect to the collocation equipment shall remain with INdigital throughout the term of this Agreement, and INdigital shall obtain and maintain insurance in such amounts and with respect to such coverage as to adequately compensate INdigital in the event of loss or damage to the equipment. INdigital shall assure that any such insurance policies provide for a waiver of subrogation by the insurer with respect to any such loss.

10.0 Rate Elements

- 10.1 INdigital shall pay for Collocation Space(s) according to the rates contained in Exhibit A attached hereto. Any collocation element requested by INdigital, or that is needed for the operation of INdigital's collocation space, not contained in this Attachment or Exhibit A: Collocation Pricing will be handled on an individual case basis ("ICB").

-
- 10.2 An Application Fee in the amount specified in Appendix A following must be submitted with INdigital's application for Windstream Virtual Collocation Service. The first-come, first-served policy of processing applications for Windstream Virtual Collocation arrangements will be determined based upon the order of receipt of applications for Windstream Virtual Collocation Service along with the Application Fee. The Application Fee will be used for design and planning activities which include an engineering record search for conduit, rack, and floor space availability and a determination of requirements for the requested Windstream Virtual Collocation design. An Application Fee is required with each Windstream Virtual Collocation arrangement application submitted per location. If more than one Windstream Virtual Collocation arrangement is ordered at the same location on the initial Windstream Virtual Collocation arrangement application, then only one Application Fee will apply. A subsequent application for an additional arrangement within the same location must be submitted with another Application Fee.
- 10.3 The Cable Installation Charge applies for each Windstream Virtual Collocation cable ordered within a location. Cable installation involves activities associated with pulling the Entrance Fiber from the IP to the Windstream Virtual Collocation Service fiber equipment, installing fire retardant riser cable, and splicing the entrance fiber cable to the riser cable. Payment of the Cable Installation Charge must be made prior to Windstream commencing work on the Windstream Virtual Collocation arrangement work order. The Cable Installation Charge will not apply on subsequent Windstream Virtual Collocation arrangement orders within the same location for INdigital if the Parties jointly determine that efficient cable facilities exist to accommodate the subsequent Windstream Virtual Collocation Service.
- 10.4 The Cable Support Structure monthly recurring charge applies for the use of conduit from the IP to the cable vault or other central office entrance, and for entrance and riser cable rack space.
- 10.5 The DC power charge is a monthly recurring charge associated with the provision of DC power to INdigital's designated equipment for virtual collocation. The DC power charge applies on a per amp increment, with twenty amps being the minimum.
- 10.6 The maintenance charge is a monthly recurring charge associated with maintenance of the Customer designated termination equipment. The charge is applicable per base module.
- 10.7 The engineering/installation charge is associated with work performed by Windstream to determine space requirements, engineer adequate amounts of power to the equipment, and ensure adequate fire protection and install Customer designated termination equipment for virtual collocation. An engineering/installation charge is applicable for the installation of the base unit and each DSX or OCN card.
- 10.8 A security escort is provided to INdigital whenever INdigital, or approved agent, desires access to the entrance manhole or to inspect the fiber transmission equipment. Charges for a security escort are assessed in half-hour increments as Basic, Overtime, or Premium Time charges. A request resulting in the dispatch of a Windstream employee at a time not consecutive with the employee's scheduled work period is subject to a minimum charge of three (3) hours.
- 10.9 When the leased equipment (hardware and/or software) is identical to that already in use in the Windstream location no training charges are applicable. When INdigital equipment (hardware and/or software) is not identical to that already in use in the Windstream location, charges as set forth in Appendix A are applicable.

ATTACHMENT 9: INTENTIONALLY LEFT BLANK

ATTACHMENT 10: INTENTIONALLY LEFT BLANK

ATTACHMENT 11: INTENTIONALLY LEFT BLANK

ATTACHMENT 12: COMPENSATION**1.0 Introduction**

- 1.1 For purposes of compensation under this Agreement, the traffic exchanged between the Parties will be classified as one of six types: Local Traffic, ISP Bound Traffic, IntraLATA Interexchange Traffic, InterLATA Interexchange Traffic, Transit Traffic or Toll VOIP Traffic. The Parties agree that, notwithstanding the classification of traffic by INdigital with respect to its End Users, the classification of traffic provided in this Agreement shall control with respect to compensation between the Parties under the terms of this Agreement. The provisions of this Attachment shall not apply to services provisioned by Windstream to INdigital as local Resale Services.
- 1.2 Calls originated by INdigital and terminated to Windstream (or vice versa) will be classified as "Local Traffic" under this Agreement if: (i) the call originates and terminates in the same Windstream Exchange; or (ii) originates and terminates within different Windstream Exchanges that share a common mandatory local calling area, e.g., mandatory Extended Area Service (EAS), mandatory Extended Local Calling Service (ELCS), or other like types of mandatory expanded local calling scopes as specified or defined by Windstream tariffs.
- 1.3 The Parties agree to reciprocally exchange ISP Bound Traffic between their networks. Each Party shall bill its end-users for such ISP Bound Traffic and will be entitled to retain all revenues from such ISP Bound Traffic without payment or further compensation to the other Party.
- 1.4 Traffic, other than Local Traffic, ISP Bound Traffic and Toll VoIP Traffic, shall be terminated to a Party subject to that Party's tariffed or filed and/or approved Price list for access charges.
- 1.5 The Parties agree that all traffic, other than Local Traffic, ISP Bound Traffic and Toll VoIP Traffic, that is terminated on the public switched network, regardless of the technology used to originate or transport such traffic, will be assessed either interstate or intrastate (depending on the end points of the call) terminating charges at the rates provided in the terminating Party's access tariff or filed and/or approved Price lists. Compensation for Toll VoIP Traffic to a terminating party will be according to the terms of the terminating party's interstate switched access tariff.
- 1.6 By entering into this Agreement, both Parties expressly reserve the right to advocate their respective positions before state and/or federal regulatory bodies, whether in complaint dockets, arbitration under Section 252 of the Act, rulemaking dockets, or in any legal challenges stemming from such proceedings with regard to the treatment of Voice Over Internet Protocol (VoIP) traffic for intercarrier compensation purposes.
- 1.7 911 Service traffic and inter-Selective Router Tandem traffic shall not be subject to reciprocal compensation or access rates.

2.0 Responsibilities of the Parties

- 2.1 Each Party will be responsible for the accuracy and quality of the data it submits to the other Party.
- 2.2 Each Party will provide the other Party the originating Calling Party Number (CPN) with respect to each call terminated on the other Party's network to enable each Party to issue bills in a complete and timely fashion. All CCS signaling parameters will be provided including CPN.

- 2.3 Neither Party shall strip, modify or alter any of the data signaling or billing information provided to the other Party. In the event a Party strips, modifies or alters any of the data signaled or strips, modifies or alters any of the billing information provided to the other Party, such event will be a material breach of this Agreement.
- 2.4 Each Party shall identify and make available to the other Party, at no additional charge, a contact person for the handling of any billing questions or problems that may arise during the implementation and performance of this Attachment.
- 2.5 All calls exchanged without CPN will be billed as IntraLATA Traffic, if the failure to transmit CPN is not caused by technical malfunctions. In the event that technical malfunctions result in lack of transmission of CPN, the Parties will cooperate in attempting to resolve such technical malfunctions and the Parties will develop and utilize mutually agreeable surrogate methods for determining compensation that shall be utilized until the technical malfunctions are resolved.

3.0 Reciprocal Compensation for Termination of Local Traffic

- 3.1 Each Party will be compensated for the exchange of Local Traffic, as defined in §1.2 of this Attachment, in accordance with the provisions of §3.0 of this Attachment.
- 3.2 The Parties agree to reciprocally exchange Local Traffic between their networks. Each Party shall bill its end-users for such traffic and will be entitled to retain all revenues from such traffic without payment of further compensation to the other Party.
- 3.3 Upon data submitted by one of the Parties, and agreed to by the other Party, supporting the level of Local Traffic exchanged between the Parties is out of balance using a ratio of 60%/40% for three (3) consecutive months (one Party originates 60% or more of the traffic exchanged), the Parties agree to the reciprocal compensation minute of use rates pursuant to Appendix B.
- 3.4 Any traffic utilizing the Public Switched Telephone Network, regardless of transport protocol method, where the originating and terminating points (end-to-end points), are in different local calling areas as defined by the terminating Party and delivered to the terminating Party using switched access services shall be considered Switched Access Traffic. The traffic described herein shall not be considered Local Traffic. Irrespective of origination or transport protocol method used, a call that originates in one local calling area and terminates in another local calling area (i.e. the end-to-end points of the call) shall not be compensated as Local Traffic. However, all Traffic that originates and terminates in the same local calling area shall be classified as Local Traffic.

4.0 Compensation for Transit Traffic

- 4.1 Transit traffic is Local Traffic exchanged between the Parties that originates or terminates on the network of another telecommunication service provider (the "Non-Party Provider"), where one of the Parties or the Non-Party Provider performs a local tandem function to complete the traffic between the others. Telecommunications Traffic to or from INdigital under its wholesale business arrangement is not considered transit traffic under this Agreement. When the transit function is performed by one of the Parties, the following shall be applicable:
 - 4.1.1 Prior to either Party providing transit traffic services to the other, the Party requesting transit service must provide notice to the other Party.
 - 4.1.2 Each Party represents that it will not send Local Traffic to the other Party that is destined for the network of a Non-Party Provider unless and until such Party has made reasonable efforts to obtain the authority to exchange traffic with the Non-Party Provider. In the event

one Party originates traffic that transits the second Party's network to reach a third party Telecommunications Carrier with whom the originating Party does not have traffic exchange agreement, then the originating Party will indemnify, defend and hold harmless the second Party against any and all charges levied by such third party Telecommunications Carrier.

- 4.1.3 The Party originating traffic will compensate the other Party a Local Transit Traffic rate element of \$.003 per Minute Of Usage (MOU).
- 4.2 All traffic, other than Local Traffic, that transits a tandem will be classified and treated as Meet-Point Billing Traffic, unless otherwise agreed in writing between the Parties.

5.0 Compensation for Termination of IntraLATA Traffic, Interstate Traffic and Toll VOIP Traffic

- 5.1 Compensation for termination of IntraLATA Traffic will be at the terminating access rates for Message Telephone Service (MTS) and originating access rates for 800 Service, including the Carrier Common Line (CCL) charge and the query charge, as set forth in the relevant Party's intrastate access service tariff or price list. Compensation for termination of Interstate Traffic will be at the terminating access rates for MTS and originating access rates for 800 Service including the CCL and query charge, as set forth in the relevant Party's interstate access service tariff. Compensation for termination of Toll VOIP Traffic will be at the terminating access rates as set forth in the relevant Party's interstate access service tariffs.
- 5.2 In the event that INdigital does not have a Commission filed and/or approved price list posted on its web site or a filed interstate tariff for access service, INdigital agrees to utilize rates for Toll VoIP Traffic and for Interstate Traffic that do not exceed Windstream's tariffed interstate access rates.

6.0 Compensation for Origination and Termination of Switched Access Service Traffic to or from an IXC (Meet-Point Billing (MPB) Arrangements)

- 6.1 Compensation for termination of Interstate or IntraLATA Traffic will be at access rates as set forth in the relevant Party's applicable access tariffs.
- 6.2 Intentionally Left Blank.
- 6.3 The Parties will each establish their respective MPB arrangements applicable to its provision of switched access services to Interexchange Carriers via its access tandem switch and such arrangements will be in accordance with the MPB guidelines adopted by and contained in the Ordering and Billing Forum's MECOD and MECAB documents. Except as modified herein, MPB arrangements will be determined during joint network planning.
- 6.4 Each Party will maintain provisions in its federal and state access tariffs, or provisions within the National Exchange Carrier Association (NECA) Tariff No. 4, or any successor tariff, sufficient to reflect the MPB arrangements, including MPB percentages, developed in accordance with this Agreement.
- 6.5 As detailed in the MECAB document, the Parties will exchange all information necessary to accurately, reliably and promptly bill third parties for Switched Access Services jointly handled by the Parties via the MPB arrangement. The Parties will exchange the information in Exchange Message Interface (EMI) format, on magnetic tape or via a mutually acceptable electronic file transfer protocol. The initial billing company (IBC) will provide the information to the subsequent billing company within fifteen (15) days of the IBC bill date.

- 6.6 If MPB data is not submitted to the other within fifteen (15) days of the IBC bill date or is not in the standard EMI format, and if as a result the other Party is delayed in billing the IXC for the appropriate charges it incurs, the delaying Party shall pay the other Party a late MPB data delivery charge which will be the total amount of the delayed charges times the highest interest rate (in decimal value) which may be levied by law for commercial transactions, compounded daily for the number of days from the date the MPB charges should have been received, to and including the date the MPB charge information is actually received. When the receiving Party has requested a delay in transmission of the records, a MPB data delivery charge will not be assessed.
- 6.7 Intentionally Left Blank
- 6.8 Billing to Interexchange carriers for the switched access services jointly provided by the Parties via the MPB arrangement will be according to the multiple bill multiple tariff method. As described in the MECAB document, each Party will render a bill in accordance with its tariff for its portion of the service. Each Party will bill its own network access service rates to the IXC. The Party that provides the end office switching will be entitled to bill any residual interconnection charges ("RIC") and common carrier line ("CCL") charges associated with the traffic. In those MPB situations where one Party sub-tends the other Party's access tandem, only the Party providing the access tandem is entitled to bill the access tandem fee and any associated local transport charges. The Party that provides the end office switching is entitled to bill end office switching fees, local transport charges, RIC and CCL charges, as applicable.
- 6.9 MPB will also apply to all jointly provided traffic bearing the 900, 800 and 888 NPAs or any other non-geographical NPAs which may likewise be designated for such traffic where the responsible party is an IXC.
- 6.10 Each Party will provide the other a single point of contact to handle any MPB questions.

7.0 Identification and Compensation of Toll VOIP Traffic

- 7.1 Toll VOIP Traffic is defined as traffic exchanged over the public switched telephone network ("PSTN") facilities that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification and compensation of Toll VoIP Traffic that will be subject to interstate switched access rates in accordance with the Federal Communications Commission Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order") as it may hereinafter be amended or clarified. Specifically, this section establishes the method of distinguishing Toll VoIP Traffic from the INdigital's total intrastate access traffic, so that Toll VoIP Traffic will be billed in accordance with the FCC Order.
- 7.2 Windstream will bill toll VoIP-PSTN traffic which it identifies in accordance with this Attachment at rates equal to Windstream's applicable tariffed interstate switched access rates.
- 7.3 Windstream will determine the number of Toll VoIP Traffic minutes of use ("TVMOU") to which it will apply its interstate rates under section 7.2, above, by applying an originating Percent VoIP Usage ("OPVU") factor to the total intrastate access MOU originated by a Telephone Company end user and delivered to INdigital and by applying a terminating PVU ("TPVU") factor to the total intrastate access MOU terminated by INdigital to Windstream's end users. The OPVU and TPVU will be derived and applied as follows:
- 7.3.1 Windstream will calculate and implement an OPVU factor representing a whole number percentage based on total traffic originated by Windstream end users in IP format and delivered to the customer in the State divided by Windstream's total originated intrastate access MOU delivered to the INdigital in the State.

- 7.3.2 INdigital will calculate and furnish to Windstream a TPVU factor, along with supporting documentation, representing the whole number percentage of the customer's total terminating intrastate access MOU that INdigital exchanges with Windstream in the State that is sent to Windstream and originated in IP format.
- 7.3.3 The TPVU and supporting documentation shall be based on information that is verifiable by Windstream including but not limited to the number of INdigital's retail VoIP subscriptions in the state (*e.g.*, as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. INdigital shall not modify its reported PIU factor to account for Toll VoIP Traffic After Windstream verifies the TPVU provided by INdigital, Windstream will apply the TPVU factor to the associated terminating intrastate access MOU as indicated in Sections 7.3.4.1 and/or 7.3.4.2 below.
- 7.3.4.1 In the event that Windstream cannot verify INdigital's TPVU, Windstream will request additional information to support the TPVU, during this time no changes will be made to the existing TPVU. INdigital shall supply the requested additional information within fifteen (15) days of Windstream's request or no changes will be made to the existing TPVU. If after review of the additional information, INdigital and Windstream establish a revised and mutually agreed upon TPVU factor. Windstream will begin using the new factor with the next bill period.
- 7.3.4.2 If the dispute is unresolved, INdigital may request that verification audits be conducted by an independent auditor, at INdigital's sole expense. During the audit, the most recent undisputed TPVU factor will be used by Windstream.
- 7.3.5 In calculating the initial OPVU and TPVU factor(s), Windstream will take the factor(s) provided by INdigital and/or developed by Windstream into account retroactively to the effective date of this Agreement, *provided that* the factor(s) and supporting documentation are provided as specified in subsection (C) above to Windstream no later than fifteen (15) days after the effective date of this Agreement. If INdigital does not furnish Windstream with a TPVU factor pursuant to the preceding subsection (C), the initial factor will be zero (0).
- 7.3.6 INdigital may update the TPVU factor and request Windstream update the OPVU factor semi-annually using the method set forth in this Attachment. If INdigital chooses to submit such updates and requests, it shall forward to Windstream, no later than fifteen (15) days after the first day of January and/or July of each year, a revised TPVU factor and supporting documentation based on data for the prior three months, ending the last day of December and/or June, respectively. Once verified by Windstream the revised TPVU factor along with the revised Windstream developed OPVU will apply prospectively and serve as the basis for billing until superseded by a new verified factor.

8.0 Billing Arrangements for Compensation for Termination of IntraLATA, Local Traffic

- 8.1 With respect to those Exchanges where INdigital intends to provide Local Exchange Service, INdigital will, at a minimum, obtain a separate NXX code for each Exchange or group of Exchanges that share a common Mandatory Local Calling Scope. At such time as both Parties have implemented billing and routing capabilities to determine traffic jurisdiction on a basis other than NXX codes separate NXX codes as specified in this paragraph will not be required. At such time as INdigital requests Windstream to establish interconnection to enable INdigital to provide Exchange Services, the Parties will determine the number of NXXs necessary to identify the jurisdictional nature of traffic for intercompany compensation. At such time as INdigital requests

additional points of interconnection, the Parties will appropriately define the number of NXXs necessary for the new interconnection points.

- 8.2 Bills rendered by either Party to the other will be due and payable as specified in the General Terms and Conditions, Section 8.0.

9.0 Alternate Billed Traffic

- 9.1 All call types routed between the networks must be accounted for, and revenues settled among the Parties. Certain types of calls will require exchange of billing records between the Parties including IntraLATA alternate billed calls (e.g. calling card, bill-to-third party, and collect records and LEC/CTU provided Toll Free Service records). The Parties will utilize, where possible existing accounting and settlement systems to bill, exchange records and settle revenue.
- 9.1.1 The exchange of billing records for alternate billed calls (e.g., calling card, bill-to-third, and collect) will be through the existing CMDS processes, unless otherwise agreed to by the Parties in writing.
- 9.1.2 Inter-Company Settlements ("ICS") revenues will be settled through the Calling Card and Third Number Settlement System ("CATS"). Each Party will make its own arrangements with respect to participation in the CATS processes, through direct participation or a hosting arrangement with a direct participant.
- 9.1.3 Non-ICS revenue is defined as revenues associated with collect calls, calling card calls, and billed to third number calls which originate, terminate and are billed within the same Bellcore Client Company Territory. The Parties will negotiate and execute an Agreement for settlement of non-ICS revenue if the Parties mutually agree that the amounts are sufficient to enter into settlement negotiations. This separate arrangement is necessary since existing CATS processes do not permit the use of CATS for non-ICS revenue. The Parties will negotiate and execute an Agreement for settlement of non-ICS revenue if the Parties mutually agree that the amounts are sufficient to enter into settlement negotiations. This separate arrangement is necessary since existing CATS processes do not permit the use of CATS for non-ICS revenue. The Parties agree that the CATS process or CMDS system can be used if necessary to transport the call records for this traffic.
- 9.1.4 Each Party will provide the appropriate call records to the other for toll free IntraLATA Interexchange Traffic, thus permitting each Party to bill its subscribers for the inbound Toll Free Service. Each Party may charge its tariffed rate or a rate of \$.03 per record for such record provision. No adjustments to data contained in tapes, disks or Network Data Mover will be made by a Party without the mutual Agreement of the Parties.

ATTACHMENT 13: NUMBERING**1.0 Numbering**

- 1.1 Nothing in this Section will be construed to limit or otherwise adversely impact in any manner either Party's right to employ or to request and be assigned any NANP numbers including, but not limited to, central office (NXX) codes pursuant to the Central Office Code Assignment Guidelines, or to establish, by tariff or otherwise, Exchanges and Rating Points corresponding to such NXX codes. Each Party is responsible for administering the NXX codes assigned to it.
- 1.2 Each Party agrees to make available to the other, up-to-date listings of its own assigned NPA-NXX codes, along with associated Rating Points and Exchanges.
- 1.3 It will be the responsibility of each Party to program and update its own switches and network systems to recognize and route traffic to the other Party's assigned NXX codes at all times. Neither Party will impose fees or charges on the other Party for such required programming and updating activities.
- 1.4 It will be the responsibility of each Party to input required data into the Routing Data Base Systems (RDBS) and into the Bellcore Rating Administrative Data Systems (BRADS) or other appropriate system(s) necessary to update the Local Exchange Routing Guide (LERG).
- 1.5 Neither Party is responsible for notifying the other Parties' End Users of any changes in dialing arrangements, including those due to NPA exhaust, unless otherwise ordered by the Commission, the FCC, or a court.

2.0 NXX Migration

- 2.1 Where a Party (first Party) has activated, dedicated or reserved an entire NXX for a single End User, if such End User chooses to receive service from the other Party (second Party), the first Party shall cooperate with the second Party to have the entire NXX reassigned in the LERG (and associated industry databases, routing tables, etc.) to an end office operated by the second Party. Such transfer will require development of a transition process to minimize impact on the network and on the End User(s) service and will be subject to appropriate industry lead-times (currently forty-five (45) days) for movements of NXXs from one switch to another.

ATTACHMENT 14: NUMBER PORTABILITY**1.0 Service Provider Number Portability (SPNP)**

- 1.1 The FCC First Report and Order in CC Docket 95-116 requires “. . . all LECs to implement a long term service provider portability solution that meets our performance criteria in the 100 large Metropolitan Statistical Areas (MSA) no later than October 1, 1997, and to complete deployment in those MSAs by December 31, 1998.” While the FCC declined “. . . to choose a particular technology for providing number portability”, they did establish performance criteria for permanent number portability and aligned expectations with the statutory definition of the Telecommunication Act of 1996 ordering Service Provider Number Portability (SPNP). In a follow-up First Memorandum Opinion and Order on Reconsideration, the commission determined that the technology that meets the performance criteria is Location Routing Number (LRN). LRN is being used by the telecommunications industry to provide SPNP.

2.0 Terms, Conditions Under Which Windstream Will Provide SPNP

- 2.1 Windstream will not offer SPNP services for NXX codes 555, 976, 950.
- 2.2 Prior to commencement of any service porting or LRN query service, the Parties must have an approved interconnection Agreement along with a conforming, functional direct network interconnection, pursuant to Attachment 4: Network Interconnection Architecture, between and among involved switches and exchanges.
- 2.3 Windstream will only provide SPNP services and facilities where technically feasible, subject to the availability of facilities, and only from properly equipped central offices. SPNP applies only when a Customer with an active account wishes to change local Carriers while retaining the telephone number or numbers associated with the account.
- 2.4 An SPNP telephone number may be assigned by INdigital only to INdigital's Customers located within Windstream's rate center, which is associated with the NXX of the ported number.
- 2.5 Windstream will deploy SPNP at a location within six (6) months after receipt of a Bona Fide Request from INdigital as provided in §6.0, and subject to approval of this Agreement by the Commission and completion of the network preparation specified herein.
- 2.6 A service order processing charge (Service Order Charge), listed in Appendix B, will be applied to each service order issued by INdigital to Windstream to process a request for SPNP.
- 2.7 A service order processing charge (Service Order Charge), listed in Appendix B, will be applied to each service order issued by Windstream to INdigital to process a request for SPNP.
- 2.8 If either Party requests a coordinated cutover the charges contained in Appendix B will be applied to the Party making the request.
- 2.9 If one Party requests a conversion of an End User and subsequently cancels such order, the ordering Party will notify the other Party of the cancellation by 2:00 P.M. Central Time on the day prior to the due date requested on the LSR. If the ordering Party notifies the other Party of a cancellation after 2:00 P.M. Central Time on the day prior to the due date requested on the LSR (“Late Notice”), the ordering Party will pay the applicable time and material charge contained in Exhibit B Price List. In the event of a Late Notice, neither Party guarantees that service disruption will not occur to the End User.

- 2.10 If the ordering Party cancels or makes a change to an LSR due date, the original LSR will be cancelled, the ordering Party will issue a new LSR and the ordering Party shall be charged an additional Service Order charge, listed in Appendix B, for each LSR submitted under this Attachment.

3.0 Obligations of INdigital

- 3.1 Each Party must offer proof of its certification with applicable regional Number Portability Administration Center (NPAC) prior to requesting SPNP from the other Party.
- 3.2 Each Party must advise the NPAC of telephone numbers that it imports and the associated data identified in industry forums as is required for SPNP.
- 3.3 After the initial deployment of SPNP in an MSA, if INdigital wants a Windstream switch to become LRN capable, INdigital must submit a Bona Fide request as provided in §6.0. Windstream will make requested switch LRN capable within the time frame required by the FCC.
- 3.4 INdigital will conform to NANC guidelines and LERG administration rules in requesting Windstream to open an NPA-NXX for portability in an LRN capable switch.
- 3.5 INdigital is responsible to coordinate with the local E911 and Public Services Answering Point (PSAP) coordinators to insure a seamless transfer of End User emergency services.
- 3.6 INdigital is required to conform to industry standard Local Service Request (LSR) format and guidelines in ordering and administration of individual service/number ports.

4.0 Obligations of Both Parties

- 4.1 When a ported telephone number becomes vacant, e.g., the telephone number is no longer in service by the original End User; the ported telephone number will be released back to the Local Service Provider owning the switch in which the telephone number's NXX is native.
- 4.2 Either Party may block default routed calls from entering the public switched network when necessary to prevent network overload, congestion, or failure.
- 4.3 The Parties will conform to industry guidelines referenced herein in preparing their networks for SPNP and in porting numbers from one network to another.
- 4.4 The Parties will perform all standard SPNP certification and intra-company testing prior to scheduling intercompany testing between the Parties' interconnected networks.
- 4.5 Each Party will designate a single point of contact (SPOC) to schedule and perform required test. These tests will be performed during a mutually agreed time frame and must conform to industry portability testing and implementation criteria in force in the NPAC region.

5.0 Limitations of Service

- 5.1 Telephone numbers will be ported only within Windstream rate centers as approved by the State Commission.

- 5.3. Telephone numbers associated with Windstream Official Communications Services (OCS) NXXs will not be ported.
- 5.4. Telephone numbers in NXXs dedicated to choke networks will not be ported.

6.0 Service Provider Number Portability (SPNP) Bona Fide Request (BFR) Process

- 6.1 The Service Provider Number Portability (SPNP) Bona Fide Request (BFR) Process is the process for INdigital to request that SPNP be deployed in Windstream exchanges that are not then capable of LRN query service.
- 6.3 INdigital may request that SPNP be deployed by Windstream in its switches located in the MSAs. Windstream will enable SPNP in the requested switches within six (6) months of receipt of BFR, based on the beginning dates for each MSA and subject to State Commission approval of an interconnection Agreement with respect to the location of the requested switch.
- 6.4 A BFR with respect to opening a Windstream switch for SPNP must be made in the form of a letter from INdigital to:
 - Windstream
 - Attn: Interconnection Services
 - Rodney Parham Road
 - 1170 B3F03-84A
 - Little Rock, AR 72212
- 6.5 The BFR must specify the following:
 - 6.5.1 The MSA in which requested switch(es) are located.
 - 6.5.2 Windstream switch(es), by CLLI codes, which are being requested to become SPNP capable.
 - 6.5.3 Specific, resident NXX codes requested to open in each Windstream switch on the BFR.
 - 6.5.4 The date when SPNP capability is requested for each Windstream switch on the BFR; however, the requested date must fall within the governing FCC schedules and interval guidelines.
 - 6.5.5 CLLI and NXXs of INdigital switches serving the exchanges associated with the relevant Windstream switches.

ATTACHMENT 15: INTENTIONALLY LEFT BLANK

ATTACHMENT 16: INTENTIONALLY LEFT BLANK

ATTACHMENT 17: INTENTIONALLY LEFT BLANK

ATTACHMENT 18: PERFORMANCE MEASURES**1.0 General**

- 1.1 Windstream will use its best efforts to satisfy all service standards, intervals, measurements, specifications, performance requirements, technical requirements, and performance standards that are specified in this Agreement or are required by law or regulation. In addition, Windstream's performance under this Agreement shall be provided to INdigital at parity with the performance Windstream provides itself for like service(s).
- 1.2 Windstream shall make a good faith attempt to complete a limited root-cause analysis process within thirty (30) days of request date by INdigital to provide a reasonable opportunity to explain missed performance.
- 1.3 Windstream will notice INdigital of all process changes related to this Agreement.

2.0 Interconnection**2.1 Trunk Provisioning Intervals****2.1.1 Access Service Request (ASR)**

Positive acknowledgment of receipt of a non-valid ASR will be made within two (2) business days, provided the ASR is received before 3PM Eastern Standard Time (1PM Mountain Standard Time.) The start time for determining the FOC interval will commence with receipt of a valid ASR. A non-valid ASR will not start the FOC interval.

2.1.2 Firm Order Confirmation (FOC)

An FOC confirming the due date will be sent within two (2) business days (sixteen (16) business hours) after receipt of a valid ASR subject to facility availability. Subject to availability of facilities service will be implemented (trunks in service) within twenty (20) business days of receipt of a valid ASR.

2.1.3 Performance Expectation

Provided the conditions are met under 2.1.1 and 2.1.2 proceeding, Windstream's performance expectation is to provide 100% due dates met within reporting month. If service levels fall below 95% of the performance expectation within a reporting month, root cause analysis and joint problem resolution will be implemented within thirty (30) days.

2.2 Trunking Grade of Service**2.2.1 Exchange Access (IXC Toll Traffic)**

For exchange access traffic routed via an access tandem blocking on each leg will be held to .005 (1/2% blockage).

2.2.2 All Other

All other final routed traffic will be held to .01 (1% blockage).

2.2.3 **Performance Expectation**

Provided the conditions are met under 2.2.1 and 2.2.2 preceding, Windstream's performance expectation is to provide traffic flow 100% of the time. If service levels fall below the performance expectation within a reporting month, root cause analysis and joint problem resolution will be implemented within thirty (30) days.

2.3 **Trunk Service Restoration**

2.3.1 **Service Affecting**

Service affecting trunk service trouble will be responded to at parity with the performance Windstream provides itself for like service(s). Service affecting trouble is defined as a condition or event affecting 20% or more of the total trunk group and overflows are experienced.

2.3.2 **Non Service Affecting**

Non service affecting trouble will be responded to at parity with the performance Windstream provides itself for like service(s).

2.3.3 **Performance Expectation**

Zero loss of service due to downtime. If service levels fall below the Performance Expectation within a reporting month, root cause analysis and joint problem resolution will be implemented within thirty (30) days. Specific time-frames will be listed relative to performance.

3.0 **Maintenance Intervals**

3.1. **Service Affecting**

Service affecting maintenance trouble will be responded to at parity with the performance Windstream provides itself for like service(s).

3.2 **Non Service Affecting**

Non service affecting trouble will be responded to at parity with the performance Windstream provides itself for like service(s).

3.3 **Performance Expectation**

Zero loss of service due to downtime. If service levels fall below the Performance Expectation within a reporting month, root cause analysis and joint problem resolution will be implemented within thirty (30) days. Specific time-frames will be listed relative to performance.

4.0 **Local Service Provisioning Intervals**

4.1 **Local Service Request (LSR)**

LSRs that are subject to the FCC's number portability interval requirements shall be processed in accordance with those requirements.

Except for LSRs that are subject to the FCC's number portability interval requirements, positive acknowledgement of receipt of a non-valid LSR for a Non-Simple Port request will be made within twenty-four (24) hours, provided the LSR is received before 3PM Eastern Standard Time. Non-Simple Port LSRs received after the 3PM cutoff will be considered to be received on the following business day.

Except for LSRs that are subject to the FCC's number portability interval requirements, positive acknowledgement of receipt of a non-valid LSR for a Simple port request will be made within 4 hours, provided the LSR is received by 1P.M. local time in the predominant Time Zone of the NPAC Region where the End User's telephone number is being ported. Simple Port LSRs received after the 1PM cutoff will be considered to be received on the following business day, and the response clock starts at 8 A.M. (local time in the predominant time zone of the NPAC Region where the number is being ported).

4.2 Local Service Request Confirmation (LSCN)

The start time for determining the Local Service Request Confirmation (LSCN) interval will commence with receipt of a valid LSR. A non-valid LSR will not start the LSCN interval.

For LSRs involving Non-Simple Ports, as determined by the donating service provider, the donating service provider must return a LSCN or reject (whichever is appropriate) within twenty-four (24) hours of receiving the LSR.

For LSRs involving Simple Ports, as determined by the donating service provider, if the gaining service provider requests a due date three (3) or more business days after LSR receipt, the donating service provider must return a LSCN or reject (whichever is appropriate) within twenty-four (24) hours of receiving the LSR.

For LSRs involving Simple Ports, as determined by the donating service provider, if the gaining service provider requests a due date one to two (1-2) business days after LSR receipt, the donating service provider must return a LSCN or reject (whichever is appropriate) within four (4) hours of receiving the LSR.

4.3 Performance Expectation

Provided the conditions are met under 4.1.1 and 4.1.2 proceeding, Windstream's performance expectation is to provide 100% due dates within the reporting month. If service levels fall below 95% of the performance expectation within a reporting month, root cause analysis and joint problem resolution will be implemented within thirty (30) calendar days.

ATTACHMENT 19: BONA FIDE REQUEST (BFR) PROCESS

- 1.1 A Bona Fide Request (BFR) must be used when INdigital requests a change to any Services and/or Elements provided hereunder, including features, capabilities, or functionality.
- 1.2 A BFR shall be submitted in writing by INdigital and shall specifically identify the required service date, technical requirements, space requirements and/or such specifications that clearly define the request such that Windstream has sufficient information to analyze and prepare a response. Such a request also shall include INdigital's designation of the request as being (i) pursuant to the Telecommunications Act of 1996 or (ii) pursuant to the needs of the business.
- 1.3 Although not expected to do so, INdigital may cancel, without penalty, a BFR in writing at any time. Windstream will then cease analysis of the request.
- 1.4 Within two (2) business days of its receipt, Windstream shall acknowledge in writing, the receipt of the BFR and identify a single point of contact and any additional information needed to process the request.
- 1.5 Except under extraordinary circumstances, within twenty (20) days of its receipt of a BFR, Windstream shall provide to INdigital a preliminary analysis of the BFR. The preliminary analysis will include Windstream's proposed price (plus or minus 25 percent) and state whether Windstream can meet INdigital's requirements, the requested availability date, or, if Windstream cannot meet such date, provide an alternative proposed date together with a detailed explanation as to why Windstream is not able to meet INdigital's requested availability date. Windstream also shall indicate in this analysis its Agreement or disagreement with INdigital's designation of the request as being pursuant to the Act or pursuant to the needs of the business. If Windstream does not agree with INdigital's designation, it may utilize the Dispute Resolution Process described in the General Terms and Conditions §9.0. In no event, however, shall any such dispute delay Windstream's process of the request. If Windstream determines that it is not able to provide INdigital with a preliminary analysis within twenty (20) days of Windstream's receipt of a Bona Fide Need request, Windstream will inform INdigital as soon as practicable. The Parties will then determine a mutually agreeable date for receipt of the preliminary analysis.
- 1.6 As soon as possible, but in no event more than forty-five (45) days after receipt of the request, Windstream shall provide INdigital with a BFR quote which will include, at a minimum, the firm availability date, the applicable rates and the installation intervals, and a price quote.
- 1.7 Unless INdigital agrees otherwise, all proposed prices shall be the pricing principles of this Agreement, in accordance with the Act, and any applicable FCC and Commission rules and regulations. Payments for services purchased under a BFR will be made as specified in this Agreement, unless otherwise agreed to by INdigital.
- 1.8 Within thirty (30) days after receiving the firm BFR quote from Windstream, INdigital will notify Windstream in writing of its acceptance or rejection of Windstream's proposal. If at any time an agreement cannot be reached as to the terms and conditions or price of the request, or if Windstream responds that it cannot or will not offer the requested item in the BFR and INdigital deems the item essential to its business operations, and deems Windstream's position to be inconsistent with the Act, FCC, or Commission regulations and/or the requirements of this Agreement, the Dispute Resolution Process set for in the General Terms and Conditions, §9.0 of the Agreement may be used by either Party to reach a resolution.

ATTACHMENT 20: DEFINITIONS

Definitions of the terms used in this Agreement are listed below. The Parties agree that certain terms may be defined elsewhere in this Agreement, as well as terms not defined shall be construed in accordance with their customary meaning in the telecommunications industry as of the Effective Date of this Agreement.

"911 Customer" or **"PSAP"** means a municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local government units to whom authority has been lawfully delegated to respond to public emergency telephone calls, at a minimum, for emergency police and fire services through the use of one telephone number, 911. A 911 Customer subscribes to 911 Service.

"911 Service" means a service that uses a universal telephone number to provide the public access to the PSAP by dialing 911. 911 Service may be provisioned as Basic 911 Service, E911 Service or NG911 Service.

"911 System" or **"E911 System"** means the set of network, database and customer premise equipment (CPE) components required to provide 911 Service.

"911 Trunk" or **"E911 Trunk"** means a trunk capable of transmitting Automatic Number Identification (ANI) associated with a call to 911 from **WINDSTREAM** or INdigital to the E911 System.

"911 Selective Router Trunk" or **"E911 Selective Router Trunk"** means a trunk from a Selective Router capable of transmitting Automatic Number Identification (ANI) associated with an End User call to 911. The 911 Selective Router Trunk may be between a Selective Router and a PSAP or between Selective Routers. The latter configuration may also be known as an inter-Selective Router Trunk.

"Access Service Request" or **"ASR"** means the industry standard forms and supporting documentation used for ordering Access Services. The ASR may be used to order trunking and facilities between Windstream and INdigital for local interconnection.

"Act" means the Communications Act of 1934 (47 U.S.C. §151 et seq.), as amended by the Telecommunications Act of 1996, as may be subsequently amended or, as from time to time interpreted in the duly authorized rules and regulations of the FCC or the Commission having authority to interpret the Act within its state of jurisdiction.

"Ancillary Services" are services which support, but, are not required for interconnection of telecommunications networks between two or more parties, e.g., 911 (if applicable) and Directory Services.

"Automatic Location Identification" or **"ALI"** means the automatic display at the PSAP of the caller's telephone number, the address/location of the telephone and, in some cases, supplementary emergency services information.

"Automatic Number Identification" or **"ANI"** means the telephone number associated with a communications device that originates an emergency call, which is the number used to route an E911 call to the appropriate PSAP for use in retrieving the associated ALI record for display to the call taker, the access line from which a call to 911 originates.

"Calling Party Number" or "CPN" is a feature of Signaling System 7 ("SS7") protocol whereby the 10-digit number of the calling party is forwarded from the end office.

"CLASS (Custom Local Area Signaling Service) and Custom Features" means a grouping of optional enhancements to basic local exchange service that offers special call handling features to residential and single-line business Customers (e.g., call waiting, call forwarding and automatic redial).

"Commission" or "PUC" or "PSC" means the Missouri Public Service Commission.

"Common Channel Signaling" or "CCS" means a special network, fully separate from the transmission path of the public switched network that digitally transmits call setup and network control data.

“Company Identifier” or **“Company ID”** means a three to five (3 to 5) character identifier chosen by the Local Exchange Carrier that distinguishes the entity providing dial tone to the End-User. The Company Identifier is maintained by NENA in a nationally accessible database.

“Confidential Information” has the meaning set forth in §6.0 of the General Terms and Conditions.

“Contract Year” means a twelve (12) month period during the term of the contract commencing on the Effective Date and each anniversary thereof.

“Customer” means, whether or not capitalized, any business, residential or governmental Customer of services covered by the Agreement, and includes the term "End User". More specific meanings of either of such terms are dependent upon the context in which they appear in the Agreement and the provisions of the Act.

“Customer Proprietary Network Information” or **“CPNI”** means information that relates to the quantity, technical configuration, type, destination, and amount of a Telecommunications Service subscribed to by any Customer of a Telecommunications Carrier, and that is made available to the carrier by the Customer solely by virtue of the carrier Customer relationship; and information contained in the bills pertaining to telephone exchange service or telephone toll service received by a Customer of a carrier.

“Database Management System” or **“DBMS”** means a system of manual procedures and computer programs used to create, store and update the data required to provide Selective Routing and/or Automatic Location Identification for E911 Systems.

“Designated 911/E911 Service Provider” or **“911 Provider”** means the entity designated by the 911 Service Customer to provide 911 Services to the PSAPs in their jurisdictional serving area.

“Discloser” means that Party to this Agreement which has disclosed Confidential Information to the other Party.

“E911 Universal Emergency Number Service” (also referred to as **“Enhanced 911 Service”**) or **“E911 Service”** is a communications service whereby a public safety answering point (PSAP) answers telephone calls placed by dialing the number 911. E911 includes the service provided by the lines and equipment associated with the service arrangement for the answering, transferring, and dispatching of public emergency telephone calls dialed to 911. E911 provides completion of a call to 911 via dedicated trunking facilities and includes Automatic Number Identification (ANI), Automatic Location Identification (ALI), and/or Selective Routing.

“Effective Date” is the date indicated in the Preface on which the Agreement shall become effective.

“Emergency Services” means police, fire, ambulance, rescue, and medical services.

“Emergency Service Number” or **“ESN”** means a three to five digit number representing a unique combination of emergency service agencies (Law Enforcement, Fire, and Emergency Medical Service) designated to serve a specific range of addresses within a particular geographical area. The ESN facilitates selective routing and selective transfer, if required, to the appropriate PSAP and the dispatching of the proper service agency(ies).

“End Office” means a local switching point where a Customer station loops are terminated for purposes of interconnection to each other and to the network.

“End User” means, whether or not capitalized, any business, residential or governmental Customer of services covered by the Agreement and includes the term "Customer". More specific meanings of either of such terms are dependent upon the context in which they appear in the Agreement and the provisions of the Act.

“Exchange” is the geographic territory delineated as an exchange area by official commission boundary maps.

“Exchange Access” is defined in the Act.

“Exchange Services” are two-way switched voice-grade telecommunications services with access to the public switched network with originate and terminate within an exchange.

"FCC" means the Federal Communications Commission.

“ICB” means individual case basis.

"Incumbent Local Exchange Carrier” or “ILEC” has the meaning given the term in the Act.

“Interconnected VoIP” means a service that: (1) enables real-time, two-way voice communications; (2) requires a broadband connection from the user's location; (3) requires Internet protocol-compatible customer premises equipment; and (4) permits users generally to receive calls that originate on the public switched telephone network and to terminate calls to the public switched telephone network.

"Interconnection" has the meaning given the term in the Act and refers to the connection of separate pieces of equipment, facilities, or platforms between or within networks for the purpose of transmission and routing of Telephone Exchange Service traffic and Exchange Access traffic.

“Interconnection Agreement” means the Agreement between the Parties entitled “Interconnection Agreement Under §§251 and 252 of the Telecommunications Act of 1996,” dated July 16, 1996.

"Interexchange Carrier" or "IXC" means a telecommunications provider that provides long distance communications services between LATAs or within a LATA and authorized by the Commission to provide long distance communications services.

"InterLATA" has the meaning given the term in the Act.

"IntraLATA Traffic" means all IntraLATA calls provided by a LEC other than traffic completed in the LECs local exchange boundary.

“Interconnection Point” or “IP” is the point of demarcation at a technically feasible point within Windstream’s interconnected network within the LATA, as specified in *Attachment 4* Section 2.1.1, where the networks of Windstream and INdigital interconnect for the exchange of traffic.

"Local Access and Transport Area" or "LATA" has the meaning given to the term in the Act.

"Local Exchange Carrier" or "LEC" means the incumbent carrier that provides facility-based Exchange Services, which has universal-service and carrier-of-last-resort obligations.

"Local Service Provider” or “INdigital” means a non-incumbent carrier licensed by the Commission with the appropriate certification (e.g., a Certificate of Authorization or Service Provider Certificate of Authorization) and authority necessary to provide Exchange Services.

“Local Service Request” or “LSR” means an industry standard form used by the Parties to add, establish, change or disconnect services provided under this Agreement.

“Master Street Address Guide” means a database of street names and house number ranges within their associated communities defining Emergency Service Zones (ESZs) and their associated Emergency Service Numbers (ESNs) to enable proper routing of E911 calls.

“National Emergency Number Association” or “NENA” means the National Emergency Number Association is a not-for-profit corporation established in 1982 to further the goal of “One Nation-One Number”. NENA is a networking source and promotes research, planning, and training. NENA strives to educate, recommend standards

and provide certification programs, legislative representation and technical assistance for implementing and managing 911 systems.

“NG911 Service” is an Internet Protocol (IP)-based system comprised of managed Emergency Services IP networks (ESInets), functional elements (applications), and databases that replicate traditional E911 features and functions and provides additional capabilities. NG911 is designed to provide access to emergency services from all connected communications sources, and provide multimedia data capabilities for Public Safety Answering Points (PSAPs) and other emergency service organizations.

“Operating Company Number” or “OCN” means nationally recognized company codes set forth in Bellcore’s LERG that will be used as the official identification code for each company that provides local exchange telephone service.

“Parties,” means Windstream and INdigital collectively.

“Party” means either Windstream or INdigital as applicable.

“P.01 Transmission Grade of Service” means a trunk facility provisioning standard with the statistical probability of no more than one call in 100 blocked on initial attempt during the average busy hour.

“Percent Local Usage” or “PLU” is a calculation which represents the ratio of the local minutes to the sum of local IntraLATA minutes between exchange carriers sent over Local Interconnection Trunks. Directory assistance, BLV/BLVI, 900, 976, transiting calls from other exchange carriers and switched access calls are not included in the calculation of the PLU.

“Point of Interconnection” (POI) for delivery of traffic originated on Windstream’s interconnected network means a technically feasible point(s) on the WINDSTREAM interconnected network within a LATA or where agreed to by the Parties, where Parties deliver traffic to each other, and also serves as a demarcation point between the facilities that each Party is responsible to provide. The POI for delivery of traffic originated on Windstream’s interconnected network will be at a minimum of two locations which shall be located in or on the Windstream interconnected network. The technically feasible points of interconnection typically are located at a DACS or cross-connect panel.

“Pseudo-ANI” or “pANI” means a telephone number used to support routing of wireless 911 calls or nomadic VoIP 911 calls. It may identify a wireless cell, cell sector or PSAP to which the call should be routed. Pseudo-ANI is also known as routing number.

“Public Safety Answering Point” or “PSAP” is the public safety communications center where 911 calls placed by the public for a specific geographic area will be answered.

“Recipient” means the Party to this Agreement, which has received Confidential Information from the other Party.

“Service Provider Number Portability/Number Portability” or “SPNP” means the ability of users of telecommunications services to retain, at the same location, existing telecommunications numbers without the impairment of quality, reliability, or convenience when switching from one telecommunications carrier to another.

“Selective Router” means the Covered 911 Service Provider’s (as that term is defined under Part 12 of the Federal Communications Commission’s rules) facility that provides the tandem switching of 911 calls. The Selective Router controls delivery of the emergency voice call with ANI to the PSAP and provides Selective Routing, speed calling, selective transfer, fixed transfer, and certain maintenance functions for each PSAP.

“Selective Routing” means the routing and equipment used at a **Selective Router** to directly route a 911 call to the proper PSAP based upon the number and location of the caller. Selective Routing is controlled by an ESN, which is derived from the location of the access line from which the 911 call was placed.

“Service Order Input (SOI) Records” means those records generated by the telephone exchange service provider

when performing service order input and/or service order updates, and that are sent in a file to the DBMS provider upon telephone service activation.

“Shell Records” means those database records associated with Pseudo-ANI telephone numbers. Shell Records facilitate call delivery and the appropriate ALI display for wireless 911 calls and nomadic VoIP 911 calls.

"Signaling System 7" or "SS7" means a signaling protocol used by the CCS network.

“Telephone Exchange Service” means wireline exchange connections amongst LEC End Users.

"Telecommunications" has the meanings given in the Act.

"Termination" means the switching of Local Traffic at the terminating carrier's end office switch, or equivalent facility, and delivery of such traffic to the called Party.

"Territory" means the incumbent local exchange areas within the states identified in Appendix A

“Toll VoIP Traffic” means Interconnected VoIP Traffic that originates and terminates within the state of Missouri but is not Local Traffic.

“Undefined Terms” The Parties acknowledge that terms may appear in the Agreement that are not defined and agree that any such terms shall be construed in accordance with their end-user usage in the telecommunications industry as of the Effective Date of this Agreement.

“Windstream” has the meaning set forth in the preamble.

“Work Locations” means any real estate that Windstream owns, leases or licenses or in which it holds easements or other rights to use, or does use, in connection with this Agreement.

ATTACHMENT 21: ACRONYMS

AMA	Automated Message Accounting
ASR	Access Service Request
BAN	Billing Account Number
BFR	Bona Fide Request
BRADS	Bellcore Rating Administrative Data Systems
CAP	Competitive Access Provider
CATS	Calling Card and Third Number Settlement System
CCL	Carrier Common Line
CCS	Common Channel Signaling
CLASS	Custom Local Area Signaling Service
INdigital	INdigital
CMDS	Centralized Message Distribution System
CPN	Calling Party Number
CPNI	Customer Propriety Network Information
EAS	Extended Area Service
ELCS	Extended Local Calling Service
EMI	Exchange Message Interface
EUCL	End User Common Line
FCC	Federal Communications Commission
FOC	Firm Order Commitment
ILEC	Incumbent Local Exchange Carrier
IP	Interconnection Point
ISDN	Integrated Digital Services Network
ISDNUP	Integrated Digital Services Network User Part
IXC	Interexchange Carrier
LATA	Local Access and Transport Area
LEC	Local Exchange Carrier
LERG	Local Exchange Routing Guide
LOA	Letter of Authority
LRN	Local Routing Number
LSCN	Local Service Request Confirmation
LSP	Local Service Provider
LSR	Local Service Request
MSA	Metropolitan Statistical Area
MTP	Message Transfer Part
MTS	Message Telephone Service
NEBS	Network Equipment Building System
NECA	National Exchange Carrier Association
NIIF	Network Interoperability Interface Forum
NPA	Numbering Plan Area
NPAC	Number Portability Administration Center
OCN	Operating Company Number
OLI	Originating Line Information
PIC	Primary Interexchange Carrier
PLU	Percent Local Usage
PON	Purchase Order Number
PSC	Public Service Commission
PUC	Public Utilities Commission
RDBS	Routing Data Base Systems
SLC	Subscriber Line Charge

SONET	Synchronous Optical Network
SPNP	Service Provider Number Portability
SS7	Signaling System 7
STP	Signaling Transfer Point
TCAP	Transaction Capabilities Application Part
Windstream	Windstream

APPENDIX A – Billing Dispute Form

Appendix B: Price List

	Nonrecurring Charges	
	Initial	Additional
<u>Service Order Charges</u>		
New ¹		
Residential	\$22.39	\$22.39
Business	\$22.39	\$22.39
Change ²		
Residential	\$17.44	\$17.44
Business	\$17.44	\$17.44
Disconnect ³		
Residential	\$12.26	\$12.26
Business	\$12.26	\$12.26
Expedite Charge ⁴	\$21.76	\$21.76
Manual Service Order Charges ⁵	\$8.07	\$8.07
<u>Time and Material Charges</u>		
Basic Time per half (1/2) hour	\$45.00	\$45.00
Overtime per half (1/2) hour	\$62.50	\$62.50
Premium Time per half (1/2) hour	\$85.00	\$85.00
<u>Coordinated Cut-Over Charge</u>		
Basic Time per half (1/2) hour	\$45.00	\$45.00
Overtime per half (1/2) hour	\$62.50	\$62.50
Premium Time per half (1/2) hour	\$85.00	\$85.00

	Reciprocal Compensation MOU Rate
Windstream Pursuant Attachment 12: Compensation, Section 3.3	Applicable Rates from Windstream's Interstate Access Services Tariff
	Transit Traffic MOU Rate
Windstream	\$0.003

¹ **New** – includes each local number portability request and each new directory assistance request.

² **Change** - includes any rearrangement or change to an existing service, supplemental requests, or existing directory assistance.

³ **Disconnect** – disconnection of a Windstream service or of a Windstream or INdigital directory assistance.

⁴ **Expedite** - applies if INdigital requests service prior to the standard due date intervals and the expedite request can be met by Windstream.

⁵ **Manual** – applies to orders sent via facsimile, electronic mail or US Postal Service when Windstream Express is available.
