Missouri Public Service Commission

PO Box 360

Jefferson City, MO 65102-0360

Attention: Natelle Dietrich

Director of utility Operations

Re: CASE AW-2014-0329

Dear Ms. Dietrich:

The Missouri chapter of the National Women's Political Caucus (mowpc.org) works to get more progressive women elected to public office. We have worked in communities throughout this state listening to issues that affect their citizens since 1972. Lax regulation of the Payday loan industry in our state has always been an issue as a burden on low income households. Many of these households are headed by women.

We join others and urge the Missouri Public Service Commission to act to sever any relationship that exists between the utility companies and payday lenders and to prevent any future relationship. The utility bill paying scheme is not a convenience. Common sense dictates it's a **burden!**

Sincerely,

Barbara Womack

Missouri Chair
