**Case No. LA-2010-0298**

**STAFF RECOMMENDATION**

COMES NOW the Staff of the Missouri Public Service Commission and for its recommendation, states as follows:

1. On April 27, 2010, Rosebud Telephone, LLC (“the Company”) applied for a certificate of service authority to provide basic local and interexchange telecommunications service and for competitive classification.

2. The Application included sufficient information for the Staff to conclude that the Company possesses sufficient financial, technical and managerial resources to be certificated. In addition, the Staff notes that granting the requested waivers complies with §392.420 RSMo 2009.

3. In the attached Memorandum, labeled Appendix A, the Staff recommends that the Commission grant the Company’s request for basic local, non-switched local and interexchange telecommunications service authority. The Commission shall grant an application for a certificate of telecommunications service authority upon a finding that the grant of authority is in the public interest. §§ 392.430 and 392.440 RSMo 2000.

4. Staff also recommends that the Commission classify the Company’s services as competitive. The Commission may classify a telecommunications provider or its services as

competitive if the Commission determines it is subject to sufficient competition to justify a lesser degree of regulation and that such lesser regulation is consistent with the protection of ratepayers and promotes public interest. §392.361.4 RSMo Supp. 2009. A majority of the services a competitive company provides must be classified as competitive. §392.361.3 RSMo Supp. 2009.

5. The Staff further recommends that the Commission state in its order that, pursuant to §392.410, the authority conferred by the certificate of service authority shall be null and void unless it is exercised within one year of its issuance.

6. Staff notes that a tariff was not submitted with the application; the Company may not provide telecommunications services in Missouri without an approved tariff. The Staff recommends that the Commission state in its Order that the Company shall list the waivers in its tariff.

7. The Applicant is not delinquent in filing an annual report, paying the PSC assessment, MoUSF, and Relay Missouri.

8. The Staff recommends that the application be granted with the following conditions:

a. The applicant's originating and terminating access rates shall not exceed the access rates of the incumbent local exchange company against whom the applicant is competing pursuant to §§ 392.361.6 and 392.370 RSMo Supp. 2009.

b. If the directly competing ILEC, in whose service area the applicant is operating, decreases its originating and/or terminating access service rates, the applicant shall file an appropriate tariff amendment to reduce its originating and/or terminating access rates in the directly competing ILEC's service area within 30 days of the directly competing ILEC's reduction of its originating and/or terminating access rates in order to maintain the cap.

WHEREFORE, the Staff recommends that the Commission grant Rosebud Telephone, LLC's Application for basic local and interexchange telecommunications service authority, classify the company and its services as competitive.

Respectfully submitted,
