Re: Notification of Intra-company Transfer – PSC Case No. KA-2008-0343

Dear Commissioner:

This letter is to notify the municipality that on February 13, 2009, Mediacom Southeast LLC Has transferred the video service authorization issued to it by the Missouri Public Service Commission on March 8, 2008, to MCC Missouri LLC. MCC Missouri, like Mediacom Southeast LLC, is a wholly owned operating subsidiary of Mediacom Communications Corporation that also manages both companies. This transfer occurred simply to align Mediacom's assets to make it simpler to operate. Thus instead of two subsidiaries operating in Missouri there will be only one. This transfer of the video service authorization, however, will have no impact on day to day operations of the cable system serving your community. The same personnel will be running the cable systems as before.

The transfer of the state issued video service authorization by notice only to local communities and the Missouri Public Service Commission is permitted under Section 67.2701 of the Missouri Revised Statutes that states that "neither the public service commission nor any political subdivision shall have any authority to review or require approval of any transfer of a video service authorization...".

The company looks forward to continuing service of your community.

Very truly yours,

HENDREN ANDRAE, LLC

Re: Notification of Intra-company Transfer

Dear Madam or Sir:

This purpose of this letter is to notify the Missouri Public Service Commission that on February 13, 2009 Mediacom Southeast LLC has transferred to MCC Missouri LLC the video service authorization issued to it by the Missouri Public Service Commission (effective January 9, 2009). MCC Missouri, like Mediacom Southeast LLC, is a wholly owned operating subsidiary of Mediacom Communications Corporation that also manages both companies. Now instead of two Mediacom subsidiaries operating in Missouri there will be only one. This transfer of the video service authorization, however, will have no impact on the day to day operations of Mediacom. The same personnel will be running the cable systems as before. One entity will merely be no longer operating in Missouri.

The transfer of the state issued video service authorization by notice only to local communities and the Missouri Public Service Commission is permitted under Section 67.2701 of the Missouri Revised Statutes. We send this notice in compliance with that statute. I have also attached a list of those communities that we transferred in connection with the Case No KA-2009-0244. Those communities will now be served by MCC Missouri LLC and should be considered part of that video service authorization effective March 8, 2008 and identified as Case No KA-2008-0061.

We look forward to continuing service in the State of Missouri. If there are any questions concerning this notice please contact the undersigned.

Sincerely,

A handwritten signature in dark ink, appearing to read "Bruce Gluckman", with a stylized flourish at the end.

Bruce Gluckman
