1. The Midwest Energy Consumers Group is an unincorporated association of large users of electricity. Relevant to the immediate proceeding, MECG consists of large users of electricity taking service from Ameren Missouri on the Small General Service and Large General Service / Small Primary rate schedules. MECG expects to add additional members in the near future and will notify the Commission at such time as those members become known.

2. The matters to be considered in this case and the Commission's determinations thereon, could have a direct and significant impact on Applicants' cost of energy service and the manner in which it is supplied. Therefore, granting this proposed intervention to the Applicants would serve the public interest and would assist the Commission in development of a more complete record.

3. As large user customers of Ameren Missouri, the Applicants have a direct and immediate interest in these proceedings that is different from that of the general public. While Applicants do not at this time have sufficient information to assert a position on this investigation, they reserve the right to assert positions after they have had an adequate opportunity to examine the record, and any documentation of other parties filed herein.
