SECTION 2 – GENERAL RULES AND REGULATIONS

2.1 Undertaking of Company

The Company's service is available statewide. The obligation of the Company to provide service is dependent upon its ability to procure, construct, and maintain facilities that are required to meet the Customer's Service Order.

The Company's services are furnished for telecommunications services originating and/or terminating in any area within the State of Missouri.

The Company is a facilities-based and resale provider of telecommunications to Customers for the direct transmission and reception of voice, data, and other types of communications. Services are offered via the Company's facilities (whether owned, leased, or under contract) in combination with resold services provided by other certificated carriers. The Company is responsible under this tariff only for the services and facilities the Company provides hereunder.

Subject to availability, the Customer may use account codes to identify the users or user groups on an account. The numerical composition of the codes shall be set by Company to assure compatibility with the Company's accounting and billing systems and to avoid the duplication of codes.

The Company's services are provided on a monthly basis unless otherwise provided, and are available twenty-four (24) hours per day, seven (7) days per week, subject to the availability of necessary service, equipment and facilities and the economic feasibility of providing such necessary service, equipment, and facilities.

2.2 Application for Service

Service may be initiated only based on a written agreement between the Company and the Customer. To initiate a service request, the Customer must provide the following information: the Customer's name; an address to which the Company shall provide service; and a billing address (if different). The service application does not itself bind either the Customer to subscribe to the service or the Company to provide the service.

Request for service under this Tariff will authorize the Company to conduct a credit search on the Customer. The Company reserves the right to refuse service on the basis of credit history, and to refuse further service due to late payment or nonpayment by the Customer. Potential customers who are denied service must be given the reason for the denial in writing within 10 days of service denial.

2.3 Contracts or Agreements

RF Transport Services will be made available to customers in a non-discriminatory manner. Rates for RF Transport services will be determined on an Individual Case Basis (ICB). ICB rates will be structured to recover the Company's cost of providing the service and will be made available to the Missouri Public Service Commission Staff upon request on a proprietary basis. ICB rates will not be used for switched services.

2.4 Deposits

The Company may, at its sole discretion, require a deposit or usage prepayment as a condition to receiving service or additional service. The Company reserves the right to review an applicant's or a Customer's credit history at any time to determine if a deposit is required.

In the event the Customer fails to establish a satisfactory credit history, deposits are a form of security that may be required from Customers to ensure payment of bills.

Deposits shall be no greater than twice the estimated average monthly bill for the class of service applied for.

Deposits will be refunded with interest within 30 days after discontinuance of service or after 12 months of service, whichever comes first. Interest will accrue on the amount deposited. The interest rate to be applied shall be a composite yield of intermediate term, A-rated corporate bonds, as reported in financial publications, less costs of administering deposits of 1.75% per year. The rate will be updated effective January 1st each year and the Commission will issue an advisory letter announcing the interest rate. The Company will credit such interest to each depositor by paying such interest in cash or deducting it from the amount of a bill for service.

2.5 Notices

Notices provided to the Customer by the Company shall be as follows:

A. Discontinuance of Service Notice

(1) Notice by Customers

Customers are responsible for notifying the Company of their desire to discontinue service on or before the date of disconnection. Such notice must be in writing.

3. The date when payment or arrangements for payment are required in order to avoid termination.
4. The procedure the Customer may use to initiate a complaint or to request an investigation concerning service or charges.

2.6 Rendering and Payment of Bills

In case of a billing dispute between the Customer and the Company as to the correct amount of a bill that cannot be adjusted with mutual satisfaction, the Customer can make the following arrangement:

Prior to suspension or termination of service by the Company, the Customer may request, either orally or in writing, that the Company investigate and review the disputed amount. The Company will comply with such request. The undisputed portion of the bill must be paid by the due date shown on the bill or the service will be subject to suspension/termination if the Company has notified the Customer by written notice of such delinquency and impending suspension/termination. Company will also advise the Customer in writing of the Commission's formal and informal complaint procedures and that, if there is still disagreement after the investigation and review by the Company and the Company's written findings to the Customer, the Customer may appeal to the Commission within 10 days of the date the Company mailed its findings to the Customer.

The Company will not suspend/terminate the Customer's service for nonpayment as long as the Customer complies with the procedures of this section.

In order to avoid suspension of service and late payment charges, the disputed amount must be paid within fourteen (14) calendar days after the date the Company notifies the Customer that the investigation and review are completed and that such payment must be made or service will be interrupted. However, the Company will not suspend service prior to the payment due date as shown on the bill.

SECTION 3 – SERVICE DESCRIPTION AND RATES**3.1 RF Transport Services****3.1.1 Service Description**

RF Transport Services utilize optical technology, including multi-wavelength optical technology over dedicated transport facilities to provide Customers with links to radiate RF coverage.

RF Transport Services connect Customer-provided wireless capacity equipment to Customer-provided or Company provided bi-directional RF-to-optical conversion equipment at a hub facility. The hub facility can be Customer or Company provided. The conversion equipment allows the Company to accept RF traffic from the Customer and then send bi-directional traffic transmission across the appropriate optical networks. At the remote end, Customer or Company provided RF-to-optical conversion equipment allows bi-directional conversion between optical signals and RF signals. RF signals can be received and radiated at this remote node. Hence the Company provides optical transit services for RF signals.

The furnishing of RF Transport Services requires certain physical arrangements of equipment and facilities of the Company and other entities and is subject to the availability of such equipment and facilities and the economic feasibility of providing such necessary equipment and facilities and the RF Transport Services.

The specific limitations applicable to RF Transport Services are as follows:

- All optical services are provided on single mode optical fiber.
- Some optical services may be of a multi-wavelength nature.
- Current wireless standards limit the distance between a hub site and a remote node to 20 km.
- The optical loss between a hub site and a remote node must not exceed 18 dB.

RF Transport Services rates apply to service furnished to business or governmental customers. RF Transport Services are not available to residential customers

3.1.2 Rates and Charges

The monthly recurring rates and nonrecurring charges for RF Transport Services are as follows:

Description	Fee per Segment
Nonrecurring connection charge	\$100,000
Monthly recurring charge	\$15,000

For purposes of this Tariff, Segment shall mean a one-way optical carrier between one (1) Customer hub site or remote node and another Customer hub site or remote node. The optical carrier is a single optical wavelength. The optical fiber can carry more than one wavelength.

Minimum Term: The minimum service term for RF Transport Services is five (5) years.

3.1.3 Individual Case Basis (ICB) Pricing Arrangements

RF Transport services will be made available to customers in a non-discriminatory manner. Rates for RF Transport services will be determined on an Individual Case Basis (ICB). ICB rates will be structured to recover the Company's cost of providing the service and will be made available to the Missouri Public Service Commission Staff upon request on a proprietary basis. ICB rates will not be used for switched services.

3.1.4 Taxes and Surcharges

Appropriate federal, state, local and municipal taxes and surcharges will be charged on Services and are in addition to the rates for Service set forth in this tariff unless otherwise stated.

Customers shall pay all sales, use, gross receipts, excise, access, bypass, or other local, state and Federal taxes, charges, or surcharges, however designated, imposed on or based upon the provision, sale or use of the services (excluding taxes on the Company's net income). Such taxes shall be separately stated on the applicable invoice.

When a municipal corporation or other political subdivision of the state collects from the Company a license tax, privilege tax, street use tax, franchise fee, permit fee, or any tax, exaction, or fee measured by poles, guys, wires, conduits, manholes, telephones, other units of plant, income or activities as a public service corporation, such taxes, exactions and fees shall, insofar as practicable, be billed *pro rata* to the exchange. Customers receiving service within the territorial limits of the municipal corporation or political subdivision.
