In the Commission's Report and Order, the participants in this case were directed to submit for approval a proposed notice. This notice would be subsequently mailed by local exchange companies to those customers who access community optional service. The Commission has approved the attached notices for distribution. At the option of the respective local exchange company, these notices may be provided as a bill insert or may be issued as a direct and separate mailing.

In addition, the second page of the notice should be corrected as noted on the attached page.

Toll-Free Calling Changes

In order to further foster the development of competition in the local telephone market, the Missouri Public Service Commission has determined a barrier to such competition, mandatory two-way Community Optional Service (COS) must be discontinued effective March 31, 1998.

As competition in the local telephone market continues to grow, the Missouri Public Service Commission can not mandate a telecommunications company to provide a specific telephone service subsidized by all ratepayers, as was the case with COS. The Missouri Public Service Commission has strongly encouraged and believes that telephone companies will introduce new expanded local calling service for all customers in Missouri without a mandate.

If you make frequent calls to (name of petitioning exchanges), you should check with your telephone company or long-distance company for alternative programs that may apply to your calling patterns.

Questions on COS? Contact your local telephone company regarding your specific COS service, the Missouri Public Service Commission at **1-800-392-4211**, or the Office of the Public Counsel at (573) 751-4857.
