

terms are defined in Section 386.020 of the Revised Statutes of Missouri and as such is subject to the jurisdiction of the Commission as provided by law.

3. Atmos may have pending actions against it involving customer service or rates having occurred within three (3) years from the date of this Motion in certain of the jurisdictions in which it provides service, but none in Missouri. Atmos has no annual report or assessment fees that are overdue.

4. Simultaneously with the filing of this Motion, Atmos is filing a revised tariff sheet which is designed to discontinue Atmos' Actual Cost Adjustment ("ACA") factors for the Kirksville District. The tariff has an issue date of June 15, 2011, and an effective date of July 1, 2011. Since Atmos has already filed an ACA factor during the last twelve months, it may be necessary for the Company to obtain a waiver to allow it to file another ACA factor for these districts during the same twelve month period. Atmos' tariffs also provide that such proposed changes should be filed with effective dates that allow the Commission Staff ten (10) business days to review the tariffs.

5. At this time, the Company believes that the ACA balance for the Kirksville District will be near zero or in an under-recovered state by the end of July 2011. The Company must file a tariff with an effective date of July 1, 2011 to begin billing the new rates at the beginning of August. This will ensure that all service taken prior to the effective date will be billed at the rate that was in effect in that month. As a result, it is now appropriate to discontinue these ACA factors to become effective on July 1, 2011. Accordingly, Atmos respectfully submits that good cause exists for granting the relief requested herein. No other public utility will be affected by such waiver.

6. The Commission previously granted two similar waivers in this captioned proceeding: *Order Approving Revised ACA Factor and Granting Waiver of Tariff Provisions* issued January 26, 2011, effective February 1, 2011, and *Order Approving Revised ACA Factor and Granting Waiver of Tariff Provisions* issued on March 30, 2011, effective April 1, 2011. Previously, the Commission granted similar waivers to allow the elimination of the separate Old Butler District, Kirksville, and Neelyville ACA factors when these factors were nearing a zero balance. See *Order Approving Revised ACA Factor And Granting Waiver Of Tariff Provisions*, Case No. GR-2008-0364 (February 25, 2009); *Order Approving Revised ACA Factor, Granting Waiver Of Tariff Provisions, And Approving PGA Changes*, Case No. GR-2008-0364 (April 29, 2009); *Order Approving Revised ACA Factors And Granting Waiver Of Tariff Provisions*, Case No. GR-2009-0417 (July 29, 2009). See also *Order Approving Revised ACA Factor and Granting Waiver of Tariff Provisions*, Case No. GR-2009-0417 (September 30, 2009)

7. In order that the tariff may become effective as soon as possible to reflect Atmos' discontinuance of the ACA factor for the Kirksville District, Atmos respectfully requests that the Commission issue its Order Approving Tariff and allow the tariff to go into effect on July 1, 2011, and grant it a waiver from any tariff provisions that would otherwise limit the filing of another ACA factor for this district at this time. This will permit Atmos to implement the change in its ACA factor in an orderly fashion beginning with its August billing cycles.

8. Pursuant to 4 CSR 240-2.080(16), the Company requests that the Order Approving Tariff be effective no later than July 1, 2011. In addition, since the ACA balances will be near zero or in an under-recovered state as stated in Paragraph 5, expedited approval of the revised tariff sheet is requested. Delay in the approval will cause a greater under-recovery of gas costs for these districts. This pleading is also being filed as soon as it could have been once

it became apparent that the ACA balances will be near zero or an under-recovered balance at the end of July 2011.

9. While it does not appear that Atmos' PGA/ACA-related filings are the type of case intended to be covered by Commission Rule 4 CSR 240-4.020(2), Atmos previously filed its Notice of Intended Case Filing and Application for Waiver in this proceeding on December 2, 2010.

WHEREFORE, Atmos Energy Corporation respectfully requests that the Commission, on an expedited basis, authorize its tariff to become effective on July 1, 2011, and grant it a waiver from any tariff provisions that might not allow for the change of the ACA balances at this time.

Respectfully submitted,
