Case No. TT-99- 429
Tariff No. 9900656

Missouri Public

MOTION TO SUSPEND

COMES NOW the Staff of the Missouri Public Service Commission (Staff)
and for this Motion to Suspend states as follows:

1. On March 9, 1999, MoKan Dial, Inc. (MoKan) filed a Fourth Revised Sheet No. 7, to replace Third Revised Sheet No. 7, for Freeman, Missouri in its P.S.C. MO. tariff No. 2. The revised sheet has an issuance date of March 10, 1999, and an effective date of April 9, 1999. A copy of Tariff file No. 990656 is attached hereto for convenience as Attachment 1.

2. The stated purpose for the revision is stated in the filing letter as "to clarify that access rates apply until superseded by an approved interconnection agreement."

3. MoKan proposes to change the language in its access tariff to state, "The provisions of this tariff apply to all traffic regardless of type or origin, transmitted to or from the facilities of the Telephone Company, by any other carrier, directly or indirectly, until and unless superseded by an agreement approved pursuant to the provisions of 47 U.S.C. 252, as may be amended."

4. MoKan's filing comes as a direct result of the Cole County Circuit Court's February 23, 1999 ruling in Case No. CV-198-178CC, which affirmed the

Commission's Report and Order in Case No. TT-97-524.¹ The Commission, in Case No. TT-97-524, approved a revision to Southwestern Bell Telephone Company's (SWBT) Wireless Carrier Interconnection Service Tariff. The Commission's *Report and Order* addressed the termination of traffic that originates on a Commercial Mobile Radio Service (CMRS) network, transits the SWBT network, and terminates on a third party local exchange company (LEC) network

5. MoKan, with this revision, will apply its switched access rates to traffic originating on a CMRS network that terminates on MoKan's network.

6. The FCC held that traffic to or from a telecommunications network, that originates and terminates within the same Major Trading Area (MTA), is local traffic (hereafter referred to as intra-MTA traffic). Further, the FCC determined that this intra-MTA traffic is subject to transport and termination rates under §§ 251(b)(5) and 252(d)(2) of the Communications Act of 1934, rather than interstate or intrastate access charges.

7. The Staff considers it inappropriate to tariff rates for the termination of intra-MTA CMRS-originated traffic without first determining if the proposed rates meet the requirements of the Act. Staff recommends Mo-Kan's filing be suspended and set for hearing to determine the appropriateness of applying tariffed access rates to intra-MTA CMRS-originated traffic.

¹ In the Matter of Southwestern Bell Telephone Company's Filing to Revise its Wireless Carrier Interconnection Service Tariff, P.S.C. Mo. -No. 40., *Report and Order*, issued December 23, 1997.

WHEREFORE, the Staff respectfully requests the Commission suspend the revised tariff sheet of MoKan, set an early prehearing conference, and for further relief as the Commission deems appropriate.

Respectfully submitted,

DANA K. JOYCE

Re: MoKan Dial, Inc. PSC Mo No. 2, 4th Revised Sheet No. 7, Replacing 3rd Revised Sheet No. 7

Dear Mr. Roberts:

Enclosed for filing please find an original and 3 copies of the above referenced tariff sheet for MoKan Dial, Inc. The sheet bears an issuance date of March 10, 1999 and a proposed date of April 19, 1999.

In affirming the Commission's Report and Order in TT-97-524, the Cole County Circuit Court Judgement of February 23, 1999 in CV 198-178CC concluded that, in approving SWB's revised wireless interconnection tariff, the Commission did not foreclose any carrier from applying their existing access tariffs to certain traffic types. The purpose of this filing is to clarify that access rates apply until superseded by an approved interconnection agreement. The company is not waiving its right to assert that the access tariffs are applicable prior to the effective date of this tariff revision.

Please direct any Staff questions or concerns to me.

Sincerely,

Craig S. Johnson
