Permit Conditions:

Plan sheet number 7 of 8 is to be "Standard Details" as shown on previous plan sheet number 7 of 7 dated 7/78.

Construction of such proposed facilities shall be in accordance with the provisions of the Missouri Clean Water Law as located in Chapter 204 RSMo, Supplement 1973 and regulations promulgated thereunder, or this permit may be revoked by the Missouri Clean Water Commission.

As the Department of Natural Resources does not examine structural features of design or the efficiency of mechanical equipment, the issuance of this permit does not include approval of these features.

A representative of the Department may inspect the work covered by this permit periodically during construction. Issuance of an operating permit by the Commission will be contingent on the work substantially adhering to the approved plans and specifications.
