OF the STATE OF MISSOURI**

In the Matter of the Application of MCImetro Access)	
Transmission Services LLC d/b/a Verizon Access)	
Transmission Services for Review and Reversal of North)	Case No. _____
American Number Plan Thousands-Block Pooling)	
Administrator's Decision to Withhold Numbering)	
Resources)	

**MCIMETRO ACCESS TRANSMISSION SERVICES LLC
D/B/A VERIZON ACCESS TRANSMISSION SERVICES'
APPLICATION AND MOTION FOR EXPEDITED TREATMENT**

MCImetro Access Transmission Services LLC d/b/a Verizon Access Transmission Services ("Verizon Access") files this application pursuant to 4 CSR 240-2.060, 4 CSR 240-2.080, 4 CSR 240-37.040 and 47 C.F.R. § 52.15(g)(3)(iv), and respectfully requests that the Missouri Public Service Commission ("Commission") issue an Order, on an expedited basis, that reviews and reverses the recent decision of the National Number Pool Administrator, NeuStar, Inc. ("PA"), to withhold certain numbering resources from Verizon Access.

The requested numbering resources are necessary to meet the telecommunications needs of Mercy-Joplin Hospital ("Mercy"), which is being rebuilt in Joplin, Missouri after having been destroyed by a Category 5 tornado on May 22, 2011. The numbering resources at issue consist of ten thousands-blocks of numbers in the Joplin, Missouri rate center to meet Mercy's need for a contiguous range of 10,000 direct inward dialing ("DID") numbers for the new hospital.

In support of its Application, Verizon Access states as follows:

1. Verizon Access is a Delaware limited liability company with its principal office at One Verizon Way, Basking Ridge, NJ 07920. Verizon Access is duly authorized to conduct

business in Missouri,¹ with its fictitious name duly registered with the Missouri Secretary of State.² Verizon Access is a “local exchange telecommunications company,” “alternative local exchange telecommunications company” and “public utility” certificated by this Commission³ and duly authorized to provide “telecommunications service” within the state of Missouri, as each of these terms is defined in Section 386.020, RSMo.

2. All correspondence, pleadings, orders, decisions, and communications regarding this proceeding should be sent to:

Carl J. Lumley
Curtis, Heinz, Garrett & O’Keefe, PC
130 S. Bemiston, Suite 200
Clayton, Missouri 63105
Tel: (314) 725-8788
Fax: (314) 725-8789
E-mail: clumley@lawfirmemail.com

3. As mentioned above, this Application is prompted by Mercy’s placement of an order with Verizon Access for 10,000 contiguous DID numbers to serve the hospital that is being rebuilt. During its rebuilding process, Mercy has had to erect various temporary in-patient facilities and space for clinical support, outpatient facilities and physicians’ offices. This temporary situation has placed a strain on Mercy’s call processing, as well as created impediments to efficient call transfers. To improve call processing in its facility under construction and ensure the ease of communications with those utilizing its services, Mercy

¹ A copy of Verizon Access’s Certificate of Good Standing from the Missouri Secretary of State is attached hereto.

² A copy of the registration of the fictitious name Verizon Access Transmission Services was filed with the Commission on December 23, 2005 in Case No. LN-06-276.

³ The Commission most recently expanded Verizon Access’ certificate of service authority in its September 25, 2008 order in Case No. TA-2009-0083.

placed an order with Verizon for the 10,000 contiguous DID numbers.⁴ See **Exhibit A** hereto, which is a true and correct copy of Mercy's October 14, 2013 letter to Verizon Access, explaining Mercy's business needs.

4. If Mercy cannot obtain the requested 10,000 contiguous DID numbers, it will impact the hospital's ability to implement its desired dialing plan in its new facility, adversely affect Mercy's operations and hamper its patients' easy access to communications with the hospital. See Exhibit A.

5. Because Verizon Access lacked a 10,000 block of contiguous DID numbers with which to meet Mercy's needs, on October 15, 2013, it submitted a request to the PA for ten consecutive thousands-blocks of numbers in the Joplin, Missouri rate center, along with the necessary Months to Exhaust and Utilization Certification Work Sheet. True and correct copies of Verizon Access' request and accompanying worksheet are attached hereto as **Exhibit B**, as required by 4 CSR 240-37.040(1)(A)1.⁵

6. On October 15, 2013, the PA denied the request on the grounds that Verizon Access had not met the utilization and/or months-to-exhaust criteria established by the Federal Communications Commission ("FCC"). A true and correct copy of the PA's decision is attached hereto as **Exhibit C**, as required by 4 CSR 240-37.040(1)(A)3.

7. Verizon Access also attaches hereto as **Exhibit D** a true and correct copy of its FCC Form U1, reflecting its current numbering resource utilization level, as required by 4 CSR 240-37.040(1)(A)2.

⁴ Within two years of putting these numbers into service, Mercy anticipates that it may be able to return a thousands-block of DID numbers due to a potential move from a 4-digit to 5-digit dialing plan, which would prohibit it from using exchanges with a last digit of 0 or 9. See Exhibit A.

⁵ Verizon's request to the PA is in the name of "Brooks Fiber Communications – MO" because although Brooks Fiber Communications of Missouri, Inc. merged into Verizon Access years ago (see Commission's November 12, 2004 Order in Case No. TM-2004-0146, noting merger and cancelling Brooks Fiber's certificate), the PA's records still reflect the OCN as belonging to Brooks Fiber.

8. Verizon Access seeks the Commission's direction to overturn the PA's decision to withhold numbering resources, as Verizon Access has now exhausted all other available remedies designed to conserve numbering resources, as required by 4 CSR 240-37.040(1)(A)4.

9. A state commission may overturn the PA's decision based on the commission's determination that the carrier has demonstrated a verifiable need for the requested numbering resources and has exhausted all other available remedies. *See* 47 C.F.R. § 52.15(g)(4). Similarly, the FCC has held that "a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier's inability to satisfy a specific customer request." *See* Third Report and Order and Second Order on Reconsideration, *In the Matter of Numbering Resource Optimization; Implementation of the Local Competition Provisions of the Telecommunications Act of 1996; Telephone Number Portability*, 17 FCC Rcd 252 (rel. Dec. 28, 2001) at ¶ 64 ("12/28/01 Order"). State commissions are permitted to grant such requests provided they are for customers seeking contiguous blocks of numbers, rather than "vanity numbers." *Id.*

10. In this case, Mercy requires 10,000 consecutive DID numbers to meet the future needs of its patients. Granting this application will benefit the public interest because it will ensure the availability of adequate numbering resources for Mercy to meet its patients' needs.

11. Verizon Access respectfully requests that the Commission act upon this Application within ten (10) business days. Verizon has acted expeditiously to file for the requested relief as soon as it could, and the FCC has recognized the importance of timely action:

[W]e recognize that in many instances, the failure to address a request for additional numbering resources can impair a carriers' ability to stay in or expand business. We therefore direct states to act on carrier requests for a safety valve as expeditiously as possible. Although we do not establish a specific time limit for states to act on these requests, we believe that, in most instances 10 business days

from receipt of a request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests.⁶

12. Verizon Access does not have any pending or final unsatisfied judgments or decisions against it from any state or federal agency, which involves customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this Application.

13. Verizon Access does not have any annual report or assessment fees that are overdue in Missouri.

14. Verizon Access seeks expedited treatment and requests that the Commission act on this request within ten (10) business days, so that Verizon Access will have enough time to file a new request with the PA for the release of the numbering resources described herein.

WHEREFORE, Verizon Access respectfully requests that the Commission overturn the PA's previous determination in this matter within ten (10) business days, and instruct the PA to release the numbering resources necessary to meet the needs of Mercy-Joplin Hospital as set forth herein.

⁶ See 12/28/01 Order at ¶ 66.

Respectfully submitted,

/s/ Carl J. Lumley

A handwritten signature in cursive script, reading "Jason Kander".

Secretary of State

October 14, 2013

Dear Sir or Madam,

On May 22, 2011 a Category 5 tornado touched down in Joplin, Missouri destroying Mercy Hospital. During our rebuild process to maintain access to health care in this area, various renditions of temporary in-patient facilities were erected, along with locating space for clinical support, out-patient facilities and physician offices. Mercy was fortunate to have both Verizon and ATT respond to our communications needs. While this has been a good temporary fix it has resulted in numerous prefixes and direct inward dial ranges which have put a strain on our call processing as well as increased the difficulty for staff to remember numbers to be able to transfer callers to other facilities and care givers.

Mercy has committed to providing exceptional health care to this community and is in the process of building a new hospital, expected to be fully functional in early 2015. As we move most of our clinical operations into this new hospital we want to improve call processing and ease of communications to those in need of our services. To accomplish this Mercy has placed an order with Verizon Business for local telecommunication services for 10,000 contiguous DID numbers to be put in service by April 2014. If Verizon is not able to acquire these 10,000 contiguous numbers for Mercy-Joplin Hospital, it will impact our ability to implement our desired dial plan and adversely affect our operations.

It is the intent within two years after putting these new numbers into production, Mercy-Joplin Hospital will give back at least 1000 DID numbers to Verizon. Our existing service currently has overlaps of the last 4 digits and we may need to move to a 5 digit dial plan therefore we cannot use exchanges with the last number being a 0 or 9. We currently have thousands of numbers in the 417 area code with 5 different exchanges/office codes which causes our communications to be inconsistent and disjointed.

Adverse effects of non-contiguous DID ranges are significant to our ability to do business. Customers of Mercy-Joplin Hospital, both in Joplin and the surrounding community, deserve to have easy access to our services and a single exchange would strengthen that access.

The point of contact for this request is:

David D. Conover
Manager Telecom - Mercy
314-364-3288
David.Conover@mercy.net

Sincerely,

A handwritten signature in dark ink, appearing to read "Dave Conover", written over a horizontal line.

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the TelcordiaTM LERGTM Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by TelcordiaTM Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLITM tandem of the facilities based

provider ^{xi}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied. The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Foot Notes :

ⁱ Identify the type of change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLITM code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the network prior to the effective date of the block(s).

^{ix} Select if you are the current Block Holder.

^x Select if you are not the current Block Holder

^{xi} Telcordia, LERG Routing Guide, and CLLI are trademarks of Telcordia Technologies, Inc.
