

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Verified Application and)
Petition of Laclede Gas Company to Change its) Case No. GO-2015-02__
Infrastructure System Replacement Surcharge in)
Its Laclede Gas Service Territory)

**VERIFIED APPLICATION AND PETITION OF LACLEDE GAS COMPANY
TO CHANGE ITS INFRASTRUCTURE SYSTEM REPLACEMENT
SURCHARGE IN ITS LACLEDE GAS SERVICE TERRITORY
AND MOTION FOR EXPEDITED TREATMENT**

COMES NOW Laclede Gas Company (“Laclede” or "Company"), pursuant to Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri, and 4 CSR 240-2.060, 2.080, and 3.265 of the Rules of the Missouri Public Service Commission (“Commission”), and for its Verified Application and Petition to Change its Infrastructure System Replacement Surcharge in its Laclede Gas Service Territory (its “Application”) and Motion for Expedited Treatment, respectfully states as follows:

I. BACKGROUND

1. Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri authorize eligible gas corporations to recover certain infrastructure replacement costs by establishing and updating an infrastructure system replacement surcharge (“ISRS”). Laclede’s current ISRS was established effective April 12, 2014 by Commission Order in Case No. GO-2014-0212, covering ISRS costs incurred through February 28, 2014.

2. Since Laclede’s ISRS was established, it has been changed once. This change became effective on October 18, 2014, covering ISRS costs incurred through August 31, 2014.

3. On January 30, 2015, the Company filed an application to change its ISRS in order to cover ISRS-eligible costs incurred from September 1 to December 31, 2014. The application also provided for an update of ISRS-eligible costs incurred in January and February 2015. That application (the “January 30 Application”) was docketed as GO-2015-0178.

4. On March 19, 2015, the Office of the Public Counsel (“OPC”) filed a Motion objecting to the practice of updating ISRS investments, and specifically objecting to the ISRS-eligible investments incurred by Laclede during January and February 2015 that were not originally identified in the January 30 Application. On March 31, 2015, the Staff filed its Recommendation advising the Commission that it had reviewed Laclede’s application and had no adjustments to it.

5. The parties resolved the OPC Motion by agreeing to dismiss the January 30 Application and re-file an ISRS application that included the details of the January and February 2015 ISRS-eligible investments and excluded costs relating to replacement of telemetric equipment pending the issuance of a potentially relevant opinion by the Missouri Supreme Court. Such agreement was without prejudice to the parties’ rights to take whatever position they believe is appropriate on these issues in future proceedings. The parties reflected this agreement in a Joint Notice of Voluntary Dismissal Without Prejudice in Case No. GO-2015-0178 (the “Joint Notice”). This application is the re-filed application.

6. In the Joint Notice, the parties agreed that since Staff has already reviewed the ISRS-eligible investments made between September 1, 2014 and February 28, 2015, the Staff should be able to file its Recommendation in this case within two

weeks after the filing of this application. The Joint Notice further referenced the parties' agreement to work to implement Laclede's ISRS filings as soon as reasonably possible and, given that agreement, it was contemplated that the Commission could be in a position to approve this application by the end of May.

II. MOTION FOR EXPEDITED TREATMENT

7. Under the circumstances described above, Laclede requests that the Commission either not suspend the tariff filed with this application, pending the outcome of the parties' efforts to accommodate the expedited schedule referenced in the Joint Notice, or suspend it only through May 31, 2015. Given the fact that this application covers the same circumstances and ISRS investment period as the GO-2015-0178 Application and that no party sought to intervene in such proceeding, Laclede also requests that the Commission consider whether an additional intervention opportunity in this proceeding is necessary or, at a minimum, establish an abbreviated intervention period that is consistent with the expedited schedule referenced in the Joint Notice. In addition, since the Commission approved the notices and customer bill, as required by 4 CSR 240-3.265(8) and (9), when Laclede first established its ISRS, no further submission of such items are required in this application to change the ISRS. Based on the foregoing, following the filing of the Staff Recommendation, and in the absence of objection by OPC, Laclede requests that its ISRS change be approved as soon as reasonably practicable, but in any event no later than May 31, 2015. Given the fact that this filing contains information that has been available for a longer period of time than is customary with most ISRS filings and given the parties' commitment to work towards an expedited processing of this filing, Laclede submits that there is good cause for the

expedited treatment requested herein and that this request was filed as soon as reasonably possible.

III. THE APPLICANT

8. Laclede is a public utility and gas corporation incorporated under the laws of the State of Missouri, with its principal office located at 700 Market Street, St. Louis, Missouri 63101. A Certificate of Good Standing evidencing Laclede's standing to do business in Missouri was submitted in Case No. GF-2013-0085 and is incorporated by reference herein for all purposes. The information in such Certificate is current and correct.

9 In its Laclede Gas service territory, Laclede is engaged in the business of distributing and transporting natural gas to customers in the City of St. Louis and the Counties of St. Louis, St. Charles, Crawford, Jefferson, Franklin, Iron, St. Genevieve, St. Francois, Madison, and Butler in Eastern Missouri, as a gas corporation subject to the jurisdiction of the Commission.

10. Communications in regard to this Application should be addressed to the persons below:

Rick Zucker
Associate General Counsel
Laclede Gas Company
700 Market Street, 6th Floor
St. Louis, MO 63101
(314) 342-0533
rick.zucker@thelacledegroup.com

Glenn W. Buck
Director, Regulatory and Finance
Laclede Gas Company
700 Market Street, 5th Floor
St. Louis, Missouri 63101
(314) 342-0767

glenn.buck@thelacledegroup.com

11. Other than cases that have been docketed at the Commission, Laclede has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates within three years of the date of this application.

12. Laclede is current on its annual report and assessment fee obligations to the Commission; no such report or assessment fee is overdue.

IV. THE ISRS REQUEST

13. With this application, Laclede requests an adjustment to its ISRS rate schedule to reflect ISRS-eligible infrastructure system costs incurred during the period September 1, 2014 through February 28, 2015.

14. In accordance with the provisions of Sections 393.1009-1015 and 4 CSR 240-3.265, the revised ISRS rate schedule reflects the appropriate pre-tax ISRS revenues necessary to produce net operating income equal to Laclede's weighted cost of capital multiplied by the net original cost of the requested infrastructure replacements during this period that are eligible for the ISRS, including recognition of accumulated deferred income taxes and accumulated depreciation associated with eligible infrastructure system replacements that were included in Laclede's currently effective ISRS. Laclede also seeks to recover all state, federal and local income or excise taxes applicable to such ISRS income, and to recover all other ISRS costs such as depreciation expense and property taxes due within 12 months of this filing.

A. Eligibility of Costs

15. The infrastructure system replacements for which Laclede seeks ISRS recognition are set forth on Appendix A, which is attached hereto and made a part hereof for all purposes. The infrastructure system replacements listed on Appendix A are eligible gas utility plant projects in that they are either: a) mains, valves, service lines, regulator stations, vaults, and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition; or b) main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life, or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements; or c) unreimbursed infrastructure facility relocations due to the construction or improvement of a highway, road, street, public way or other public work required by or on behalf of the United States, the State of Missouri, a political subdivision of the State of Missouri, or another entity having the power of eminent domain.

16. In addition to meeting the foregoing criteria, the infrastructure system replacements listed on Appendix A are also eligible for ISRS treatment because they: (a) did not increase revenues by directly connecting to new customers; (b) are currently in service and used and useful; (c) were not included in Laclede's rate base in its most recently completed general rate case, or in a previous ISRS filing; and (d) replaced and/or extended the useful life of existing infrastructure.

B. Rate Schedules, Calculations and Supporting Documentation

17. Attached hereto as Appendix B is the rate schedule, with supporting documents, proposed by Laclede in order to revise the ISRS to reflect additional ISRS eligible investments made by Laclede. This proposed rate schedule, on an annualized basis, will produce additional ISRS revenues of at least one million dollars, but not in excess of ten percent of Laclede's base revenue level as approved by the Commission in its most recently completed general rate proceeding.

18. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes current local, state and federal income tax rates through a combined income tax rate conversion factor of 1.626737.

19. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes the capital structure approved by the Commission in its February 21, 2014 Order Approving Late-Filed Exhibit (the "February 21 Order") in Case No. GR-2013-0171 (the "Rate Case"), and reflects an overall rate of return of 7.1855%.

20. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a weighted average cost of debt of 2.0445%, consistent with the February 21 Order.

21. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a cost of common equity of 9.7%, consistent with the February 21 Order.

22. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a current composite property tax rate of 3.01%.

23. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes depreciation rates currently applicable to the eligible infrastructure system replacements, as approved by the Commission for Laclede in the Rate Case.

24. In determining the appropriate monthly ISRS charge, the proposed rate schedule is based on a reasonable estimate of billing units in the period in which the charge will be in effect, derived by dividing the appropriate pre-tax revenues, as calculated above, by the average number of customers in the most recent year ended December 31, 2013, and then further dividing this quotient by twelve. (*See* Appendix B, p. 12). Consistent with the methodology used in previous ISRS filings, the monthly ISRS charge is apportioned between customer classes in proportion to the customer charges applicable to those classes.

25. As referenced above, in the past few Laclede rate cases, including Case No. GR-2013-0171, the Commission approved the parties' agreement to implement the Company's ISRS applications "as soon as reasonably possible," in exchange for Laclede's commitment to reduce the ISRS by a certain amount. In filing this Application, Laclede has in fact reduced its ISRS request accordingly, and therefore asks the other parties to do their part in processing the application as soon as is reasonably possible. As this application is simply a re-filing of the GO-2015-0178 Application, Laclede believes that parties should be able to present this ISRS to the Commission in time for implementation on an expedited basis and in any event no later than May 31, 2015.

V. ADDITIONAL INFORMATION

26. In connection with 4 CSR 240-3.265(22), attached hereto and incorporated herein as Appendix C is a description of the Company's call center instructions pertaining to the ISRS, along with a description of ISRS information posted on the Company's website.

WHEREFORE, pursuant to 393.1015.2(3) RSMo and Commission Rule 3.265(12), Laclede Gas Company respectfully requests that the Commission issue an order approving a change to Laclede's ISRS rate schedules to provide for the recovery of the eligible infrastructure system replacement investments made by Laclede as described herein, grant Laclede's Motion for Expedited Treatment as set forth herein, and grant such other relief as may be necessary and appropriate to accomplish the purposes of Sections 393.1009 through 393.1015 and the parties agreement in the Rate Case.

Respectfully submitted,

/s/ Rick E. Zucker

SCHEDULE OF RATES

INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE (“ISRS”)

Description: The ISRS is designed to recover the costs associated with the Company’s eligible infrastructure replacements in accordance with the provisions of Sections 393.1009 to 393.1015, RSMo.

Applicability: In addition to the other charges provided for in the Company’s tariff, a monthly ISRS shall be added to each customer’s bill for service rendered on and after the effective date of the ISRS.

Schedule of Surcharges: The amount of the ISRS by rate schedule is as follows:

Residential General Service (RG)	\$ 1.87
Residential Seasonal Air Conditioning Service (RA)	\$ 1.87
Commercial & Industrial General Service-Class I (C1)	\$ 2.44
Commercial & Industrial General Service-Class II (C2)	\$ 4.24
Commercial & Industrial General Service-Class III (C3)	\$ 8.48
Commercial & Industrial Seasonal Service-Class I	\$ 2.44
Commercial & Industrial Seasonal Service-Class II	\$ 4.24
Commercial & Industrial Seasonal Service-Class III	\$ 8.48
Large Volume Service (LV)	\$ 83.76
Interruptible Service (IN)	\$ 74.33
General L.P. Gas Service (LP)	\$ 1.63
Unmetered Gas Light Service (SL)	\$.54
Vehicular Fuel Rate (VF)	\$ 2.11
Large Volume Transportation and Sales Service (LVTSS)	\$198.19

CALL CENTER INSTRUCTIONS ON ISRS
Revised January 2015

TO: All Customer Relations Employees
RE: Infrastructure System Replacement Surcharge (“ISRS”)

WHAT IS AN ISRS?

The ISRS is a charge that covers a portion of the expenses that the Company must incur to maintain and upgrade its system to comply with safety requirements and to relocate facilities in connection with local, state, and federal public improvement projects.

The ISRS covers the costs for:

- Replacing worn or deteriorated pipes or other parts of our pipeline system to comply with federal or state safety requirements.
 - Examples: (i) Installing plastic mains as replacements for cast iron mains in connection with our cast iron main replacement program; (ii) Replacing a main or service line that has become unsafe due to leaks or corrosion.
- Projects that extend the useful life or enhance the integrity of pipeline components.
 - Example: Installing clamps to seal cast iron joints.
- Relocating facilities required by governmental entities in connection with public improvement projects such as a street or highway widening.
 - An example would be the Page Avenue extension that connected I-270 with Highway 94 in St. Charles.

The ISRS does NOT apply to:

- Costs for privately funded projects where Laclede receives reimbursement for its expenses. An example is Busch Stadium III, where Laclede was reimbursed by the Cardinals for work done.
- Costs incurred to build infrastructure that directly connects to new customers who will be billed for service.

HOW HAS THE ISRS BEEN CHARGED?

The ISRS has been charged as a flat fee per month. ISRS rates always start at -0- when Laclede finishes a rate case. So upon resolution of the Company’s rate case in July 2013, the monthly ISRS was reset to \$-0- and costs for the facilities that were part of the previous ISRS were incorporated into the Company’s overall rates. This included costs for plant in service as of January 31, 2013.

Between July 2013 and April 2014, there were no ISRS charges on customer bills. In April 2014, Laclede Gas re-established an ISRS and, **as of January 2015, the ISRS charge for Residential customers is \$1.20 per month.** Commercial customers pay more per month than Residential Customers.

After Laclede re-establishes an ISRS rate, the Company may change the ISRS, again with MoPSC approval, up to two times per year.

HOW IS THE ISRS BILLED?

When a new ISRS is established, the first ISRS bill for each customer will contain a bill message on the front of the bill known as the Initial Notice. Such a bill message does not appear when the ISRS amount merely changes. However, please note that an abbreviated version of this message is also permanently on the back of the bill under Definitions. Once each year, bills will also contain an Annual ISRS Notice. (Please see Attachment 1 for the Initial Notice and the Annual Notice).

Customers who call with ISRS questions during the first month that ISRS bills are rendered may be directed to the bill message on the front of the bill. After the first month, the ISRS is still defined on the back of the bill.

SUMMARY

If customers seek to discuss the ISRS charge in greater detail, please emphasize the following:

- The ISRS covers a portion of the expenses that the Company must incur to maintain and upgrade its system to comply with safety requirements, and to relocate facilities in connection with local, state, and federal public improvement projects.
- ISRS is authorized by Missouri law, which allows gas utilities like Laclede to adjust their rates up to two times per year to recover these mandated costs.
- None of the mandated costs and projects covered by ISRS produce any new revenue for the Company. Any projects for which Laclede is separately reimbursed are not included in the ISRS.
- The financial impact of the ISRS is very modest. It is less for residential customers than for larger commercial and industrial customers. Since Laclede first established an ISRS in 2004, the residential ISRS has always been less than \$3 per month.

ATTACHMENT I

INITIAL NOTICE

ISRS

Each year, Laclede spends tens of millions of dollars on its more than 16,000 miles of pipeline facilities used to deliver gas to its customers. The infrastructure system replacement surcharge (ISRS) covers only a part of the expenses that the Company must incur to maintain and upgrade its system and to relocate facilities in connection with local, state and federal public improvement projects and safety requirements. In general, the ISRS charge to cover these costs is smaller for residential customers, while larger users in other customer classes are charged a greater amount. The amount of the charge may be adjusted periodically, and is being implemented in accordance with Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri.

ANNUAL NOTICE

ISRS

Each year, Laclede spends tens of millions of dollars on its more than 16,000 miles of pipeline facilities used to deliver gas to its customers. The infrastructure system replacement surcharge (ISRS) covers only a part of the expenses that the Company must incur to maintain and upgrade its system and to relocate facilities in connection with local, state and federal public improvement projects and safety requirements. In general, the ISRS charge to cover these costs is smaller for residential customers, while larger users in other customer classes are charged a greater amount. The amount of the charge, which is reflected on the front of your bill, may be adjusted periodically, and has been implemented in accordance with Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri.

The infrastructure system replacement surcharge (ISRS) covers only a part of the expenses that the Company must incur to maintain and upgrade its system and to relocate facilities in connection with local, state and federal public improvement projects and safety requirements. In general, the ISRS charge to cover these costs is smaller for residential customers, while larger users in other customer classes are charged a greater amount. The amount of the charge may be adjusted periodically, and is being implemented in accordance with a new law contained in Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri.

Effective April 12, 2014, the ISRS was reinstated as part of the charge for gas service on each monthly natural gas billing statement. Effective October 18, 2014 the residential ISRS amount is \$1.20/month. To view the tariff sheet detailing the order and schedule of rates click [here](#).

VERIFICATION

State of Missouri)
