

AGREEMENT

Agreement made this 21st day of JUNE, 1993, by and between ST. LOUIS COUNTY WATER COMPANY, a Missouri Corporation and public utility subject to the jurisdiction of the Missouri Public Service Commission (hereinafter "Company"), and THE METROPOLITAN ST. LOUIS SEWER DISTRICT, a political subdivision established under the Constitution of the State of Missouri (hereinafter "MSD").

WITNESSETH:

WHEREAS, Company provides metered water service to residential customers in St. Louis County, Missouri; and

WHEREAS, MSD has need of certain water usage and customer identification information on which to base its billings, which said information is accumulated through meter readings and estimates by the Company for its billing purposes; and

WHEREAS, Company is willing to provide to MSD the information aforesaid in exchange for payment by MSD of a portion of the cost of obtaining meter reading data; and

WHEREAS, The Missouri Public Service Commission (hereinafter "Commission"), per Chapter 393 RSMo 1992 Supp., has jurisdiction over the Company's books and records with the ability to authorize release of the information contained therein; and

WHEREAS, Company and MSD desire to enter into a contract detailing the terms and conditions under which the aforementioned information can be provided by Company to MSD, subject to the

approval of the Missouri Public Service Commission ("Commission").

NOW, THEREFORE, for and in consideration of the payment of ten dollars from each to the other paid, the receipt of which is herewith acknowledged, and for the other good and valuable considerations herein contained, Company and MSD agree as follows:

1. INFORMATION TO BE PROVIDED. Company will provide MSD with its then current list of residential customers along with the customer's service address including street, City and unit number if appropriate. Because MSD's customer and Company's customer at a specific address may be different individuals or entities, it will be MSD's responsibility to discern from Company's information the appropriate customer and usage data required for MSD's purposes. Company will provide MSD with the Company's calculation of each of its residential customer's daily winter water usage which is determined quarterly or monthly in the Company's ordinary course of business through meter readings or lawful estimates. Each customer's daily winter water usage will be ascertained from two consecutive meter readings obtained by some combination of either actual readings by Company's personnel, postcard readings mailed in from customers, telephone readings called in from customers, or estimated readings including prorated and "set" readings when the foregoing are unavailable. Data will be from approximately a ninety (90) day period within the winter months of November through April for quarterly billed customers and during approximately a ninety (90)

day period within the winter months of December through March for monthly billed customers, of a given year. Company will inform MSD as to which customers' daily winter water usage readings represent actual or estimated usage and which premises are vacant during this period. MSD is CAUTIONED that estimates which the Company must make when actual meter readings are unavailable may distort actual usage during any specific period, and that this inaccuracy can be significant both when the estimates are used for the usage calculation, and when actual readings correct for previous inaccurate estimates and thus include usage from a prior period. While Company's estimating procedure is self-correcting with continued billing in successive periods, sewer bills based on data from an isolated period affected by estimates will probably not reflect accurate water usage in that particular period. Accordingly, MSD agrees to indemnify, defend and hold Company harmless from any and all claims that sewer bills are based on data which does not reflect actual usage during any specific period.

2. INFORMATION DUE DATES. Company will provide MSD with an annual compilation of all of its residential customers' daily winter water usage within the period limitations described in Paragraph 1, on or about the tenth day of May of each year, commencing May 10, 1993, subject to the conditions of paragraph 6 herein.

3. INAPPLICABLE PSC NOTICE REQUIREMENTS. All notice and complaint procedures specified in 4 CSR 240, and Chapter's 386 and 393 RSMo which apply to customer rights to utility service

from a regulated utility, SHALL NOT APPLY to actions or inactions by Company pursuant to this Agreement or the Company's election to enter into this Agreement. All notice, complaint procedures and administrative consumer remedies, to the extent that they may exist or be alleged to exist, shall be the responsibility of MSD.

4. FEES. The price to be charged to MSD by Company for providing the aforementioned information shall approximate 50% of Company's cost of obtaining the necessary data and shall be set by rate tariff attached hereto as Exhibit "A" which must be approved by the Commission. The charges shall be submitted to the Commission and shall be subject to the Commission's approval or change from time to time in accordance with the provisions of Chapters 386 and 393 RSMo 1992 Supp. Beginning July 1, 1993, and every July 1st thereafter, Company will bill MSD for the previous year's annual cost for work under the tariff approved rates, and MSD will pay Company within 30 days from receipt of such billing. From time to time additional costs may be incurred by Company which may be specifically authorized by MSD on a case by case basis and the Company will be reimbursed by MSD for such costs if said authorization is obtained. If MSD shall fail or refuse to pay amounts due, Company's obligations to deliver data under this Agreement shall cease until such amounts are paid in full, but MSD shall nevertheless be required to pay continuing tariff costs of accumulating the meter readings as described herein for the term of this agreement.

5. INDEMNIFICATION. To the extent allowed by law, MSD agrees to indemnify, defend and hold Company harmless from and

against any and all claims, complaints or causes of actions arising out of any actions or inactions by Company pursuant to the terms of this Agreement or the Company's election to enter into this Agreement.

6. PUBLIC SERVICE COMMISSION APPROVAL. This Agreement shall be subject to approval of the Commission. The parties agree to accept changes in charges set from time to time by the Commission. If any other aspect of this Agreement is objected to, rejected or modified by the Commission, the Company and MSD shall have the option to declare this Agreement void, with the exception of the indemnification requirements which shall survive with respect to any and all actions theretofore taken pursuant to this Agreement during the time it was in force and effect.

7. CUSTOMER COMMUNICATIONS. MSD shall handle all customer communications regarding the implementation of this Agreement or any actions that have been taken pursuant to this Agreement. Communications from customers to Company regarding MSD billings will be referred and directed to MSD, but the Company will respond to reasonable requests for information from MSD to Company to assist MSD in its customer relations.

8. FORCE MAJEURE AND CONFLICTING REQUIREMENTS. Company's actions required under this Agreement shall be excused if due to matters beyond its control, including but not limited to employee work stoppages, strikes, inclement weather, or emergencies requiring utilization of manpower or resources elsewhere. The aforementioned information will cease to be provided if a court of competent jurisdiction or other governmental entity having

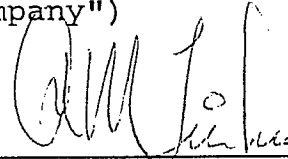

jurisdiction issues an order to the Company so requiring. At such time, Company will relay such order to MSD, and Company will not knowingly take further actions toward providing said information until MSD notifies Company in writing that it has resolved the matter, or that MSD requests that Company nevertheless proceed subject to the indemnification herein contained. Thereafter, MSD shall to the extent allowed by law indemnify defend and hold Company harmless for actions taken by Company based on MSD's notification or request.

9. EXPIRATION OR TERMINATION. This Agreement shall be for a term of two years from July 1, 1993 to July 1, 1995, and from year to year thereafter subject to termination by either party at any time on 30 days written notice.

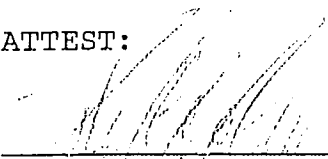

IN WITNESS WHEREOF, the parties hereto have executed this Agreement in duplicate on the day and year first above written.

STATE OF MISSOURI
PUBLIC SERVICE COMMISSION

At a Session of the Public Service
Commission held at its office
in Jefferson City on the 10th
day of August, 1993.

In the matter of the application of St. Louis)
County Water Company for approval of an)
agreement with the St. Louis Metropolitan) Case No. WO-93-349
Sewer District providing for the disclosure)
of customer water usage information.)

ORDER APPROVING AGREEMENT AND TARIFF

On June 23, 1993, the St. Louis County Water Company (Company) filed an Application requesting approval of an Agreement attached thereto as Exhibit A with the St. Louis Metropolitan Sewer district (MSD) providing for the disclosure of customer water usage information. This case was preceded by a similar Application filed in Case No. WO-93-335. MSD proposes to use the information to develop a new billing procedure for residential sewer service based on water usage rather than a flat rate which is currently used. Company makes this Application pursuant to Sections 393.140 and 393.150 RSMo 1986 which give the Commission general jurisdiction over and access to the Company books and records. Company requested an extension of the proposed original tariff on July 22, 1993, to August 15, 1993.

On June 30, 1993, the Commission issued an Order and Notice ordering interested parties to intervene on or before August 2, 1993, and to send notice to newspapers and members of the General Assembly from St. Louis County, Missouri.

Company states that as part of the negotiated Agreement, it would be allowed to collect a fee for providing meter reading information to MSD to allow MSD to bill its customers based on the quantity of water used during the winter months. The rate to be charged for the service is \$1.24 per residential

customer. As part of this Application, Company has filed an original tariff sheet to implement this rate.

On August 5, 1993, the Commission's Staff filed its recommendation that the Commission authorize the Company to enter into this Agreement whereby the Company will provide certain customer water usage information to MSD to allow MSD to implement the new billing system. Staff also recommends that the original tariff sheet filed by Company to implement this Agreement be approved. Staff states that the data furnished by the Company shows that the rate requested is based on one half the cost of providing two meter readings for a residential customer. Staff believes that this data can be confirmed in Company's next rate case. Staff also states that the Missouri Department of Natural Resources (DNR) has encouraged MSD to change its billing practices in conjunction with DNR's State Revolving Loan Fund for waste-water systems.

The Commission determines that there have been no intervenors and no party has requested a hearing; therefore, pursuant to *State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission*, 776 S.W.2d 494 (Mo. App. 1989), the Commission will consider the case based upon the verified Application and attachments. The Commission also determines that Case No. WO-93-335 should be incorporated into this case, as it was filed in anticipation of the Company and MSD reaching the Agreement submitted in this case, and is thereby superseded by the case herein.

Based upon the Application with attachments and Staff's recommendation, the Commission determines that it would be appropriate to authorize Company to enter into the Agreement attached as Exhibit A to the Application and to approve the original tariff sheet as attached to the Application also as Exhibit A. The Commission is of the opinion that the revenue generated for Company from the proposed original tariff will offset Company's own costs of meter reading, and will to that extent, benefit Company's customers. Therefore, the Commission

finds the proposed original tariff to be just and reasonable. Also, approval for the Company to enter into the said Agreement will facilitate the purposes encouraged by DNR.

IT IS THEREFORE ORDERED:

1. That Case No. WO-93-335 be incorporated with this case.
2. That St. Louis County Water Company be hereby authorized to enter into the Agreement with St. Louis Metropolitan Sewer District which is attached to the Application filed herein as Exhibit A.
3. That the following proposed original tariff filed by St. Louis County Water Company on June 23, 1993, be hereby approved for water service rendered on and after August 15, 1993:

Form No. 13 P.S.C. Mo. No. 6 Original Sheet No. RT 14.0

4. That this order shall become effective on August 15, 1993.

MEMORANDUM

TO: Missouri Public Service Commission Official Case File
Case No. WO-93-349

FROM: Bill Sankpill *BLS 8/2/93*
Water and Sewer Department

SUBJECT: Staff's Recommendation Regarding Proposed Agreement Between
The St. Louis County Water Company and the MSD

DATE: August 2, 1993

REVIEWED BY: *Sam Gledanna 8/4/93*
Utility Operations Div/Date

Robert J. Hark
General Counsel's Ofc/Date

On June 23, 1993 the St. Louis County Water Company (Company) filed an application requesting approval of an agreement with the St. Louis Metropolitan Sewer District (MSD) providing for the disclosure of customer water usage information. The Commission assigned Case No. WR-93-349 to this matter.

MSD proposes to use the information to develop a new billing procedure for residential sewer service based on water usage rather than a flat rate which is currently used.

The Company has informed MSD that it cannot disclose the water usage information of Company's customers without permission and approval of the Commission, because such information was acquired by the Company in pursuit of its franchise rights and duties and is confidential. The Company informed MSD that it cannot and should not unilaterally undertake to disclose private information concerning its customers' habits without such permission.

The Company negotiated a formal agreement which is attached as Exhibit B to the application in this case that will allow it to collect a fee for providing meter reading information to MSD to allow MSD to bill its customers based on the quantity of water used during the winter months. The rate to be charged for this service is \$1.24 per residential customer. This rate was also filed in original tariff sheet No. RT 14.0. The data furnished by the Company shows that this rate is based on one half the cost of providing two meter readings for a residential customer. The Accounting Department advises that the data received from the Company is unaudited but the Company is filing another rate case this fall. The rate can be confirmed or a recommendation for change can be made in that case.

I have checked with the Department of Natural Resources (DNR) officials with regard to whether that department had required MSD to bill on a water-use basis. I was informed that MSD had been encouraged to do this in conjunction with DNR's State Revolving Loan Fund for waste-water systems.

The Staff recommends the Commission authorize the Company to enter into this agreement whereby the Company will provide certain customer water usage information to MSD to allow MSD to implement the new billing system. The Staff

also recommends that tariff sheet No. RT 14.0 to become effective on August 15, 1993. This is the date the Company requested the effective date be extended to after filing it to become effective on July 23, 1993.

STATE OF MISSOURI
PUBLIC SERVICE COMMISSION

At a Session of the Public Service
Commission held at its office
in Jefferson City on the 25th
day of January, 1994.

In the matter of the application of St. Louis)
County Water Company for approval of an)
agreement with the St. Louis Metropolitan) Case No. WO-93-349
Sewer District providing for the disclosure)
of customer water usage information.)

ORDER APPROVING AMENDED AGREEMENT

On August 10, 1993, the Commission issued an order approving an agreement between the Applicant, St. Louis County Water Company (Company), and the St. Louis Metropolitan Sewer District, providing for the disclosure of customer water usage information by the Company to the Sewer District for billing purposes.

On December 30, 1993, the Company filed a supplemental application under this docket requesting Commission approval to amend the original agreement. The Company states in its application that the proposed amended agreement allows the Company to provide the Sewer District with all water consumption information as ascertained in the Company's ordinary course of business through meter readings or lawful estimates. The Company gives as a reason for the proposed amendment that the Sewer District, since the inception of the original contract, has determined that the limited winter usage data being provided for residential customers is inadequate for equitable billing.

On January 19, 1994, the Staff of the Commission filed its recommendation in this matter. The Staff stated that the proposed amendment provides for the Company to recover its cost of supplying this information. The Staff, therefore, stated it had no objection to the proposed contractual amendment.

The Company has also filed a proposed tariff covering the increase in its cost of providing the expanded data to the Sewer District. The Staff has reviewed the tariff and recommends that the Commission approve the proposed rate, stating that the Company best knows its cost of providing the expanded service.

The Commission has reviewed the proposed contractual amendment, attached tariff, and the recommendation of the Staff, and is of the opinion that the proposed contractual amendment is reasonable and not detrimental to the public interest and will, therefore, be approved.

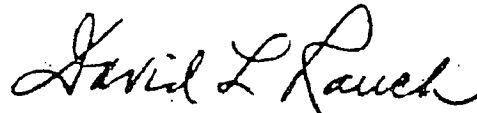

IT IS THEREFORE ORDERED:

1. That St. Louis County Water Company is hereby authorized to amend an agreement between it and the St. Louis Metropolitan Sewer District, approved August 10, 1993 by this Commission, in accordance with its supplemental application, filed December 30, 1993.

2. That St. Louis County Water Company is ordered to file within ten (10) days of the effective date of this order, for approval by the Commission, a revised tariff reflecting the amended charge for the expanded service as set out in the above approved amended agreement.

3. That this order shall become effective on February 4, 1994.

AFFIDAVIT OF THOMAS M. DETERS

1. My name is Thomas M. Deters. I am employed by Missouri-American Water Company ("MAWC") as Manager-Network for MAWC's Eastern Operations, which includes St. Louis County. I am over 18 years of age and have personal knowledge of the facts set forth in this Affidavit.

2. I went to work for St. Louis County Water Company, MAWC's predecessor, in 1987 as a Corporate Accountant and Rates/Internal Auditor. In 1992, I was promoted to the position of Manager, Customer Accounting, and managed the office customer services functions until 1999. At this time, I was promoted to Director of Customer Service, managing all field customer service functions in addition to the office functions. In 2002, I was promoted to Manager of Distribution Operations, becoming responsible for all aspects of the distribution system including all customer service functions as well as all the construction and maintenance activities. In 2004, I was promoted to my current position, Manager-Network, which includes all of my prior responsibilities, plus the added responsibilities of the Eastern Operations including St. Charles and subsequently Warren County and Cedar Hill.

3. As Manager-Network, I am responsible for the day-to-day management and operation of MAWC's water and wastewater operations in the St. Louis area, including the Service Center at 1050 Research Blvd, St. Louis, Missouri 63132. Approximately 408 MAWC employees report to me directly or indirectly, including St. Louis County meter readers. I have ultimate responsibility for the meter reading function in St. Louis County, ensuring that reads are performed on schedule and properly. I also oversee the provision of water usage data to the Metropolitan St. Louis Sewer District ("MSD").

4. MSD has paid MAWC the following amounts for the provision of water usage data since 1999: \$444,059.91 in 1999, \$445,415.75 in 2000, \$447,830.09 in 2001, \$701,860.68 in 2002, \$759,823.74 in 2003, \$756,194.40 in 2004, \$754,900.56 in 2005, and \$766,930.14 (paid or invoiced) in 2006.

5. MAWC spends approximately \$1.8 million annually to read the meters of its St. Louis County customers and collect the water usage data. (Budgeted expenses for 2007 are \$1,792,506.) In addition, MAWC has spent approximately \$35 million to install and maintain its meters throughout St. Louis County.

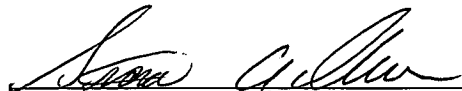

6. The revenue MAWC receives from MSD for water usage data is "above-the-line" – that is, it serves to reduce MAWC's operating expenses and therefore reduces its revenue requirement and corresponding rates to customers.

7. MAWC provides water usage data for a fee to other sewer districts throughout Missouri and to municipal water systems – including City of Mexico, City of O'Fallon, City of Platte Woods, City of St. Charles, City of St. Peters, Duckett Creek Sewer District, East Central Missouri Sewer Authority, and Platte County Regional Sewer District.

Further affiant sayeth not.

Thomas M. Deters

Subscribed and sworn to before me, a Notary Public, on this 12th day of January, 2007.

AGREEMENT

Agreement made this 14th day of February, 2002, by and between ST. LOUIS COUNTY WATER COMPANY d.b.a. Missouri American Water Company, a Missouri Corporation and public utility subject to the jurisdiction of the Missouri Public Service Commission (hereinafter "Company"), and THE METROPOLITAN ST. LOUIS SEWER DISTRICT, a political subdivision established under the Constitution of the State of Missouri (hereinafter "MSD").

WITNESSETH:

WHEREAS, Company provides metered water service to customers in St. Louis County, Missouri; and

WHEREAS, MSD has need of certain water usage and customer identification information on which to base its billings, which said information is accumulated through meter readings and estimates by the Company for its billing purposes; and

WHEREAS, Company is willing to provide to MSD the information aforesaid in exchange for payment by MSD of a portion of the cost of obtaining meter reading data; and

WHEREAS, The Missouri Public Service Commission (hereinafter "Commission"), per Chapter 393 RSMo 1992 Supp., has jurisdiction over the Company's books and records with the ability to authorize release of the information contained therein; and

WHEREAS, Company and MSD desire to enter into a contract detailing the terms and conditions under which the aforementioned information can be provided by Company to MSD, subject to the approval of related tariff by the Missouri Public Service Commission ("Commission").

NOW, THEREFORE, for and in consideration of the payment of ten dollars from each to the other paid, the receipt of which is herewith acknowledged, and for the other good and valuable considerations herein contained, Company and MSD agree as follows:

1. INFORMATION TO BE PROVIDED. Company will provide MSD with its then current list of customers along with the customer's service address including street, City and unit number if appropriate. Because MSD's customer and Company's customer at a specific address may be different individuals or entities, it will be MSD's responsibility to discern from Company's information the appropriate customer and usage data required for MSD's purposes. Company will provide MSD with Account Change and Premise Change information on a weekly basis. Company will also provide MSD with the Company's monthly meter reading data for each of its customer's daily water usage, which is determined quarterly or monthly in the Company's ordinary course of business through meter readings or lawful estimates. Each customer's daily water usage will be ascertained from meter readings obtained by some combination of either actual readings by Company's personnel, postcard readings mailed in from customers, telephone readings called in from customers, or estimated readings including prorated and "set" readings when the foregoing are unavailable. Data will be from approximately a ninety (90) day period for quarterly billed customers and during approximately a thirty (30) day period for monthly billed customers of a given year. Company will inform MSD as to which customers' meter reading data represent actual or estimated usage and which premises are vacant during this period. MSD is CAUTIONED that estimates which the Company must make when actual meter readings are unavailable may distort actual usage during any specific period, and that this inaccuracy can be significant both when the estimates are used for the usage calculation and when actual readings correct for previous inaccurate estimates and thus include usage from a prior period. While Company's estimating procedure is self-correcting with continued billing in successive periods, sewer bills based on data from an isolated period affected by estimates will probably not reflect accurate water usage in that particular period. Accordingly, to the extent allowed by law, MSD agrees to indemnify, defend and hold Company harmless from any and all claims that sewer bills are based on data, which does not reflect actual usage during any specific period provided said data was not purposely falsified or the result of gross negligence on the part of the company.

2. INFORMATION DUE DATES. Company will provide MSD with a monthly compilation of all of its customers' meter reading data within the period limitations described in Paragraph 1, on or about the fifth working day of the following month, commencing December 1, 2001, subject to the conditions of paragraph 6 herein.

3. INAPPLICABLE PSC NOTICE REQUIREMENTS. All notice and complaint procedures specified in 4 CSR 240, and Chapter's 386 and 393 RSMo which apply to customer rights to utility service from a regulated utility, SHALL NOT APPLY to actions or inactions by Company pursuant to the Agreement or the Company's election to enter into this Agreement. All notice, complaint procedures and administrative consumer remedies, to the extent that they may exist or be alleged to exist shall be the responsibility of MSD.

4. FEES. The price to be charged to MSD by Company for providing the aforementioned information shall approximate 50% of Company's cost of obtaining the necessary data and shall be set by rate tariff attached hereto as Exhibit "A", which must be approved by the Commission. The charges shall be submitted to the Commission and shall be subject to the Commissions approval or change from time to time in accordance with the provisions of Chapters 386 and 393 RSMo 1992 Supp. Beginning November 1, 2001, and every month thereafter, upon implementation of the Company's new ORCOM system, Company will bill MSD for the previous month's cost for work under the tariff approved rates, and MSD will pay Company within 30 days from receipt of such billing. From time to time additional costs may be incurred by Company, which may be specifically authorized by MSD on a case by case basis, and the Company will be reimbursed by MSD for such costs if said authorization is obtained. If MSD shall fail or refuse to pay amounts due, Company's obligations to deliver data under this Agreement shall cease until such amounts are paid in full, but MSD shall nevertheless be required to pay continuing tariffs costs of accumulating the meter readings as described herein for the term of this agreement.

5. INDEMNIFICATION. To the extent allowed by law, MSD agrees to indemnify, defend and hold Company harmless from and against any and all claims, complaints or causes of actions arising out of the actions or inactions by Company pursuant to the terms of this Agreement or the Company's election to enter into this Agreement.

6. PUBLIC SERVICE COMMISSION APPROVAL. The tariff related to this agreement shall be subject to approval of the Commission and the implementation of the Company's new ORCOM system. The parties agree to accept changes in charges set from time to time by the Commission. If any other aspect of this Agreement or the related tariff are objected to, rejected or modified by the Commission, the Company and MSD shall have the option to declare this Agreement void, with the exception of the indemnification requirements which shall survive with respect to any and all actions theretofore taken pursuant to this Agreement during the time it was in force and effect.

7. CUSTOMER COMMUNICATIONS. MSD shall handle all customer communications regarding the implementation of this Agreement or any actions that have been taken pursuant to this Agreement. Communications from customers to Company regarding MSD billings will be referred and directed to MSD, but the Company will respond to reasonable requests for information from MSD to company to assist MSD in its customer relations.

8. FORCE MAJEURE AND CONFLICTING REQUIREMENTS. Company's actions required under this Agreement shall be excused if due to matters beyond its control, including but not limited to employee work stoppages, strikes, inclement weather, or emergencies requiring utilization of manpower or resources elsewhere. The aforementioned information will cease to be provided if a court of competent jurisdiction or other governmental entity having jurisdiction issues an order to the Company so requiring. At such time, Company will relay such order to MSD, and Company will not knowingly take further actions toward providing said information until MSD notifies Company in writing that it has resolved the matter, or that MSD requests that Company nevertheless proceed subject to the indemnification herein

contained. Thereafter, MSD shall to the extent allowed by law indemnify defend and hold Company harmless for actions taken by Company based on MSD's notification or request.

9. EXPIRATION OR TERMINATION. This Agreement shall be for a term of two years from December 1, 2001, to December 1, 2003, and from year to year thereafter subject to termination by either party at any time on 30 days written notice.

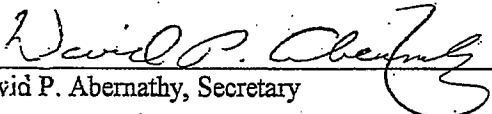

IN WITNESS WHEREOF, the parties hereto have executed this Agreement in duplicate on the day and year first above written.

ORDER APPROVING AGREEMENT AND APPROVING TARIFF

On March 11, 2002, Missouri-American Water Company (MAWC) filed an application seeking approval of an agreement between itself and the St. Louis Metropolitan Sewer District (MSD). Along with its application, MAWC issued tariff revisions designed to implement the agreement. The tariff carries an effective date of April 11, 2002.

On April 2, 2002, the Staff of the Commission filed a Memorandum and Recommendation in which it recommends that the Commission approve the proposed agreement between MAWC and MSD, but suspend MAWC's implementing tariff until an executed copy of the agreement between MAWC and MSD is filed with the Commission.

The agreement between MAWC and MSD relates to the provision of meter reading data by MAWC to MSD, which is the sewer service provider to many of MAWC's customers. MSD uses this meter reading data to bill its sewer customers. A similar agreement is already in place between MAWC and MSD but the revised agreement will permit the use of more detailed – weekly and monthly rather than quarterly – information.

IT IS THEREFORE ORDERED:

1. That Missouri-American Water Company's application for approval of an agreement between itself and the St. Louis Metropolitan Sewer District is granted.

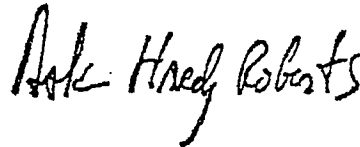

2. That the tariff sheets issued on March 11, 2002, by Missouri-American Water Company, and assigned Tariff No. 200200757, are approved to become effective on April 11, 2002. The tariff sheets approved are:

PSC Mo. - No 6

Fourth Revised Sheet No. RT14.0, Replacing Third Revised Sheet No. RT14.0
Fourth Revised Sheet No. RT16.0, Replacing Third Revised Sheet No. RT16.0

3. That this order shall become effective on April 11, 2002.

ORDER APPROVING AGREEMENT AND APPROVING TARIFF

On March 11, 2002, Missouri-American Water Company (MAWC) filed an application seeking approval of an agreement between itself and the St. Louis Metropolitan Sewer District (MSD). Along with its application, MAWC issued tariff revisions designed to implement the agreement. The tariff carries an effective date of April 11, 2002.

On April 2, 2002, the Staff of the Commission filed a Memorandum and Recommendation in which it recommends that the Commission approve the proposed agreement between MAWC and MSD, but suspend MAWC's implementing tariff until an executed copy of the agreement between MAWC and MSD is filed with the Commission.

The agreement between MAWC and MSD relates to the provision of meter reading data by MAWC to MSD, which is the sewer service provider to many of MAWC's customers. MSD uses this meter reading data to bill its sewer customers. A similar agreement is already in place between MAWC and MSD but the revised agreement will permit the use of more detailed – weekly and monthly rather than quarterly – information. Staff's recommendation indicates that the revised agreement benefits all affected parties. MAWC benefits in that it is compensated for the meter reading service that it provides for MSD, thereby reducing the meter reading costs paid for by its customers. MSD benefits in that it does not have to incur costs to read meters and perform duplicative reading functions for its

billing system. The tariff revision accompanying the application changes the rates that MAWC will charge MSD for providing the meter reading data to more closely approximate one half of MAWC's total meter reading costs. The revised tariff rates will generate approximately \$228,000 in additional revenue for MAWC.

While Staff recommends that the Commission approve the agreement between MAWC and MSD, it recommends that the Commission suspend MAWC's proposed tariff revision for a period of 60 days to permit MAWC to file a copy of the executed agreement with the Commission. Staff indicates that it does not object to the tariff as filed except that the tariff should not be approved until MAWC has filed an executed copy of the agreement. Staff indicated that this proposed suspension of the tariff is intended to prevent MAWC's tariff from going into effect before the revised agreement is effective.

MAWC filed a response to Staff's recommendation on April 8, 2002. MAWC indicates that its agreement with MSD was executed on February 14, 2002. MAWC attached an executed copy of the agreement to its response.

Staff's recommendation that the agreement between MAWC and MSD be approved is reasonable. Furthermore, with MAWC having filed an executed copy of the agreement, there is no longer any reason to suspend MAWC's proposed tariff. Therefore, the agreement between MAWC and MSD, and MAWC's accompanying tariff, will be approved.

IT IS THEREFORE ORDERED:

1. That Missouri-American Water Company's application for approval of an agreement between itself and the St. Louis Metropolitan Sewer District is granted.
2. That the tariff sheets issued on March 11, 2002, by Missouri-American Water Company, and assigned Tariff No. 200200757, are approved to become effective on April 11, 2002. The tariff sheets approved are:

PSC Mo. - No 6

Fourth Revised Sheet No. RT14.0, Replacing Third Revised Sheet No. RT14.0
Fourth Revised Sheet No. RT16.0, Replacing Third Revised Sheet No. RT16.0

3. That this order shall become effective on April 11, 2002.

Mr. David Abernathy
Vice President, Corporate Counsel
Missouri-American Water Company
535 N. New Ballas Road
St. Louis, Missouri 63141

Dear David:

The Metropolitan St. Louis Sewer District ("MSD") currently has an agreement with Missouri American Water ("MO-AM") whereby MO-AM provides MSD with customer and water usage data so that it may effectively bill County of St. Louis customers for sewer services.

This agreement expires as of December 31, 2003. Consequently, I hereby respectfully request renegotiation discussions between both parties commence as soon as possible.

I may be reached at 314-768-6209 and look forward to working with you on this matter.

Sincerely,

**RE: Water Data Usage Contract between Metropolitan St. Louis Sewer
District ("MSD") and Missouri American Water ("MAW")**

Dear Randy:

I am in receipt of your letter of September 16, 2003 in regard to the above-mentioned contract in which MSD expresses a desire to terminate the same via modification of the terms contained therein. As we discussed, MAW is also desirous of negotiating new contract terms to allow for the continued availability of our water usage and customer information data to MSD. Consequently, this letter shall serve as MAW's notice of intent to terminate the current water usage data contract between the parties as of December 31, 2003 and to express our willingness to negotiate new terms and conditions acceptable to the parties.

I will contact you shortly to arrange for meeting times and/or discussions on these issues. I thank you in advance for your assistance and interest in assisting with this matter. Please feel free to contact me should you have any questions or concerns.

Sincerely,

David P. Abernathy
Vice President, General Counsel
& Secretary

Re: Data and Termination Contract with
Missouri-American Water Company

Dear Mr. Hayman:

Thank you for discussing this contract matter with David and myself. I apologize for the delay in providing this to you, but David has been preoccupied with the press of other business.

Please understand that while we do not wish to be, or appear to be uncooperative, there is nothing of advantage to Missouri-American in this arrangement. It is essentially for the benefit of MSD, and carries with it both complications and exposure for Missouri-American. Accordingly, it is necessary for us to assure that the agreement contains the necessary protections and assurances for the Company. We have tried to use the terms and characterizations from your draft when possible, including differentiating between the one quarter of data that you plan to use in your billings, and the other data that you will need to access when necessary. But the concept of pricing data on a "per item" basis is not consistent with MSD's need to have access to all data when necessary. Accordingly, we have gravitated toward a "flat fee" concept. The amounts are not stated in this draft, but will be incorporated in the tariffs rather than in the contract language itself.

The following is an attempt to explain the substantive changes to Ms. Grady's draft, by our paragraph numbers in the attached draft:

Recitals:

The Company does not serve all of St. Louis County, but only "certain" customers. For example, Kirkwood has its own supply system.

Randy E. Hayman
February 18, 2004
page 2

The reference to "actual cost" is not accurate, as we have apparently departed from the previous determination of price, which was based on a percent of such "actual costs" and then reduced to a per-reading charge by a 50% factor. The math doesn't work anymore.

Finally, we do not believe that the Commission has the authority to "compel" the release of customer information. We are aware of the statutory reference to the provision of data to MSD, but in the unfortunate situation where we could not agree between ourselves to terms of an agreement, the courts would have to do any "compelling," and then the Commission would set the prices. This is a technical point, but one of considerable concern to us in other matters.

SECTION I

Paragraph 1:

It was necessary to identify the use of a "Premises Number" for us to be able to talk to each other about a specific address. This is not a change to what is apparently being done now, but other words have different meanings to us, and this number, once assigned, will work for us both.

A definition of "water usage data" was necessary both for practicality, and to insure that confusion over the issue we discussed does not develop. In other words, "water usage data" from January to April is not the water used during that period, but rather the readings taken during that period. Note also, that while "water usage data" is consumption, all other information to be provided that is itemized in this section, is also divided into that information that is relative to the three months and that which is relative to all other months.

Paragraph 2:

We do not have an understanding with regard to your access to data for the nine months other than January through April. The \$.54 was "backed-out" of total actual costs for twelve month's of readings, and this price does not logically apply if you want less data. This paragraph addresses that issue, and clarifies what we think you expect to get. If this is wrong, we need to clarify it further. The price for data will be set by the Commission approved tariff that will be attached to the Agreement. Hopefully, you and David can agree on something to present to the Commission. We have moved toward a flat fee, as this seems to us to be the most practical solution to the pricing and availability dilemma.

Paragraph 3:

Subparagraph A was in our earlier agreement, and B protects us from any contention that we are somehow involved in your interpretations of your own ordinances. It is none of our business how you interpret the ordinance, but you should not have a problem with our clarification of what data you are actually getting.

Randy E. Hayman
February 18, 2004
page 3

Paragraph 4:

We expect to be able to deliver this data earlier, as we have apparently been doing all along. If you have had problems with this in the past, we can address this further.

Paragraph 5:

This puts the price issue in tariffs that will be attached. When the tariffs change, the contract will not have to be rewritten.

SECTION II

Paragraphs 1 through 7:

These are from our earlier agreement. These are necessary sections and there is no reason to omit them, as they have not caused any problems of which we are aware. We need to know how to address these specific issues, and if you have problems with what the language says we should change it, and not simply leave it unsaid.

SECTION III

Paragraph 1:

Boilerplate.

Paragraph 2:

Section 319.015 requires the District to indemnify the Company for its negligent acts, but then states that there should be no exposure for anything else. You have used this language in your draft, but acknowledging what the statute says does not speak to the need for a defense of claims.

As you know, the negligence indemnification has been expanded to all acts by SB 1120. Regardless of whether exposure is limited to negligence or is unlimited, someone has to defend all claims, whether negligence is alleged or not. This is consistent with the new law also. This is indeed one-sided, but so is the entire Agreement. We need some protection from suits, and it is not reasonable to expect us to pay the costs of providing these services to the District.

This language protects you against allegations that you did something "illegal" by agreeing to an indemnification, and still allows you to either step-up in a lawsuit, insure ahead of time, or we can avoid further exposures. Since both the present and proposed law require indemnification, the legality of contracting for it should not be problematical. But if you find this unacceptable, you will have to find something to provide us with some protections, or else we would have to make the agreement sufficiently profitable to allow the Company to provide its own protections. Incidentally, similar language has been in the earlier agreement since 1993.

Randy E. Hayman
February 18, 2004
page 4

Paragraph 3:

This states the fact that we can do very little without the Commission having the ability to change it, stop it or re-price it.

Paragraph 4:

This is again about the Company not wanting to inherit your customers' complaints. As you request less data, you increase the likelihood that this will overflow onto our service center, and we need to understand that we are unwilling to do that. And if you choose to not acquire the data to address billing inquiries related to the other nine month's of data, we do not agree that this becomes our problem. Your finance people have an opinion about this which we believe is unrealistic.

Paragraph 5:

This eliminates the applicability of PSC notice and complaint procedures, something neither of us would find productive.

Paragraph 6:

Boilerplate

Paragraph 7:

Since any money we receive from MSD will be a reduction to our cost of service calculations in our own water rates, we need some certainty that the money will be there until we can get the rates adjusted to fill in any loss. Accordingly, the agreement is year-to-year and terminable by MSD only on anniversaries.

Finally, the Tariffs are intended to recite the charges, as they may change from time to time. The flat fee seems to solve many problems for both of us, but if you insist on a per-reading amount, it will not likely be the .54 cents, as there is little justification for that number anywhere.

After you can review this, discuss it with David and he will let me know if he needs anything further from me. Again, thanks for your patience and cooperation, and I apologize for any confusion that may have been the result of my own misunderstandings.

Very truly yours,

Richard T. Ciottone

Cause No. 05CC-00367-1
Div. 38

JOAN M. GILMER
Circuit Clerk, ST. LOUIS COUNTY

JUDGMENT OF DISMISSAL

Cause called and heard on Respondent Missouri American Water Company's and Intervener Missouri Public Service Commission's Motions to Dismiss. Parties appear by counsel. The Court, being fully apprised, finds that primary jurisdiction of this matter rests with the Missouri Public Service Commission and that, until such time as the matter has been heard by said Commission, this Court lacks jurisdiction to act.

Plaintiff METROPOLITAN ST. LOUIS SEWER DISTRICT'S Petition for Declaratory Relief is dismissed, without prejudice. Court costs assessed against Plaintiff.

SO ORDERED:

Judge Ellen Levy Siwak, Division 38 4-24-06

Copy to: ✓ Byron Francis, Attorney for Metropolitan St. Louis Sewer District
✓ Eric Martin and William England, Attorneys for Missouri-American Water Co.
✓ Lera L. Shemwell, Attorney for Missouri Public Service Commission

FOR: Staff of the Missouri Public Service Commission

1 historically in both company's and Staff's case.

2 COMMISSIONER MURRAY: So for annual dollar
3 amount, there was no change?

4 MR. ENGLAND: That's my understanding.

5 COMMISSIONER MURRAY: Is that the
6 understanding of the district?

7 MR. DEFORD: Not exactly, your Honor. What
8 Mr. England said is absolutely true. What the current
9 tariff did is reflect a per account read. And what happened
10 apparently was they quantified that for a period -- I guess
11 the test year with a true-up and then turned that into a
12 flat rate and plugged that into a tariff sheet.

13 I guess what the sewer district would point
14 out is that I don't believe that this is a charge for either
15 water service or sewer service, so I believe that these are
16 non-jurisdictional revenues, but I don't think this has
17 really anything to do with, you know, the rate case and
18 submission of those contracts in the past for Commission
19 approval.

20 I think it may have been appropriate, but it
21 nonetheless -- and, again, agreeing with Mr. England, I
22 don't think this raises the spectra of single-issue
23 rate-making because this is non-jurisdictional revenue.
24 This is not something that the company needs to put in a
25 tariff or for that matter, should be in a tariff. So I

1 suppose, you know, this is kind of a unique circumstance.

2 The company is statutorily entitled to the
3 data that we're seeking here upon reasonable request. And I
4 think that it's appropriate to compensate the company for
5 that data, but again, I don't believe that it's appropriate
6 or necessary to put that charge in a tariff.

7 MR. HAYMAN: If I may add too, your Honor, I
8 think it's important to note that, yes, the \$760,000 was the
9 status quo up until about August or September of '03. At
10 that point, we began negotiating, put them on notice that we
11 wanted less information, we're narrowing down and
12 fine-tuning our request. And with that, logically there
13 should be a lesser cost involved. And that's what we have
14 been trying to negotiate in good faith since September of
15 '03.

16 COMMISSIONER MURRAY: All right. And then,
17 Mr. England, in relation to the Stip and Agreement and the
18 revenue requirement that was calculated in the Stip and
19 Agreement, is it the company's position that the Stip and
20 Agreement is still just and reasonable and acceptable to the
21 company absent these two tariff sheets?

22 MR. ENGLAND: Yes.

23 COMMISSIONER MURRAY: And then I just have a
24 couple questions related to the statute that allowed -- that
25 deals with sewer district requests for records and books.

1 And I guess I'll ask the company to respond and the sewer
2 district as well.

3 But 249.645 provides that any private water
4 company, and I'll leave out some words, supplying water to
5 premises located within a secure district shall, upon
6 reasonable request, make available to such sewer district
7 its records and books so that such sewer district may obtain
8 therefrom such data as must be necessary to calculate the
9 charges for sewer service.

10 It doesn't -- that statutory reference doesn't
11 say anything about charging for making those records
12 available. Where do you get the authority to charge for
13 that?

14 MR. ENGLAND: I'm sorry. Is that directed to
15 the company?

16 COMMISSIONER MURRAY: Mr. England.

17 MR. ENGLAND: I believe Mr. DeFord pointed out
18 that it's conditioned upon reasonable request. And we would
19 believe that a reasonable request would include a request to
20 compensate the company for that information.

21 COMMISSIONER MURRAY: Okay. And that's how
22 both of you have been interpreting it. Is that correct,
23 Mr. DeFord?

24 MR. DEFORD: We'd love to have it for free,
25 but I do think a reasonable request would include some

1 compensation to the company.

2 COMMISSIONER MURRAY: Okay. And then any
3 costs related to disconnection and reconnection addressed in
4 250.236, the statute there specifically sets out that those
5 costs shall be reimbursed to the private water company by
6 the city. But there's nothing in there about how those
7 costs are calculated. Is that based on just actual costs of
8 connecting and reconnecting, or do you know?

9 MR. ENGLAND: I think historically we've tried
10 to base it on our actual costs.

11 COMMISSIONER MURRAY: Thank you.
12 Thank you, Judge.

13 JUDGE THOMPSON: Yes, ma'am.

14 To follow up on what Commissioner Murray was
15 just asking, those connection and reconnection costs, is
16 that what we see on Tariff Sheet RT-15?

17 MR. ABERNATHY: Yes, that's right.

18 JUDGE THOMPSON: And those certainly are
19 jurisdictional charges, are they not?

20 MR. ABERNATHY: I believe so, sure.

21 JUDGE THOMPSON: Okay.

22 MR. DEFORD: We would agree that those are
23 pursuant to I think 393.015.

24 JUDGE THOMPSON: What is it that you guys
25 object to about RT-15? Just the amount of the charges?

1 dispute between them.

2 JUDGE THOMPSON: Very good. I think that's
3 acceptable.

4 MR. HAYMAN: And the district will make every
5 effort to do it quicker than 90 days.

6 JUDGE THOMPSON: That's fine. Well, you're
7 all here in town so you can start today. If there's nothing
8 else --

9 COMMISSIONER MURRAY: Just one thing.

10 JUDGE THOMPSON: Yes, Commissioner.

11 COMMISSIONER MURRAY: Assuming worst case
12 scenario and there's no agreement and the parties can't
13 agree, can the company refuse to make available those
14 records?

15 MR. HAYMAN: No. Absolutely not. Because the
16 language in the statute says they shall provide us with that
17 information.

18 COMMISSIONER MURRAY: Okay.

19 MR. HAYMAN: And while we do -- you know, in
20 the past we have paid for and we believe that that is fair,
21 when it says upon reasonable request, that does not
22 necessarily state, and I haven't seen case laws meaning that
23 that means we do have to, in fact, pay for it.

24 Upon reasonable request means it's a timely
25 request, not too voluminous to be overwhelming and

1 burdensome. So the bottom line is they do have to provide
2 us with the information.

3 COMMISSIONER MURRAY: And what's the history
4 of this? How long has this gone on, do you know?

5 MR. HAYMAN: At least since I believe '83.

6 MR. ABERNATHY: I think it was actually '93.

7 MR. HAYMAN: '93. I'm sorry.

8 COMMISSIONER MURRAY: And the history is that
9 there has been a contractual agreement including a fee for
10 doing so?

11 MR. HAYMAN: That's correct. That's correct.
12 And as long as it's reasonable, we're in line with that.

13 COMMISSIONER MURRAY: Thank you.

14 JUDGE THOMPSON: Anything more?

15 Hearing nothing further, we are adjourned.
16 Thank you all very much.

17 WHEREUPON, the hearing was adjourned.

Subject: RE: White Paper on MOAM Water consumption

I've got your suggested changes, and will incorporate them into the final draft. I will try to have this updated version to you before the Thanksgiving holiday.

By the way, I'm still waiting on a price per square foot for inclusion in the lease. Any update on when I'll get that from Jan?

-----Original Message-----

Cc: Jan Zimmerman
Subject: White Paper on MOAM Water consumption

Rich,

Jan and I have reviewed your paper and at this time look at this as a draft and not the final deliverable. There are a couple of issues we feel need to be addressed a bit more thoroughly or changed slightly before Jan will consider this to be a final product.

- 1) We would like you to address the data issues related to commercial accounts and the information which would be needed on a monthly basis. The way the paper is currently written it appears MSD only has residential accounts.
- 2) Need to change your stance on the statute as it relates to MOAM providing the data. Our legal counsel has advised us that since the statute does not prohibit them from charging us the data it is assumed they can charge us a reasonable amount.
- 3) Enhance the section on rates and how it should be calculated. (i.e. 50% of actual cost to acquire the data vs. providing the data.) per data hit vs. flat fee. How was their current rate of .54 per data hit determined to be reasonable.

Please call me if you need any further clarification. Jan will be out beginning Friday until after the Thanksgiving weekend so if you have any questions please contact me at 314-768-6229.

We are on a very tight timeframe. If you can have your revisions to us by the 12/5/03 that would be great.

Please contact me.

Theresa

MEMORANDUM

TO: Missouri Public Service Commission Official Case File
Case No. WO-2002-431 (Tariff File No. 2002 00757)
Missouri-American Water Company

FROM: Wendell R. Hubbs - Water & Sewer Department

[Signature]
4/1/02

[Signature] 4/1/02
Project Coordinator/Date

[Signature] 4/2/02
General Counsel's Office/Date

SUBJECT: Staff Recommendation Regarding Application for Approval of Agreement
and Tariff

DATE: April 2, 2002

On March 11, 2002, Missouri-American Water Company (Company) filed an *Application for Approval of Agreement and Tariff* (Application) with the Missouri Public Service Commission (Commission) for its St Louis County Water Company service territory. The purpose of the filing is to obtain Commission approval of an "Agreement", to be entered into by the Company with the St. Louis Metropolitan Sewer District (MSD). Also sought is the Commission's approval of certain tariff revisions setting forth the rates the Company wishes to bill the MSD pursuant to the terms of the Agreement.

The Agreement in question is essentially the same as one previously approved by the Commission related to the provision of meter reading data to the MSD, which is the sewer service provider to many of the Company's customers. The MSD uses this meter readings data to bill its sewer customers. The changes in the Agreement allow for more detailed (weekly and monthly rather than quarterly) information to be provided to the MSD. This weekly and monthly information is now available because of the implementation of the Company's new billing system (ORCOM).

The Staff has reviewed the Agreement that the Company submitted with its Application and does not object to the Commission authorizing the Company to enter into the Agreement with the MSD. (The parties have not yet signed the Agreement.) The Agreement is to the benefit of all affected parties. The Company benefits in that it is compensated for the meter reading service it provides for the MSD, which reduces the meter reading costs that are paid for by its customers. The MSD benefits in that it does not have to incur costs to read meters and perform duplicative reading functions for its billing system. The Company's customers who receive service from both systems benefit from the economies generated by not having to pay the costs of two meter-reading systems and benefit from having a more equitable sewer billing system.

MO PSC Case No. WO-2002-431
Official Case File Memorandum
April 2, 2002 - Page 2 of 2 Pages

Contained in the proposed Agreement is the provision that the Company will bill the MSD to recover certain monies, which are to represent 50% of the Company's meter-reading costs. Currently, the recovery of these monies is provided for in the Company's tariff. As a result, the Company is also seeking approval of revised tariff sheets under which it proposes to change the billing mechanism and rates applicable for the meter reading service it provides to the MSD. This proposed rate change to the MSD will affect recovery on a "per account read" basis, rather than an annual amount per type of customer. This new recovery mechanism and rate will generate approximately \$228,000 greater revenue than the existing MSD rates. This additional amount of revenue serves to bring the MSD's contribution to the meter reading costs to a figure that is more currently representative of approximately one-half of the Company's total meter reading costs.

The Staff has reviewed the tariff sheets filed in this case, which bear an effective date of April 11, 2002, and it does not object to the Commission approving the tariff sheets as filed; however, this should not be done until an executed copy of the Agreement is filed in the case papers. The Staff has determined that the monies that would be charged the MSD pursuant to the proposed tariff sheets, will recover approximately 50% of the Company's meter reading costs. This cost has increased since the MSD rate was set because of increased meter reading costs incurred since 1992.

Based on the above, the Staff recommends that the Commission issue an order that:

- 1) Authorizes the Company to enter into the Agreement with the MSD, with the Agreement to be in substantial form as the one that was filed with the Application;
- 2) Directs the Company to file a copy of the executed Agreement in the case papers within ten days after such is available; and
- 3) Suspends the pending tariff revisions for a period of sixty days to allow time for the Company and the MSD to execute the Agreement and for the Company to file a copy of the executed Agreement in the case papers. (The Staff will monitor the progress of these signing and filing activities and will advise the Commission if further suspension of the tariff revisions is needed.)

Subsequent to the filing of the executed Agreement, the Staff will file its recommendation regarding the Commission's approval of the pending tariff revisions, including a recommended effective date for the tariff revisions.

Respondent.)

Case No. WC -2007-0040

**COMPLAINANT'S ANSWERS AND OBJECTIONS TO RESPONDENT'S
FIRST SET OF DATA REQUESTS**

COMES NOW Complainant, Metropolitan St. Louis Sewer District ("MSD"), and for its answers and objections to Respondent's First Set of Data Requests, states as follows:

GENERAL OBJECTIONS

1. MSD objects to Respondent's First Set of Data Requests to the extent that they call for disclosure of information or communications which are protected by the attorney-client privilege or any other applicable privilege, or to the extent that any such materials and documents are otherwise exempted from discovery.
2. MSD objects to Respondent's First Set of Data Requests to the extent that they call for the disclosure of mental impressions, conclusions, opinions or legal theories of any attorney or other representative as such documents and materials are exempt from discovery. MSD likewise objects to the Interrogatories to the extent that they constitute or include materials under the work product doctrine.
3. MSD objects to Respondent's First Set of Data Requests to the extent that they call for disclosure of information or documents of a confidential or proprietary nature, including documents and materials that contain sensitive business, financial, and/or production information.

4. MSD objects to Respondent's First Set of Data Requests to the extent that they are vague, overly broad or ambiguous.

5. MSD objects to Respondent's First Set of Data Requests to the extent that they seek information or communications which are irrelevant and immaterial to the issues in this action, and which are not reasonably calculated to lead to the discovery of admissible evidence, which are unduly burdensome and oppressive, and would cause undue time and expense to MSD which is not commensurate with Respondent's discovery needs.

6. MSD objects to Respondent's First Set of Data Requests to the extent that they attempt to impose obligations in addition to those provided by the Missouri Rules of Civil Procedure or 4 CSR 240-2.090.

7. MSD reserves the right to amend or supplement these answers to reflect information gathered in discovery, if they find that inadvertent errors or admissions have been made, and/or more accurate information becomes available at a later date.

The following responses reflect MSD's best present knowledge, information and belief based on a reasonably diligent search for responsive documents. MSD reserves the right to change, modify or supplement these answers based on further discovery or on facts or circumstances that hereafter may come to MSD's knowledge and attention. Nothing in these responses should be construed as waiving any rights or objections that otherwise might be available to MSD, and MSD's answer to any of these Data Requests should not be deemed an admission of relevancy, materiality, authenticity or admissibility in evidence of the discovery or the responses thereto.

DATA REQUESTS

1. Does MSD acquire usage data from any water district or private water company in Missouri other than MAWC? If so, identify each such water district and state the amount the

MSD pays annually for acquisition of such data. Attach copies of all such data acquisition agreements.

ANSWER:

MSD does not acquire usage data from any water district or private water company in Missouri other than MAWC. It does acquire information from the City of St. Louis. However, the City of St. Louis is not a water district or private water company.

2. Does MSD know of any other sewer district in Missouri that acquires water usage data from a water district or a private water company? If so, identify each such sewer district(s) and the water district(s) or private water company (ies) from which it acquires usage data, and state whether each such sewer district pays a charge for such usage data, and the annual amount of such charge.

ANSWER:

No.

3. Please describe in detail the manner in which MSD employs the water usage data it currently receives from MAWC in order to generate sewer bills for its customers.

OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence.

4. Does MSD use the water usage data it currently receives from MAWC for any purpose other than generating sewer bills for its customers? If so, describe in detail such use.

ANSWER:

No.

5. How much would it cost MSD to install meters at the premises of each of its St.

Louis County customers?

OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence.

6. How much would it cost MSD annually to read meters for each of its St. Louis County customers?

OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence.

7. Has MSD prepared cost analyses, including capital and operating expenses, that detail the costs of installing meters and collecting metered water usage data from its customers? If so, state the date and attach copies of each such cost analysis?

OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence.

8. If MSD is successful in eliminating or reducing the charges it pays to MAWC for water usage data, will MSD pass those savings along to its customers by decreasing its rates?

OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence.

9. Please describe in detail the reason(s) why MSD bills its St. Louis County customers based on metered water usage, whereas its charges to St. Louis City customers are not based on metered water usage.

OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence.

10. Is there any statute, rule, regulation or case law that requires MSD to bill its St. Louis County customers based on metered water usage?

OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence. In addition, MSD objects to this data requests as it calls for a legal conclusion.

11. Given MSD's allegation in its Complaint that "MAWC's conduct in charging MSD for the Water Usage Data is unreasonable and illegal" and that "MAWC's charging of a fee for the Water Usage Data constitutes a violation of Section 249.645.1 RSMo," is MSD contending that the Public Service Commission violated the law when it approved a tariff requiring MSD to pay a fee for the acquisition of water usage data?

ANSWER AND OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence. In addition, MSD objects to this data requests as it calls for a legal conclusion. Subject to said objection, and without waiving same, MSD is not contending that the

Commission violated the law when it approved the tariff. The tariff was approved based upon a contract between MSD and MAWC which has now expired. As MAWC and the Commission are aware, in its most recent rate case, MAWC attempted to circumvent the law by attempting to have the Commission approve a new tariff without a contract between the parties, which the Commission refused to do following MSD's intervention and objection.

12. Given MSD's allegation in its Complaint that "MAWC's conduct in charging MSD for the Water Usage Data is unreasonable and illegal" and that "MAWC's charging of a fee for the Water Usage Data constitutes a violation of Section 249.645.1 RSMo," why did MSD sign a contract in 2002 wherein it agreed to pay a fee for the water usage data? Furthermore, why has MSD paid a fee since 1999, when Section 249.645.1 RSMo became applicable to MSD?

ANSWER AND OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence. In addition, MSD objects to this data requests as it calls for a legal conclusion. Subject to said objection, and without waiving same, MSD has always acknowledged that the statute in question is silent with respect to whether the sewer district is required to pay for the water usage data and that there is a justiciable issue whether it was required to pay for such data. As a result, after weighing the possibility of being refused such data or paying a reasonable sum for such data, it entered into a contract with St. Louis County Water Company on terms which were favorable to both parties. It then entered into a subsequent contract with MAWC in 2002 for like reasons. In light of its most recent demands regarding compensation, MAWC has now placed MSD in the position of being required to institute this proceeding.

13. Given MSD's allegation in its Complaint that "MAWC's conduct in charging

MSD for the Water Usage Data is unreasonable and illegal” and that “MAWC’s charging of a fee for the Water Usage Data constitutes a violation of Section 249.645.1 RSMo,” why did MSD assert in an April 15, 2004 filing before the Public Service Commission (Application for Rehearing or Reconsideration and Opposition to Motion for Expedited Treatment of Metropolitan St. Louis Sewer District) that the amount of the fee should be negotiated between MSD and MAWC, rather than assert that the data should be provided free of charge?

ANSWER AND OBJECTION:

MSD objects to this data request as it calls for information which is totally irrelevant and immaterial to the issues in this case and is not reasonably calculated to lead to the discovery of admissible evidence. In addition, MSD objects to this data requests as it calls for a legal conclusion. Subject to said objection, and without waiving same, see response to Data Request No. 12. In addition, MSD has taken such position throughout its negotiations with MAWC and, in fact, one of the Commissioners inquired of MAWC’s own witness regarding the legality of such a charge in light of the language of Section 249.645.1 RSMo.

14. Identify each person whom you expect to call as an expert witness at the trial or hearing of this matter, providing each such expert’s name, address, occupation, place of employment and qualifications to give an opinion.

ANSWER:

MSD has no current plans to call an expert witness at the trial or hearing of this matter. In then event that MSD decides to call an expert witness at the trial or hearing of this matter, MSD will seasonably supplement this response.

15. With respect to each person identified in your response to Data Request No. 14, state the general nature of the subject matter on which the expert is expected to testify and the expert’s hourly deposition fee, if any.

ANSWER:

Not Applicable.

16. Identify an non-retained or non-engaged expert whom you expect to call at trial or hearing who may provide expert witness opinion testimony by providing such person's name, address and field of expertise.

ANSWER:

MSD has no current plans to call a non-retained or non-engaged expert witness at the trial or hearing of this matter. In then event that MSD decides to call a non-retained or non-engaged expert witness at the trial or hearing of this matter, MSD will seasonably supplement this response.

17. For each expert witness identified in your responses to Data Requests No. 14 and No. 16, please provide a list of all proceedings in which the expert has testified previously, including the following information:

- a. the court, tribunal or agency that conducted the proceeding;
- b. the case number or equivalent identification of the proceeding;
- c. the caption of the proceeding;
- d. the date of the testimony; and
- e. the general nature of the testimony.

ANSWER:

Not applicable.
