SANDY CRAWFORD

State Senator
District 28

September 21, 2017

Mr. Daniel Hall, Chairman
Missouri Public Service Commission
200 Madison St.
Jefferson City, MO 65101

Dear Chairman Hall:

I am writing this letter to express my extreme displeasure with and opposition to 4 CSR 240-120.065 and 4 CSR 240-120.085, which deal with manufactured home dealer setups and inspection fees. During my tenure in the General Assembly I have dealt with the manufactured housing industry on several occasions. In fact, I helped pass legislation to help make Missouri more business friendly to this industry. I have always had manufactured housing businesses in my District. They play a vital role in my District's economy, by providing affordable housing options to my constituents. I feel the new proposed rules are unnecessary and burdensome. In January, Governor Greitens issued an executive order that was meant to curtail excessive regulations. These proposed rule changes do just the opposite. In my opinion, it is not in the best interest of the state of Missouri, Missouri businesses or Missouri citizens to move forward with these proposed changes. I request that you work further with this industry to come up with a workable solution.

Sincerely,

A handwritten signature in cursive script that reads "Sandy Crawford".

Senator Sandy Crawford
District 28
