Attachment 1

Notwithstanding anything set forth in the Commercial Mobile Radio Services Interconnection and Reciprocal Compensation Agreement to the contrary, the following terms and provisions shall govern the exchange of Non-Access Telecommunications Traffic, as described in the FCC's *ICC Transformation Orders* and the FCC rules revised pursuant thereto.

1. General

- 1.1. "Bill-and-Keep" is defined, as referenced in 47 C.F.R. 51.713, as an arrangement in which carriers exchanging telecommunications traffic do not charge each other for specific transport and/or termination functions or services. Bill-and-Keep shall mean the originating Party has no obligation to pay terminating charges to the terminating Party.
- 1.2. Non-Access Telecommunications Traffic shall have the meaning set forth in 47 CFR §51.701(b) that is originated or terminated as wireless traffic by CMRS' end use customers. For purposes of this Amendment and the CMRS Interconnection Agreement, the term Non-Access Telecommunications Traffic shall include wireless traffic that is originated by the end user customers of CMRS' wireless roaming partners.
- 1.3. All other terms not otherwise defined in this Amendment are as defined in the Commercial Mobile Radio Services Interconnection and Reciprocal Compensation Agreement.

2. Inter-carrier Compensation.

2.1 Bill and Keep shall apply to the exchange of Non-Access Telecommunications Traffic, solely when such traffic terminates to the end users of one of the Parties. This compensation arrangement shall supersede any previous usage-based terminating charges for end office switching or call termination, tandem switching, and common transport or tandem transmission listed in the Agreement.

2.2 Notwithstanding anything in this Amendment or in the Commercial Mobile Radio Services Interconnection and Reciprocal Compensation Agreement to the contrary, Bill-and-Keep shall not apply to the right of CenturyLink to be compensated for transit traffic that transits a CenturyLink Tandem. Such transit traffic shall be at the same rates that existed prior to this Amendment, and any adjustment to reciprocal compensation rate element(s) that are assessed by a Party for terminating Non-Access Telecommunications Traffic pursuant to the Order shall not apply for purposes of calculating the rate(s) to be charged by CenturyLink for providing a transit service.

3. CMRS agrees that it will only route traffic from its own wireless end user customers (including wireless traffic of end user customers of CMRS's wireless roaming partners) to CenturyLink for termination to CenturyLink end user customers or as transit traffic destined for a third party. In the event CMRS routes any traffic from third parties to CenturyLink in violation of this paragraph, CenturyLink shall be entitled to seek injunctive relief and to recover damages, including without limitation, compensation for such traffic at the rate that is then applicable to intrastate or interstate access traffic, as appropriate.
4. The Parties understand and agree that, based on existing traffic patterns, no additional points of interconnection are required, but the Parties will work together in good faith to add additional points of interconnection if traffic patterns between the Parties change significantly from those existing as of the date of this Amendment.

5. Tandem Management.

5.1 When transit traffic originated by a third party (i.e., Transit Traffic not originated by CenturyLink or a CenturyLink affiliate or subsidiary) is routed through a CenturyLink Tandem to CMRS, and the third party is not legally obligated to compensate CenturyLink for the transit service provided in transporting the traffic to CMRS as a result of paragraph 999 of the FCC Order, then CMRS, upon notice from CenturyLink (which notice will be given within a reasonable time after CenturyLink receives notice from any such third party) will either:

5.1.1 Establish direct interconnection with such third party; or

5.1.2 Pay the Transit charges for such traffic.

5.2 In the event one Party originates traffic that transits the second Party's network to reach a third party Telecommunications Carrier with whom the originating Party does not have a traffic exchange agreement, then the originating Party will indemnify, defend and hold harmless the second Party against any and all charges levied by such third party Telecommunications Carrier, to the extent that the originating company is obligated to pay such charges to the terminating company, including any termination charges related to such traffic and any attorneys fees and expenses.

6. Reservation of Rights. Effective July 1, 2012, reciprocal compensation will be Bill-and-Keep, but notwithstanding anything in this Amendment or in the Commercial Mobile Radio Services Interconnection and Reciprocal Compensation Agreement to the contrary, and notwithstanding the execution of this Amendment by the Parties, such Bill-and-Keep arrangement shall be in all respects subject to the provisions of any future stay, revision, reconsideration, change or modification of the Order by the FCC or a court of competent jurisdiction.
7. While the Parties expressly agree to the terms and provisions of this Amendment, the Parties disagree regarding certain interconnection obligations and each Party reserves its legal rights regarding interconnection obligations, and neither Party waives any such rights in future negotiations or arbitrations.
