- 2.6. Credit Allowance

For end users or Customers whom the Company believes an advance payment is necessary, Company reserves the right to collect an amount not to exceed one (1) month's estimated charges as an advance payment for service.

- 2.8.4. If a LEC has established or establishes a Special Access surcharge, the Company will bill the surcharge beginning on the effective date of such surcharge for Special Access arrangements presently in Service. - 2.10.3 If at any future time a county or other local taxing authority acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the end users receiving service within the territorial limits of such county or other taxing authority. Such billing shall allocate the tax, fee or charge among end users uniformly on the basis of each end user's monthly charges for the types of service made subject to such tax, fee or charge.

The amount of charge that is prorated to each Customer's bill is determined by the interstate or intrastate telecommunications service provided to and billed to an end user/customer service location in such a taxing jurisdiction with the aggregate of such charges equal to the amount of the tax or fee imposed upon or passed on to the Company.

2.11. Method for Calculation of Airline Mileage

2.11.1 The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's Tariff F.C.C. No. 10 according to the following formula:

the square root of:
$$\frac{(V1-V2)^2 + (H1-H2)^2}{10}$$

where V1 and H1 correspond to the V&H coordinates of City 1 and V2 and H2 correspond to the V&H coordinates of City 2.

Example:

	<u>V</u>	<u>H</u>
City 1	5004	1406
City 2	5987	3424

the square root of:
$$\frac{(5004-5987)^2 + (1406-3424)^2}{10}$$

The result is 709.83 miles. Any fractional miles are rounded to the next higher whole number; therefore, the airline mileage for this example is 710 miles.

2.12. Time of Day Rate Periods

2.12.1 Time of Day Rate Periods are determined by the time of day at the location of the Calling station.

The rates shown in Section 4 apply as follows:

DAY: From 8:01 AM to 5:00 PM Monday - Friday

EVENING: From 5:01 PM to 11:00 PM Monday - Friday and Sunday

NIGHT/

WEEKEND: From 11:01 PM to 8:00 AM Everyday

From 8:01 AM to 11:00 PM Saturday

2.13. Special Customer Arrangements

2.13.1 In cases where a Customer requests a special or unique arrangement which may include engineering, conditioning, installation, construction, facilities, assembly, purchase or lease of facilities and/or other special Services not offered under this Tariff, the Company, at this option, may provide the requested Services. Appropriate recurring charges and/or Nonrecurring Charges and other terms and conditions will be developed for the Customer for the provisioning of such arrangements.

2.14. Inspection

2.14. The Company may, upon notice, make such tests and inspections as may be necessary to determine that the requirements of this Tariff are being complied with in the Installation, operation or maintenance of Customer or the Company equipment. The Company may interrupt the Service at any time, without penalty to the Company, should Customer violate any provision herein.
