Public Utility Preparedness for Year)
2000 Conversion.)

Case No. OO-99-43

**MOTION TO FILE REPORT
REGARDING UTILITY PREPAREDNESS FOR THE
YEAR 2000 CONVERSION**

On February 26, 1999, the Missouri Public Service Commission Staff mailed a Year 2000 (Y2K) Preparedness follow-up letter to those companies that had not previously responded to the Y2K Survey as directed in the Missouri Public Service Commission's Order of August 18, 1998.

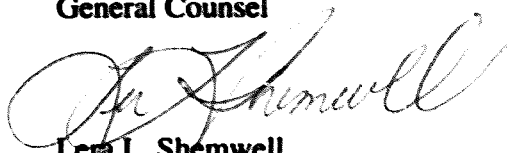

The attached spreadsheet summarizes utility company responses to the Missouri Public Service Commission staff's February 26, 1999 follow-up letter. The letter was mailed to those companies from whom Staff did not have a record of response to the Commission's August 18, 1998 order that included a Y2K questionnaire.

This spreadsheet contains the responses of an additional 186 companies concerning their readiness for the Year 2000 transition. Two of the responses were filed as highly confidential. A number of companies indicate that their operations have limited or no computer technology whatsoever and, therefore, they anticipate no impact of Y2K upon their operations. Others, who use more extensive computerization in their operations, indicate that they are in various stages of planning, testing, remedying and certifying that their systems will be functioning properly.

A number of companies responded to staff's letter by telephone or by letter indicating their intention to be compliant. Staff will continue to update the spreadsheets as companies continue to respond to Staff's letter, or as companies update the information previously filed in this case.

Respectfully submitted,

DANA K. JOYCE
General Counsel
