SECTION 1: APPLICATION OF TARIFF1.1 Application of Tariff1.1.1 General

This tariff sets forth the service offerings, rates, terms and conditions applicable to the furnishing of intrastate interexchange telecommunications services by Pathnet, Inc. (hereinafter referred to as the "Company", "Carrier", or "Pathnet, Inc."), with its principal offices at 11720 Sunrise Valley Drive, Reston, VA 20191, to customers within the State of Missouri. This tariff applies to services furnished within the state of Missouri. This tariff is on file with the Missouri Public Service Commission, and copies may be inspected, during normal business hours, at the Company's principal place of business.

The provision of the Company's services is subject to the existing regulations, terms and conditions specified in this tariff and may be revised, added to or supplemented by superseding issues.

Pathnet, Inc. reserves the right to offer its Customers a variety of services as deemed appropriate by the Company.

SECTION 1: APPLICATION OF TARIFF1.2 Tariff Format1.2.1 Sheet Numbering

Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

1.2.2 Sheet Revision Numbers

Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Missouri Public Service Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of the various suspension periods, deferrals, etc. that the Missouri Public Service Commission follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Company or Commission for the sheets currently in effect.

1.2.3 Paragraph Numbering Sequences

There are nine levels of alphanumeric coding. Each level is subservient to its next higher level:

2.1.
2.1.1.
2.1.1.A.
2.1.1.A.1.
2.1.1.A.1.(a).
2.1.1.A.1.(a).I.
2.1.1.A.1.(a).I.(i).
2.1.1.A.1.(a).I.(i).(1).

The extension of such allowances for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted, or asserted by any other party or person(s), and for any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of any installation so provided. The Company reserves the right to require each Customer to sign an agreement acknowledging acceptance of the provisions of this Section 2.2(E) as a condition precedent to such installations.
- F) The Company is not liable for any defacement of or damage to Customer premises resulting from the furnishing of services or equipment on such premises or the installation or removal thereof, unless such defacement or damage is caused by the negligence or willful misconduct of the Company's agents or employees.

- I) THE COMPANY MAKES NO WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED EITHER IN FACT OR BY OPERATION OF LAW, STATUTORY OR OTHERWISE, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE, EXCEPT THOSE EXPRESSLY SET FORTH HEREIN.

SECTION 2: REGULATIONS2.2 Liability of the Company (cont'd.)

- J) The Company shall indemnify, defend, and hold harmless the Customer from and against all claims, actions, damages, liabilities, costs and expenses, including reasonable attorneys' fees, for any injury to persons or property, and any interruption of, interference to, or other defect in any service provided by the Company to any third party, if such injury, interruption, interference, or other defect was not caused by any negligent or intentional act or omission of the Customer or any of its officers, employees, agents, invitees, or contractors.
- K) The Company will provide the Customer reasonable notification of planned service-affecting activities. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and preventative maintenance requiring planned out of service conditions. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notification requirements. With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible.

- B) The Company shall use reasonable efforts to maintain only the facilities and equipment that it furnishes to the Customer. The Customer may not, nor may the Customer permit others to, rearrange, disconnect, remove, attempt to repair, or otherwise interfere with any of the facilities or equipment installed by the Company, except upon the written consent of the Company.
- C) The Company may substitute, change or rearrange any equipment or facility at any time and from time to time, but shall not thereby alter the technical parameters of the service provided the Customer.
- D) Equipment the Company provides or installs at the Customer Premises for use in connection with the services the Company offers shall not be used for any purpose other than that for which the Company provided it.
- E) The Customer shall be responsible for the payment of service charges as set forth herein for visits by the Company's agents or employees to the Premises of the Customer when the service difficulty or trouble report results from the use of equipment or facilities provided by any party other than the Company, including but not limited to the Customer.
- F) The Company shall not be responsible for the installation, operation, or maintenance of any Customer-provided communications equipment. Where such equipment is connected to the facilities furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of facilities offered under this tariff and to the maintenance and operation of such facilities. Subject to this responsibility, the Company shall not be responsible for:
 - 1) the transmission of signals by Customer-provided equipment or for the quality of, or defects in, such transmission; or

SECTION 2: REGULATIONS2.3 Provision of Equipment and Facilities (cont'd.)

- 2) the reception of signals by Customer-provided equipment; or

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but at the Customer's request extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

Special Construction is that construction undertaken:

- A) where facilities are not presently available and there is no other requirement for the facilities so constructed;
- B) of a type other than that which the Company would normally utilize in the furnishing of its services;
- C) over a route other than that which the Company would normally utilize in the furnishing of its services;
- D) in a quantity greater than that which the Company would normally construct;

SECTION 2: REGULATIONS2.3 Provision of Equipment and Facilities (cont'd.)2.3.3 Special Construction (cont'd.)

SECTION 2: REGULATIONS2.5 Obligations of the Customer2.5.1 General

The Customer shall be responsible for:

- A) the payment of all applicable charges pursuant to this tariff;

The regulations set forth in this section govern the application of rates for services contained in other sections of this tariff.

SECTION 3: APPLICATION OF RATES3.2 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

- A) Distance between two points is measured as airline distance between the rate centers of the originating and terminating telephone lines. The rate center is a set of geographic coordinates, as referenced in the Local Exchange Routing Guide issued by Telcordia Technologies, Inc., associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated Toll Free Service or WATS access line), the Company will apply the rate center of the Customer's main billing telephone number.
- B) The airline distance between any two rate centers is determined as follows:
- 1) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each rate center from the above-referenced Telcordia Technologies, Inc. document.
 - 2) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
 - 3) Square each difference obtained in step (2) above.
 - 4) Add the square of the "V" difference and the square of the "H" obtained in step (3) above.
 - 5) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.
 - 6) Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

SECTION 13: SPECIAL ARRANGEMENTS**13.1 Special Construction****13.1.1 Basis for Charges**

- A) Non-recurring type charges;
- B) Recurring type charges;
- C) termination liabilities; or
- D) combinations thereof.

13.1.2 Basis for Cost Computation

The costs referred to in Section 13.1.1 preceding may include one or more of the following items to the extent they are applicable:

- A) cost installed of the facilities to be provided including estimated costs for the rearrangements of existing facilities. Cost installed includes the cost of:
 - 1) equipment and materials provided or used,
 - 2) engineering, labor and supervision,
 - 3) transportation, and
 - 4) rights of way;
- B) cost of maintenance;
- C) depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage;
- D) administration, taxes and uncollectible revenue on the basis of reasonable average costs for these items;
- E) license preparation, processing and related fees;

 - a) equipment and materials provided or used,
 - b) engineering, labor and supervision,
