**Case No. TA-2000-218**

Genomic map of the 100 kb region on chromosome 10p12.3. The top track shows the gene structure of PTPN22 with exons as boxes and introns as lines with arrows. The bottom track shows the genomic context with various features and coordinates. The PTPN22 gene is located between approximately 10,000,000 and 10,500,000 bp. The map includes tracks for the PTPN22 gene, the 100 kb genomic region, and the 100 kb genomic region with various features.

file a proposed procedural schedule. Staff did not state whether it had contacted the other parties or, if it had contacted them, whether they supported the extension of time. No other party joined in Staff's motion. Commission Rule 4 CSR 240-2.080(12) states: "Parties shall be allowed ten (10) days from the date of filing in which to respond to any motion or other pleading unless otherwise ordered by the commission."

Because the Staff did not state in its motion whether the other parties agreed to the extension, the Commission allowed them the time set forth in the rule to make their positions known. After the expiration of ten days from the date of Staff's filing of its motion (i.e., November 13, 1999), no other party had filed any response.

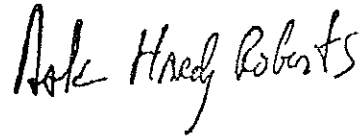

The Commission will order the parties to file a procedural schedule no later than 3:00 PM on November 16, 1999.

**IT IS THEREFORE ORDERED:**

1. That the parties shall file a proposed procedural schedule no later than 3:00 PM on November 16, 1999. The procedural schedule shall include dates for the filing of testimony and for a hearing.

2. That this order shall become effective on November 29, 1999.
