Public Comments Description	The PSC assessment for the sewer side of our business increased 32% for 2009 and is now nearly ten times as high as our water assessment, even though it serves only half as many customers. The sewer side of our company will send 11.4% of our gross revenue to the Public Service Commission this year. This is an onerous and outrageous burden. The PSC insists that we small utilities run our companies on a shoestring, yet they give themselves a 32% rate increase at will.
