Thank you so much for allowing me time to address your statements. My treatments are outside the Kansas City area. I have to fly back and forth. I should have waited for my doctor's evaluations of my situation before predicting the time that I would be back home for the conference that was set up for me. My surgery was postponed for the fact that I still had infection in my lungs that had to be addressed first, and I was running high fevers. Thinking that all would go well, I took no paperwork concerning any of this with me. By going on line from the hospital I was able to get an address and send to you this information letting you know that I would not be able to make the conference. My nurse mailed that to you for me. By your "AMENDMENT OF STAFF INVESTIGATION AND REPORT" and "ORDER GRANTING LEAVE TO FILE AMENDED REPORT" which were both sent the same day ... I take it that you did not receive it.

I am now back and healing both mentally (from all I had to go through) and physically. I would very much appreciate time to obtain proof of things that were stated by MGE that I did not provide to them, along with other documentations. I would like to settle these issues as soon as possible because I'd like to be able to resume my life in my own home and be able to bath, do my laundry, cook, etc. So, please let me know where we can go from here.

Respectfully,

Janet Parks
