Public Comments Description	Re: Changes to the manufactured housing program. Chapter 124 appears to be only applicable to installers of manufactured (aka HUD code) homes, not modular (IRC) homes or commercial modular (IBC) buildings. However, section 125.040 3(B) in chapter 125 (which also appears to be only applicable to HUD code homes), includes the words "or modular units". These three words seemingly pull in ALL modular and manufactured installations in the state. Was that the intent? Suggest striking those 3 words.
