Janice Shands

Complainant) SC 2015-0044

v

MSD

Respondent

In the matter of

Janice Shands

Complainant) WC 2015-0030

v

MAWC

Respondent

Complainant's exhibits from Declaration in support of 9-10-14 petition and objection

Comes now Complainant and attaches pages from the Declaration that confirms the bill is not solely for residential use with and that as a unit owner of a unit on the 9th floor would be the real party in interest where would be assessed and legally owe what amounts to a share of the utility bill.

As such while Complainant submits that it is proper said complaint be closed so that the Circuit court case go ahead where Complainant and the other unit owners have been wrongly billed for a separately owned shopping center since 1980 , and where neither MSD and MAWC have been willing to voluntarily make corrections especially where the shopping center now has its own account (and where it is understood there are sub meters in the shopping center tenants for the shopping center owner to bill its tenants for water and thus sewer expenses paid for by

Complainant and the other unit owners at the condo) it is submitted it is proper complainant be allowed to proceed forthwith with the circuit court action , free of any contentions of MAWC that PSC must first address the issues..
