of Missouri.) CASE NO. TA-90-14

APPEARANCES: Donald C. Otto, Jr., Hendren and Andrae, Attorneys at Law,
 P. O. Box 1069, Jefferson City, Missouri 65102, for Applicants.

HEARING

EXAMINER: Linda C. James

REPORT AND ORDER

On July 20, 1989, Central Iowa Binding Corporation (CIBC), filed an application with the Commission seeking authority to provide private pay telephone service in the State of Missouri.

On November 9, 1989, the Commission granted the application and issued CIBC a certificate of service authority to provide private pay telephone service in Missouri.

On August 23, 1990, CIBC notified the Commission of their intent to discontinue service and transfer their pay telephones to the Pay Phone Company, Incorporated (PPCI).

On August 13, 1990, PPCI filed an application with the Commission seeking authority to provide private pay telephone service in the State of Missouri.

The Commission issued its Order and Notice on August 24, 1990, directing its Secretary to send notice of this application. The Commission stated that in the event no proper party filed a request for hearing alleging that the granting of the application is not in the public interest, the Commission would grant the certificate of service authority requested herein on the basis of the verified application. No application to intervene or motions to schedule a hearing were filed.

On October 23, 1990, the Commission's Staff filed its Memorandum herein recommending approval of the application.

Findings of Fact

The Missouri Public Service Commission, having considered all of the competent and substantial evidence upon the whole record, makes the following findings of fact.

PPCI requests authority to provide private pay telephone service throughout the State of Missouri via customer owned coin telephone (COCT) equipment.

PPCI is an Iowa corporation authorized to do business in the State of Missouri with its principal office or place of business located at 4910 Urbandale Avenue, Suite 102, Des Moines, Iowa 50310.

Since no party including the Staff or the Public Counsel has requested a hearing or opposed the application on the ground that the application is not in the public interest, the Commission finds that the granting of the application is in the public interest and should be approved.

To ensure that the public interest continues to be served, the Commission finds that PPCI's service shall be provided consistent with the following terms:

- A. The maximum charge for a local call shall not exceed that permitted by the Commission;
- B. Users of the equipment shall be able to reach the operator without charge and without the use of a coin;
- C. Any intrastate operator services provider employed shall hold a certificate of service authority from, and have on file with, this Commission approved tariffs for the provision of operator services to traffic aggregators.
- D. Users of the equipment shall be able to reach local 911 emergency service, where available, without charge and without using a coin or if 911 is unavailable there shall be a prominent display on each

instrument of the required procedure to reach local emergency service without charge and without using a coin;

- E. The equipment shall be mounted in accordance with all applicable federal, state and local laws for disabled and hearing impaired persons;
- F. The equipment shall allow completion of local and long distance calls;
- G. The equipment shall permit access to directory assistance;
- H. There shall be displayed in close proximity to the equipment in 12 Point Times Bold print the name, address and telephone number of the COCT provider, the procedures for reporting service difficulties, the method of obtaining customer refunds and the method of obtaining long distance access. If applicable, the notice shall state that one-way calling only is permitted. If an alternative operator services (AOS) provider is employed, the COCT provider shall display such notice as is required by this Commission;
- I. The equipment shall be registered under Part 68 of the Rules of the Federal Communications Commission's registration program; and
- J. The equipment shall not block access to any local or interexchange telecommunications carrier.

The Commission determines that unless otherwise ordered by the Commission, PPCI should remain subject to the provisions of Section 392.390(1) and (3), RSMo Supp. 1988, which provide for the filing of annual reports and such information as necessary to determine the jurisdictional nature of the services provided and Section 386.370, RSMo 1986, which provides for the assessment of public utilities.

The Commission determines that should PPCI establish in the future additional locations where it will offer COCT telecommunications services, it shall notify the Commission of these additional locations within 30 days of their installation. PPCI also shall notify the Commission if it ceases to provide COCT telecommunications services in the State of Missouri.

The commission determines that since CIBC is selling all of its private pay telephones to PPCI that the request to discontinue service should be granted.

Staff has discussed the issue of operator services with PCCI. PCCI has advised Staff that NTS will provide operator services for interstate calls only with all intrastate calls defaulting to the LEC's operations. PPCI has agreed to notify Staff of any changes regarding provision of operator services at this or any additional locations. With such notification, PPCI shall provide the Commission the name and full address of such operator services provider as well as the telephone number of the business office where the management of such provider can be reached.

Conclusions of Law

The Missouri Public Service Commission has arrived at the following conclusions of law.

PPCI proposes to provide service to the public as a public utility subject to the Commission's jurisdiction pursuant to Chapters 386 and 392, RSMo Supp. 1988.

This application is filed pursuant to Section 392.440, RSMo Supp. 1988, providing that any company offering the resale of local exchange telecommunications service must first obtain a certificate of service authority. Section 392.440 further provides that the Commission shall approve such application upon a showing by the PPCI and a finding by the Commission, after notice and hearing, that the grant of authority is in the public interest.

The requirement of a hearing has been fulfilled when all those having a desire to be heard are offered such an opportunity.

Given the policy mandate of Chapter 392 that COCT providers be afforded the minimum regulation permitted by the Chapter, the Commission concludes that the showing of public interest required by Section 392.440 is met by this verified application for a certificate to provide COCT service. Therefore, the Commission has found that the approval of this application is in the public interest and a certificate of service authority should be granted.

IT IS THEREFORE ORDERED:

1. That Pay Phone Company, Inc., is granted hereby a certificate of service authority to provide private pay telephone service in the State of Missouri via customer owned coin operated telephone equipment. This certificate of service authority is subject to the conditions of certification set forth herein.

2. That the Commission hereby grants the Central Iowa Bindings Corporation permission to discontinue their private pay phone services in the State of Missouri and rescinds its certificate of service authority.

3. That this Report and Order shall become effective on the 20th day of November, 1990.

BY THE COMMISSION
