Re: File No. WO – 2019-0043

Dear Mr. Woodruff:

Please accept our apologies on our delayed response. We were not aware of this case filing until we received the copy of the Order issued October 12, 2018 in the mail last week.

Normally we would receive such notification via EFIS in addition to US Postal Service.

Raytown Water Company has established a qualification process and makes that process open to all contractors seeking to provide construction and construction-related service on the water corporation's distribution system, meeting the requirements of Senate Bill 705 and that such process is used for no less than 10% of the corporation's external expenditures for planned infrastructure projects on the water corporations distribution system.

Raytown Water Company
