RE Case # EC-2005-0341

MAY 11 2005

Missouri Public
Service Commission

I received a letter from Ameren UE which states it's their "Answer".

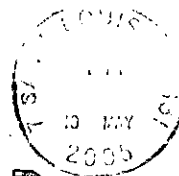

I like to know how Ameren UE thinks they know more about me and my personal life than I do. They stated the landlord gave them information about my children living at 5783⁴ McPherson without me. Not true, after he locked me out of my apartment my then 14 year old & 17 year old went to live with family - I have proof of that also. I still saw Randy Crawford used the electricity while he was rehabbing the property. He became the landlord in December of 1999 and we didn't get along from the moment he took over the property. Why does Ameren UE put so much truth in what he says. I have proof for every statement I have made. They are unjust in their treatment of me and as long as they keep making false statements about me, we will have to go to

Could / hearing so I can prove my
side. You can they make these
false statements about my life, when
I know better than they do.

Jewell Turner

Also I'm going into the hospital for
knee replacement surgery and will be
there for maybe 3 wks total.
