Case No. EM-2000-753

ORDER GRANTING LATE-FILED APPLICATION TO INTERVENE OF
ENRON ENERGY SERVICES

On September 1, 2000, Enron Energy Services (Enron) filed a motion to intervene and become a party in this case. Enron's application indicates that it is one of the world's leading electricity, natural gas and communications companies. Enron indicates that, as a power marketer interested in providing energy services to customers in Missouri, Enron has a real and substantial interest in this proceeding and would like to participate in the collaborative process and subsequent hearing on any unresolved issues proposed by Kansas City Power and Light (KCPL). Enron states that granting its request to intervene would enhance the record in this matter by providing an additional viewpoint for the Commission's consideration.

Enron filed its application to intervene substantially after June 15, 2000, which was the date established by the Commission for intervention. Enron asserts that it only recently became aware of KCPL's application.

4 CSR 240-2.080(16) provides that a party is allowed not more than ten days from the date of filing to respond to any pleading unless otherwise ordered by the Commission. No party has filed a response to Enron's motion to intervene.

The Commission has reviewed the motion to intervene filed by Enron and finds that it is in compliance with Commission rule 4 CSR 240-2.075(4) and that Enron has an interest in this matter that is different from that of the general public. The Commission also finds that Enron has shown good cause to grant it intervention out of time. The Commission concludes that Enron's motion to intervene should be granted.

IT IS THEREFORE ORDERED:

1. That the Motion to Intervene of Enron Energy Services is granted.
2. That this order shall become effective on October 22, 2000.

BY THE COMMISSION
