# Title 4 – DEPARTMENT OF ECONOMIC DEVELOPMENT Division 240 – Public Service Commission Chapter 122 – Madular Units

e Commission SECRETARY OF STATE
ADMINISTRATIVE RULES

RECEIVED

NOV 1 3 2001

## Chapter 123 – Modular Units

### ORDER OF RULEMAKING

By the authority vested in the Missouri Public Service Commission under section 700.010 RSMo 2000, the commission amends a rule as follows:

4 CSR 240-123.080 Code for Modular Units is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 16, 2001 (26 Mo. Reg. 1446). Changes have been made in the text of the proposed amendment and reprinted here. The proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Written comments were submitted by T. R. Arnold & Associates, Inc. (TRA), and the Missouri Association of Code Administrators (MACA). There was no public hearing held. TRA and MACA recommend that the Public Service Commission adopt the 2000 International Building Codes for the modular unit program. These recommendations were submitted in response to proposed amendments to 4 CSR 240-123.080.

COMMENT: TRA and MACA recommends that the following codes be adopted: 2000 International Building Code; 2000 International Plumbing Code; 2000 International Mechanical Code; 2000 International Fuel Gas Code; 2000 International Energy Conservation Code; and the 1999 National Electric Code. The recommendations are being made because the current BOCA and UBC Codes adopted by the Commission have combined into one family of codes, (International Building Codes), and will no longer be published after the dates of the editions being proposed in this rulemaking.

RESPONSE AND EXPLANATION OF CHANGE: The Commission believes that the recommendations made by TRA and MACA should be adopted. When the CSR 240-123.080 rulemaking process began, the Manufactured Housing and Modular Units Program proposed the most current editions of the BOCA, UBC, CABO, and National Electric Code available at that time. However, since the beginning of the process, the 2000 International Codes were published. Therefore, the proposed amendments to CSR 240-123.080 (3)(A)(B), and (4), should further be amended to reflect the adoption of the above recommended 2000 International Codes.

#### 4 CSR 240-123.080 Code For Modular Units

(3) The structure shall be manufactured in accordance with and meet the requirements of the following building codes: International Building Code-2000; International Plumbing Code-2000; International Mechanical Code-2000; International Residential Code-2000; International Fuel Gas Code-2000; and National Electric Code NFPA-1999.

- (4) All modular units shall meet or exceed the Seismic Zone requirements (one, two, or three, as defined in the applicable code in paragraph (3) above,) for the area in which the modular unit is placed. Modular unit plans submitted by a manufacturer under 4 CSR 240-123.040 shall specify the Seismic Zone for which the unit is built as well as the location where the unit will be placed. If a unit is built for open placement throughout the State of Missouri, it must be built to Seismic Zone three requirements.
- (5) Each modular unit shall bear a data plate affixed in a permanent manner near the main electrical panel or other readily accessible and visible location. Each data plate must be covered with a material that will make it possible to clean the data plate of ordinary dirt without obscuring the information. Each data plate shall include the following information at a minimum: name and address of manufacturer, serial and model number of the unit, date the unit was manufactured, code the unit was built to, seismic zone listing, name and address of third party engineering agency that reviewed and approved the plans submitted by the manufacturer under 4 CSR 240-123.040.
- (6) All modular units manufactured on or after July 1, 1976, shall be set up or installed according to the manufacturer's installation manual.
